Minimum Wages for Federal and Federally Assisted Construction

REGION 1

No. 152—Pt. II——1

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Area Wage Determination Decisions for Specified Localities in the States of Connecticut, Massachusetts, and Rhode Island

There are set forth below general Area Wage Determination Decisions Nos. AM–1589 through AM–1605 of the Secretary of Labor. These decisions specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein. The decisions are applicable to Federal and federally assisted construction in described localities situated within the States of Connecticut, Massachusetts, and Rhode Island. No general area wage determinations are currently applicable to localities within such States other than those described in these decisions; only determinations for specific projects are made in such other localities.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 F.R. 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of the Code of Federal Regulations, Procedure for Predetermination of Wage Rates, and of Secretary of Labor's Orders 13–71 and 15–71 (36 F.R. 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal or federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 533, and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes such procedures to be impractical and contrary to the public interest. These wage determination decisions shall, accordingly, be effective on publication in the FEDERAL REGISTER, except as otherwise provided hereinafter.

The wage determinations in these decisions replace all prior general or area wage determinations for localities in the above States, the expiration dates of which were extended by the notice of variation published in the FEDERAL REGISTER on April 3, 1971 (36 F.R. 6467). The replaced determinations are hereby canceled: *Provided, however,* That where bids have been opened or will be opened within 10 days from the date of publication of this document in the FEDERAL REGISTER, the expiration date of the prior wage determination decision provided for preparation of such bids may be extended by the contracting agency for an additional 30-day period to permit orderly contracting procedures.

These wage determinations are effective for a period of 120 days from the date of publication in the FEDERAL REGISTER the applicable determination together with any modification issued subsequent to this date during this 120-day period, shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The and are to be used in accordance with the provisions of 29 CFR Part 5. Accordingly, wage rates contained herein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Area wage determination decisions for specific localities in other States, the District of Columbia, and insular possessions will be published in series on August 11, August 13, August 18, August 20, August 25, August 27, and September 3, 1971. Changes in published area decisions will be made as necessary and will appear in Friday issues of the FEDERAL REGISTER.

Any person, organization, or governmental agency having an interest in the wages determined or to be determined as prevailing in any locality is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, Washington, D.C. 20210.

The area wage determination decisions for localities within the above States are set forth below.

Signed at Washington, D.C., this 29th day of July 1971.

HORACE E. MENASCO,
Administrator,
Wage and Hour Division.

Welders - receive rate prescribed for craft performing operation to which welding is incidental.						

PAID HOLIDAYS: A-New Year's Day; B-Memorial Day;
C-Independence Day; D-Labor Day;
E-Thanksgiving Day; F-Christmas Day.

Footnotes:
a. $.15 per man per week.
b. Employer contributes 4% basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years of service as vacation pay credit.
c. Holidays: A through F.
d. Holidays: A through F; Washington's Birthday and Good Friday, providing employee has worked 45 full days during the 120 calendar days prior to the holiday and the regular scheduled work days immediately preceding and following the holiday.
e. Paid Holidays: A through F, provided the employee has been employed for at least 30 days prior to the holiday and is available for work the day before and after the holiday.

Title 3—The President

EXECUTIVE ORDER 11614

Establishing the National Business Council for Consumer Affairs

By virtue of the authority vested in me as President of the United States, it is ordered as follows:

SECTION 1. *Establishment of the Council.* (a) There is hereby established the National Business Council for Consumer Affairs (hereinafter referred to as the "Council") which shall be composed of a Chairman, a Vice Chairman, and other representatives of business and industry appointed by the Secretary of Commerce (hereinafter referred to as the "Secretary").

(b) The Secretary, with the concurrence of the Chairman, shall appoint an Executive Director of the Council.

SEC. 2. *Functions of the Council.* The Council shall advise the President, the Office of Consumer Affairs, the Federal Trade Commission, the Department of Justice, and other Government agencies as appropriate, through the Secretary, on programs of business relating to consumer affairs. It shall work closely with the above-described agencies in the further development of effective policies to benefit American consumers and in doing so may—

(1) Identify and examine current and potential consumer problems and evaluate alternative solutions.

(2) Provide a forum for business and government on current and emerging issues in the field of consumer affairs.

(3) Identify, recommend, and encourage action by the business community to meet legitimate consumer grievances.

(4) Provide liaison among members of the business and industrial community on consumer affairs matters.

(5) Advise on plans and actions of Federal, State, and local agencies involving policies on consumer affairs which affect business and industry.

SEC. 3. *Subordinate Councils.* The Council may establish, with the concurrence of the Secretary, such subordinate councils as it may deem appropriate to assist in the performance of its functions. Each subordinate council shall be headed by a chairman appointed by the Chairman of the Council with the concurrence of the Secretary.

SEC. 4. *Assistance for the Council.* In compliance with applicable law, and as necessary to serve the purposes of this Order, the Secretary shall

provide or arrange for administrative and staff services, support, and facilities for the Council and any of its subordinate councils.

SEC. 5. *Expenses.* Members of the Council or any of its subordinate councils shall receive no compensation from the United States by reason of their services hereunder, but may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by law (5 U.S.C. 5703) for persons in the Government service employed intermittently.

SEC. 6. *Regulations.* The provisions of Executive Order No. 11007 of February 26, 1962, prescribing regulations for the use of advisory committees, are hereby made applicable to the Council and each of its subordinate councils. The Secretary may exercise the discretionary powers set forth in that order.

SEC. 7. *Construction.* Nothing in this Order shall be construed as subjecting any function vested by law in, or assigned pursuant to law to, any Federal agency to the authority of any other Federal agency or of the Council or of any of its subordinate councils, or as abrogating or restricting any such function in any manner.

Richard Nixon

THE WHITE HOUSE,
August 5, 1971.

NOTE: For the text of a Presidential statement issued in connection with E.O. 11614, above, see Weekly Comp. of Pres. Docs., Vol. 7, No. 32, issue of Aug. 9, 1971.

Rules and Regulations

Title 20—EMPLOYEES' BENEFITS

Chapter I—Bureau of Employees' Compensation, Department of Labor

SUBCHAPTER B—FEDERAL EMPLOYEES' COMPENSATION ACT

PART 25—COMPENSATION FOR DISABILITY AND DEATH OF NONCITIZENS OUTSIDE THE UNITED STATES

New Special Schedule

Part 25 of Title 20 of the Code of Federal Regulations is hereby amended in the manner indicated below.

The provisions of 5 U.S.C. 553 which require notice of proposed rule making, opportunity for public participation, and delay in the effective date are not applicable because these rules relate to agency personnel matters. Further, I do not believe such procedures would serve a useful purpose here. Accordingly, the amendments shall become effective immediately.

Part 25 is amended by adding the following new section:

§ 25.27 Territory of Guam (nonresident aliens).

(a) The special schedule of compensation established by Subpart B of this part shall apply, with the modifications or additions specified in paragraphs (b) through (k) of this section, to injury or death occurring on or after July 1, 1971 in the Territory of Guam to nonresident alien employees recruited in foreign countries for employment by the Military Departments in the Territory of Guam. However, the Director may, in his discretion, adopt the benefit features and provisions of local workmen's compensation law as provided in Subpart A of this part, or substitute the special schedule in Subpart B of this part or other modifications of the special schedule in this Subpart C, if such adoption or substitution would be to the advantage of the employee or his beneficiary. This schedule shall not apply to any employee who becomes a permanent resident in the Territory of Guam prior to the date of his injury or death.

(b) Death benefits: 400 weeks' compensation at two-thirds of the weekly wage rate, shared equally by the eligible survivors in the same class.

(c) Death beneficiaries: Beneficiaries of death benefits shall be determined in accordance with the laws or customs of the country of recruitment.

(d) Burial allowance: Fourteen weeks' wages or $400, whichever is less, payable to the eligible survivor(s), regardless of the actual expense. If there is no eligible survivor, actual burial expenses may be paid or reimbursed, in an amount not to exceed what would be paid to an eligible survivor.

(e) Permanent total disability: 400 weeks' compensation at two-thirds of the weekly wage rate.

(f) Permanent partial disability: Where applicable, the compensation provided in subparagraphs (1) through (19) of paragraph (c) of §25.11, subject to an aggregate limitation of 400 weeks' compensation. In all other cases, that proportion of the compensation provided for permanent total disability (paragraph (e) of this section) which is equivalent to the degree or percentage of physical impairment caused by the disability.

(g) Temporary partial disability: Two-thirds of the weekly loss of wage-earning capacity.

(h) Compensation period for temporary disability: Compensation for temporary disability is payable for a maximum period of 80 weeks.

(i) Maximum compensation: The total aggregate compensation payable in any case, for injury or death or both, shall not exceed $24,000, exclusive of medical costs and burial allowance. The weekly rate of compensation for disability or death shall not exceed $70.

(j) Method of payment: Compensation for temporary disability shall be payable periodically. Compensation for permanent disability and death shall be payable in full at the time extent of entitlement is established.

(k) Exceptions: The Director may in his discretion make exception to the regulations in this section by:

(1) Reapportioning death benefits, for the sake of equity.

(2) Excluding from consideration potential beneficiaries of a deceased employee who are not available to receive payment.

(3) Paying compensation for permanent disability or death on a periodic basis, where this method of payment is considered to be in the best interest of the employee or his beneficiary(s).

(5 U.S.C. 8137, 8145, 8149)

Signed at Washington, D.C. this 3d day of August 1971.

JOHN M. EKEBERG,
Director,
Bureau of Employees Compensation.

Title 12—BANKS AND BANKING

Chapter II—Federal Reserve System

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

PART 265—RULES REGARDING DELEGATION OF AUTHORITY

Availability of Information

In order to expedite and facilitate its response to requests for information of the Board, the Board is amending its Rules Regarding Delegation of Authority to delegate to the General Counsel of the Board authority (1) to make available to other agencies of the United States for use where necessary in their official duties certain information regarding supervised institutions, and (2) to determine, in any case of service of subpoena on an officer, employee or agent of the Board or of a Federal Reserve Bank, the response to such subpoena.

The delegation is reflected in the following amendment to § 265.2(b) of the Board's Rules Regarding Delegation of Authority:

§ 265.2 Specific functions delegated to Board employees and Federal Reserve Banks.

* * * * *

(b) The General Counsel of the Board (or, in his absence, the Acting General Counsel) is authorized:

* * * * *

(5) Pursuant to the provisions of Part 261 of this chapter, to make available information of the Board of the nature and in the circumstances described in §§ 261.6(b) and 261.7 of this chapter.

* * * * *

Effective date: July 29, 1971.

By order of the Board of Governors, July 29, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.71-11388 Filed 8-6-71;8:50 am]

Title 7—AGRICULTURE

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER B—SUGAR REQUIREMENTS AND QUOTAS

[Amdt. 4]

PART 811—CONTINENTAL SUGAR REQUIREMENTS AND AREA QUOTAS

Requirements, Quotas and Quota Deficits for 1971

Basis and purposes and bases and considerations. This amendment is issued pursuant to the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922, as amended), hereinafter referred to as the "Act". The purpose of this amendment to Sugar Regulation 811, as amended, is to revise the determination of sugar requirements for the calendar year 1971, established quotas, prorations and direct-consumption limits consistent with such requirements and to determine and prorate or allocate the deficits in quotas established pursuant to the Act.

Section 201 of the Act requires that the Secretary shall revise the determination of sugar requirements at such time during the calendar year as may be necessary.

Because of the possible disruptions of ocean transportation in the early autumn, there may be a tendency for sugar refiners and users to increase stocks of sugar and sugar containing foods above normal during nearby months. The increase in requirements at this time should increase offerings of readily available raw sugar and also enable foreign countries to better plan their sugar exportations during the balance of the year. The increased sugar requirements should also more nearly balance sugar supply and needs for the year.

Accordingly, total sugar requirements for the calendar year 1971 are herein increased by 100,000 short tons, raw value, to a total of 11,200,000 short tons, raw value.

Section 204(a) of the Act provides that the Secretary shall from time to time determine whether any area or country will be unable to fill its quota or proration of a quota. On the basis of the quota established for Puerto Rico for the calendar year 1971 findings were heretofore made (36 F.R. 8773) that Puerto Rico was unable to fill its quota by 785,000 short tons, raw value, and accordingly quota deficits were determined for Puerto Rico for 785,000 tons. On the basis of the latest available information it is herein found that Puerto Rico will be unable to fill its quota by an additional 175,000 short tons, raw value. Therefore, a total deficit is herein determined in the 1971 quota for Puerto Rico of 960,000 short tons, raw value. Accordingly, the additional quota deficit of 175,000 short tons, raw value, for Puerto Rico is herein determined and is allocated and prorated to foreign countries pursuant to section 204(a) of the Act. If production exceeds the present estimates for Puerto Rico, the marketing opportunities for that area within the total mainland quota for that area will not be limited as a result of the deficit determination and proration provided herein.

Of the additional deficit declared, an amount equal to 82,635 short tons, raw value, or 47.22 percent of the deficit, will be allocated to the Republic of the Philippines according to section 204(a) of the Act. The balance of the deficit amounting to 92,365 short tons, raw value, is prorated and allocated to Western Hemisphere countries by prorating 42,365 tons to such countries listed in section 202(c)(3)(A) of the Act, on the basis of published quotas most recently in effect and by allocating the remainder of the deficit amounting to 50,000 short tons, raw value, to the Dominican Republic pursuant to the following determination by the President.

THE WHITE HOUSE

WASHINGTON

JULY 10, 1971.

Memorandum for the Secretary of Agriculture.

Subject: Finding pursuant to section 204(a) of the Sugar Act of 1948, as amended by the Sugar Act Amendments of 1965.

In view of the development of stable political conditions and democratic institutions in the Dominican Republic,

In accordance with the recommendations of the Conference Report on the Sugar Act Amendments of 1965, that the President use his authority to assign deficits to provide additional quota for the Dominican Republic if the political situation in that Republic warrants such action, and

Pursuant to section 204(a) of the Sugar Act of 1948, as amended by the Sugar Act Amendments of 1965,

I hereby determine that as an integral part of the continuing United States support for constitutional government and economic progress in the Dominican Republic in 1971 it would be in the national interest to give the Dominican Republic a special allocation of 50,000 short tons of sugar in addition to its pro rata share of such additional deficit allocations as may be declared in 1971.

You are directed to take the necessary steps to allocate deficits in accordance with this finding, at such time as you deem appropriate. You should consult with the Department of State concerning the timing of the public announcement in order that a simultaneous announcement can be made by the Dominican Government.

RICHARD NIXON.

By virtue of the authority vested in the Secretary of Agriculture by the Act, Part 811 of this chapter is hereby amended by amending §§ 811.90, 811.91, 811.92, and 811.93 as follows:

1. Section 811.90 is amended to read as follows:

§ 811.90 Sugar requirements, 1971.

The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1971 is hereby determined to be 11,200,000 short tons, raw value.

2. Section 811.91 is amended by amending paragraph (a) to read as follows:

§ 811.91 Quotas for domestic areas.

(a) (1) For the calendar year 1971 domestic area quotas limiting the quantities of sugar which may be brought into or marketed for consumption in the continental United States are established, pursuant to section 202(a) of the Act, in column (1) and the amounts of such quotas for offshore areas that may be filled by direct-consumption sugar are established, pursuant to section 207 of the Act, in column (2) as follows:

Area	Quotas	Direct-consumption limits
	(1)	(2)
	(Short tons, raw value)	
Domestic beet sugar	3,406,333	No limit
Mainland cane sugar	1,238,667	No limit
Hawaii	1,110,000	38,301
Puerto Rico	1,110,000	168,000
Virgin Islands	15,000	0

(2) It is hereby determined pursuant to section 204(a) of the Act that for the calendar year 1971 Puerto Rico and the Virgin Islands will be unable by 960,000 and 15,000 short tons, raw value, respectively, to fill the quotas established for such areas in subparagraph (1) of this paragraph. Pursuant to section 204(b) of the Act the determination of such deficits shall not affect the quotas established in subparagraph (1) of this paragraph.

* * * * *

3. Section 811.92 is amended by amending paragraph (a) to read as follows:

§ 811.92 Proration and allocation of deficits and quotas in effect.

(a) Of the 975,000 short tons, raw value, of deficits determined in paragraph (a)(2) of § 811.91, an amount of 800,000 tons has been previously allocated and prorated in amendment 3 of this Part 811 (36 F.R. 8773). The additional deficit herein determined in the quota for Puerto Rico of 175,000 short tons, raw value, is allocated and prorated pursuant to section 204(a) of the Act to the Republic of the Philippines and Western Hemisphere countries as follows: By allocating 82,635 short tons, raw value, of the 175,000 tons total deficit in the quota determined herein to the Republic of the Philippines, by allocating 50,000 short tons, raw value, of the deficit to the Dominican Republic in accordance with a Presidential Memorandum dated July 10, 1971, and by prorating the remainder of the deficit totaling 42,365 short tons, raw value, to Western Hemisphere countries named in section 202(c)(3)(A) of the Act which are able to supply additional sugar on the basis of published quotas most recently in effect as established in Sugar Regulation 811 for 1971 (36 F.R. 8773).

* * * * *

4. Section 811.93 is amended by amending paragraphs (b) and (c) to read as follows:

§ 811.93 Quotas for foreign countries.

* * * * *

(b) For the calendar year 1971, the quota for the Republic of the Philippines is 1,586,415 short tons, raw value, representing 1,126,020 short tons, established pursuant to section 202 of the Act and 460,395 short tons established pursuant to section 204 of the Act. Of the quantity of 1,126,020 short tons established pursuant to section 202 of the Act, only 59,920 short tons, raw value, may be filled by direct-consumption sugar pursuant to section 207(d) of the Act.

(c) For the calendar year 1971, the prorations to individual foreign countries other than the Republic of the Philippines pursuant to section 202 of the Act are shown in columns (1) and (2) of the following table. Deficit prorations previously established in this § 811.93 are shown in column (3), and the deficit allocation and prorations to Western Hemisphere countries of 92,365 tons as herein established are shown in column (4).

Countries	Basic quotas	Temporary quotas and prorations pursuant to sec. 202(d)[1]	Previous deficit prorations	New deficit prorations	Total quotas and prorations

[1] Proration of the quotas withheld from Cuba and Southern Rhodesia.

(Secs. 201, 202, 204, and 403; 61 Stat. 923, as amended, 924, as amended, 925, as amended, 932; and 7 U.S.C. 1111, 1112, 1114, and 1153)

Effective date. This action increases quotas for the calendar year 1971 by 100,000 tons and allocates and prorates additional quota deficits of 175,000 tons to the Republic of the Philippines and Western Hemisphere countries with sugar quotas in effect. In order to promote orderly marketing, it is essential that this amendment be effective immediately so that all persons selling and purchasing sugar for consumption in the continental United States can promptly plan and market under the changed marketing opportunities. Therefore, it is hereby determined and found that compliance with the notice, procedure, and effective date requirements of 5 U.S.C. 533 is unnecessary, impracticable, and contrary to the public interest and this amendment shall be effective when filed for public inspection in the Office of the Federal Register.

Signed at Washington, D.C., on July 30, 1971.

CARROLL G. BRUNTHAVER,
Acting Administrator, Agricultural Stabilization and Conservation Service.

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Lemon Reg. 492]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.792 Lemon Regulation 492.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 36 F.R. 9061), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 3, 1971.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period August 8 through August 14, 1971, is hereby fixed at 250,000 cartons.

(2) As used in this section, "handled," and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 5, 1971.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division Consumer and Marketing Service.

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 1427—COTTON

Subpart—1971-Crop Supplement to Cotton Loan Program Regulations

The Cotton Loan Program Regulations issued by Commodity Credit Corporation and containing the regulations of a general nature with respect to loan operations are supplemented as shown below for 1971-crop cotton.

Sec.

1427.100 Purpose.
1427.101 Schedule of base loan rates for eligible 1971-crop upland cotton by warehouse location.
1427.102 Schedule of premiums and discounts for grade and staple length of eligible 1971-crop upland cotton.
1427.103 Schedule of micronaire differentials for 1971-crop upland cotton.
1427.104 Schedule of loan rates for eligible qualities of 1971-crop extra long staple cotton by warehouse location.

AUTHORITY: The provisions of this subpart issued under secs. 4, 5, 62 Stat. 1070, as amended; secs. 101, 103, 401, 63 Stat. 1051, as amended; 15 U.S.C. 714 b and c; 7 U.S.C. 1441, 1444, 1421.

§ 1427.100 Purpose.

This subpart is for the purpose of announcing that loans will be available on upland and extra-long staple cotton of the 1971 crop under the terms and conditions stated in the Cotton Loan Program Regulations issued by Commodity Credit Corporation and contained in this Part 1427. This subpart also contains schedules to be used in determining loan rates on 1971-crop cotton.

§ 1427.101 Schedule of base loan rates for eligible 1971-crop upland cotton by warehouse location.

[In cents per pound, net weight]

SUBCHAPTER C—EXPORT PROGRAMS

PART 1483—WHEAT AND FLOUR

Subpart—Wheat Export Program (GR-345) Terms and Conditions

CORRECTIONS

On July 28, 1971, the regulations governing the Wheat Export Program (GR-345) Terms and Conditions were published in the FEDERAL REGISTER at 36 F.R. 13899, effective July 30, 1971. The following corrections are made in Part 1483:

1. In paragraph (e) of § 1483.102, the reference to "§ 1483.106" is corrected to read "§ 1483.107."

2. In paragraph (f) of § 1483.107, the reference to "§ 1481.130 (b)" is corrected to read "§ 1483.130 (b)."

3. In paragraph (i) of § 1483.107 the reference to "§ 1481.116 (d)" is corrected to read "§ 1483.115 (d)."

4. In paragraph (d) of § 1483.113 the reference to "§ 1483.116 (d)" is corrected to read "§ 1483.115 (d)."

5. In paragraph (b) of § 1483.134, the fourth word "or" is corrected to read "of."

6. In § 1483.134, paragraph (f) is reserved.

Signed on August 3, 1971.

CLIFFORD G. PULVERMACHER,
Vice President, Commodity Credit Corporation, and General Sales Manager, Expert Marketing Service.

Title 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

MISCELLANEOUS AMENDMENTS TO CHAPTER

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

PART 103—POWERS AND DUTIES OF SERVICE OFFICERS; AVAILABILITY OF SERVICE RECORDS

Paragraph (a) of § 103.7 is amended to read as follows:

§ 103.7 Fees.

(a) *Remittances.* Fees prescribed within the framework of 31 U.S.C. 438a shall be submitted with any formal application or petition prescribed in this chapter and shall be in the amount prescribed by law or regulation. When any discretionary relief in exclusion or deportation proceedings is granted absent an application and fee therefor, the district director having jurisdiction over the place where the original proceeding was conducted shall require the filing of the application and the payment of the fee. Every remittance shall be accepted subject to collection. A receipt issued by a Service officer for any such remittance shall not be binding if the remittance is found uncollectable. Remittances must be drawn on a bank or other institution located in the United States and be payable in U.S. currency. Fees in the form of postage stamps shall not be accepted. Remittances shall be made payable to the "Immigration and Naturalization Service," except that in case of applicants residing in the Virgin Islands of the United States, the remittances shall be made payable to the "Commissioner of Finance of the Virgin Islands," and, in the case of applicants residing in Guam, the remittances shall be made payable to the "Treasurer, Guam." If payment is made by international money order of the type that cannot be mailed with the application or petition, the money order must be drawn on the postmaster of the city in the United States to which the application or petition is being mailed.

* * * * *

PART 214—NONIMMIGRANT CLASSES

§ 214.2 [Amended]

The second sentence of subparagraph (1) *Without visas* of paragraph (c) *Transit* of § 214.2 *Special requirements for admission, extension, and maintenance of status* is amended by adding "Denver, Colo." to the listed ports of entry to read as follows: "Except for transit from one part of foreign contiguous territory to another part of the same territory, application for direct transit without a visa must be made at one of the following ports of entry: Buffalo, N.Y.; Niagara Falls, N.Y.; Rouses Point, N.Y.; Boston, Mass.; New York, N.Y.; Norfolk, Va.; Baltimore, Md.; Philadelphia, Pa.; Washington, D.C.; Miami, Fla.; Port Everglades, Fla.; Tampa, Fla.; New Orleans, La.; San Antonio, Tex.; Dallas, Tex.; Houston, Tex.; Brownsville, Tex.; San Diego, Calif.; Los Angeles, Calif.; San Francisco, Calif.; Honolulu, Hawaii; Seattle, Wash.; Portland, Oreg.; Great Falls, Mont.; St. Paul, Minn.; Chicago, Ill.; Detroit, Mich.; Denver, Colo.; Anchorage, Alaska; Fairbanks, Alaska; San Juan, P.R.; Ponce, P.R.; Charlotte Amalie, V.I.; Christiansted, V.I.; Agana, Guam."

PART 234—PHYSICAL AND MENTAL EXAMINATION OF ARRIVING ALIENS

§ 234.2 [Amended]

The second and third sentences of subparagraph (1) *Applicants for status of permanent resident* of paragraph (d) *U.S. Public Health Service hospital and outpatient clinic reports* of § 234.2 *Examination in the United States of alien applicants for benefits under the immigration laws* are amended to read as follows: "In any case where the applicant is not found to be free of any defect, disease, or disability listed in section 212(a) of the Act, an appropriate Medical Certificate, Form HSM-240, or FS-398, will be issued, and the original furnished the immigration office requesting the examination. The copy of Forms I-486A, HSM-240, or FS-398 retained by the U.S. Public Health physician will be sent to the Director, Foreign Quarantine Program, Center for Disease Control, Atlanta, Ga. 30333, where a central file of these cases will be maintained."

PART 238—CONTRACTS WITH TRANSPORTATION LINES

§ 238.4 [Amended]

The listing of transportation lines under "At Toronto" in § 238.4 *Preinspection outside the United States* is amended by adding the following transportation line in alphabetical sequence: "Dan-Air Services Limited."

PART 245—ADJUSTMENT OF STATUS TO THAT OF PERSON ADMITTED FOR PERMANENT RESIDENCE

The existing first sentence of subparagraph (2) of paragraph (a) *General* of § 245.2 *Application* is deleted and the following four sentences are substituted in lieu thereof:

§ 245.2 Application.

(a) *General.* * * *

(2) *Filing application.* Before an application for adjustment of status under section 245 of the Act may be considered properly filed, a visa must be immediately available. If a visa would be immediately available only upon approval of a visa petition, the application will not be considered properly filed unless such petition has first been approved. If a visa petition is submitted simultaneously with the adjustment application, the adjustment application shall be retained and processed only if the petition is found to be in order for approval upon initial review by an immigration officer, is approved, and approval makes a visa immediately available. If the petition is returned to the petitioner for any reason, or decision thereon is deferred for investigation, interview, labor certification or consultation with another Government agency, or if the petition is denied, the adjustment application shall not be considered as having been properly filed.* * *

* * * *

PART 299—IMMIGRATION FORMS

§ 299.1 [Amended]

The listing of forms in § 299.1 *Prescribed forms* is amended in the following respects:

1. The Form "PHS-124(FQ) (3-63) Medical Certificate" is deleted.

2. The following form and reference thereto is added in alphabetical and numerical sequence.

Form No., title, and description
HSM-240 (4-69) (Formerly PHS-124) Medical Certificate.

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

This order shall be effective on the date of its publication in the FEDERAL REGISTER (8-7-71). Compliance with the provisions of section 553 of title 5 of the United States Code (80 Stat. 383), as to notice of proposed rule making and delayed effective date, is unnecessary in this instance and would serve no useful purpose because the amendment to § 103.7(a) relates to agency procedure; the amendment to § 214.2(c)(1) adds a port of entry; the amendments to §§ 234.2(d)(1) and 299.1 are editorial in nature; the amendment to § 238.4 adds a transportation line to the listing; and the amendment to § 245.2(a)(2) is clarifying in nature.

Dated: August 3, 1971.

RAYMOND F. FARRELL,
Commissioner of Immigration and Naturalization.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS AND POULTRY

PART 75—COMMUNICABLE DISEASES IN HORSES, ASSES, MULES, AND ZEBRAS

Areas Quarantined

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended (21 U.S.C. 111-113, 115, 117, 120, 121, 123-126), Part 75, Title 9, Code of Federal Regulations, restricting the interstate movement of horses, asses, mules, and zebras, is hereby amended in the following respects:

In § 75.4 paragraph (a) is amended to read:

§ 75.4 Notice relating to existence of Venezuelan equine encephalomyelitis and/or the vector of said disease, quarantine and conditions of interstate movement.

(a) Notice is hereby given that Venezuelan equine encephalomyelitis, a communicable disease of horses, asses, mules, and zebras, and/or the vector of said disease, exists in the States of Arkansas, Louisiana, Mississippi, New Mexico, Oklahoma, and Texas and that said States are hereby quarantined because of the existence of said disease and/or the vector thereof.

* * * * *

(Secs. 4-7, 23 Stat. 32, as amended, secs. 1 and 2, 32 Stat. 791-792, as amended, secs. 1-4, 33 Stat. 1264-1265, as amended 21 U.S.C. 111-113, 115, 117, 120, 121, 123-126; 29 F.R. 16210, as amended)

Effective date. The foregoing amendment shall become effective upon issuance.

Venezuelan equine encephalomyelitis is a viral disease of horses and other equidae. The disease is transmitted primarily through several species of mosquitoes and may be transmitted to humans. The mosquito population acquires the infection from horses which are in the incubative stage of the disease and disseminates the infection to new localities.

The disease entered the United States from Mexico and has been disseminated extensively in Texas. The mosquito vectors, capable of further disseminating the disease, are known to exist in the States bordering Texas, and are present in great numbers in the Mississippi River-Gulf Coast area, including the State of Mississippi. Should present efforts to confine the outbreak of the disease in Texas fail, it could spread rapidly to vulnerable horses and other equidae in Mississippi. In order to prevent the spread of the disease, therefore, it is essential that horses and other equidae in that State be quarantined.

The State of Texas was quarantined because of Venezuelan equine encephalomyelitis, effective July 13, 1971 (36 F.R. 13202), and the States of Arkansas, Louisiana, New Mexico, and Oklahoma were quarantined because of the existence of vectors of the disease, effective July 19, 1971 (36 F.R. 13677). In view of the nature of the disease and the circumstances under which it is disseminated and in order to prevent the interstate spread of the disease, it is necessary also to quarantine the State of Mississippi and to permit the interstate movement of horses, asses, mules, and zebras from or through such quarantined areas only under the conditions specified in 9 CFR Part 75, as amended.

The amendment imposes certain restrictions necessary to prevent the spread of Venezuelan equine encephalomyelitis, a communicable disease of horses, asses, mules, and zebras, and must be made effective immediately to accomplish its purpose in the public interest. Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the foregoing amendment are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 2d day of August 1971.

F. J. MULHERN,
Acting Administrator,
Agricultural Research Service.

[FR Doc.71-11388 Filed 8-6-71;8:50 am]

[Docket No. 71-587]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111-113, 114g, 115, 117, 120, 121, 123-126, 134b 134f), Part 76, Title 9, Code fo Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

In § 76.2, in paragraph (e)(4) relating to the State of Texas, subdivision (ii) relating to Potter County is deleted.

(Secs. 4-7, 23 Stat. 32, as amended, secs. 1 and 2, 32 Stat. 791-792, as amended, secs. 1-4, 33 Stat. 1264-1265, as amended, sec. 1, 75 Stat. 481, secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111-113, 114g, 115, 117, 120, 121, 123-126, 134b, 134f; 29 FR. 16210, as amended)

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment excludes a portion of Potter County, Tex., from the areas quarantined because of hog cholera. Therefore, the restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will not apply to the excluded area, but will continue to apply to the quarantined areas described in § 76.2(e). Further, the restrictions pertaining to the interstate movement of swine and swine products from nonquarantined areas contained in said Part 76 will apply to the excluded area. No areas in Potter County, Tex., remain under the quarantine.

The amendment relieves certain restrictions presently imposed but no longer deemed necessary to prevent the spread of hog cholera, and must be made effective immediately to be of maximum benefit to affected persons. It does not appear that public participation in this rule making proceeding would make additional relevant information available to this Department. Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 4th day of August 1971.

F. J. MULHERN,
Acting Administrator,
Agricultural Research Service.

[FR Doc.71-11434 Filed 8-6-71;8:54 am]

[Docket No. 71-588]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111–113, 114g, 115, 117, 120, 121 123–126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases is hereby amended in the following respects:

1. In § 76.2, in paragraph (e)(4) relating to the State of Texas, a new subdivision (v) relating to Leon County is added to read:

(v) Leon County.

2. In § 76.2, the reference to the State of Delaware in paragraph (f) is deleted and paragraph (g) is amended by adding thereto the name of the State of Delaware.

(Secs. 4–7, 23 Stat. 32, as amended, secs. 1 and 2, 32 Stat. 791–792, as amended, secs. 1–4, 33 Stat. 1264, 1265, as amended, sec. 1, 76 Stat. 481, secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 29 F.R. 16210, as amended)

Effective date. The foregoing amendments shall become effective upon issuance.

The amendments quarantine all of Leon County, Texas, because of the existence of hog cholera. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will apply to the quarantined County.

The amendments delete Delaware from the list of hog cholera eradication States in § 76.2(f), and the special provisions pertaining to the interstate movement of swine and swine products from or to such eradication States are no longer applicable to Delaware.

The amendments also add Delaware to the list of hog cholera free States in § 76.2(g), and the special provisions pertaining to the interstate movement of swine and swine products from or to such free States are applicable to Delaware.

Insofar as the amendments impose certain further restrictions necessary to prevent the interstate spread of hog cholera, they must be made effective immediately to accomplish their purpose in the public interest. Insofar as they relieve restrictions, they should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rule making proceeding would make additional relevant information available to this Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 4th day of August 1971.

F. J. MULHERN,
Acting Administrator,
Agricultural Research Service.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 71-SW-26]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate a 700-foot transition area at Columbus, Tex.

On June 16, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 11602) stating the Federal Aviation Administration proposed to designate the Columbus, Tex., transition area.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 14, 1971, as hereinafter set forth.

In § 71.181 (36 F.R. 2140), the following transition area is added:

COLUMBUS, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Columbus Airport (latitude 29°43'10" N., longitude 96°33'50" W.).

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Fort Worth, Tex., on July 28, 1971.

R. V. REYNOLDS,
Acting Director, Southwest Region.

[FR Doc.71-11384 Filed 8-6-71;8:49 am]

[Airspace Docket No. 71-EA-35]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zones and Transition Area

On page 9664 of the FEDERAL REGISTER for May 27, 1971, the Federal Aviation Administration published a proposed rule which would alter the Akron, Ohio, transition area (36 F.R. 2141) and control zones for Akron-Canton Airport (36 F.R. 2055) and Akron Municipal Airport (36 F.R. 2056).

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulations are hereby adopted, effective 0901 G.m.t., October 14, 1971.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on July 28, 1971.

BRIAN J. VINCENT,
Acting Director, Eastern Region.

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Akron, Ohio (Akron-Canton Airport), control zone and insert the following:

Within a 5.5-mile radius of the center, 40°54'58" N., 81°26'32" W. of Akron-Canton Airport, Akron, Ohio, excluding the portion subtended by a chord drawn between the points of INT of the 5.5-mile-radius zone with the Akron, Ohio (Akron Municipal Airport), control zone.

2. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Akron, Ohio (Akron Municipal Airport), control zone and insert the following:

Within a 5.5-mile radius of the center, 41°02'18" N., 81°28'01" W. of Akron Municipal Airport, Akron, Ohio, excluding the portion subtended by a chord drawn between the points of INT of the 5.5-mile-radius zone with the Akron, Ohio (Akron-Canton Airport), control zone.

3. Amend § 71.181 of Part 71, Federal Aviation Regulations so as to delete the description of the Akron, Ohio, 700-foot-floor transition area and insert the following:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of the center, 40°54'58" N., 81°26'32" W. of Akron-Canton Airport, Akron, Ohio, and within 5 miles each side of the Akron-Canton Airport south localizer course extending from the Akron-Canton Airport 8.5-mile-radius area to 11.5 miles south of the Akron-Canton Runway 1 OM; within a 10-mile-radius area of the center, 41°02'18" N., 81°28'01" W. of Akron Municipal Airport, Akron, Ohio; within 5 miles each side of the Akron VORTAC 255° radial extending from the Akron Municipal Airport 10-mile-radius area to the VORTAC; within a 6-mile radius of the center, 41°12'35" N., 81°14'55" W. of Portage County Airport, Ravena, Ohio; within 1.5 miles each side of the Akron VORTAC 340° radial extending from the Portage County Airport 6-mile-radius area to the VORTAC; within a 5-mile-radius area of the center of 41°08'45" N., 81°25'00" W. of Andrew W. Paton of Kent State University Airport, Kent, Ohio; within a 7-mile radius of the center, 41°08'06" N., 81°45'36" W. of Freedom Field, Medina, Ohio, and within 4.5 miles south and 6.5 miles north of the Medina, Ohio, RBN (41°09'29" N., 81°38'46" W.) 084° and 264° bearings extending from 5.5 miles west to 11.5 miles east of the RBN.

[Airspace Docket No. 71-EA-40]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 11220 of the FEDERAL REGISTER for June 10, 1971, the Federal Aviation Administration published a proposed rule which would alter the Pittsfield, Mass. transition area. (36 F.R. 2254).

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 G.m.t., October 14, 1971.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on July 27, 1971.

WALTER D. KIES,
Acting Director, Eastern Region.

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete in the description of the Pittsfield, Mass., 700-foot floor transition area, all after: "73°17'30" W.", and insert the following in lieu thereof: "of Pittsfield Municipal Airport, Pittsfield, Mass., and within 4.5 miles northwest and 6.5 miles southeast of the 061° bearing and the 241° bearing from the Pittsfield RBN 42°28'05" N., 73°11'38" W., extending from 5.5 miles southwest of the RBN to 11.5 miles northeast of the RBN".

[Airspace Docket No. 71-EA-55]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On page 11670 of the FEDERAL REGISTER for June 17, 1971, the Federal Aviation

Administration published a proposed rule which would alter the Elkins, W. Va., control zone (36 F.R. 2077) and transition area (36 F.R. 2181).

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulations are hereby adopted, effective 0901 G.m.t., October 14, 1971.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on July 27, 1971.

WALTER D. KIES,
Acting Director, Eastern Region.

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Elkins, W. Va., control zone and insert the following in lieu thereof:

Within a 5-mile radius of the center, 38°53'20" N., 79°51'24" W. of Elkins-Randolph County Airport, Elkins, W. Va., and within 3 miles each side of the 011° bearing from the Randolph County RBN, extending from the 5-mile-radius zone to 8.5 miles north of the RBN. This control zone is effective from sunrise to sunset, daily.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Elkins, W. Va., 700-foot-floor transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of the center, 38°53'20" N., 79°51'24" W. of Elkins-Randolph County Airport, Elkins, W. Va.; within 4 miles each side of the Elkins VORTAC 098° radial extending from the 6.5-mile-radius area to 1.5 miles east of the VORTAC and within 4.5 miles east and 9.5 miles west of the 011° bearing from the Randolph County RBN, extending from the RBN to 18.5 miles north of the RBN. This transition area is effective from sunrise to sunset, daily.

Designation of Transition Area

On page 11669 of the FEDERAL REGISTER for June 17, 1971, the Federal Aviation Administration published a proposed rule which would designate a Pittstown, N.J., transition area.

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 G.m.t., October 14, 1971.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on July 27, 1971.

WALTER D. KIES,
Acting Director, Eastern Region.

Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate the Pittstown, N.J., 700-foot-floor transition area as follows:

PITTSTOWN, N.J.

That airspace extending upward from 700 feet above the surface within a 7-mile-radius area of the center of 40°33'59" N., 74°58'43" W. of Sky Manor Airport, Pittstown, N.J., and within 3 miles each side of the Sólberg, N.J., VORTAC 265° radial extending from the 7-mile-radius area to 22 miles west of the VORTAC.

[Airspace Docket No. 71-EA-59]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On page 11669 of the FEDERAL REGISTER for June 17, 1971, the Federal Aviation Administration published a proposed rule which would designate a Tiffin, Ohio, transition area.

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 G.m.t., October 14, 1971.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on July 27, 1971.

WALTER D. KIES,
Acting Director, Eastern Region.

Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Tiffin, Ohio, 700-foot-floor transition area as follows:

TIFFIN, OHIO

That airspace extending upward from 700 feet above the surface within a 7-mile radius of the center, 41°05'38" N., 83°12'45" W. of Seneca County Airport, Tiffin, Ohio.

[FR Doc.71-11364 Filed 8-6-71;8:47 am]

[Airspace Docket No. 71-SO-107]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On June 16, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 11602), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Owensboro, Ky., control zone and transition area and the Madisonville and Henderson, Ky., transition areas.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 14, 1971, as hereinafter set forth.

In § 71.171 (36 F.R. 2055), the Owensboro, Ky., control zone is amended to read:

OWENSBORO, KY.

Within a 5-mile radius of Owensboro-Daviess County Airport (lat. 37°44'31" N., long. 87°09'57" W.); within 2.5 miles each side of Owensboro VOR 181° radial, extending from the 5-mile radius zone to the Masonville RBN (lat. 37°39'35" N., long. 87°10'17" W.); within 3 miles each side of Owensboro VOR 222° radial, extending from the 5-mile radius zone to 8.5 miles southwest of the VOR; within 3 miles each side of Owensboro VOR 352° radial, extending from the 5-mile radius zone to 8.5 miles north of the VOR. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

In § 71.181 (36 F.R. 2140), the Owensboro, Madisonville, and Henderson, Ky., transition areas are amended to read:

OWENSBORO, KY.

That airspace extending upward from 700 feet above the surface within a 9-mile radius of Owensboro-Daviess County Airport (lat. 37°44'31" N., long. 87°09'57" W.); within 3.5 miles each side of Owensboro VOR 181° radial, extending from the 9-mile radius area to 8.5 miles south of Masonville RBN (lat. 37°39'35" N., long. 87°10'17" W.).

MADISONVILLE, KY.

That airspace extending upward from 700 feet above the surface within a 5.5-mile radius of Madisonville Municipal Airport (lat. 37°21'00" N., long. 87°24'00" W.); within 1.5 miles each side of Central City VOR 256° radial, extending from the 5.5-mile radius area to the VOR.

HENDERSON, KY.

That airspace extending upward from 700 feet above the surface within a 5.5-mile radius of Henderson Airport (lat. 37°48'27" N., long. 87°41'00" W.); within 1.5 miles each side of Evansville, Ind. VORTAC 152° radial, extending from the 5.5-mile radius area to the VORTAC; excluding the portion within Evansville, Ind. transition area.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 29, 1971.

JAMES G. ROGERS,
Director, Southern Region.

[Airspace Docket No. 71-SO-108]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Areas

On June 17, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 11668), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Bardstown and Elizabethtown, Ky., transition areas.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 14, 1971, as hereinafter set forth.

In § 71.181 (36 F.R. 2140), the Bardstown and Elizabethtown, Ky., transition areas are amended to read:

BARDSTOWN, KY.

That airspace extending upward from 700 feet above the surface within a 5.5-mile radius of Samuels Field (lat. 37°48'55" N., long. 85°29'58" W.); within 3 miles each side of the 022° bearing from Bardstown RBN (lat. 37°50'52" N., long. 85°29'00" W.), extending from the 5.5-mile-radius area to 8.5 miles north of the RBN.

ELIZABETHTOWN, KY.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Elizabethtown-Hardin County Airport (lat. 37°45'13" N., long. 85°53'09" W.); within 2 miles each side of New Hope VOR 306° radial, extending from the 5-mile-radius area to 9 miles northwest of the VOR; excluding the portion within Louisville transition area.

(Sec. 307(a) Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 28, 1971.

JAMES G. ROGERS,
Director, Southern Region.

[Airspace Docket No. 71-SO-109]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On June 17, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 11668), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Ashland, Ky., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 14, 1971, as hereinafter set forth.

In § 71.191 (36 F.R. 2140), the Ashland, Ky., transition area is amended to read:

ASHLAND, KY.

That airspace extending upward from 700 feet above the surface within an 8-mile radius of Ashland-Boyd County Airport) lat. 38°33'00" N., long. 82°44'15" W.); within 2.5 miles each side of York VORTAC 116° radial, extending from the 8-mile radius area to 0.5 mile east of the VORTAC; excluding the portion within Huntington, W. Va., transition area.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 28, 1971.

JAMES G. ROGERS,
Director, Southern Region.

[Airspace Docket No. 71-SO-110]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On June 18, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 11749), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Paducah, Ky., control zone and transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 14, 1971, as hereinafter set forth.

In § 71.171 (36 F.R. 2055), the Paducah, Ky., control zone (36 F.R. 3518) is amended to read:

PADUCAH, KY.

Within a 5-mile radius of Barkley Field (lat. 37°03'45" N., long. 88°46'23" W.); within 3 miles each side of the 234° bearing from Paducah RBN, extending from the 5-mile-radius zone to 8.5 miles southwest of the RBN; within 3 miles each side of Cunningham VORTAC 045° radial, extending from the 5-mile-radius zone to 11 miles northeast of the VORTAC.

In § 71.181 (36 F.R. 2140), the Paducah, Ky., transition area (36 F.R. 3518) is amended to read:

PADUCAH, KY.

That airspace extending upward from 700 feet above the surface within a 10-mile radius of Barkley Field (lat. 37°03'45" N., long. 88°46'23" W.); within 5 miles each side of Cunningham VORTAC 225° radial, extending from the 10-mile-radius area to 11.5 miles southwest of the VORTAC.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 30, 1971.

[Airspace Docket No. 71-SO-111]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Areas

On June 18, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 11750), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the London, Ky., control zone and transition area and the Somerset, Ky., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 14, 1971, as hereinafter set forth.

In § 71.171 (36 F.R. 2055), the London, Ky., control zone is amended to read:

LONDON, KY.

Within a 5-mile radius of Corbin-London War Memorial Airport (lat. 37°05'15" N., long. 84°04'38" W.); within 3 miles each side of London VOR 202° radial, extending from the 5-mile-radius zone to 8.5 miles south of the VOR.

In § 71.181 (36 F.R. 2140), the London and Somerset, Ky., transition areas are amended to read:

LONDON, KY.

That airspace extending upward from 700 feet above the surface within a 12.5-mile radius of Corbin-London War Memorial Airport (lat. 37°05'15" N., long. 84°04'38" W.).

SOMERSET, KY.

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Somerset-Pulaski County Airport (lat. 37°03'24" N., long. 84°36'45" W.); within 3 miles each side of the 230° bearing from Somerset RBN (lat. 37°03'19" N., long. 84°36'58" W.), extending from the 8.5-mile-radius area to 8.5 miles southwest of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 30, 1971.

[Airspace Docket No. 71-SO-114]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Redesignation of Control Zone

On June 17, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 11668), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would redesignate the Winston-Salem, N.C., control zone.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 14, 1971, as hereinafter set forth.

In § 71.171 (36 F.R. 2055), the Winston-Salem, N.C., control zone is amended to read:

WINSTON-SALEM, N.C.

Within a 5-mile radius of Smith Reynolds Airport (lat. 36°08'01" N., long. 80°13'22" W.); within 2 miles each side of Winston-Salem ILS localizer southeast course, extending from the 5-mile-radius zone to the LOM.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 28, 1971.

JAMES G. ROGERS,
Director, Southern Region.

[Airspace Docket No. 71-SO-118]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

On June 25, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 12111), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Gulfport, Miss., control zone.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favbrable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 14, 1971, as hereinafter set forth.

In § 71.171 (36 F.R. 2055), the Gulfport, Miss., control zone is amended to read:

GULFPORT, MISS.

Within a 5-mile radius of Gulfport Municipal Airport (lat. 30°24'27.5" N., long. 89°04'05" W.); within 3 miles each side of Gulfport VORTAC 050°, 213°, and 325° radials, extending from the 5-mile-radius zone to 8.5 miles northeast, southeast, and northwest of the VORTAC; within 5 miles each side of Gulfport VORTAC 129° radial, extending from the 5-mile-radius zone to 11.5 miles southeast of the VORTAC; excluding the portion within the Biloxi, Miss., control zone. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 30, 1971.

GORDON W. BECKER,
Acting Director, Southern Region.

[FR Doc.71-11372 Filed 8-6-71;8:48 am]

[Airspace Docket No. 71-SO-104]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zones and Transition Area

On June 18, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 11649), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Covington, Ky. and Cincinnati, Ohio, control zones and the Cincinnati, Ohio, transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 14, 1971, as hereinafter set forth.

In § 71.171 (36 F.R. 2055), the Covington, Ky. and Cincinnati, Ohio, control zones are amended to read:

COVINGTON, KY.

Within a 5-mile radius of Greater Cincinnati Airport (lat. 39°02'56" N., long. 84°-39'41" W.); within 1.5 miles each side of Runway 36 ILS localizer south course, extending from the 5-mile-radius zone to the LOM; within 3 miles each side of Cincinnati VORTAC 223° radial, extending from the 5-mile-radius zone to 8.5 miles southwest of the VORTAC; within 1.5 miles each side of Runway 18 ILS localizer north course, extending from the 5-mile-radius zone to Addyston LOM.

CINCINNATI, OHIO

Within a 5-mile radius of Cincinnati Municipal-Lunken Field Airport (lat. 39°-06'14" N., long. 84°25'18" W.); within 2 miles each side of Runway 20L ILS localizer northeast course, extending from the 5-mile-radius zone to Madeira RBN; within 1.5 miles each side of the 227° bearing from Lunken RBN, extending from the 5-mile-radius zone to the RBN.

That airspace extending upward from 700 Evansville, Ind. transition area.

In § 71.181 (36 F.R. 2140), the Cincinnati, Ohio, transition area is amended to read:

CINCINNATI, OHIO

That airspace extending upward from 700 feet above the surface within an 11.5-mile radius of Greater Cincinnati Airport (lat. 39°02'56" N., long. 84°39'41" W.); within 9.5 miles east and 4.5 miles west of Runway 36 ILS localizer south course, extending from the 11.5-mile-radius area to 18.5 miles south of the LOM; within 3 miles each side of Runway 9R ILS localizer west course, extending from the 11.5-mile-radius area to 8.5 miles west of Burlington RBN; within 9.5 miles west and 4.5 miles east of Runway 18 ILS localizer north course, extending from the 11.5-mile-radius area to 18.5 miles north of the LOM; within a 12-mile radius of Cincinnati Municipal-Lunken Field Airport (lat. 39°06'14" N., long. 84°25'18" W.); within 3 miles each side of the 044° bearing from Lunken RBN, extending from the 12-mile-radius area to 8.5 miles northeast of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 29, 1971.

JAMES G. ROGERS,
Director, Southern Region.

[FR Doc.71-11365 Filed 8-6-71;8:48 am]

[Airspace Docket No. 71-SO-123]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Jackson, Tenn., control zone.

The Jackson control zone is described in § 71.171 (36 F.R. 2055). In the description, an extension is predicated on McKellar VOR 208° radial. Effective September 16, 1971, the final approach radial for VOR RWY 2 Instrument Approach Procedure to McKellar Field will be refined to the 206° radial. It is necessary to alter the description to reflect this change.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., September 16, 1971, as hereinafter set forth.

In § 71.171 (36 F.R. 2055), the Jackson, Tenn., control zone is amended as follows: "* * * 208° * * *" is deleted and "* * * 206° * * *" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 30, 1971.

GORDON W. BECKER,
Acting Director, Southern Region.

[FR Doc.71-11373 Filed 8-6-71;8:48 am]

[Airspace Docket No. 71-SO-132]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Pensacola, Fla., control zone.

The Pensacola control zone is described in § 71.171 (36 F.R. 2055 and 11429). In the description, reference is made to the Pensacola Municipal Airport. Since the name of this airport has been changed to Pensacola Regional Airport, it is necessary to alter the description to reflect this change.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 71.171 (36 F.R. 2055), the Pensacola, Fla., control zone (36 F.R. 11429) is amended as follows: "* * * Pensacola Municipal Airport * * *" is deleted and "* * * Pensacola Regional Airport * * *" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 28, 1971.

JAMES G. ROGERS,
Director, Southern Region.

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 71-205]

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

Arrival and Departure of Vessels

Treasury Decision 71-169, published in the FEDERAL REGISTER on July 2, 1971 (36 F.R. 12601) became effective on that date. It provided, however, that certain Customs forms and procedures in effect prior to the amendment could be continued to be used in lieu of new forms and procedures for 6 months. To clarify the scope of the permitted use, the effective date provision of Treasury Decision 71-169 is revised to read as follows:

Effective date. These amendments shall become effective on the date of their publication in the FEDERAL REGISTER (7-2-71). However, the Customs forms, declarations and procedures in effect prior to this amendment may be used in lieu of the new forms and procedures for a period of 6 months from the aforesaid date of publication.

[SEAL] EDWIN F. RAINS,
Acting Commissioner of Customs.

Approved: July 28, 1971.

WILLIAM L. DICKEY,
Acting Assistant Secretary of the Treasury.

[T.D. 71-191]

PART 153—ANTIDUMPING

Fair Value Determination

Correction

In F.R. Doc. 71-10577 appearing on page 13780 in the issue of Saturday, July 24, 1971, the word "for" in the fourth line of the paragraph following the authority citation in the center column should read "nor".

Title 24—HOUSING AND HOUSING CREDIT

Chapter II—Federal Housing Administration, Department of Housing and Urban Development

SUBCHAPTER A—GENERAL

[Docket No. R-71-135]

PART 200—INTRODUCTION

Subpart D—Delegations of Basic Authority and Functions

FINANCE COMMITTEE MEMBERS

In Part 200, Subpart D, § 200.90(a) is amended to read as follows:

§ 200.90 Finance Committee.

(a) *Members.* The Finance Committee is comprised of the following members: Director, Research and Statistics Division, Chairman; Assistant Commissioner-Comptroller; Assistant Commissioner for Administration; and Deputy Director of the Office of Property Disposition—Housing Management, or his designee.

* * * * *

(Secretary's delegation of authority published at 36 F.R. 5006, effective March 8, 1971)

Effective date. This amendment is effective as of June 21, 1971.

EUGENE A. GULLEDGE,
Assistant Secretary-Commissioner.

Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5095]

[BLM 079348]

MICHIGAN

Addition to National Forest

By virtue of the authority contained in the Act of July 9, 1962, 76 Stat. 140, 43 U.S.C. sec. 315g–1 (1964), it is ordered as follows:

Subject to valid existing rights, the following described lands, acquired in an exchange made pursuant to section 8 of the Taylor Grazing Act of June 28, 1934, 48 Stat. 1272, as amended, 43 U.S.C. sec. 315g (1964), are hereby added to and made a part of the Manistee National Forest and hereafter shall be subject to all laws and regulations applicable to said national forest:

MICHIGAN MERIDIAN

T. 17 N., R. 12 W.,
Sec. 4, Newell's Terrace Subdivision, Blocks 1 to 12, inclusive, except lot 1 in Block 4 ($SE\frac{1}{4}NW\frac{1}{4}$);
Sec. 8, $SW\frac{1}{4}SW\frac{1}{4}$;
Sec. 16, $N\frac{1}{2}S\frac{1}{2}SE\frac{1}{4}NE\frac{1}{4}$;
Sec. 17, $W\frac{3}{4}E\frac{1}{2}SW\frac{1}{4}NW\frac{1}{4}$, $S\frac{1}{2}N\frac{1}{2}N\frac{1}{2}SE\frac{1}{4}SE\frac{1}{4}$;
Sec. 28, $W\frac{1}{2}W\frac{1}{2}W\frac{1}{2}SW\frac{1}{4}SW\frac{1}{4}$.
T. 15 N., R. 13 W.,
Sec. 4, Woodland Park Acres Subdivision, lots 41, 42, 43, and 46 ($E\frac{3}{4}N\frac{1}{2}SE\frac{1}{4}NW\frac{1}{4}$, $W\frac{1}{2}NE\frac{1}{4}SW\frac{1}{4}NW\frac{1}{4}$).
T. 19 N., R. 13 W.,
Sec. 16, $NE\frac{1}{4}SW\frac{1}{4}NE\frac{1}{4}$, $S\frac{1}{2}SW\frac{1}{4}SW\frac{1}{4}NE\frac{1}{4}$;
Sec. 17, $SE\frac{1}{4}SW\frac{1}{4}SE\frac{1}{4}$;
Sec. 22, $NW\frac{1}{4}NW\frac{1}{4}NW\frac{1}{4}$;
Sec. 30, $W\frac{1}{2}NE\frac{1}{4}NE\frac{1}{4}$.
T. 18 N., R. 14 W.,
Sec. 13, $E\frac{1}{2}SE\frac{1}{4}NW\frac{1}{4}SE\frac{1}{4}$.
T. 13 N., R. 16 W.,
Sec. 19, $E\frac{1}{2}NE\frac{1}{4}NE\frac{1}{4}SE\frac{1}{4}$, $W\frac{1}{2}SW\frac{1}{4}NE\frac{1}{4}SE\frac{1}{4}$, $W\frac{1}{2}SW\frac{1}{4}SW\frac{1}{4}SE\frac{1}{4}$.

The areas described aggregate 209.94 acres in Lake, Newaygo and Oceana Counties.

HARRISON LOESCH,
Assistant Secretary of the Interior.

AUGUST 2, 1971.

[Colorado 022844, 12613]

COLORADO

Withdrawal of Lands as an Addition to Air Navigation Site; Public Land Order No. 1899 Revoked in Part

By virtue of the authority contained in section 4 of the Act of May 24, 1928, 45 Stat. 729, 49 U.S.C. sec. 214 (1964), it is ordered as follows:

1. Subject to valid existing rights, the following described public lands, which are under the jurisdiction of the Secretary of the Interior, are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws (30 U.S.C., Ch. 2), but not from leasing under the mineral leasing laws, and reserved for use by the Federal Aviation Administration, Department of Transportation, as an addition to and in connection with the air navigation site established by Public Land Order No. 1899 of July 14, 1959:

NEW MEXICO PRINCIPAL MERIDIAN

T. 48 N., R. 1½ W.,
Sec. 1, $S\frac{1}{2}NE\frac{1}{4}NW\frac{1}{4}$, $S\frac{1}{2}SW\frac{1}{4}NW\frac{1}{4}$, $SE\frac{1}{4}NW\frac{1}{4}$, $N\frac{1}{2}SW\frac{1}{4}$;
Sec. 2, $S\frac{1}{2}$ of lot 3, $N\frac{1}{2}$ of lot 4.

The areas described aggregate 186.03 acres in Gunnison County.

2. Public Land Order No. 1899 of July 14, 1959, withdrawing lands for an air navigation site is hereby revoked so far as it affects the following described lands:

NEW MEXICO PRINCIPAL MERIDIAN

T. 48 N., R. 1½ W.,
Sec. 1, south 15 chains of lot 4, $N\frac{1}{2}NW\frac{1}{4}$, $NW\frac{1}{4}$;
Sec. 2, south 15 chains of lot 1, $N\frac{1}{2}$ of lot 2.
T. 48 N., R. 2 W.,
Sec. 1, $SE\frac{1}{4}$ of lot 8, $E\frac{1}{2}$ of lot 9, $NE\frac{1}{4}$ of lot 16.

The areas described aggregate 122.08 acres in Gunnison County.

3. At 10 a.m. on September 7, 1971, the lands described in paragraph 2 of this order shall be open to operation of the public land laws, including the U.S. mining laws, and to the filing of applications and offers under the mineral leasing laws, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on September 7, 1971, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

Inquiries concerning these lands should be addressed to the Manager, Land

Office, Bureau of Land Management, Denver, Colo.

HARRISON LOESCH,
Assistant Secretary of the Interior.

[Idaho 89]

IDAHO

Partial Revocation of Reclamation Project Withdrawals

By virtue of the authority contained in section 3 of the Act of June 17, 1902, 32 Stat. 388, as amended and supplemented, 43 U.S.C. sec. 416 (1964), it is ordered as follows:

Departmental Orders dated November 17, 1902, and March 18, 1908, withdrawing lands for the Minidoka Project are hereby revoked insofar as they affect the following described lands:

BOISE MERIDIAN

T. 8 S., R. 24 E.,
Sec. 32, E½E½NE¼SE¼;
Sec. 33, S½S½SW¼NW¼.

The area described aggregates 20 acres in Minidoka County.

The lands have been patented to the Mindoka-Acequia-Rupert Cemetery District under the Recreation and Public Purposes Act of June 14, 1926, 44 Stat. 471, as amended, 43 U.S.C. sec. 869 et seq. (1964).

HARRISON LOESCH,
Assistant Secretary of the Interior.

AUGUST 2, 1971.

[Public Land Order 5100]

[Fairbanks 7357]

ALASKA

Transfer of Lands From Jurisdiction of the Federal Aviation Administration to Jurisdiction of the Bureau of Land Management; Modification and Partial Amendment of Public Land Order No. 2550

By virtue of the authority contained in section 4 of the Act of May 24, 1928, and the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described lands which were withdrawn for use of the Federal Aviation Agency, now Federal Aviation Administration, for airport purposes by Public Land Order No. 2550 of December 6, 1961, are hereby transferred to the jurisdiction of the Bureau of Land Management for use as a center for air operations:

FAIRBANKS MERIDIAN

T. 1 S., R. 1 W.,
Sec. 18, NW¼SE¼.

Containing 40 acres at Fairbanks International Airport.

2. To facilitate access to Fairbanks International Airport by the Federal Aviation Administration and the Bureau of Land Management, Public Land Order No. 2550 of December 6, 1961, is hereby modified to allow location of a highway by the State of Alaska under section 2477, U.S. Revised Statutes (43 U.S.C. 932) over and through the following described lands, which are a portion of the lands transferred in paragraph 1 above:

Commencing at the Center-South 1/16 section corner of Section 18, Township 1 South, Range 1 West, Fairbanks Meridian, Alaska, proceed N. 89°57' E. a distance of 886.75 feet along the East-West centerline of the Southeast ¼ of said Section 18 to a point, monumented with an iron post 30 inches long, 2½ inches in diameter, set 26 inches in the ground, with a brass cap marked AP 4 1969, said point being the true point of beginning; thence N. 38° E. a distance of 253.50 feet to a point, thence N. 51°30'35" W. a distance of 19.67 feet to the point of curve for a curve to the right; said curve having a radius of 1,519.80 feet, a delta of 23°27'38", with a tangent length of 315.57 feet to a point of intersection with the North-South centerline of the Southeast ¼ of said Section 18; thence S. 0°09' E. a distance of 192.18 feet along said North-South centerline; thence along a curve to the left, said curve having a radius of 1,369.8 feet, a delta of 23°27'38", with a tangent length of 284.43 feet for a distance of 254.60 feet to a point of tangency; thence S. 38°06'25" W. a distance of 151.42 feet to a point of intersection with the East-West centerline of the Southeast ¼ of said Section 18; thence S. 89°57' W. a distance of 165.18 feet to the true point of beginning.

3. This order does not otherwise serve to change the provisions of Public Land Order No. 2550, withdrawing and reserving the lands for airport purposes.

HARRISON LOESCH,
Assistant Secretary of the Interior.

[Public Land Order 5101]

[Colorado 8282]

COLORADO

Amendment of Public Land Order No. 4936

Public Land Order No. 4936 of November 3, 1970, appearing in 35 F.R. 17257 of the issue of November 10, 1970, excluding lands from the Arapaho and White River National Forests in Colorado, is amended to delete the following subparagraph of paragraph 1: "The areas described aggregate approximately 19,000 acres in Eagle County of which the N½SW¼ and SW¼SW¼, sec. 10, T. 2 S., R. 81 W., are patented", and to substitute therefor: "The areas described aggregate approximately 21,285 acres in Eagle County of which lots 19 through 24 of sec. 31, T. 3 S., R. 84 W., are patented."

Public Land Order No. 4936 is further amended to delete the first sentence of the last subparagraph of paragraph 1: "These areas described aggregate approximately 1,963 acres", and to substitute therefor:

"The areas described aggregate approximately 2,713 acres" * * *.

HARRISON LOESCH,
Assistant Secretary of the Interior.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 18927; FCC 71-776]

PART 73—RADIO BROADCAST SERVICES

Television Stations' Access to Programs of More Than One National Network

Memorandum opinion and order. In the matter of amendment of § 73.658 of the Commission's rules to limit television stations' access to the programs of more than one national network (petition of Triangle Telecasters, Inc., WRDU-TV, Durham, N.C.); Docket No. 18927, RM-1525.

1. This document deals with various petitions for reconsideration, and similar and related pleadings, filed concerning

the Commission's first report and order herein, adopted March 24, 1971, 28 FCC 2d 169.[1] In that decision, the Commission adopted a new rule—new paragraph (l) of § 73.658—which deals with television markets in which there are two regularly affiliated stations (usually VHF) and a third station (usually UHF) which is not regularly affiliated. The trust of the rule is that (where the third station has reasonably comparable facilities), the network which is without a primary affiliate in the market must offer its evening programs, and weekend and holiday sports programs, to the third station before it can present them over one of the two stations regularly affiliated with other networks. The proceeding has sometimes been referred to as the "one affiliation per station" matter. The rule covers programs on and after October 1, 1971; but, in markets to which the rule applies, the "unaffiliated" network is to offer the programs to the unaffiliated station, to the extent possible, by July 15.

2. Reconsideration of the decision and rule has been sought by the three national networks (American Broadcasting Co., Inc. (ABC), Columbia Broadcasting System, Inc. (CBS) and National Broadcasting Co., Inc. (NBC), and by two individual television licensees seeking either the inclusion within the rule of a market not covered (San Diego) or the exclusion of one literally coming within it (Idaho Falls-Pocatello, Idaho). These petitions were opposed by the licensees of the Durham, N.C. UHF station (the original petitioner for rule making herein) and the Pocatello, Idaho VHF station; the permittee of a new UHF station at Traverse City, Mich. (in the Traverse City-Cadillac market); two parties connected with VHF Station XETV, Tijuana, Mex., which now serves as the ABC affiliate in the San Diego market; and a party which has expressed interest in acquiring the Augusta UHF station.

3. Two parties filed requests for stay. One was ABC, asking that the effective date of the rule be stayed until 30 days after Commission action on the petitions for reconsideration.[2] It is urged that the rule will in some situations disrupt existing network program distribution patterns and network-affiliate contractural relationships, with the new distribution pattern requiring planning some months in advance, and now-existing relationships will be difficult or impossible to restore quickly if the Commission withdraws or substantially modifies the rule on reconsideration, since the stations will already have other commitments. It is asserted that the only parties which benefit—unaffiliated stations—already have some network programs available to them, and the stay will only postpone briefly and slight change involved in their situation. The other party seeking a stay was Fuqua Television, Inc., the licensee of one of the two VHF stations in Augusta, Ga., asking that as to that market the rule be stayed until April 1, 1972, because of the uncertainty as to whether the Augusta UHF station, WATU-TV, will return to the air, and the need for advance planning. CBS, while not seeking a stay as such, urged that if the rule is not vacated, at least the effective date should be postponed for 2 years, or until October 1, 1973, in view of other recent developments including the new "prime time access" rule whose effects are only beginning to be felt, and Docket 16041, in which we did not adopt rules concerning the distribution of network programs but required the networks to submit, by June 30, 1971, a report on their policies and practices with respect to making programs available to nonaffiliated stations. It is also said that time may bring an ad hoc, voluntary resolution of problem situations.

Requests for stay or postponement. 4. With respect to the stay requests last mentioned, we are denying that of ABC (along with the CBS request for a 2-year postponement of effective date) and dismissing that of Fuqua Television, Inc., as moot in view of the absence of adequate notice by the licensee of WATU-TV, the Augusta UHF station, that it will resume operation in the near future, which is a prerequisite to the operation of the rule (§ 73.658(l)(1)(ii)). As to the ABC request, we find merit in the arguments of the Michigan UHF permittee that a stay request filed so late is not appropriate for consideration in the circumstances, and that ABC has not met the "irreparable injury" test which is one of the traditional prerequisites to this form of relief. In acting on the petitions for reconsideration at this time, we are giving more than 2 months' advance notice before the rule goes into operational effect on October 1, which appears ample and this, indeed, may be all that ABC is asking (if what it is seeking is a delay until April 1, 1972, we do not conceive this to be in the public interest). With respect to the CBS request for a 2-year postponement, this would be inconsistent with the adoption of any rule at all, since it would delay for a long period the benefits which are expected to accrue. The new "prime time access rule" is not reason for delay; rather, as pointed out in the decision herein (paragraph 35, 28 FCC 2d 184), the potential impact of that rule on nonaffiliated stations, in markets outside of the top 50, is one reason for prompt action. As to Docket 16041, it may be that reexamination by the networks of their program distribution policies which was mentioned in that decision, and their reports filed on June 30, will lead to and show voluntary action resulting in satisfactory resolution of the few situations involved so as to remove them from the scope of the rule. We expressed in the first report and order herein the hope that this would occur. But to the extent it does not, we are of the view that the rule should apply, and soon, if its benefits are to be brought to stations and the public at an early date.

5. As to the Augusta request (supported in comments filed June 29 by the other VHF station there), this has been dismissed for the reason mentioned above, since the rule will not apply operationally in that market before April 1, 1972, the date to which a stay is requested, sufficient notice by the UHF station not having been received. We note in this connection a letter dated June 30, 1971 (received July 1), from the president of Augusta Telecasts, Inc., the UHF licensee. This states, in substance, that the licensee cannot unequivocally state that it can resume operation by October 1, though it is "reasonably confident" that it can, provided the benefits of the rule are available to it at that time. It is also stated that the Fuqua stay request, and the networks' petitions for reconsideration, have made the obtaining of capital very difficult. A ruling is requested that this is adequate notice. We cannot agree that it is. The rule specifically requires, in the case of stations not operational by July 1, "notice that it will be on the air by such date (here October 1) and commits its f to remain on the air for 6 months." The letter does not meet this requirement. Program and advertising schedules and arrangements cannot be effectuated over night, and a feeling of "reasonable confidence" on the licensee's part is not sufficient, in our judgment, to warrant the reshuffling which might occur for no purpose and leave some network programing not shown in the market at all. We certainly hope to see the prompt resumption of service in Augusta, and hope that the station will be able to make the necessary arrangements so as to qualify for the April 1 date, now that the rule has been affirmed on reconsideration.

The San Diego-Tijuana situation.— 6. In the San Diego situation, there are two VHF stations in San Diego (CBS and NBC affiliates), and for years ABC has used VHF Station XETV, Tijuana, Mexico, as its affiliate in that market, furnishing its programs to that station pursuant to authority granted by the Commission, as required by section 325(b) of the Communications Act before such transmission to foreign stations may be engaged in. One UHF st on now operates in San Diego, KCST, which first went on the air in 1965, went dark, and was returned to operation in 1968 by the present licensee, Western Telecasters, Inc. (herein KCST). KCST has opposed continuation of the ABC-XETV arrangement, and renewal of the section 325(b) authority is the subject of a pending hearing proceeding, Docket No. 18606. An Initial Decision in that proceeding, which would grant the renewal

[1] FCC 71-322, released Apr. 1, 1971; 36 F.R. 6507 (Apr. 6, 1971); 21 R.R. 2d 1638.

[2] The ABC "Motion for Stay" was filed only on June 28, 1971, more than 6 weeks after its petition for reconsideration. On June 29, an opposition to the motion was filed by Northern Entertainment, Inc., the new Traverse City, Mich. UHF permittee, asserting the motion's failure to show irreparable injury, the "laches" involved in the filing of a stay request only on June 28 rather than with the petition for reconsideration, and adverse impact on the new station if it does not have ABC programs available as contemplated by the rule (and also on the public through the nonavailability of some programs).

to ABC, was issued by the Hearing Examiner May 14, 1971, and has been appealed. The notice of proposed rule making in the present rule-making proceeding, issued in July 1970, stated that the Commission does "not here pass on the situation in San Diego" (FCC 70-801, footnote 7). This situation was not mentioned as such in the first report and order herein; the rule adopted excludes the San Diego market from its operation by the language of Note 2 following § 73.658(*l*).

7. KCST's "Petition for Partial Reconsideration" asks that this "Note 2" be removed and the rule made applicable to the San Diego market. It is urged that the same principles apply here as in the situations covered by the rule and which led to its adoption. KCST also argues that action in rule-making affecting this situation is appropriate notwithstanding the pending hearing proceeding, since the ABC authority whose renewal is at issue has long since expired and also since its original grant was on the basis that there was no available UHF station in San Diego. Transcontinent Television Corporation v. FCC, 308 F. 2d 339 (1962) is cited in the former connection. The KCST petition was opposed by the XETV parties (Radio-Television, S.A., the Mexican licensee, and Bay City Television, Inc., its sales and program procurement agent), and by ABC. Aside from urging that the matter is sub judice in the hearing, and other procedural arguments, these parties claim that this situation is basically different from those which were the chief subjects of the rule-making proceeding and are covered by the rule: the "two-VHF-one-UHF" situations. The difference is said to be that in the other cases there are only two VHF stations and the question is the extent to which they may carry programs from a "second" network in addition to their primary network; whereas here there are three VHF stations (one in Tijuana), each carrying pretty much the full lineup of one of the three networks.[3]

8. We do not here pass upon the matters at issue in Docket 18606, nor on the question of whether we could legally take action in a rule-making proceeding along the lines requested by KCST, with the hearing still pending. In all of the circumstances, we do not find it appropriate to consider the relief requested at this stage of this proceeding. As indicated above, the notice of proposed rule making herein did not refer to the San Diego-Tijuana situation except more or less by way of exclusion. The basic question which we would have to decide before acting as KCST requests—whether a foreign station should, under the circumstances, be allowed to continue as a U.S. network outlet—is the matter at issue in Docket 18606, and was not really the subject of comments herein even by KCST, whose arguments related rather to what should happen later (footnote 2, above). Thus, the proceeding has not involved an exploration of the San Diego matter, to anything like the extent which would be necessary to lay a basis for the type of relief requested. Second, while there is obviously an element of similarity between that case and those considered herein—a UHF station wanting network programs, and only two U.S. VHF stations—there is also an obvious difference, in that there are three VHF stations each carrying pretty much a full network, lineup, albeit one of them is a foreign station. We do not at this point say what significance should be attached to the similarity or the difference; we find simply that applying the new rule to the San Diego situation in its present stage is not appropriate in the context of the Docket 18927 proceeding.

The general petitions for reconsideration and responses. 9. Of the three network petitions for reconsideration, those of ABC and CBS are fairly short. CBS refers to the recent occurrence or pendency of certain other matters affecting networks, as noted above; otherwise, it asserts that the rule is long, novel and quite complex, using terms and definitions (e.g. "special" programs), which may present problems in application, burdensome on the networks in determining the scope of its application (continuing review of markets and affiliations) and, in sum an "administrative nightmare"—all to deal with one complainant in one market.[4] It is stated that the voluntary actions by the networks—e.g., with respect to their recently adopted "recapture" policies designed to give the unaffiliated station more security if it begins carrying a program—are likely largely to accomplish the Commission's objectives. ABC's petition is largely concerned with the scope of the rule's applicability to smaller markets and where stations have unequal facilities or serve different areas, matters discussed below. It urges, more generally, that the rule is unnecessary and unwise, designed to remedy a few situations which are better suited to ad hoc determination but potentially going much further and capable of causing harm to the best interests of the network, affiliates and the public. ABC also asserts (in replying to the oppositions to the petitions) that the primary concern must necessarily be "the public's interest in the widest possible dissemination of network programs", rather than the private interests of the unaffiliated UHF stations which are urged in support of the rule, and that this primary concern is threatened by the rule, particularly in the smaller markets. It is asserted that the real issue is not whether the network's programs will be available in the markets involved—if not cleared on the two affiliated stations, they have been and are available to the third station—but whether the networks should be free to compete for clearances on the desirable affiliated stations, so as to get the most effective distribution of their programs to the public. ABC's reply is devoted largely to a discussion of its dealings with the new UHF station in the Traverse City-Cadillac, Mich., market, which apparently will fall within the rule when it becomes effective.

10. NBC—the network most immediately involved in the two situations discussed in the first report and order—filed a longer and more elaborate petition. It is asserted that—to affect a result in only one situation (Raleigh-Durham) and possibly another (Augusta)—the Commission has devised a long and complex rule which "seeks to thrust itself into, and determine all significant aspects of, the complex problems and intricate variations usually involved in the process of negotiation of individual affiliation agreements * * *." NBC claims that this amounts to substitution of the Commission's judgment for that of broadcasters, an unwarranted reversal of past refusal to get into the affiliation process which is better left to competition, and a rejection of the concept of competition so strongly emphasized in the past both by us and by the courts as of key importance in broadcasting, for example FCC v. Sanders Bros. Radio Station, 309 U.S. 470, 475 (1940). It is asserted in the latter connection that an "anti-competitive" rule cannot be justified simply because it will apply in few cases.[5] The restraints on competition assertedly involved are, it is said, simply beyond the Commission's authority.

11. NBC's second main line of argument is that the rule will accomplish little, and may result in actual loss of network service. This is claimed in that: (1) UHF stations in these situations, such as WRDU-TV, Durham, already carry large amounts of network programing, including more than the 15 hours of evening programs per week which would be provided under the rule, and more than the Commission's analysis erroneously indicated;[6] (2) the rule ignores hard economic facts, for example the cost to a network to bring programs from the A.T. & T. main line into Raleigh-Durham, estimated at $32,000 a year (not including the "local loop" cost of $45,000, which the UHF station bears), so that the unaffiliated network may choose simply not to present any programs in the market rather than incur this cost solely to feed a UHF station which does not have enough circulation to justify a charge to advertisers; (3) there will be loss of service to the public beyond the reach of the UHF station (which may have somewhat lesser facilities or, as in this case, a substantially different coverage area) as well as those having VHF only sets. In connection with the second point, NBC urges that the networks can afford to feed WRDU-TV, at the cost mentioned, as long as they can also use the same interconnection facilities without additional cost to obtain valuable carriage over the VHF stations; but that if the "unaffiliated network" must bear this burden alone, it may well choose simply to forego any coverage in this market, which would leave the UHF station with no network programs. As to the third point, NBC points to the provision in the rule making it applicable if the UHF station has more than two-thirds as much Grade B coverage area as the smallest VHF station, and to the matter of differences in the location of coverage areas (true in this case, with the Durham UHF station located farther west).[7] It is urged that this loss of service cannot be written off as summarily as NBC claims the first report and order did, since it is substantial. For example, NBC claims that the Grade B contour of WRDU-TV gives greater coverage to the west (where the networks already have coverage) but does not include 10 counties to the east covered by the Raleigh-Durham VHF stations and totaling 134,000 TV homes (TV Factbook, 1971), which will thus have their service abridge, with no offsetting gain.[8]

12. NBC's third main line of argument is that the rule illegally discriminates against networks, since other program suppliers (syndicated program suppliers, or other "networks" such as the Hughes Sports Network or regional networks) are not subject to the same restrictions, but can sell programs to whomever they choose.[9] Thus, it is said, the networks are selected as those who must subsidize these uneconomic stations. It is urged that, to be consistent and nondiscriminatory, a rule would have to be adopted requiring such suppliers to make their product available free or at some reduced fee to the "third" station before they could sell to the "first two" stations. It is also claimed that there is illegal discrimination against the "third" or "unaffiliated" network in each particular case, preventing it from competing for clearances on the desirable stations: thus, the "unaffiliated network" is the only party in the world who is by law forbidden from dealing with two stations unless and until he has been rejected by the third (this is claimed to be pro tanto confiscation of property without compensation, and unconstitutional).

13. *Responsive material.* Three parties filed oppositions to the petitions mentioned above, in addition to the Pocatello, Idaho, VHF licensee whose response related to the particular facts of that situation. The three are Triangle Telecasters, Inc. (WRDU), the licensee of WRDU-TV, Durham, and the original petitioner for rule making; Northern Entertainment, Inc. (Northern), the permittee of new UHF Station WGTU-TV at Traverse City, Mich., in the Traverse City-Cadillac market; and General Broadcasting Co. (General), a party which previously participated on the basis that it is interested in acquiring the Augusta UHF station. In general, these parties support the rule as helpful and necessary in the furtherance of the development of UHF, completely within the Commission's authority, and well warranted by the facts and considerations set forth in the First Report and Order. Among the points urged in one or more of these pleadings are: (1) The rule is not "anticompetitive", as NBC claims, but in fact is designed to and will further competition by increasing the number of viable stations in these "scarcity" situations; in any event, restrictions on some forms of "competition" activity have long been recognized as in the public interest, for example some of the Commission's Chain Broadcasting rules, and the price-discrimination provisions of the Clayton Act (designed to prevent a large customer from obtaining an unwarranted advantage over a smaller competing customer); (2) there is need for the rule, not only in the two situations discussed in the first report and order but in other situations which may arise, for example the Traverse City-Cadillac market and the Terre Haute, Ind., market, where a final decision authorizing a UHF station has just been issued, so that the rule is of substantial value generally; (3) the rule, while long, is not unduly complex as urged by the networks, but is comprehensible and unambiguous; (4) there is no illegal or improper discrimination against networks, since it is settled law that regulation need not deal with every conceivable aspect of a matter (Roachen v. Ward, 279 U.S. 329 (1929)), the networks occupy a much more critical and vital position with respect to UHF development than do other program suppliers (and it has been their preference for VHF which has threatened that development), and they are in a unique position in having "exclusive" affiliates as well as a base of owned stations and in selling directly to advertisers; and (5) ad hoc voluntary action cannot be relied on exclusively, as shown by the failure of ABC so far to give a primary affiliation to the Cadillac UHF station, employing in this connection a requirement (that the new affiliate add 5,000 average quarter-hour prime time homes to the network) which is inordinately weighted against granting the affiliation.[10] These parties urge us to make the rule effective without delay, so as to increase the availability of network programs which are indispensable to the survival of these stations. Other contentions, relating to applicability in small markets and "comparability of facilities", are discussed below.

14. WRDU discusses also NBC's claim as to the burden of interconnection costs in bringing programs into Raleigh-Durham (paragraph 11, above). It is asserted that NBC was paying for the same service when it cleared programs only on VHF, before WRDU-TV went on the air,

[3] The XETV parties claim, we think with some reason, that KCST is now advancing a position inconsistent with that taken in its earlier comments. In the latter, it urged adoption of a rule generally like that adopted, but stated (KCST Comments, footnote 1) that it was not addressing itself to the merits of the Docket 18606 proceeding. Rather, its comments cited and discussed testimony in that proceeding by an ABC official as to what ABC would do if XETV were no longer available—try first to get clearances on the San Diego VHF stations—and urged that this is not a course of action consistent with the public interest. In short, its comments appeared to assume that the hearing proceeding would be decided favorable to KCST, and on that assumption discussed subsequent approaches. To urge now that the rule-making decision by itself should result in an ABC-KCST relationship, is quite a departure.

[4] Two particular problems advanced as illustrative are the time periods mentioned in paragraph (1)(4)(iii), and the situation where there are two unaffiliated stations in the market (which is not now true in any case, but for a while was in Lubbock, Tex.). These are discussed below, in connection with modifications of the rule.

[5] The pronouncements cited and quoted in these connections include the 1941 Report on Chain Broadcasting; the Sanders case, supra; two 1960 denials of petitions for rule making seeking rules requiring each network to have a certain proportion of its affiliates UHF and forbidding a station to broadcast the programs from a second network where there is another station able and willing to broadcast them (Joseph Brenner, 19 R.R. 1077 and Amendment of § 3.658, 19 R.R. 1613, respectively, the latter somewhat the same as the present situation); American Broadcasting Companies, Inc., 15 FCC 2d 19 (1968) (letter to ABC refusing its request in connection with its alleged losses of VHF affiliates in intermixed markets); American Broadcasting Companies, Inc., 22 FCC 2d 241 (1970) (background discussion in connection with ABC radio "four network" matter); Federal Broadcasting System v. ABC, 167 F. 2d 349, 351 (1948) (holding that a network may refuse to continue an affiliation with a station when another station becomes available); and Hyman Rosenblum, 22 FCC 1432, 1442 (1957), in which the Commission stated that a network affiliation is not a "protected monopoly", but that CBS was free to choose and change affiliates.

[6] The first report and order, based on TV Guide for the week of Jan. 16–22, 1971, showed WRDU-TV as carrying 12½ hours of network prime-time programs, plus the CBS and NBC 7 PM Sunday shows, a total of 13½ hours. NBC claims, based on the ARB 4-week February–March 1971 survey period, that WRDU-TV regularly carries 17½ hours a week, the difference consisting of three NBC and one CBS programs. The difference could reflect basic changes in WRDU-TV's schedule between the two periods, or certain facts peculiar to the January week: Carriage by WRDU-TV on Tuesday night of professional hockey, possibly instead of two NBC programs shown in the ARB period; the fact that some of WRDU-TV's Thursday schedule was indicated in TV Guide as "to be announced"; and preemption by NBC of the Friday "Name of the Game" time period for a Presidential message (which WRDU-TV apparently did not carry). NBC's figure of 17½ hours includes some programs which WRDU-TV did not carry in all 4 weeks covered by ARB; the actual amount of network evening programming in the 4 weeks range from 14 to 18 hours. We assume for present purposes that WRDU-TV either carries or has available the amount of material indicated by NBC. We also assume that NBC is correct in stating that all network prime-time shows except one CBS public-affairs program are usually cleared in the Raleigh-Durham market.

[7] This difference in the location of the coverage areas was mentioned in the notice of proposed rule making herein, and discussed to some extent by the Durham VHF station WTVD in its comments, but was not mentioned in the comments of NBC.

[8] In another part of its petition, NBC makes another argument, concerning the "prime time access rule" and its relationship to the present matter. It is urged that, rather than act here to protect unaffiliated stations from the impact of that rule by further restricting the networks, it would be fairer to require the nonnetwork program producers, who are to be benefitted by the prime-time access rule, to make their programs available to the "third" station rather than the other two.

[9] See paragraph 22, below.

and therefore now gets additional clearance on the UHF at no additional cost (since it pays WRDU nothing). It is pointed out that NBC does not dispute the assertion in the first report and order (paragraph 49, 28 FCC 2d 192–193) that the actual amount charged an advertiser does not necessarily reflect carriage of the program by a particular station, VHF or UHF, so that it may not actually lose any money compared to clearance on VHF. WRDU also points out—apparently to refute the claim that NBC cannot get any revenue from UHF carriage—the fact that CBS now pays WRDU–TV on the basis of $40 per prime time hour, and that NBC's estimate of the homes delivered by WRDU—5,000—is close to the minimum which NBC claims necessary to charge advertisers on the basis of a $100 per prime hour rates (6,000 homes.)[10] It is pointed out that the rule will require the network to furnish only a certain amount of programing to the UHF station, not all programs or a full affiliation; and it is urged that the network will gain, in full clearance in the market and to the extent that the UHF station can improve its ratings with better access to network programs. With respect to the loss in network service claimed by NBC in the Raleigh-Durham situation, WRDU claims that this will not occur as claimed; of the 10 eastern counties mentioned by NBC as covered by the VHF stations but not WRDU–TV, all but one (Warren, 4,300 TV homes) lie within the Grade A or Grade B contours of NBC affiliates in eastern North Carolina (Washington and Wilmington, N.C.).

15. Northern discusses the Traverse City-Cadillac market as a good example of the need for the rule: In the 1970–71 season, only 8 percent of all the ABC prime-time programs were presented in the market) on one of the VHF stations) in prime time, and 83 percent of the daytime ABC programs carried were delayed and presented in black and white. It is stated that, according to the list of prime-time availabilities for early 1971 furnished to the station by ABC, only 7 of 21 hours are available, including no programs on three evenings a week (4 of the 7 hours are movies). Northern also suggests that the VHF-network relationship in markets such as those covered by the rule may very well violate the antitrust laws.

16. In reply comments, ABC makes some arguments already mentioned, and others discussed below concerning the applicability to particular markets and "comparable facilities", as well as the argument—advanced earlier in the proceeding—that exposure in "fringe" time on VHF often means greater circulation than prime time on UHF. NBC's brief reply simply asserts that WRDU has failed to come to grips with the hard economic facts of the situation: The high cost to the network of providing programs in the market when it can expect to get no comparable economic return, which may lead the network not to bring its programs into the market at all.

Applicability of the rule to various markets. 17. Part of ABC's petition, and all of the licensee of VHF Station KIFI–TV, Idaho Falls, Idaho,[11] relate to the extent to which the rule should apply in various types of situations. ABC urges that it should not apply in the smaller markets, i.e., those outside of the top 100, and, also, that the standard for determining what are "reasonably comparable facilities", which the "third" station must have in order for the rule to apply, should be increased. KIFI's petition urges that the rule should not apply in the three-VHF Idaho Falls-Pocatello market, where the two Idaho Falls stations are CBS and NBC affiliates and also carry some ABC programs, with the third station, KTLE, Pocatello, carrying those ABC programs not taken by the Idaho Falls stations.

18. ABC's argument as to the smaller markets, which may be related to the Traverse City-Cadillac situation although it is not so stated, includes the following contentions: (1) Insofar as such application is based on ARB market definitions, these have, below the top 100 markets, "a considerable degree of arbitrariness", so that neither the Commission nor the industry knows for certain what stations will be included; and, since the cities involved are usually rather small, there is a tendency for ARB to "hyphenate" cities rather far apart into one market (e.g., Huntsville-Decatur-Florence, Ala., and McAllen-Brownsville, Tex., the Low Rio Grande Valley);[12] (2) the policy favoring UHF, even at the expense of some availability of programs to the public, should not be carried beyond the point where it is likely to be fruitful, which, in ABC's view, generally means the top 100 markets, plus those other situations where, on a case-by-case basis, ABC believes an affiliation is warranted and grants one (e.g., Burlington, Vt., Savannah, Ga.). ABC also believes that significance should be accorded to its threshold criterion: it will not give a primary affiliation to a station which (according to ABC's Research Department estmates) will not deliver an additional 5,000 average quarter-hour prime time homes. Less than this, it is said, is simply not enough to support a viable station. ABC argues that in the smaller markets, the decision to start a station is typically geared to the availability of network programs, and the Commission should hesitate to encourage the advent of stations which simply cannot be successful even with this advantage. The Burlington, Vt., UHF station, an ABC affiliate which recently had to suspend operation, is cited as an example. It is claimed that when this occurs all parties suffer: The station operator loses his money, the network loses its previous program placement relationships and valuable VHF audience, and the public loses because the ABC programs were lost to VHF audiences and there was a false inducement to the public to buy UHF sets. It is argued that every market simply cannot support three stations—particularly intermixed markets—and therefore a "forced affiliation" rule should not apply to all markets.

19. As to the matter of "comparability of facilities", the rule now only requires that the unaffiliated station have a Grade B coverage area at least two-thirds as large as the smaller of the market affiliated stations. ABC would have this standard increased to an area 90 percent co-extensive with the smaller of these stations, or two-thirds of the larger station's area. It is claimed that this would remedy two deficiencies in the rule as adopted: It would mean that the unaffiliated station will always serve just as about as much area as the smaller of the two affiliated stations (important where the two affiliated stations themselves have disparate levels of facilities); and it would mean that the unaffiliated station will serve largely the same area as the affiliated stations, important where the cities of license are not the same. It is stated that there is no longer an obstacle to UHF stations having facilities comparable, at least in theory, to VHF stations, and, indeed, they must do so to be successful; therefore it is not unreasonable to require this if the public and the networks are to be forced to assist them in this fashion.

20. In arguing against the application of the rule to the Idaho Falls-Pocatello situation, KIFI makes some of the same arguments as to stations having different coverage and the problem of using ARB market definitions. It is claimed that, while the two Idaho Falls stations put a Grade A or better signal over Pocatello, KTLE does not put better than a predicted Grade B signal into Idaho Falls, and, in fact, is not receivable at all in that city without either CATV service or an elaborate outside antenna, and only poorly with the latter.[13] It is argued that, while Pocatello is part of the "market" for the Idaho Falls stations, in view of KTLE's coverage limitation Idaho Falls

[10] NBC's petition states that delivery of 6,000 average quarter-hour prime time homes is the minimum required to support its charging advertisers its minimum $100 per Class A hour rate, which is the basis of compensation to stations and of charges to advertisers in "conventionally sponsored" programs.

[11] "Petition for Clarification or Partial Reconsideration", filed May 6, 1971, by The Post Co., licensee of Station KIFI–TV, Idaho Falls, Idaho (herein KIFI).

[12] Both ABC and KIFI suggest that it may not be proper for the Commission to adopt rules in terms of markets as defined by an outside private organization. The ARB market definitions, notes KIFI, are subject to some change from year to year.

[13] The reception point was argued chiefly in KIFI's reply to opposition, supported by photographs of KTLE's picture on Idaho Falls receivers. However, KTLE points out that in the 1959–61 period, when it was previously on the air and was an affiliate, it had a substantial audience in the Idaho Falls area, with 50 percent or more net weekly circulation in Bonneville County (Idaho Falls). See TV Factbook, 1961 ed.

is not in the same market with respect to it or the operation of the rule, and making it the exclusive ABC outlet would simply mean the loss of ABC programs to many people in Idaho Falls. KIFI also argues that the rule clearly was not meant to apply in this situation, since this market was not mentioned in the first report and order as among those analyzed or covered by the rule, and is not within the principle of assistance to UHF on which this proceeding was begun. It is pointed out that these two cities are 44 air miles apart (farther by road) considerably more than the Raleigh-Durham distance, and that failure to require some degree of "co-extensive" coverage areas could lead to ridiculous results, for example in the Casper-Riverton, Wyo. market, where the cities of license are over 100 miles apart and each station includes within its Grade B contour less than half of the Grade B area of the other. KIFI proposes, as the preferable way of dealing with this situation, simply an addition to the definition of "reasonably comparable facilities" (§ 73.658(l)(1)(x)) of the requirement that the unaffiliated station put a Grade A signal over the affiliated stations' communities.

21. The four parties opposing the petitions for reconsideration discussed these arguments to some extent, generally supporting the rule adopted as being a reasonable balance, taking into account the economic limitations which have prevented UHF stations from having greater facilities up to now and which will be lessened or removed with the more desirable programs thus available. It is urged by the Pocatello VHF licensee, KTLE, Inc. (KTLE) that the rule is needed, if only as a "useful spur" to get the networks to affiliate voluntarily (as it hopes ABC will with it); that Idaho Falls and Pocatello are properly in the same market as shown by the two Idaho Falls stations' dual-city identification authority with the other city, and that KTLE adequately serves the population centers of the market.[14] General Broadcasting, WRDU and Northern all oppose ABC's suggested limitation to the top 100 markets, as arbitrary (even more so than any "arbitrariness" involved in ARB's market definitions as ABC asserts), devoid of logic, and, indeed, contrary to the public interest in that small-market UHF stations are even more in need of network programs to survive (Nothern claims that the incidence of failure among UHF stations with primary network affiliations has been quite small; it is those without who have perished). Northern claims that those in the community who are investing are certainly more able to prognosticate than persons in Washington or New York, and that a network should not be able to condemn a new station to death by withholding a primary affiliation. WRDU also discusses the suggestion of required "co-extensive" coverage, saying that this would be wrong in that it would tend to require a new station to locate in the same area as the existing stations, whereas the coverage needs of the "third" network may be different (e.g., NBC is well served east of Raleigh), the earlier decisions as to location may have represented facts no longer existing or a site in the vicinity of the older stations may not be feasible (zoning restrictions, FAA problems, mileage separations, etc.).

22. Northern also discusses ABC's affiliation criterion of an incremental 5,000 average quarter-hour prime-time homes. It is claimed that—as Northern showed ABC in its affiliation presentation—the new Traverse City UHF station would add more than that (from about 5,500 to over 7,000 on various bases). It is also stated that ABC's own figures for the number of incremental homes in this case have varied from time to time (1,800 at one time, 3,800 later), the criterion is loaded against affiliation since the new station will add less as the existing stations carry more ABC programs (which is at the expense of their other network) and that, in sum, it is not an adequate affiliation policy from the Commission's standpoint, since it condemns a number of new stations to an early death.[15]

Conclusions—23. *The rule in general.* Upon careful consideration of all of the foregoing material, we are of the view that the rule should be affirmed, both as to its general concepts, and, except as modified hereinbelow, its specific details.

24. Most of the arguments raised by NBC and the other general petitioners were dealt with in the first report and order herein, and need not be discussed here at length. With respect to the rule's asserted length and complexity, unquestionably it is long, and had to be written in some detail since it was applying a new concept and had to spell out the relationships between parties where a voluntary agreement has not been reached, and make adequate provision for the legitimate interests of both. CBS mentioned a few possible problem areas, which are discussed below; with the modification adopted there, we see no problem in understanding or applying the regulation. It is also urged that this is a tremendous amount of effort for little benefit (with only one market actually involved); but this argument is negated by the fact that (aside from the Augusta situation discussed above) the rule will now also apply in the Traverse City-Cadillac, Michigan situation mentioned, and is also of potential value in a number of markets now having two VHF stations, including those mentioned in the first report and order (paragraph 37, 28 FCC 2d 185) and others noted by Northern in its opposition to the petitions for reconsideration. The rule's utility is not by any means as limited as its opponents would imply.

25. NBC's argument concerning the "anticompetitive" character of the rule is without much significance since it focuses only on one narrow aspect of what is "competition"—the restriction on networks in competing for clearances on the two desirable stations in the market—and overlooks the general benefit to competition which the rule is designed to promote through creating conditions favorable to the development and success of third stations in these markets, so that there will soon be greater and more effective competition. It is well settled, as pointed out by the proponents of the rule and noted above, that restrictions on sharply competitive activity in particular situations are warranted in order to increase the general level of competition, for example the price discrimination area (granting or obtaining a discriminatorily low price where a competitor will be harmed), selling below cost in a particular area to frustrate competition there, etc. We recognized in the first report and order that the rule adopted herein, applicable in a small number of situations, represented a departure to some extent from previous Commission policy (paragraph 50–51, 28 FCC 2d 193–194). We found this departure to be warranted in these situations, and adhere to that view.[16]

26. NBC also claims that the rule illegally discriminates against the three national networks as compared to other program sources—other "networks" such as the Hughes Sports Network, syndicated program suppliers, etc.—and indeed the "unaffiliated network" vis-a-vis other networks. This argument is not well founded. The three national networks are sufficiently "different" from such other sources—for example, in their method of program distribution and provision of advertising support for broadcasting, and in the crucial importance of their programing to the viability of stations outside of the largest markets (particularly to UHF stations)—to warrant treatment which is, to a degree, disparate. Moreover, as the proponents of the rule point out, an administrative agency is not obligated to deal with all of the aspects of a problem at one time. As some of these other sources approach similarity in the three national networks in some of the pertinent respects—for example, the national sale by syndi-

[14] According to KTLE, the major centers of population in the area are Pocatello, Blackfoot, and Idaho Falls, and it puts a principal-city signal over the first two and a Grade B signal over the third. The 1970 Census population of these places is, respectively, 40,036; 8,716; and 35,776.

[15] Northern and ABC in reply discuss some of the dealings between these parties concerning affiliation, which need not be detailed here.

In reply ABC states that Northern's estimates as to the number of homes it would add to the ABC network represented "incorrect assumptions or misapplication of methodology".

[16] We point out, also, that there is no restriction on a fundamental right of the three networks to compete in these two VHF situations: To compete for a primary affiliation with one of the VHF stations.

cators of some of the commercial slots in the programs they furnish to stations—it may be appropriate to adopt similar regulations as to them. The whole subject of the distribution of nonnetwork TV program material, both to stations and to CATV systems, is under study in Docket 18179. NBC also claims some degree of discrimination between networks, the "unaffiliated" network as opposed to those in the market having primary relationships, but this is not the case. The rule—paragraph (1)(3)—specifically prohibits an affiliated station in the market from carrying programs from the other network having an affiliation, until they have been offered to the "third" station, just as much as it prohibits carriage of the programs of the "unaffiliated network" without such an offer. This subject was discussed in paragraph 40 of the first report and order (28 FCC 2d 189). Moreover, the rule applies to whatever network in a market involved is "unaffiliated". In the case of Raleigh-Durham and Augusta, it was NBC; it appears now that in the Traverse City-Cadillac market it will be ABC; and it will be CBS if "third" stations come into being in markets where NBC and ABC now have the primary affiliations. The rule does nothing more than apply (and to some extent stops short of applying) to these markets the general principle that in these "scarcity" situations one of the three networks (or in some cases two) must rely on a UHF station as its principal outlet. As indicated in the first report and order (paragraph 49 and footnote 32, pp. 192–193), NBC has the UHF station in fewer situations than the other networks.

27. NBC also argues as grounds for reconsideration that the Durham-Raleigh UHF station carries considerable network programing, more than the Commission's decision indicated, and that virtually all network programs are cleared in this market, so that the rule will do little or no good. As indicated in footnote 6, above, we assume NBC's statements in this connection are correct. But this is not reason to change the decision. Using NBC's figures, the situation in Raleigh-Durham is generally the same as that in the Augusta market in 1970, also analyzed in the first report and order (footnote 17, 28 FCC 2d 181), where the UHF station carried 16 hours of evening programs and only 2 hours of network material was not presented in the market. We recognized in the first report and order (paragraph 44–45, 28 FCC 2d 190–191) the fact that these UHF stations now carry substantial amounts of network material, some of it reasonably popular, and that the current "recapture" policies adopted by all of the networks will guarantee them more stability than they have had in the past in this respect. But we also expressed the view that they will be benefitted by guaranteed access to programs, of high popularity, and with greater stability than even the new "recapture" policies provide; and that so benefitted they can become viable operations, making a permanent contribution to the full development of the nation's television system. We are still of the same view.

28. NBC also alleges that extensive loss of network service will occur. This was carefully considered in the first report and order. In evaluating this situation in Raleigh-Durham we took account of the fact—now mentioned by WRDU—that the area to the east which may be lost to NBC from its Raleigh-Durham outlet is generally well served by NBC-affiliated stations in other markets (paragraph 48, 28 FCC 2d 192). This appears to be the case, and we affirm the conclusion reached there, that (considering the improvement in UHF facilities which may be expected as the stations gain audience and economic strength) the gains to the public outweigh the losses.

29. NBC also urges that it is inappropriate to adopt the present rule, to offset the impact of the "prime time access rule", labelling this "one ill-conceived regulation being used as a basis for adopting another ill-conceived one." This argument is without merit. The "prime time access rule", § 73.658(k) enacted in May 1970, was adopted by the Commission (although not unanimously) in furtherance of a public-interest purpose, the opening up of prime time in the top 50 markets for the presentation of programs from alternative program sources. The problem involved here, in markets outside of the top 50, arises not from the rule itself but from the networks' action in response to it, cutting back their prime-time schedules across the board and not just in the top 50 markets, so that only 21 hours of prime-time programing is available in any market from each network. With the VHF stations in the markets involved here not limited by the rule in the amount of programs they may carry, they might choose to take well over two-thirds of the 63 total network prime hours available, leaving very little for the UHF stations. This is one factor leading to the adoption of the present rule. However, it is not the chief one, and was cited in the first report and order chiefly as reason for adopting the rule at this time rather than waiting (paragraphs 35 and 46, 28 FCC 2d 184 and 191). The public interest in both courses of action is clear. NBC also suggests that it would be fairer to place the burden of supplying the "third" station on the chief beneficiaries of the prime-time rule—nonnetwork producers and suppliers—rather than the networks. While some consideration of the nonnetwork program distribution process may be appropriate, as indicated above, it is network programing which is of key importance at this time as to the "third" stations who will benefit from the present rule. Accordingly the regulation adopted deals with that.

30. NBC's other argument concerns the economics of the situation; particularly interconnection costs: why should NBC continue to pay some $32,000 a year to feed programs to the Raleigh-Durham market when it cannot charge advertisers for the UHF station? In our view, this argument paints a misleading picture of economic hardship, for at least two reasons. First, neither NBC nor any other party commenting in this proceeding or the earlier Docket 16041 has disputed the statement, in the 1965 notice in that matter and again in the first report and order here, that the price to advertisers in "participating" programs does not necessarily, or usually, reflect the network rate for each station in the network lineup carrying the program, or whether in a particular market the carriage is on VHF or UHF (first report and order, paragraph 49 and footnote 31, 28 FCC 2d 192–193). Rather, it is a flat price per commercial minute (or shorter period such as 30 seconds) provided the program is cleared over stations having an aggregate network rate within a wide range, such as $90,000 to $120,000. Thus, normally, NBC's revenue from "participating" programs would not vary with carriage on WRDU–TV (UHF) or WTVD (VHF). As stated in the first report and order, it does not appear that carriage on UHF, in the few markets affected by the rule, will result in significant "softening" of the network lineup so as to make it a less attractive "buy" for advertisers. This discussion of course does not relate to "conventionally sponsored" programs, which NBC indicates do reflect individual charges (footnote 10 above) but there are currently few of these.[17] Second, and of equal importance, the rule is far from a complete preclusion of NBC's placing any programs on VHF. It may still place 6 hours of prime-time programs on VHF if it can obtain clearance, and, of course, all of its other programs except weekend and holiday afternoon sports programs. NBC's argument seems to assume that what is involved here is a complete affiliation with the UHF station to the exclusion of VHF carriage, but that is not the case. We expressed in the first report and order the hope that full primary affiliations would develop in these situations, and are certainly still of the same view; but the scope of the rule itself is substantially limited, as indicated above.

31. If NBC can demonstrate that it actually operates at a loss in the Raleigh-Durham market, taking into account the revenue attributable to that market and the costs of interconnection and payments to stations, some review of the situation would be in order. But we are not persuaded that this is at all likely to be the case, or that NBC will find it disadvantageous to continue to feed programs into the market. We hope and expect that in a fairly short time, the UHF carriage provided for by the rule will be a source of revenue to NBC.[18]

[17] The network prime-time schedules for 1971–72 list only three "sponsored" programs, all on NBC and on Sunday evening. These include the new James Stewart show sponsored by Procter and Gamble, and Walt Disney and Bonanza, which apparently will be carried at least partly on a "sponsored" basis. See Broadcasting Magazine, Apr. 5, 1971, p. 33. The 30-second rates in the other 17 NBC programs listed run from $13,000 to $64,000, varying with the program and the portion of the season.

32. *Situations covered by the rule—Idaho Falls-Pocatello.* In evaluating the arguments concerning the scope of the rule's applicability (paragraphs 17–22, above) we turn first to the Idaho Falls-Pocatello situation, involving three VHF stations. We reach, somewhat reluctantly, the conclusion that KIFI, the petitioner for reconsideration, is correct and that the rule should not apply to require offer to the Pocatello station, at least at this time. This is true for a combination of two reasons: (1) The failure of KTLE, Pocatello, to put predicted Grade A signal over Idaho Falls, one of the two large population centers of the market; and (2) the fact that "all-VHF" situations such as this were not part of the basic reason for beginning this proceeding—which was furtherance of UHF in "intermixed" situations—and, while they were mentioned in the Notice (paragraph 14(b)) and one such situation was the subject of comments (Anchorage, Alaska), this type of situation generally has not been explored at length. It may be that there is a question as to whether Commission regulation, designed to require program placement on a "third station", is appropriate in the absence of a general consideration such as promotion of UHF development, which has long been of great concern.[19] Therefore, and taking into account the loss of network programing which could result in a city which is one of the two population centers of the market and the city of license of the other stations, in view of KTLE's limited coverage of it, we are adopting pretty much the change urged by KIFI (paragraph 20, above). The rule will apply only where the unaffiliated station puts a Grade A signal over the cities of license of the other regular (not satellite) affiliated stations,[20] except that where it is in the same city with one of these, and the latter puts a Grade B but not a Grade A signal over the city of the other affiliated station, the rule will apply if the "third" station also puts a Grade B signal over the other city. The rule will thus not apply in widely separated markets such as Casper-Riverton, Wyo., where there is very little Grade B coverage by one station of the other's Grade B area.

33. In reaching this conclusion, we do not accept by any means KIFI's contensions that Idaho Falls and Pocatello are not a "market" suitable for application of the rule (assuming the Pocatello station operates with facilities which will put a Grade A signal over Idaho Falls), nor do we necessarily agree with its showing as to KTLE's coverage. Moreover, as indicated we reach this conclusion reluctantly, for it appears equitable and desirable that where there are three stations in a market, each should have a network affiliation so that they compete on roughly equal terms. Parties may wish to explore this matter by way of petition for reconsideration, and it appears appropriate the rule may be restored to its present posture possibly in time for the next "effective date" of April 1, 1972. But for the present, for the reasons stated, in our view the rule requiring the placement of network programs should be modified as indicated.[20]

34. *"Reasonably comparable facilities".* The rule change just mentioned meets one of the objections by ABC to the rule, that there should be some guarantee that the coverage area of the unaffiliated station is in the same general location, as well as comparable in size to, that of the affiliated stations. We do not believe it appropriate to adopt ABC's other request, that the standard for "reasonably comparable facilities" be raised from two-thirds to 90 percent of the Grade B coverage area of the smaller of the affiliated stations' Grade B areas. The two-thirds standard was chosen after careful consideration, taking into account the need for avoiding extensive loss of network programing to the public even in the short run, and, on the other hand, the concept that UHF stations have up to now often been unable to afford comparable technical facilities, but that with the benefit from the new rule they may be expected, with time, to increase their facilities to a point of true comparability from a coverage standpoint (see first report and order, paragraph 48, 28 FCC 2d 192). For the time being, we adhere to the determination reached in the decision.

35. However, this is only a conclusion reached for the time being. Some UHF stations do not operate with anything like the maximum facilities they could have—for example, the Traverse City UHF station has an E.R.P. of only 371 kw.—and we believe that if they are to continue to benefit from the rule they should take steps to improve their facilities to a point of real comparability. If they do not do so, after a year or so of operation under the rule, it will be appropriate to take another look at the situation, and possibly raise the standard as to what are "reasonably comparable facilities" at least where the station has been operational for some time.

36. *Applicability in smaller markets.* Likewise, we must reject ABC's argument that the rule should apply only in the larger markets, such as the top 100. As pointed out in opposition to the petition, it is in the smaller markets that network programing is particularly crucial to the viability of a station, at least a UHF station. Therefore, in our judgment, such new stations must be assured to the maximum extent of the availability of such material. It may be, as ABC urges, that even with this advantage the station may not succeed; but this is a small price to pay for increasing its chances for success. The harmful consequences mentioned as possibly occurring (paragraph 21, above) do not equal in importance the advantages of improving the conditions for establishment and survival. While there doubtless are, as ABC suggests, markets too small to support three stations, we point out that there are many markets with three regular VHF stations outside of the top 100, including markets as small as 175 and 176 in net weekly circulation (Reno, Nev., and Medford, Oreg.), considerably smaller than Traverse City-Cadillac, for example. If an entrepreneur is willing to invest in starting a station in the smaller markets, we believe he is entitled to the benefit of favorable conditions, just as much as in larger markets.

37. The argument (paragraph 18, above) that ARB "market" definitions are inappropriate for this purpose must likewise be rejected. These definitions represent the basis on which television programing and advertising is largely sold in the United States, and are recognized by the Commission, for example in CATV regulation. The definitions are

[18] Thus, NBC may still place on VHF, without restriction, programs such as the Today and Tonight shows, and the evening news program, as well as some prime-time programs. It must be borne in mind that the $32,000 line charge figure mentioned is extremely small in relation to network revenues (net broadcast revenues for three networks of $1,114,600,000 in 1970, of which one-third would be about $375 million), and in relation to the portion thereof which could be regarded as attributable to the Raleigh-Durham market, whose ADI has about 0.4 percent of the Nation's TV homes according to ARB (267,000 of 61,000,000). NBC currently pays WRDU–TV nothing in compensation.

[19] In these situations there may be other problems which have led to the absence of a third regular affiliation and make a "forced placement" rule inappropriate. For example, KTLE has had a troubled history, is now in hearing against a new applicant in which its financial qualifications are in issue, and recently (July 2, 1971) gave notice that it is suspending operations.

[20] There is such Grade A coverage of the other market city in all of the VHF–UHF cases mentioned herein. As to other markets now having two stations, this will not be a problem in those (e.g., Baton Rouge) which consist of stations in only one city. In other "hyphenated" situations where the rule may apply in the future, e.g., Steubenville-Wheeling, Ohio-W. Va., we believe parties contemplating UHF stations should plan their facilities so that they put a Grade A signal over all of the other market television cities, if they wish to take advantage of the rule.

much the same as those used by the Commission in its annual summaries of television financial data, where the markets contain three or more operating stations. Moreover, in many instances they represent concepts adopted by the stations themselves, in obtaining authority to identify with the other city in the market as well as their city of license (e.g. the Cadillac VHF station and both Idaho Falls stations). With the adjustment made above to exclude markets having cities really widely separated, such as Casper-Riverton, Wyo., we conclude that this approach is appropriate.

Other matters—38. *Notice by nonoperating stations.* The situation in Augusta, Ga., has been discussed above (paragraphs 3 and 5). While no action is necessary on the stay request, we find that the facts of that situation indicate some changes in the provisions of the rule concerning notice by nonoperating stations that they will be on the air by one of the operating dates of the rule (October 1 or April 1) and remain on the air for at least 6 months (§ 73.658(l)(1)(ii)). It was our intention to provide "leadtime" of 3 months, so that program schedules and advertising may be arranged in ample time, and undue confusion and uncertainty avoided. Therefore the rule now states that nonoperating stations must give notice by July 1 or January 1, with respect to the October or April dates. Upon further consideration, we are of the view that a slight additional time should be required, so that any questions which may exist as to the applicability of the rule, the station's financial qualifications, etc., may be resolved before the 3 months "leadtime". Therefore we are changing the rule to require an additional 20 or 21 days' notice by nonoperating stations, so that the notice is required by June 10 for the October 1 date, and December 10 for the April 1 date.

39. We are also putting into the rule language to make the notice a more formal matter, providing for notification to the Commission and also service on the other stations in the market and the three networks.[21]

40. *Suggestions of CBS.* CBS raised three matters in support of its contention that the rule is of great complexity and may present problems in interpretation and application. It is claimed that the definition of "special" programs (§ 73.658(l)(1)(ix))—any program presented less often than once a week—is difficult, for example in including alternating programs broadcast regularly on a biweekly basis. While the definition in this respect may not accord entirely with what some would call these programs, we do not find any problem. The "unaffiliated station" will either take or not take the time segment involved. CBS also claims that the rule is unclear as to what happens where there are two "unaffiliated stations" in a market and both accept the same program. We believe the rule (Note 1) is sufficiently definite to deal with this situation, considering that it does not exist now and is not likely to in the near future: The network must offer its programs falling under the rule to both stations, but the 15-hour "first call" provision is an overall requirement. The rule does not deal with placement on one of the unaffiliated stations rather than the other, leaving the network free to choose.

41. CBS also urges that the provision concerning the unaffiliated station's acceptance of the programing offered—§ 73.658(l)(4)(iii)—is ambiguous. This section provides that the acceptance or indication of nonacceptance if possible shall be within 2 weeks after the offer, and programs "not accepted within 30 days of the date of the offer" shall be deemed not accepted. CBS claims that the 2 weeks and 30 days references appear to conflict. It was intended that the unaffiliated station should indicate within 2 weeks which 15 hours of programs it wants to take; and then, if there are any problems involved (e.g., with respect to time of broadcast), to permit an additional 2 weeks or so for working these matters out; but to set a final limit of 16 more days on such negotiations. We are not persuaded that any clarification is really necessary; however, we are adding the language "where any negotiations concerning particular programs between the network and the station are involved, * * *" before the 30 days reference. We are also deleting the words "if possible" from this sentence, since a station decision within 2 weeks of the offer (whenever that is given) should be feasible.

Summary. 42. For the reasons set forth at length above and after careful consideration,[22] the rule adopted in the first report and order herein is affirmed, except as modified with respect to what are "reasonably comparable facilities" (§ 73.658(l)(1)(x)); the details of the notice required in the case of nonoperating stations (§ 73.658(l)(1(ii)); and the addition of the language mentioned in the last paragraph concerning the time for acceptance (§ 73.658(l)(4)(iii)).

43. In view of the foregoing, pursuant to authority contained in sections 4(i), 303 (i) and (r), and 405 of the Communications Act of 1934, as amended: *It is ordered*, That:

(1) Section 73.658(l) is amended, as set forth below, effective September 14, 1971.

(2) The "Petition for Partial Reconsideration of First Report and Order", filed on April 20, 1971, by Western Telecasters, Inc. (KCST), is denied; and

(3) The petitions for reconsideration filed on May 6, 1971, by American Broadcasting Cos., Inc. (ABC), Columbia Broadcasting System, Inc. (CBS), National Broadcasting Co., Inc. (NBC), and the Post Co. (KIFI–TV) are granted to the extent indicated hereinabove and in the appendix hereto; and in all other respects are denied.

(4) The "Motion for Stay" filed by American Broadcasting Cos., Inc. (ABC), on June 28, 1971, is denied, insofar as it requests relief beyond that granted by the adoption of this decision.

(Secs. 4, 303, 405, 48 Stat., as amended, 1066, 1082, 1095; 47 U.S.C. 154, 303, 405)

Adopted: July 28, 1971.

Released: August 4, 1971.

FEDERAL COMMUNICATIONS COMMISSION,[23]
[SEAL] BEN F. WAPLE,
Secretary.

In § 73.658(l), subparagraphs (1) (ii) and (x) and (4) (iii) are amended to read as follows:

§ 73.658 Affiliation agreements and network program practices.

* * * * * * *

(l) * * *

(1) * * *

(ii) "Operational station" means a station authorized and operating as of June 10 (with respect to programs beginning October 1) or as of December 10 (with respect to programs beginning April 1), or a station authorized and which gives notice to the Commission by such June 10 or December 10 date that it will be on the air by such October 1 or April 1 date (including request for program test authority if none has previously been given), and commits itself to remain on the air for 6 months after such October 1 or April 1 date. Such notice shall be received at the Commission by the June 10 or December 10 date mentioned, and shall show that copies thereof have been sent to the three national networks and to the licensees of all operating television stations in the market.

* * * * * * *

(x) "Reasonably comparable facilities" means station transmitting facilities (effective radiated power and effective antenna height above average terrain) such that the station's Grade B coverage area is at least two-thirds as large (in square miles) as the smallest of the market affiliated stations' Grade B coverage areas. Where one or both of the affiliates is licensed to a city different from that of the unaffiliated station, the term "reasonably comparable facilities" also includes the requirement that the unaffiliated station must put a predicted Grade A or better signal over all of the city of license of the other regular (nonsatellite) station(s), except that where one of the affiliated stations is licensed to the same city as the unaffiliated station, and puts a Grade B but not a Grade A signal over the other city of license, the unaffiliated station will be considered as having reasonably comparable facilities if it too puts a predicted Grade B signal over all of the other city of license.

* * * * * * *

(4) * * *

(iii) The offer by the network shall, to the extent possible, be on or before July 15 with respect to programs beginning in the fall season, and by January 15 with respect to programs presented after April 1, or otherwise as soon as possible. The unaffiliated station's acceptance or indication of nonacceptance shall be within 2 weeks after the date of the offer; where any negotiations between the network and the station concerning particular programs are involved, programs not accepted within 30 days of the date of the offer shall be deemed not accepted.

* * * * * * *

[FR Doc.71–11430 Filed 8–6–71;8:53 am]

[21] The notice recently given by the Traverse City UHF station meets these requirements, since it was dated June 4, 1971, and shows that copies were sent to the two market VHF stations and the three networks.

[22] We agree with ABC that in a rule-making proceeding such as this, where the notice instituting it did not propose the form or substance of a particular rule for comment, petitions for reconsideration are entitled to more attention than would otherwise be the case, and have given it herein. However, this does not apply to some of the matters urged, for example NBC's arguments concerning loss of coverage arising from the Durham UHF station's western location. This matter was specifically pointed out in the notice, and NBC did not discuss it in its comments in response thereto.

[23] Commissioner Johnson absent.

Title 49—TRANSPORTATION

Chapter V—National Highway Traffic Safety Administration, Department of Transportation

[Docket No. 71–17; Notice No. 1]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

New Pneumatic Tires and Tire Selection and Rims for Passenger Cars

Correction

In F.R. Doc. 71–10840 appearing at page 14134 in the issue for Friday, July 30, 1971, the last entry opposite Tire Size 8.55–15 in Table I–A on page 14135, now reading "6½–66", should read "6½–JJ".

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

Washita National Wildlife Refuge, Okla.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8–7–71).

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

OKLAHOMA

WASHITA NATIONAL WILDLIFE REFUGE

The public hunting of quail and cottontail rabbits on the Washita National Wildlife Refuge, Okla., is permitted only on the areas designated by signs as open to hunting. This open area, comprising 2,200 acres, is delineated on maps available at refuge headquarters, Butler, Okla., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, N. Mex. 87103.

Upland game hunting shall be in accordance with all applicable State regulations governing the hunting of quail and cottontail rabbits subject to the following special conditions:

(1) The open season for quail hunting on the refuge extends from November 20, 1971, through January 15, 1972, inclusive.

(2) The open season for cottontail rabbit hunting on the refuge extends from November 20, 1971, through January 15, 1972, inclusive.

(3) Hunting of either quail or cottontail rabbits is permitted only on Mondays, Thursdays, Saturdays, and national holidays.

(4) Rifles and handguns are prohibited on the refuge. Only shotguns are legal firearms for the taking of quail and rabbits on the refuge.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 15, 1972.

ROBERT H. STRATTON, Jr.,
Refuge Manager.

JULY 27, 1971.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 53]

VEAL AND CALF CARCASSES; VEALERS AND SLAUGHTER CALVES

Proposed Standards for Grades

Notice is hereby given, in accordance with the administrative procedure provisions of 5 U.S.C. 553, that pursuant to authority conferred by the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621, et seq.) it is proposed to amend (1) the standards for grades of veal and calf carcasses (7 CFR 53.107–53.111), and (2) the standards for grades of vealers and slaughter calves (7 CFR 53.120–53.124).

Statement of Consideration. These grade standards are proposed under authority of the Agricultural Marketing Act of 1946 which provides for issuance of official U.S. grades to designate different levels of quality of agricultural products for the voluntary use of producers, buyers, consumers, and others. Official grading service is also provided under this Act upon request of the applicant and upon payment of a fee to cover the cost of the service.

Grade standards for veal and calf carcasses and vealers and slaughter calves were initially promulgated in 1928. Over the years, revisions in these standards were made to facilitate their interpretation or to coordinate them with changes made in the official standards for grades of beef and slaughter cattle. The last substantive change was made in 1951. Since then, there has been a marked reduction in the number of vealers and calves slaughtered—and especially those that would have Choice and Prime grade carcasses. Under the present standards, Prime grade veal and calf is nearly nonexistent and, among conventionally produced vealers, those that will have Choice grade carcasses make up a distinct minority. This is in direct contrast with the situation in beef where it is estimated that about 85 percent of the federally graded beef is graded Choice or Prime. A similar situation also prevails in the case of lamb. These changes in production of veal and calf have been brought about largely by a combination of economic pressures—the high cost of producing veal on conventional rations (largely milk) and the very strong demand—and resultant high prices—for feeder calves to be used for beef production. As a result, practically all of the thickly muscled calves which have the potential for producing Choice and Prime grade veal and calf carcasses are now being utilized in the production of beef.

In this connection, though, in the last few years there has been a steady increase in the use of milk substitute rations for the production of vealers for slaughter. By this means, carcasses with lean flesh typical of highly desirable veal are being produced from vealers which are much larger and older than those which in earlier years were marketed as veal. In the trade, these kinds of carcasses are accepted, without qualification, as the most desirable veal currently being produced.

These kinds of carcasses were not being produced when the present standards for veal and calf were developed. Therefore, the present standards are inadequate, in some respects, for use in classifying and grading such carcasses—especially to reflect the high esteem which these carcasses now command in the market.

It appears likely that the aforementioned changes in production of veal and calf will continue—or possibly accelerate. Because of this, it appears highly desirable to revise the grade standards for veal and calf to permit a sufficient volume in the higher grades for effective use of the standards in marketing.

The views of many slaughterers, dealers, and retailers in veal and calf carcasses were obtained with respect to needed changes in the veal and calf grade standards. To the extent possible, those suggestions have been incorporated in this proposal.

The significant changes involved in this proposed revision of the standards are as follows:

1. Increased emphasis would be placed on the color of the lean in determining whether carcasses are classed as "veal" or "calf." The maximum color of lean at the juncture of the veal and calf classes would be dark grayish pink. Provisions would also be included to clarify the basis for differentiating between veal and calf in carcasses whose color of lean is within the limits of the veal class but whose other evidences of maturity are within the limits of the calf class.

2. Conformation requirements for all grades of veal and calf carcasses would be reduced one grade. For example, the present minimum requirements for the Choice grade are those proposed for the Prime grade.

3. Quality requirements for veal would be reduced approximately one-half grade for the Prime grade and one full grade for the Choice, Good, and Standard grades.

4. In calf, the quality requirements—for the youngest carcasses—also would be reduced approximately one-half grade for Prime and one full grade for the Choice, Good, and Standard grades. However, for more mature calf carcasses, this reduction would become progressively less and there would be no reduction in the quality for carcasses with maximum maturity included in this class. This variable rate of reduction in the quality requirements for carcasses within the calf class is proposed in order that the requirements for calf carcasses would continue to be coordinated with the requirements for the corresponding grades of beef.

5. The evaluation of quality in intact carcasses usually would be made by using only two factors—the amount of feathering and the quantity of fat streaking within and upon the inside flank muscles. This would be a reduction in the number of factors considered and should simplify the application of the standards. Provision is also made for the use of these same two factors in evaluating quality of veal cuts and calf cuts when marbling requirements are not specified in the standards. Also, for the evaluation of quality in cuts when neither feathering nor flank fat streakings are available, quality would be evaluated on the basis of the firmness of the lean. When it is necessary to consider marbling in grading calf cuts, the evaluation of quality would continue to be based on the characteristics evident in the cut surface of the lean.

6. The Cull grade would be eliminated and the Utility grade would include all veal and calf carcasses whose characteristics are inferior to those specified as minimum for the Standard grade. This means that the number of grades would be reduced from six to five with the following names: Prime, Choice, Good, Standard, and Utility.

7. Also, minor editorial changes would be made throughout the standards to clarify their interpretation and application.

The standards for grades of vealers and slaughter calves would be revised to coordinate them with the proposed revisions in the standards for grades of veal and calf carcasses.

The official U.S. standards for grades of veal and calf carcasses and the official U.S. standards for grades of vealers and slaughter calves would be revised as follows:

1. Sections 53.107, 53.108, 53.109, 53.110, and 53.111 would be renumbered as §§ 53.108, 53.109, 53.110, 53.111, and 53.112, respectively.

2. A new § 53.107 would be promulgated, and renumbered §§ 53.108, 53.109, 53.110, 53.111, and 53.112 would be revised, to read, respectively, as follows:

§ 53.107 Scope.

These standards for grades of veal and calf are applicable to the grading of carcasses, sides, hindsaddles, hindquarters, foresaddles, and forequarters, and to the following primal wholesale cuts—legs, loins, racks, and shoulders. However, throughout these standards wherever the words "carcass" or "carcasses" are used these are intended to also mean such parts of carcasses and primal wholesale cuts.

§ 53.108 Differentiation between veal, calf, and beef carcasses.

Differentiation between veal, calf, and beef carcasses is made primarily on the basis of the color of the lean, although such factors as texture of the lean; character of the fat; color, shape, size, and ossification of the bones and cartilages; and the general contour of the carcass are also given consideration. Typical veal carcasses have a grayish pink color of lean that is very smooth and velvety in texture and they also have a slightly soft, pliable character of fat and marrow, and very red rib bones. By contrast, typical calf carcasses have a grayish red color of lean, a flakier type of fat, and somewhat wider rib bones with less pronounced evidences of red color. Calf carcasses with maximum maturity for their class have lean flesh that is usually not more than moderately red in color, their rib bones usually have a small amount of red and only a slight tendency toward flatness, and such carcasses are not noticeably "spready" or barrelly" in contour. Such carcasses, when split, have cartilages on the ends of the chine bones that are entirely cartilaginous, there is cartilage in evidence on all vertebrae of the spinal column, and the sacral vertebrae show distinct separation. Carcasses with evidences of more advanced maturity than described in this paragraph are classified as beef. Carcasses not classified as beef but whose color of lean is not comparable with their other evidences of maturity shall be classed as veal or calf in accordance with the following:

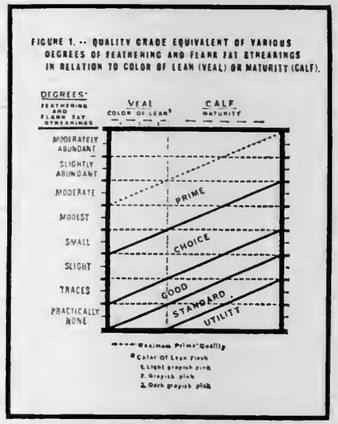
(a) Carcasses whose indications of maturity other than color of lean are within the veal class but whose color of lean is darker than dark grayish pink shall be classed as calf.

(b) Carcasses whose evidences of maturity other than color of lean are within the range included in the calf class shall be classed as veal provided they have a correspondingly lighter color of lean within the darker one-half of the range of color included in the veal class. For example, a carcass whose evidences of maturity other than color of lean are midway within the range of the calf class shall be classed as veal if its color of lean is not darker than midway within the darker one-half of the range of color included in the veal class.

(c) Carcasses with color of lean within the lighter one-half of the veal class shall be classed as veal provided their other evidences of maturity do not exceed that associated with the juncture of the calf and beef classes.

§ 53.109 Classes of veal and calf carcasses.

Class determination is based on the apparent sex condition of the animal at time of slaughter. Hence, there are three classes of veal and calf carcasses—steers, heifers, and bulls. While recognition may sometimes be given to these different classes on the market, especially calf carcasses from bulls that are approaching beef in maturity, the characteristics of such carcasses are not sufficiently different from those of steers and heifers to warrant the development of separate standards for them. Therefore, the grade standards which follow are equally applicable to all classes of veal and calf carcasses.



§ 53.110 Application of standards.

(a) Veal and calf carcasses are graded on a composite evaluation of two general grade factors—conformation and quality. These factors are concerned with the proportions of lean, fat, and bone in the carcass and the quality of the lean.

(b) Conformation is the manner of formation of the carcass. The conformation descriptions included in each of the grade specifications refer to the thickness and fullness of the carcass and its various parts. Conformation is evaluated by averaging the conformation of the various parts of the carcass, considering not only the proportion that each part is of the carcass but also the general value of each part as compared with other parts. Superior conformation implies a high proportion of meat to bone and a high proportion of the weight of the carcass in the more valuable parts. It is reflected in carcasses which are thickly fleshed and full and thick in relation to their length and which have a plump, well-rounded appearance. Inferior conformation implies a low proportion of meat to bone and a low proportion of the weight of the carcass in the more valuable parts. It is reflected in carcasses which are very thinly fleshed, and very narrow in relation to their length, and which have a very angular, thin, sunken appearance.

(c) Quality of lean—in all veal carcasses, all unribbed calf carcasses, and in ribbed calf carcasses in which their degree of marbling is not a consideration—usually can be evaluated with a high degree of accuracy by giving equal consideration to the following factors, as available: (1) The amount of feathering (fat intermingled within the lean between the ribs) and (2) the quantity of fat streakings within and upon the inside flank muscles. (In making these evaluations, the amounts of feathering and flank fat streakings are considered in relation to color (veal) and maturity (calf).) In addition, however, consideration also may be given to other factors if, in the opinion of the grader, this will result in a more accurate quality assessment. Examples of such other factors include firmness of the lean, the distribution of feathering, the amount of fat covering over the diaphragm or "skirt", and the amount and character of the external and kidney and pelvic fat. In making these evaluations, feathering and flank fat streakings are categorized in descending order of quantity as follows: extremely abundant, very abundant, abundant, moderately abundant, slightly abundant, moderate, modest, small, slight, traces, practically none, and none. Figure 1 depicts the quality grade equivalent of various degrees of feathering and flank fat streakings in relation to color of lean (veal) or maturity (calf). From this figure it can be seen, for example, that the degrees of feathering or fat streakings associated with minimum Choice quality for veal increase from minimum traces for carcasses having the lightest color of lean to maximum traces for carcasses with a dark grayish pink color of lean.

FIGURE 1.—QUALITY GRADE EQUIVALENT OF VARIOUS DEGREES OF FEATHERING AND FLANK FAT STREAKINGS IN RELATION TO COLOR OF LEAN (VEAL) OR MATURITY (CALF).

(d) When grading cuts and marbling is not a requirement and when neither feathering nor flank fat streakings are available, quality is based on the firmness of the lean. The requirements relating to firmness of the lean are described in the specifications for each grade and are based on the following degrees in descending order of firmness; extremely firm, very firm, firm, moderately firm, slightly firm, slightly soft, moderately soft, soft, very soft, and extremely soft. However, no credit is given to additional firmness of lean beyond "maximum slightly firm" in veal or beyond "maximum moderately firm" in calf.

(e) When grading ribbed calf carcasses or portions of such carcasses in which their degree of marbling is a consideration, the quality evaluation of the lean is based entirely on the characteristics of the lean as exposed in a cut surface. The official standards for grades of beef recognize nine different degrees of marbling. In descending order of amount these are as follows: abundant, moderately abundant, slightly abundant, moderate, modest, small, slight, traces, and practically devoid. Illustrations of the lower limits of eight of these nine degrees are available from the Department of Agriculture. These degrees of marbling and their illustrations also are used to describe and evaluate marbling in calf carcasses. Marbling requirements are included in each of the Prime, Choice, and Good grade specifications.

(f) To facilitate the application of the standards, no credit is given to degrees

of feathering, flank fat streakings, or marbling beyond those associated with the quality grade equivalent of "maximum Prime." "Maximum Prime" quality is represented by a development of each of these three factors which is two degrees greater than that specified as minimum for Prime.

(g) The quality indicating requirements referenced in the standards for each grade are based on their development in properly chilled carcasses and, when these relate to a cut surface of the lean, they are based on a cross section of the ribeye muscle between the 12th and 13th ribs. For legs and shoulders, these qualities shall be consistent with their normal development in relation to those specified for the ribeye muscle.

(h) The final grade of a carcass is based on a composite evaluation of its conformation and quality. Conformation and quality often are not developed to the same degree in a carcass and it is obvious that each grade will include various combinations of development of these two characteristics. Examples of how conformation and quality are combined into the final quality grade are included in each of the grade descriptions. However, the principles governing the compensations of variations in development of quality and conformation are as follows: In each of the grades a superior development of quality is permitted to compensate, without limit, for a deficient development of conformation. In this instance the rate of compensation in all grades is on an equal basis—a given degree of superior quality compensates for the same degree of deficient conformation. The reverse type of compensation—a superior development of conformation for an inferior development of quality—is not permitted in the Prime and Choice grades. In all other grades this type of compensation is permitted but only to the extent of one-third of a grade of deficient quality. The rate of this type of compensation is also on an equal basis—a given degree of superior conformation compensates for the same degree of deficient quality.

(i) The colors of lean referenced in the standards reflect only the colors as present in normally developed veal and calf carcasses. They are not intended to apply to colors of lean associated with so-called "dark cutting" veal or calf. This condition does not have the same significance in grading as do the darker shades of pink and red associated with advancing maturity. The dark color of the lean associated with "dark cutting" veal or calf is present in varying degrees from that which is barely evident to so-called "black cutters" in which the lean is actually nearly black in color and usually has a "gummy" texture. Dependent upon the degree to which this characteristic is developed, the final grade of carcasses which otherwise would qualify for the Prime, Choice, or Good grades may be reduced as much as one full grade. In veal or calf otherwise eligible for the Standard grade, the final grade may be reduced as much as one-half grade. In the Utility grade this condition is not considered.

(j) Carcasses qualifying for any particular grade may vary with respect to their relative development of the various grade factors and there will be carcasses which qualify for a particular grade, some of the characteristics of which may be typical of another grade. Because it is impractical to describe the nearly limitless number of such recognizable combinations of characteristics, the standards for each grade describe only a veal or calf carcass which has a relatively similar development of conformation and quality and which also represents the lower limit of each grade.

§ 53.111 Specifications for official U.S. standards for grades of veal carcasses.

(a) *Prime.* (1) Veal carcasses with minimum Prime grade conformation tend to be moderately wide and thick in relation to their length. They are slightly thick-fleshed and have a slightly plump appearance. Legs are slightly thick and bulging. Loins and backs tend to be moderately full and plump. Shoulders and breasts tend to be moderately thick.

(2) Figure 1 in § 53.110 depicts the degree of feathering and flank fat streakings associated with minimum Prime quality for different colors of lean. The lean flesh is slightly firm, regardless of its color.

(3) A development of quality superior to that specified as minimum for the Prime grade may compensate, without limit, for a development of conformation inferior to that specified as minimum for Prime at an equal rate as indicated in the following example. A carcass which has midpoint Prime quality may have conformation equal to the midpoint of the Choice grade and remain eligible for Prime. However, regardless of the extent to which the conformation of a carcass exceeds the minimum of the Prime grade, a carcass must have minimum Prime quality to be eligible for Prime.

(b) *Choice.* (1) Veal carcasses with minimum Choice grade conformation tend to be slightly wide and thick in relation to their length. They tend to be slightly thin-fleshed and have little or no evidence of plumpness. Loins, backs, and legs are slightly thin and nearly flat. Shoulders and breasts tend to be slightly thin.

(2) Figure 1 in § 53.110 depicts the degree of feathering and flank fat streakings associated with minimum Choice quality for different colors of lean. The lean flesh is slightly soft regardless of its color.

(3) A development of quality superior to that specified as minimum for the Choice grade may compensate, without limit, for a development of conformation inferior to that specified as minimum for Choice at an equal rate as indicated in the following example: A carcass which has midpoint Choice quality may have conformation equal to the midpoint of the Good grade and remain eligible for Choice. However, regardless of the extent to which the conformation of a carcass exceeds the minimum of the Choice grade, a carcass must have minimum Choice quality to be eligible for Choice.

(c) *Good.* (1) Veal carcasses with minimum Good grade conformation are rangy, angular, and narrow in relation to their length. They are thinly fleshed. Legs are thin and tapering and slightly concave. Loins and back are depressed. Shoulders and breasts are thin.

(2) Figure 1 in § 53.110 depicts the degree of feathering and flank fat streakings associated with minimum Good quality for different colors of lean. The lean flesh is moderately soft regardless of its color.

(3) A development of quality superior to that specified as minimum for the Good grade may compensate, without limit, for a development of conformation inferior to that specified as minimum for Good at an equal rate as indicated in the following example: A carcass which has midpoint Good grade quality may have conformation equivalent to the midpoint of the Standard grade and remain eligible for Good. Also, a carcass which has conformation at least one-third grade superior to that specified as minimum for the Good grade may qualify for Good with a development of quality equivalent to the lower limit of the upper third of the Standard grade. Compensation of superior conformation for inferior quality is limited to one-third grade of deficient quality.

(d) *Standard.* (1) Veal carcasses with minimum Standard grade conformation are very rangy and angular and very narrow in relation to their length. They are very thinly fleshed. Legs are very thin and moderately concave. Loins and backs are very depressed. Shoulders and breasts are very thin.

(2) Figure 1 in § 53.110 depicts the degree of feathering and flank fat streakings associated with minimum Standard quality for different colors of lean. The lean flesh is soft regardless of its color.

(3) A development of quality superior to that specified as minimum for the Standard grade may compensate, without limit, for a development of conformation inferior to that specified as minimum for Standard at an equal rate as indicated in the following example: A carcass which has midpoint Standard quality may have conformation equal to the midpoint of the Utility grade and remain eligibility for Standard. Also, a carcass which has conformation at least one-third grade superior to that specified as minimum for the Standard grade may qualify for Standard with a development of quality equal to the minimum of the upper third of the Utility grade. Compensation of superior conformation for inferior quality is limited to one-third grade of deficient quality.

(e) *Utility.* The Utility grade includes those veal carcasses whose characteristics are inferior to those specified as minimum for the Standard grade.

§ 53.112 Specifications for official United States standards for grades of calf carcasses.

(a) *Prime.* (1) Calf carcasses with minimum Prime grade conformation tend to be moderately wide and thick in relation to their length. They are moderately thick-fleshed and have a moderately plump appearance. Legs tend to be moderately thick and bulging. Loins and backs tend to be moderately full and plump. Shoulders and breasts tend to be moderately thick.

(2) Figure 1 in § 53.110 depicts the degree of feathering and flank fat streakings associated with minimum Prime quality. The degree of marbling required for minimum Prime quality increases from minimum practically devoid for the very youngest carcasses classified as calf to a maximum moderate amount for carcasses with maturity at the juncture of the calf and beef classes. The lean flesh is moderately firm regardless of maturity.

(3) A development of quality superior to that specified as minimum for the Prime grade may compensate, without limit, for a development of conformation inferior to that specified as minimum for Prime at an equal rate as indicated in the following example: A carcass which has midpoint Prime quality may have conformation equal to the midpoint of the Choice grade and remain eligible for Prime. However, regardless of the extent to which the conformation of a carcass exceeds the minimum of the Prime grade, a carcass must have minimum Prime quality to be eligible for Prime.

(b) *Choice.* (1) Calf carcasses with minimum Choice grade conformation tend to be slightly wide and thick in relation to their length. They tend to be slightly thick-fleshed and have a slightly plump appearance. Legs are slightly thick but have little evidence of plumpness. Loins and backs are very slightly full and plump. Shoulders and breasts are slightly thick.

(2) Figure 1 in § 53.110 depicts the degree of feathering and flank fat streakings associated with minimum Choice quality. The degree of marbling required for minimum Choice quality increases from minimum practically devoid for carcasses at midpoint calf maturity to a maximum slight amount for carcasses with maturity at the juncture of the calf and beef classes. Marbling is not required for Choice quality in carcasses which are less than midpoint calf in maturity. The lean flesh is slightly firm regardless of maturity.

(3) A development of quality superior to that specified as minimum for the Choice grade may compensate, without limit, for a development of conformation inferior to that specified as minimum for Choice at an equal rate as indicated in the following example: A carcass which has midpoint Choice quality may have conformation equal to the midpoint of the Good grade and remain eligible for Choice. However, regardless of the extent to which the conformation of a carcass exceeds the minimum of the Choice grade, a carcass must have minimum Choice quality to be eligible for Choice.

(c) *Good.* (1) Calf carcasses with minimum Good grade conformation tend to be rangy, angular, and narrow in relation to their length. They tend to be thinly fleshed. Legs are thin and tapering and very slightly concave. Loins and backs are slightly shallow and depressed. Shoulders and breasts are thin.

(2) Figure 1 in § 53.110 depicts the degree of feathering and flank fat streakings associated with minimum Good quality. The minimum degree of marbling required for Good quality decreases from typical traces for carcasses with maturity at the juncture of the calf and beef classes to minimum practically devoid for carcasses midway in maturity within the more mature half of the range of maturity included in the calf class. In less mature carcasses, marbling is not required for Good quality. The lean flesh is moderately soft regardless of maturity.

(3) A development of quality superior to that specified as minimum for the Good grade may compensate, without limit, for a development of conformation inferior to that specified as minimum for Good at an equal rate as indicated in the following example: A carcass which has midpoint Good grade quality may have conformation equivalent to the midpoint of the Standard grade and remain eligible for Good. Also, a carcass which has conformation at least one-third grade superior to that specified as minimum for the Good grade may qualify for Good with a development of quality equivalent to the lower limit of the upper third of the Standard grade. Compensation of superior conformation for inferior quality is limited to one-third grade of deficient quality.

(d) *Standard.* (1) Calf carcasses with minimum Standard grade conformation are rangy, angular, and very narrow in relation to their length. They are very thinly fleshed. Legs are very shallow and depressed. Shoulders and breasts are very thin.

(2) Figure 1 in § 53.110 depicts the degree of feathering and flank fat streakings associated with minimum Standard quality. The lean flesh is soft regardless of maturity.

(3) A development of quality which is superior to that specified as minimum for the Standard grade may compensate, without limit, for a development of conformation inferior to that specified as minimum for Standard at an equal rate as indicated in the following example: A carcass which has midpoint Standard quality may have conformation equal to the midpoint of the Utility grade and remain eligible for Standard. Also, a carcass which has conformation at least one-third grade superior to that specified for the minimum of the Standard grade may qualify for Standard with a development of quality equal to the lower limit of the upper third of the Utility grade. Compensation of superior conformation for inferior quality is limited to one-third grade of deficient quality.

(e) *Utility.* The Utility grade includes those calf carcasses whose characteristics are inferior to those specified as minimum for the Standard grade.

3. Section 53.120, 53.121, 53.122, 53.123, and 53.124 would be revised to read as follows:

§ 53.120 Differentiation between vealers and calves.

Young bovine animals are segregated for market purposes as vealers or calves and this differentiation is intended to reflect the kind of carcass (veal or calf) they will produce. The differentiation between veal and calf carcasses is based very largely on the color of their lean and this is determined almost entirely by the extent to which the animal's diet has consisted of milk or a milk replacer. Therefore, the differentiation between vealers and calves is based primarily on evidences of type of feeding and age. Vealers that have subsisted largely on milk usually are less than 3 months of age. However, animals that have been raised on milk replacer rations frequently will be considerably more mature. In no case, though, may such an animal be considered a vealer if its evidences of maturity indicate that it is too mature to be classed as calf. Since vealers have consumed little, if any, roughages, they have the characteristic trimness of middle associated with limited paunch development. Calves are usually between 3 and 8 months of age, have subsisted partially or entirely on feeds other than milk or milk replacers for a substantial period of time, and have developed the heavier middles and other physical characteristics associated with maturity beyond the vealer stage.

§ 53.121 Classes of vealers and calves.

There are three classes of vealers and calves, based on sex condition—steers, heifers, and bulls. While recognition may sometimes be given to these different classes on the market, especially bull calves approaching beef in maturity, the market desirability of all three classes is sufficiently similar to permit them to be graded on the same standards.

§ 53.122 Application of standards.

(a) The grade of a vealer or slaughter calf is determined by a composite evaluation of two general considerations which influence carcass excellence, (1) conformation and (2) fatness, maturity, and other factors responsible for differences in quality of the lean flesh.

(b) Conformation refers to the general body proportions of the animal and to the ratio of meat to bone. Although primarily determined by the inherent muscular and skeletal systems, it is also influenced by the degree of fatness. Excellent conformation in vealers and slaughter calves is denoted by a wide-topped, straight-lined, thick-fleshed individual that is deep and full in the twist.

(c) In grading vealers and slaughter calves, quality of the lean flesh must necessarily be evaluated indirectly from

consideration, primarily, of the quantity, distribution, and type of fat or finish. Limited consideration is also given to such factors as the refinement of hair, hide, and bone and the smoothness and symmetry of the body. Finish is evaluated by noting variations in fullness in the brisket, flanks, and cod or udder and the apparent thickness of the fat covering over the back, loin, ribs, and legs.

(d) Since relatively few vealers or calves have an identical development of conformation and quality, it is obvious that each grade will include animals having various combinations of these two characteristics. Examples of how conformation and quality are combined into the final quality grade are included in each of the grade descriptions. However, the principles governing the compensation of variations in development of quality and conformation are as follows: In each of the grades superior quality is permitted to compensate for deficient conformation, without limit. The reverse type of compensation—superior conformation for inferior quality—is not permitted in the Prime and Choice grades. To qualify for one of these grades, a slaughter animal must have the minimum requirements specified for quality regardless of how much the conformation may exceed the minimum specified. In all other grades, such compensation is permitted but only to the extent of one-third of a grade of deficient quality. For both types of compensation, the rate of compensation is equal—a given degree of superior quality compensates for the same degree of deficient conformation and vice versa.

(e) Other factors—such as heredity and management—also may affect the development of grade-determining characteristics in vealers and calves. Although these factors do not lend themselves to descriptions in the standards, the use of factual information of this nature is justified in determining the grade of vealers and slaughter calves.

(f) Vealers or calves qualifying for any particular grade may vary with respect to the relative development of the individual grade factors. In fact, some will qualify for a particular grade although they have some characteristics more nearly typical of animals of another grade. Because it is impractical to describe the nearly infinite number of such recognizable combinations of characteristics, the standards describe only vealers and calves which have a relatively similar development of individual conformation and quality factors and which are also representative of the lower limits of each grade.

§ 53.123 Specifications for official United States standards for grades of vealers.

(a) *Prime.* (1) Vealers possessing minimum qualifications for the Prime grade tend to be moderately thick muscled throughout. They are moderately wide over the back and loin, and shoulders and hips are usually moderately neat and smoothly laid in, with only a slight tendency toward prominence. The loin, rump, and rounds appear almost flat, with little evidence of fullness. Prime grade vealers tend to have a very thin fat covering over the back, loin, and upper ribs. The brisket, rear flanks, and cod or udder are slightly full. Prime grade vealers usually present a moderately refined appearance.

(2) To qualify for the Prime grade, vealers must possess the minimum evidences of quality specified regardless of the extent to which their conformation may exceed the minimum requirements for Prime. However, quality superior to that specified as the minimum for the Prime grade may compensate, without limit, for conformation inferior to that specified as the minimum for Prime at the rate indicated in the following example: Vealers which have quality equivalent to the midpoint of the Prime grade may have conformation equivalent to the midpoint of the Choice grade and remain eligible for Prime.

(b) *Choice.* (1) Vealers possessing minimum qualifications for Choice tend to be slightly thick muscled throughout. They are slightly wide over the back and loin, the shoulders and hips are slightly prominent, and the neck is slightly long and thin. The loin, rump, and rounds have a very slightly sunken or hollowed-out appearance. The fat covering is very limited and is discernible only over portions of the back and loin. The brisket, rear flanks, and cod or udder have small fat deposits but have no apparent fullness. Choice grade vealers are usually moderately smooth and slightly refined in appearance.

(2) To qualify for the Choice grade, vealers must possess the minimum evidences of quality specified regardless of the extent to which their conformation may exceed the minimum requirements for Choice. However, quality which is superior to that specified as the minimum for the Choice grade may compensate, without limit, for conformation which is inferior to that specified as the minimum for Choice at the rate indicated in the following example: Vealers which have quality equivalent to the midpoint of the Choice grade may have conformation equivalent to the midpoint of the Good grade and remain eligible for Choice.

(c) *Good.* (1) Vealers possessing minimum requirements for the Good grade tend to be thinly muscled throughout. They are narrow over the back, loin, and rump and shallow in the twist. They have a distinctly sunken or hollowed-out appearance over the back, loin, and rounds. Hips and shoulders appear moderately prominent. There is practically no fat covering on any part of the animal's body. Such vealers may show the heavy bones, thick hide, prominent hips and shoulders associated with coarseness, or they may show the small bones, tight hide, and angularity denoting overrefinement.

(2) Quality superior to that specified as the minimum for the Good grade may compensate, without limit, for conformation inferior to that specified as the minimum for Good at the rate indicated in the following example: Vealers with quality equivalent to the midpoint of the Good grade may have conformation equivalent to the midpoint of the Standard grade and remain eligible for Good. Also, vealers with conformation at least one-third of a grade superior to that specified as minimum for the Good grade may have quality equal to the lower limit of the upper third of the Standard grade and remain eligible for Good.

(d) *Standard.* (1) Vealers possessing minimum requirements for the Standard grade tend to be very thinly muscled throughout and tend to be very narrow over the back, loin, and rump and very shallow in the twist. Hips and shoulders are very prominent, and the crops, back, loin, rump, and rounds present a very sunken or hollowed-out appearance. They show no evidence of any fat covering. Standard vealers tend to be of low quality. The bones and joints are usually disproportionately large and the hide is either thick or tight and inelastic.

(2) Quality superior to that specified as minimum for the Standard grade may compensate, without limit, for conformation inferior to that specified as minimum for the Standard grade at the rate indicated in the following example: Vealers with quality equivalent to the midpoint of the Standard grade may have conformation equivalent to the midpoint of the Utility grade and remain eligible for Standard. Also, vealers with conformation at least one-third of a grade superior to that specified as minimum for the Standard grade may have quality equal to the lower limit of the upper third of the Utility grade and remain eligible for Standard.

(e) *Utility.* The Utility grade includes vealers whose characteristics are inferior to those specified as minimum for the Standard grade.

§ 53.124 Specifications for official United States standards for grades of slaughter calves.

(a) *Prime.* (1) Calves possessing minimum qualifications for the Prime grade tend to be moderately thick muscled throughout. They are moderately wide over the back and loin, and shoulders and hips are usually moderately neat and smoothly laid in. There is a slight fullness or plumpness over the crops, loin, rump, and rounds which contributes to a rather well-rounded appearance. Prime grade calves tend to have a slightly thick fat covering over the back, loin, rump, and upper ribs. The brisket, rear flanks, and cod or udder are moderately full. Prime grade calves usually present a moderately refined appearance.

(2) To qualify for the Prime grade, slaughter calves must possess the minimum evidences of quality specified regardless of the extent to which their conformation may exceed the minimum requirements for Prime. However, quality superior to that specified as the minimum for the Prime grade may compensate, without limit, for conformation inferior to that specified as the minimum for Prime at the rate indicated in the following example: Slaughter calves which have quality equivalent to the midpoint of the Prime grade may have conformation equivalent to the midpoint of the Choice grade and remain eligible for Prime.

(b) *Choice.* (1) Calves possessing minimum qualifications for the Choice grade tend to be slightly thick muscled throughout. They are slightly wide over the back and loin. The neck is slightly long and thin. The loin, rump, and rounds are almost flat and have little or no evidence of fullness. The shoulders and hips are moderately neat and smoothly laid in but may appear slightly prominent. There is a thin fat covering over the back, loin, and upper ribs. The brisket, rear flanks, and cod or udder tend to be slightly full. Choice grade calves are usually moderately smooth and slightly refined in appearance.

(2) To qualify for the Choice grade, slaughter calves must possess the minimum evidences of quality specified regardless of the extent to which their conformation may exceed the minimum requirements for Choice. However, quality which is superior to that specified as the minimum for the Choice grade may compensate, without limit, for conformation which is inferior to that specified as the minimum for Choice at the rate indicated in the following example: Slaughter calves which have quality equivalent to the midpoint of the Choice grade may have conformation equivalent to the midpoint of the Good grade and remain eligible for Choice.

(c) *Good.* (1) Calves possessing minimum requirements for the Good grade tend to be thinly muscled throughout. They are narrow over the back, loin, and rump and shallow in the twist and have a slightly sunken or hollowed-out appearance over the back, loin, and rounds. Hips and shoulders appear somewhat prominent. There is a very thin fat covering that is discernible only over the back and loin. Such calves may show the heavy bones, thick hide, prominent hips and shoulders associated with coarseness; or they may show the small bones, tight hide, and angularity denoting overrefinement.

(2) Quality superior to that specified as the minimum for the Good grade may compensate, without limit, for conformation inferior to that specified as the minimum for Good at the rate indicated in the following example: Calves with quality equivalent to the midpoint of the Good grade may have conformation equivalent to the midpoint of the Standard grade and remain eligible for Good. Also, calves with conformation at least one-third of a grade superior to that specified as minimum for the Good grade may have quality equal to the lower limit of the upper third of the Standard grade and remain eligible for Good.

(d) *Standard.* (1) Calves possessing minimum requirements for the Standard grade tend to be very thinly muscled throughout and are very narrow over the back, loin, and rump, and very shallow in the twist. Hips and shoulders are very prominent and the crops, back, loin, rump, and rounds present a very sunken or hollowed-out appearance. There is practically no fat on any part of the animal's body. Standard grade calves tend to be of low quality. The bones and joints are usually disproportionately large, and the hide is either thick or tight and inelastic.

(2) Quality superior to that specified as minimum for the Standard grade may compensate, without limit, for conformation inferior to that specified as minimum for the Standard grade at the rate indicated in the following example: Calves with quality equivalent to the midpoint of the Standard grade may have conformation equivalent to the midpoint of the Utility grade and remain eligible for Standard. Also, calves with conformation at least one-third of a grade superior to that specified as minimum for the Standard grade may have quality equal to the lower limit of the upper third of the Utility grade and remain eligible for Standard.

(e) *Utility.* The Utility grade includes slaughter calves whose characteristics are inferior to those specified as minimum for the Standard grade.

Any person who desires to submit written data, views, or arguments concerning the proposals set forth above may do so by filing them in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, within 90 days after the date of publication of this notice in the FEDERAL REGISTER.

All written submissions made pursuant to this notice will be made available for public inspection at times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

Done at Washington, D.C., this 30th day of July 1971.

G. R. GRANGE,
Deputy Administrator,
Marketing Services.

[FR Doc.71-11233 Filed 8-6-71;8:45 am]

[7 CFR Part 927]

CERTAIN VARIETIES OF PEARS GROWN IN OREGON, WASHINGTON, AND CALIFORNIA

Notice of Proposed Rule Making

Consideration is being given to the following proposal submitted by the Control Committee established pursuant to the marketing agreement, as amended, and Order No. 927, as amended (7 CFR Part 927), which regulate the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in Oregon, Washington, and California. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The proposal would regulate the handling of fresh pears of the aforementioned varieties by limiting shipments of such pears to those meeting the size and grade requirements hereinafter specified. The specifications applicable to Anjou and Comice varieties would permit the handling of such pears bearing limited damage from skin punctures, however, this limiting factor of market desirability would be beneficially offset by the accompanying requirement that any pears thus affected be of the specified higher grade and larger size. Likewise, the regulation would permit shipment of Bosc variety pears of a size smaller than that which is set forth in the basic specifications if such pears were of a higher grade than that which is set forth in the basic specifications.

The regulation recommended by the Control Committee reflects its appraisal of the winter pear crop and the current and prospective market conditions. Shipments of winter pears are expected to begin on or about August 23, 1971. The grade and size requirements provided herein are necessary to prevent the handling, on and after August 23, 1971, of any of the listed varieties of winter pears (Beurre D'Anjou, Winter Nelis, Beurre Bosc, and Doyenne du Comice) of lower grades and smaller sizes than those herein specified so as to provide consumers with good quality fruit consistent with (1) the overall quality of the crop, and (2) maximizing returns to the producers pursuant to the declared policy of the act.

The proposed regulation is as follows:

§ 927.310 Pear Regulation 10.

(a) Order: During the period August 23, 1971, through June 30, 1972, no handler shall ship any pears which do not meet the following requirements for the variety specified:

(1) Beurre D'Anjou pears shall be of a size not smaller than 165 size and shall grade at least U.S. No. 2: *Provided,* That pears of such variety which bear unhealed broken skin punctures not exceeding three-sixteenths (3/16) of an inch in diameter or depth, as the case may be, may be shipped if such pears otherwise grade at least U.S. No. 1 and are of a size not smaller than 135 size;

(2) Beurre D'Anjou pears shipped from the Medford, Hood River-White, Salmon-Underwood, Wenatchee, and Yakima Districts prior to October 15, 1971, shall have an appropriate certification by the Federal-State Inspection Service, issued prior to shipment, showing that the core temperature of such pears has been lowered to 35° Fahrenheit or less;

(3) Winter Nelis pears shall grade at least U.S. No. 2 and shall be of a size not smaller than 195 size;

(4) Beurre Bosc pears shall grade at least U.S. No. 2 and shall be of a size not smaller than 180 size: *Provided,* That pears of such variety which are of a size not smaller than 195 size may be shipped if such pears grade at least U.S. No. 1;

(5) Doyenne du Comice pears shall be of a size not smaller than 165 size and shall grade at least U.S. No. 2: *Provided,*

That pears of such variety which bear unhealed broken skin punctures not exceeding three-sixteenth (3/16) of an inch in diameter or depth, as the case may be, may be shipped if such pears otherwise grade at least U.S. No. 1 and are of a size not smaller than 135 size;

(b) During the aforesaid period, each handler may ship on any one conveyance up to, but not to exceed, 200 standard western pear boxes of pears, or an equivalent quantity of pears in other containers computed by weight to the nearest 5 pounds, without regard to the inspection requirements of § 927.60(a), under the following conditions:

(1) Each handler desiring to make shipment of pears pursuant to this subparagraph shall first apply to the committee, on forms furnished by the committee, for permission to make such shipments. The application form shall provide a certification by the shipper that all shipments made thereunder during the marketing season shall meet the marketing order requirements, that he agrees such shipments shall be subject to spot check inspection, and that he agrees to report such shipments at time of shipment to the committee on forms furnished by the committee, showing the car or truck number and destination; and

(2) On the basis of such individual reports the committee shall require spot check inspection of such shipments.

(c) When used herein, "U.S. No. 1" and "U.S. No. 2" shall have the same meaning as when used in the U.S. Standards for Winter Pears such as Anjou, Bosc, Winter Nelis, Comice, and other similar varieties (7 CFR 51.1300–51.1323); "135 size," "180 size," and "195 size," shall means that the pears are of a size which, as indicated by the size number, will pack, in accordance with the sizing and packing specifications of a standard pack as specified in said U.S. Standards, 135, 180, or 195 pears, respectively, in a standard western pear box (inside dimensions 18 inches long by 11½ inches wide by 8½ inches deep); and, except as otherwise specified, all other items shall have the same meaning as when used in the amended marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than the seventh day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: August 4, 1971.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[Docket No. AO-23-A41]

MILK IN GREATER KANSAS CITY MARKETING AREA

Termination of Proceeding on Proposed Amendments to Tentative Marketing Agreement and Order

A notice was issued on July 30, 1971, giving notice of a public hearing to be held at the Aztec Room, Hotel President, 14th and Baltimore, Kansas City, MO, beginning at 9:30 a.m., on August 12, 1971, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Greater Kansas City marketing area.

The hearing was called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

Proponent who submitted proposals for consideration at this public hearing has withdrawn such proposals. Since proponent withdrew its proposals and no other persons have indicated an interest in supporting the proposed amendments, it is hereby concluded that a public hearing as previously announced should not be held.

Accordingly, the aforesaid proceeding which was initiated by the notice of hearing issued July 30, 1971, is hereby terminated.

Signed at Washington, D.C., on August 5, 1971.

JOHN C. BLUM,
Deputy Administrator, Regulatory Programs.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Parts 1, 21, 23, 25, 27, 29, 33]

[Docket No. 11010; Notice 71-12A]

AIRCRAFT AND AIRCRAFT ENGINES

Proposed Certification Procedures and Type Certification Standards; Extension of Comment Period

The Federal Aviation Administration proposed in Notice 71-12, published in the FEDERAL REGISTER on May 5, 1971 (36 F.R. 8383), to amend Parts 1, 21, 23, 25, 27, 29, and 33 of the Federal Aviation Regulations to change the procedural requirements relating to aircraft and aircraft engine certifications, and to update and improve the airworthiness standards applicable to the type certification of aircraft engines, including the standards applicable to engines used on supersonic airplanes. In addition, Notice 71-12 proposed airworthiness standards applicable to aircraft on which the engines are to be installed and proposed changes in definitions. The notice contained over 70 detailed proposed changes to the regulations.

The Aerospace Industries Association of America, Inc. (AIA), has requested a 45-day extension of time for submission of comments. AIA states that its members have prepared and considered preliminary comments on the proposed changes, but that, because of the scope and large number of proposals, additional meetings of its members will be required to finalize its comments, and that it will not be possible for it to prepare and submit meaningful comments on the proposals prior to the expiration of the period for filing comments.

I find that petitioner has shown a substantive interest in the proposed amendments that good cause exists for the extension and that the extension is consistent with the public interest.

Therefore, pursuant to the authority delegated to me by the Administrator (14 CFR 11.45), the time within which comments on Notice 71-12 will be received is extended to September 15, 1971.

Issued in Washington, D.C., on August 3, 1971.

R. S. SLIFF,
Acting Director, Flight Standards Service.

[14 CFR Part 23]

[Docket No. 11011; Notice 71-13A]

NORMAL, UTILITY, AND ACROBATIC CATEGORY AIRPLANES

Proposed Type Certification Standards; Extension of Comment Period

The Federal Aviation Administration proposed in Notice 71-13, published in the FEDERAL REGISTER on May 5, 1971 (36 F.R. 8398) to amend Part 23 of the Federal Aviation Regulations to update and improve the airworthiness standards applicable to normal, utility, and acrobatic category airplanes. Notice 71-13 was issued after an extensive review by the FAA of the airworthiness standards of Part 23 in the light of worldwide experience with small airplanes, and contained more than 50 detailed proposed changes to those standards.

The General Aviation Manufacturers Association (GAMA) has requested a 45-day extension of time for submission of comments. GAMA states that its members have been reviewing the proposals since the publication of Notice 71-13 in the FEDERAL REGISTER, but that because of the scope and large number of proposals they have been unable to reach an agreed position, and that it will not be possible for its members to meet and discuss their individual comments and to prepare and submit meaningful comments on the proposals prior to the expiration of the period for filing comments.

I find that petitioner has shown a substantive interest in the proposed amendments that good cause exists for the extension and that the extension is consistent with the public interest.

Therefore, pursuant to the authority delegated to me by the Administrator (14 CFR 11.45), the time within which comments on Notice 71-13 will be received is extended to September 15, 1971.

Issued in Washington, D.C., on August 3, 1971.

R. S. SLIFF,
Acting Director, Flight Standards Service.

[Airspace Docket No. 71-CE-84]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the control zone and transition area at Dubuque, Iowa.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106.

Since designation of controlled airspace at Dubuque, Iowa, two new instrument approach procedures have been developed for the Dubuque Municipal Airport. In addition, the criteria for the designation of control zones and transition areas have changed. Accordingly, it is necessary to alter the Dubuque, Iowa, control zone and transition area to adequately protect aircraft executing these new approach procedures and to comply with the new control zone and transition area criteria.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

(1) In § 71.171 (36 F.R. 2055), the following control zone is amended to read:

DUBUQUE, IOWA

Within a 5-mile radius of Dubuque Municipal Airport (latitude 42°24'10" N., longitude 90°42'32" W.); within 3 miles each side of the Dubuque VORTAC 321° radial, extending from the 5-mile-radius zone to 8 miles northwest of the VORTAC; and within 3 miles each side of the Dubuque VORTAC 126° radial, extending from the 5-mile-radius zone to 8 miles southeast of the VORTAC. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

(2) In § 71.181 (36 F.R. 2140), the following transition area is amended to read:

DUBUQUE, IOWA

That airspace extending upward from 700 feet above the surface within an 8½ mile radius of Dubuque Municipal Airport (latitude 42°24'10" N., longitude 90°42'32" W.); and within 4½ miles northeast and 9½ miles southwest of the Dubuque VORTAC 321° radial, extending from the VORTAC to 18½ miles northwest of the VORTAC; and that airspace extending upward from 1,200 feet above the surface bounded by a line beginning at latitude 42°05'00" N., longitude 91°00'00" W., thence west along latitude 42°05'00" N., to and north along longitude 92°15'00" W., to and counterclockwise along the arc of a 29-mile-radius circle centered on the Waterloo, Iowa VORTAC, and to east along the south edge of V-100, to and clockwise along the arc of a 29-mile-radius circle centered on the Dubuque VORTAC, to and southeast along the southwest edge of V-218, to and south along longitude 89°55'00" W., to and southwest along the northwest edge of V-216, and to west along the north edge of V-172, to and north along longitude 91°00'00" W. to the point of beginning, excluding the portion which overlies the State of Illinois.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Mo., on July 13, 1971.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc.71-11378 Filed 8-6-71;8:49 am]

[14 CFR Part 71]

[Airspace Docket No. 71-EA-88]

CONTROL ZONES AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Fort Eustis, Va. (36 F.R. 2081), and Newport News, Va. (36 F.R. 2110), control zones and Norfolk, Va., transition area (36 F.R. 2243).

We have reviewed the airspace requirements for the Fort Eustis and Newport News, Va., terminal areas for conformance to the U.S. Standard for Terminal Instrument Procedures. This review indicated that alteration of the control zones and 700-foot floor transition area will be required.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Fort Eustis and Newport News, Va., proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71, Federal Aviation Regulations, so as to delete the description of the Port Eustis, Va., control zone and insert the following in lieu thereof:

Within a 5-mile radius of the center, 37°07'45" N., 76°36'45" W., of Felker AAF, Fort Eustis, Va., and within 3 miles each side of the 323° bearing from the Felker AAF RBN, extending from the 5-mile-radius zone to 8.5 miles northwest of the RBN, excluding the portion that coincides with the Newport News, Va., control zone.

2. Amend § 71.171 of Part 71, Federal Aviation Regulations, so as to delete the description of the Newport News, Va., control zone and insert the following in lieu thereof:

Within a 5-mile radius of the center, 37°07'51" N., 76°29'35" W., of Patrick Henry Airport, Newport News, Va., excluding the portion that coincides with the Hampton Roads, Va., control zone.

3. Amend § 71.181 of Part 71, Federal Aviation Regulations, so as to delete the description of the Norfolk, Va., 700-foot floor transition area and insert in lieu thereof:

That airspace extending upward from 700 feet above the surface bounded by a line beginning at 37°10'30" N., 76°17'35" W., to 36°49'45" N., 75°52'05" W., to 36°29'25" N., 76°09'40" W., to 36°35'40" N., 76°18'40" W., to 36°54'00" N., 76°27'30" W., to 36°54'00" N., 76°36'15" W., to 37°11'30" N., 76°46'40" W., to 37°16'10" N., 76°39'25" W., to 37°11'50" N., 76°16'20" W., thence to the point of beginning; within 2 miles southeast and 5 miles northwest of the Langley AFB, Hampton, Va., (37°05'05" N., 76°21'25" W.) Runway 7 centerline extended 15 miles northeast of the end of Runway 7; within the arc of an 8.5-mile radius circle centered on Patrick Henry Airport, Newport News, Va. (37°07'51" N., 76°29'35" W.) extending clockwise from a 323° bearing to a 066° bearing from the center of the airport; within 3.5 miles each side of the Patrick Henry Airport ILS localizer southwest course, extending from the LOM to 11.5 miles southwest.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on July 26, 1971.

LOUIS J. CARDINALI,
Acting Director, Eastern Region.

[FR Doc.71-11379 Filed 8-6-71;8:49 am]

[14 CFR Part 71]

[Airspace Docket No. 71-EA-107]

CONTROL ZONE AND TRANSITION AREA

Proposed Designation and Alteration

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Beckley, W. Va., control zone and alter the Beckley, W. Va., transition area (36 F.R. 2152).

A review has been made of the airspace requirements for the terminal area of Beckley, W. Va., for compliance with the U.S. Standard for Terminal Instrument Procedures. As a result, an alteration of the transition area is required, and with the implementation of requisite weather and communications criteria, a control zone may also be designated.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Beckley, W. Va., proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to designate a Beckley, W. Va., control zone as follows:

BECKLEY, W. VA.

Within a 6.5-mile radius of the center, 37°46'54" N., 81°07'27" W. of Raleigh County Memorial Airport, Beckley, W. Va., and within 3 miles each side of the Beckley VOR 284° radial extending from the 6.5-mile-radius zone to 8.5 miles west of the VOR.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Beckley, W. Va., 700-foot floor transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 10-mile radius of the center, 37°46'54" N., 81°07'27" W. of Raleigh County Memorial Airport, Beckley, W. Va.; within a 14-mile radius of the center of Raleigh County Memorial Airport, extending clockwise from the 025° bearing to the 215° bearing from the airport and within 4.5 miles north and 9.5 miles south of the Beckley VOR 284° radial, extending from the VOR to 18.5 miles west of the VOR.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on July 22, 1971.

LOUIS J. CARDINALI,
Acting Director, Eastern Region.

[FR Doc.71-11380 Filed 8-6-71;8:49 am]

[14 CFR Part 71]

[Airspace Docket No. 71-RM-9]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amendments to Part 71 of the Federal Aviation Regulations that would alter the descriptions of Dickinson, N. Dak., control zone and transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 5651 West Manchester Boulevard, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 5651 West Manchester Boulevard, Los Angeles, CA 90045.

The Federal Aviation Administration proposes to amend the current AL-120-VOR-1 instrument approach procedure to incorporate 7 NM DME arc transitions to the final approach radial 013° T (359° M) of the Dickinson VORTAC. A review of the airspace requirements for Dickinson Airport has revealed that the control zone and transition area require alteration.

The additional control zone will provide controlled airspace protection for aircraft executing the instrument approach procedure while operating below 1,000 feet above the surface. The additional 1,200-foot transition area is required for aircraft executing the arc transitions, procedure turn and holding procedures based on the Dickinson VORTAC.

In consideration of the foregoing, the FAA proposes the following airspace actions:

In § 71.171 (36 F.R. 2055) the description of the Dickinson, N. Dak., control zone is amended to read as follows:

DICKINSON, N. DAK.

Within a 5-mile radius of Dickinson Municipal Airport (latitude 46°47'51" N., longitude 102°47'49" W.) and within 3 miles each side of the Dickinson VORTAC 013° radial extending from the 5-mile-radius area to 8 miles north of the VORTAC.

In § 71.181 (36 F.R. 2140) the description of the Dickinson, N. Dak., transition area is amended to read as follows:

DICKINSON, N. DAK.

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Dickinson Municipal Airport (latitude 46°47'51" N., longitude 102°47'49" W.); and that airspace extending upward from 1,200 feet above the surface within a 13-mile-radius circle centered on the Dickinson VORTAC, extending clockwise from the Dickinson VORTAC 259° radial to the Dickinson VORTAC 093° radial; and within 9.5 miles west and 4.5 miles east of the Dickinson VORTAC 013° radial extending from the VORTAC to 18.5 miles north of the VORTAC.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Aurora, Colo., on July 30, 1971.

M. M. MARTIN,
Director, Rocky Mountain Region.

[FR Doc.71-11381 Filed 8-6-71;8:49 am]

[14 CFR Part 71]

[Airspace Docket No. 71-SW-31]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700-foot transition area at Port Lavaca, Tex.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (36 F.R. 2140), the following transition area is added:

PORT LAVACA, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Calhoun County Airport (latitude 28°39'12" N., longitude 96°40'56" W.) and within 2.5 miles each side of the Palacios VORTAC 233° radial extending from the 5-mile-radius area to 16 miles southwest of the VORTAC.

The proposed transition area will provide controlled airspace for aircraft executing approach/departure procedures proposed at Calhoun County Airport, Port Lavaca, Tex.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on July 29, 1971.

R. V. REYNOLDS,
Acting Director, Southwest Region.

[FR Doc.71-11382 Filed 8-6-71;8:49 am]

[14 CFR Part 71]

[Airspace Docket No. 71-SW-41]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to alter the Flippin, Ark., transition area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (36 F.R. 2140), the Flippin, Ark., transition area is amended to read:

FLIPPIN, ARK.

That airspace extending upward from 700 feet above the surface within a 9.5-mile radius of the Flippin Municipal Airport (latitude 36°17'30" N., longitude 92°35'30" W.); within 3.5 miles each side of the Flippin VOR 086° radial extending from the Flippin Municipal Airport 9.5-mile-radius area to 8.5 miles east of the VOR; within an 8-mile radius of Mountain Home Municipal Airport (latitude 36°22'00" N., longitude 92°28'00" W.); and within 3.5 miles each side of the Flippin VOR 172° radial extending from the Mountain Home Municipal Airport 8-mile-radius area to 8.5 miles south of the VOR.

Minor alterations in the dimensions of the Flippin, Ark., transition area will conform to Terminal Instrument Procedures (TERPs) standards and airspace criteria.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on July 28, 1971.

R. V. REYNOLDS,
Acting Director, Southwest Region.

[14 CFR Part 91]

[Docket No. 10462; Notice No. 71-22]

VFR FLIGHT BENEATH CLOUDS

Supplemental Notice of Proposed Rule Making

On July 30, 1970, the Federal Aviation Administration published a notice of proposed rule making (Notice 70-29; 35 F.R. 12214) relating to VFR flight beneath the clouds within a control zone. Specifically, the notice proposed to amend FAR § 91.105(c) by removing the ceiling as reported at the primary airport as the criterion for VFR flight in a control zone, and substituting the actual cloud condition prevailing at any given point in the control zone where VFR flight is being conducted.

Over 90 comments were received in response to the notice. A large majority of the commentators expressed opposition to the proposal on the grounds that it would further restrict VFR flight in control zones. An analysis of all the comments revealed that a great many commentators did not understand the proposal nor in fact the application of the present rule.

In view of the manifest misunderstanding revealed in so many of the comments, the FAA does not believe that the comments received provide a basis for informed, effective rule making in this matter. Accordingly, the FAA is issuing this supplemental notice of proposed rule making, and requests that interested persons review their comments in the light of the following discussion, and, if appropriate, submit additional comments.

All comments with respect to this supplemental notice received on or before November 5, 1971, will be considered by the Administrator before taking action on the proposed rule change. Communications should identify the docket number or notice number and be submitted in duplicate to the FAA, Office of the General Counsel, Attention: Rules Docket, GC-24, 800 Independence Avenue SW., Washington, DC 20590. All comments will be available, both before and after the closing date for comments, for examination by interested persons.

Section 91.105(c), in its present form, prohibits operation of an aircraft under VFR within a control zone beneath a ceiling of less than 1,000 feet (except with a Special VFR clearance). Although the rule does not so state, it has been interpreted for over 20 years to mean that the ceiling reported at the primary

airport in a control zone governs throughout the zone regardless of the actual cloud condition elsewhere in a control zone. Many commentors were unaware of or disagreed with this interpretation.

The procedures for taking weather observations provide for the observer to estimate the amount, in tenths of the total sky, within his horizon, which is covered by clouds or obscuring phenomena. A ceiling exists when six-tenths or more of the sky under observation is covered. When two or more cloud layers are present, the summation principle is applied. This involves adding the amount covered at lower levels to the apparent amount covered at higher levels. Thus, the ceiling height reported at a primary airport may not be accurate with respect to cloud heights at other locations in a control zone.

The effect of § 91.105(c), as currently interpreted by the FAA, is that when a ceiling of less than 1,000 feet is reported by the primary airport in a control zone, VFR flight to or from a satellite airport within the control zone is prohibited even though the actual cloud condition at the satellite airport may be less than broken, overcast, or obscured, and may, in fact, be clear.

Under the proposed change, the cloud condition reported at the primary airport in a control zone would no longer govern VFR operations elsewhere in the zone. The criterion for VFR operations elsewhere in a control zone would be the height of the clouds as observed by the pilot in that portion of the zone where VFR flight is being conducted. The pilot would have the responsibility, except at the primary airport, for determining actual cloud conditions in control zones just as he does in other controlled airspace and outside of controlled airspace. This responsibility is the same as he now has with respect to determining flight visibility for VFR operations at those airports where ground visibility is not reported. Neither the visibility requirement for VFR flight in control zones nor the pilot's responsibility for determining that visibility would be affected by this proposal.

The provisions of §§ 91.79 and 91.105 (a) would, of course, continue to apply.

The FAA recognizes that, since traffic density tends to be greater in control zones than elsewhere, the VFR pilot has to exercise a high degree of vigilance in the zones. The FAA expects that this high degree of vigilance will continue to be exercised so that the greater freedom for VFR operations envisaged in the proposed amendment would accrue to all VFR pilots with no diminution of safety for any traffic within control zones.

In consideration of the foregoing, it is proposed to amend § 91.105(c) of the Federal Aviation Regulations to read as follows:

§ 91.105 Basic VFR weather minimums.

* * * * *

(c) Except as provided in § 91.107, no person may operate an aircraft under VFR in a control zone beneath clouds that are less than 1,000 feet above the surface.

* * * * *

This amendment is proposed under the authority of sections 307 and 313 of the Federal Aviation Act of 1958 (49 U.S.C. 1348 and 1354), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on August 2, 1971.

RAYMOND G. BELANGER,
Acting Director,
Air Traffic Service.

ATOMIC ENERGY COMMISSION

[10 CFR Part 50]

LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

Light-Water-Cooled Nuclear Power Reactors; Notice of Extension of Time for Filing Comments

On June 9, 1971, the Atomic Energy Commission published in the FEDERAL REGISTER (36 F.R. 11113) proposed amendments to 10 CFR Part 50, to provide numerical guides for design objectives and technical specification requirements for limiting conditions for operation for light water cooled nuclear power reactors to keep radioactivity in effluents as low as practicable. Interested persons were invited to submit comments or suggestions within 60 days after publication of the notice of proposed rule making in the FEDERAL REGISTER.

The Commission is hereby extending the time for submitting comments to October 7, 1971. Comments received after that time will be considered if it is practicable to do so, but assurance of consideration cannot be given except as to comments filed within the period specified. Copies of comments received may be examined at the Commission's Public Document Room, 1717 H Street NW., Washington, DC. The Commission plans to hold an informal, public rule making hearing on the proposed numerical guides. An appropriate notice pertaining thereto will be published in the near future.

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Dated at Germantown, Md., this 5th day of August 1971.

For the Atomic Energy Commission.

W. B. MCCOOL,
Secretary of the Commission.

[Delegation of Authority No. 88, Amdt.]

ASSISTANT ADMINISTRATORS

Delegation of Authority Relating to Housing Guaranties

1. A.I.D. Delegation of authority No. 88 (35 F.R. 17675) is amended by deleting paragraph 1 and substituting therefor the following:

1. Pursuant to the authority delegated to me by Delegation of Authority No. 104, as amended, from the Secretary of State, dated November 3, 1961 (26 F.R. 10608), I hereby delegate to the Assistant Administrator for Administration all of the authorities contained in Sections 221, 222, 223 and 635(i) of the Act, except the authority to authorize the issuance of guaranties, which I hereby delegate to the Regional Assistant Administrators for the countries or areas within their responsibilities.

2. This amendment to paragraph 1 shall be effective as of November 4, 1970.

3. A.I.D. Delegation of Authority No. 88 (35 F.R. 17675) is further amended by deleting paragraph 4 and substituting therefor the following:

4. The authority delegated herein may be redelegated successively, except for the authority to prescribe and amend interest rates provided in section 223(f) of the Act. All authority delegated herein may be exercised by persons who are performing the functions of designated officers in an acting capacity.

4. This amendment to paragraph 4 shall be effective immediately.

Dated: July 7, 1971.

JOHN A. HANNAH,
Administrator.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

WARM SPRINGS RESERVATION, OREG.

Ordinance Relating to Application of Federal Indian Liquor Laws

JULY 28, 1971.

In accordance with authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2, and in accordance with the Act of August 15, 1953, Public Law 277, 83d Cong. first session (67 Stat. 586), I certify that the following ordinance relating to the application of the Federal Indian Liquor Laws on the Warm Springs Reservation, Oreg., was adopted on April 29, 1971, by the Council of the Confederated Tribes, which has jurisdiction over the area of Indian Country included in the ordinance, reading as follows:

Whereas, authority is vested in the Tribal Council by the Constitution and Bylaws adopted by the Confederated Tribes of the Warm Springs Reservation of Oregon and approved on February 14, 1938, to act for the Confederated Tribes, and

Whereas, pursuant to the Act of August 15, 1953 (Public Law 277, 83d Cong., first session, 67 Stat. 586) an Indian Tribe having appropriate jurisdiction is empowered to make an ordinance legalizing the introduction, sales and possessions of intoxicating beverages within any area of Indian Country coming within the jurisdiction of such Tribe, and

Whereas, the Tribal Council of the Confederated Tribes of the Warm Springs Reservation of Oregon desires to repeal the Federal Indian Liquor Laws as to any act or transaction within the Warm Springs Indian Reservation and to approve legalizing the introduction, sale, and possession of intoxicating beverages within the Warm Springs Indian Reservation,

Now, therefore, be it enacted by the Tribal Council of the Confederated Tribes of the Warm Springs Reservation of Oregon as follows:

1. That the introduction, sale, and possession of intoxicating beverages shall be lawful within the exterior boundaries of the Warm Springs Indian Reservation: *Provided,* That such introduction, sale, and possession is not in conflict with the laws of the State of Oregon: *Provided further,* That the sale of intoxicating beverages on the Warm Springs Reservation shall be done only by the Confederated Tribes through the Kah-Nee-Ta Resort Enterprise.

2. That the Tribal laws, resolutions, ordinances heretofore enacted which prohibit the introduction, sale, and possession of intoxicating beverages within the Warm Springs Indian Reservation are hereby repealed.

3. That this ordinance shall be effective upon its certification by the Secretary of the Interior or his authorized representative and its publication in the FEDERAL REGISTER.

Be it further resolved, that copies of this ordinance be forwarded through the Superintendent, Warm Springs Agency, for action by the proper officials.

LOUIS R. BRUCE,
Commissioner of Indian Affairs.

Bureau of Land Management

IDAHO

Notice of Filing of Plat of Survey

AUGUST 2, 1971.

1. A plat of survey for the following described lands, accepted June 30, 1971, will be officially filed in the Idaho State Office, Bureau of Land Management, Boise, Idaho, effective 10 a.m., on September 6, 1971.

BOISE MERIDIAN, IDAHO

T. 12 N., R. 15 E., unsurveyed,
Tracts 37 and 38

The tracts described aggregate 2.50 acres.

2. The described tracts are embraced in the Challis National Forest. The tracts are included in Forest Exchange application I-2840, and are segregated in accordance with 43 CFR 2202.5 from appropriation under the public land laws, including the mining laws.

EUGENE E. BABIN,
Acting Chief, Branch of Records,
Boise, Idaho.

[FR Doc.71-11429 Filed 8-6-71;8:53 am]

OUTER CONTINENTAL SHELF OFFSHORE EASTERN LOUISIANA

Notice of Public Hearing

AUGUST 5, 1971.

Notice is hereby given in accordance with 43 CFR 3301.4, that a public hearing will be held beginning at 9 a.m. on September 8, 1971, in the Grand Ballroom, Sheraton Charles Hotel, 211 St. Charles Street, New Orleans, LA, for the purpose of receiving comments and suggestions relating to possible oil and gas leasing in December 1971 offshore Eastern Louisiana. The hearing has been scheduled to extend through September 9.

The hearing will provide the Secretary with additional information from both the public and private sectors to help evaluate fully the potential effects of the possible offshore Eastern Louisiana offering of 86 tracts on the total environments, aquatic resources, aesthetics, recreation, and other resources in the entire area during the exploration, development and operation phases of the leasing program.

The hearing will also provide the Secretary, under section 102(2)(c) of the National Environmental Policy Act of 1969, with the opportunity to receive comments and views of State and local agencies, which are authorized to develop and enforce environmental standards, with respect to the environmental impact involved in the proposed offering of the 86 tracts. All comments by State and local agencies under this section of the National Environmental Policy Act are requested to be submitted at the hearing in written form and should consider the points analyzed in a draft environmental impact statement which has been prepared by the Department of the Interior. The draft environmental statement considers the environmental impact of the possible leasing of 86 tracts offshore Eastern Louisiana. The public availability of the draft statement was previously announced in a notice published in the FEDERAL REGISTER on July 31, 1971.

The draft environmental statement is available for public review in the Office of the Manager, New Orleans Outer Continental Shelf Office, Bureau of Land Management, Post Office Box 53226, New Orleans, LA 70153, and in the Office of Information, Bureau of Land Management (130), Washington, D.C. 20240. Copies are also available at $1 per copy from the same offices.

A composite map of the area of the Gulf of Mexico offshore Eastern Louisiana, upon which tracts being considered for leasing have been depicted and a listing of these tracts may be obtained at no charge from the Manager, New Orleans Outer Continental Shelf Office, Bureau of Land Management, Post Office Box 53226, New Orleans, LA 70153, and from the Office of Information, Bureau of Land Management (130), Washington, D.C. 20240.

Interested individuals, representatives of organizations and public officials wishing to testify at the hearing are requested to contact the Manager, New Orleans Outer Continental Shelf Office, Bureau of Land Management, at the above listed address by 4:15 p.m., September 3, 1971. Written comments from those unable to attend the hearing should be addressed to the Director (Attention 310), Bureau of Land Management, U.S. Department of the Interior, Washington, D.C. 20240. The Department will accept written testimony and comments on the draft environmental statement for a period of 10 days following the last day of the hearing. This will allow ample time for those unable to testify at the hearing to make their views known and for the submission of supplemental materials by those presenting oral testimony. Time limitations may make it necessary to limit the length of oral presentations. An oral statement may, however, be supplemented by a more complete written statement which may be submitted to the hearing officer at the time of presentation of the oral statement. Written statements presented in person at the hearing will be considered for inclusion in the hearing record. To the extent that time is available after presentation of oral statements by those who have given advance notice, the hearing officer will give others present an opportunity to be heard.

After all testimony and comments have been received and analyzed a final environmental statement will be prepared.

BURTON W. SILCOCK,
Director,
Bureau of Land Management.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[DESI 6002; Docket No. FDC-D-309; NDA 12-344]

CERTAIN ANTI-INFECTIVE DRUGS

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drugs:

1. Primaquine Phosphate Tablets; Winthrop Laboratories, Division of Sterling Drug, Inc., 90 Park Avenue, New York, N.Y. 10016 (NDA 8-316).

2. Primaquine Phosphate Tablets; Parke, Davis and Co., Joseph Campau at the River, Detroit, Mich. 48232 (NDA 8-973).

3. Camoquin Hydrochloride Tablets containing amodiaquine hydrochloride; Parke, Davis and Co. (NDA 6-441).

4. Camoprim Tablets containing amodiaquine hydrochloride with primaquine phosphate, and Camoprim Infatabs containing amodiaquine with primaquine phosphate; Parke, Davis and Co. (NDA 9-980).

5. Aralen Hydrochloride Ampuls containing chloroquine hydrochloride; Winthrop Laboratories (NDA 6-002).

6. Aralen Phosphate Tablets containing chloroquine phosphate; Winthrop Laboratories (NDA 6-002).

7. Plaquenil Sulfate Tablets containing hydroxychloroquine sulfate; Winthrop Laboratories (NDA 9-768).

8. Plaquinol Tablets containing hydroxychloroquine sulfate; Winthrop Products, (NDA 9-943).

9. Daraprim Tablets containing pyrimethamine; Burroughs Wellcome and Co., Inc., 3030 Cornwallis Road, Research Triangle Park, North Carolina 27709 (NDA 8-578).

10. Bryrel with Superinone Syrup containing piperazine hexahydrate with tyloxapol; Winthrop Products, Inc. (NDA 11-639).

11. Antepar Tablets and Syrup containing piperazine citrate, and Antepar Wafers containing piperazine phosphate; Burroughs Wellcome and Co. (NDA 9-102).

12. Multifuge syrup containing piperazine citrate; The Blue Line Chemical Co., 302 South Broadway Street, St. Louis, Mo. 63102 (NDA 9-452).

13. Piperazine Citrate Syrup; E. W. Heun Co., 2303 Schuetz Road, St. Louis, Mo. 63141 (NDA 9-437).

14. Perin Syrup containing piperazine calcium edetate; Endo Laboratories, Inc., 1000 Stewart Avenue, Garden City, N.Y. 11530 (NDA 9-594).

15. Vermizine Syrup containing piperazine gluconate; Conal Pharmaceuticals Inc., Chicago Pharmacal Division, 5547 North Ravenswood Avenue, Chicago, Ill. 60640 (NDA 11-258).

16. Millbis Tablets containing glycobiarsol; Winthrop Laboratories (NDA 6-903).

17. Povan Suspension (NDA 11-964) and Tablets (NDA 12-485) containing pyrvinium pamoate; Parke, Davis and Co.

18. Delvex Tablets containing dithiazanine iodide; Eli Lilly and Co., Post Office Box 618, Indianapolis, Ind. 42606 (NDA 11-440).

19. Lucanthone Hydrochloride Tablets; Burroughs Wellcome and Co., (NDA 12-344).

20. Camoform Hydrochloride Tablets containing bialamicol hydrochloride; Parke, Davis and Co., (NDA 9-303).

21. Hetrazan Tablets and Syrup containing diethylcarbamazine citrate; Lederle Laboratories Division, American Cyanamid Co., Pearl River, N.Y. 10965 (NDA 6-459).

22. Sterile Hydroxystilbamidine Isethionate; The Wm. S. Merrell Co., Division of Richardson-Merrell, Inc., 110 East Amnity Road, Cincinnati, Ohio 45215 (NDA 9-166).

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new-drug applications are required to revise the labeling in, and to update previously approved applications providing for such drugs. A new-drug application is required from any person marketing such drug without approval.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that:

1. Primaquine phosphate is effective for the radical cure (prevention of relapse) of vivax malaria.

2a. Amodiaquine hydrochloride is effective for suppressive treatment and for treatment of acute attacks of malaria due to *Plasmodium vivax, P. malariae, P. ovale,* and susceptible strains of *P. falciparum.*

b. It is probably effective for the treatment of giardiasis and extraintestinal amebiasis.

3a. Amodiaquine hydrochloride with primaquine phosphate tablets are effective for suppressive treatment of malaria due to *P. vivax, P. malariae, P. ovale,* and susceptible strains of *P. falciparum.*

b. The pediatric dosage form of this drug is probably effective for these same indications.

4. Chloroquine hydrochloride injection is effective for the treatment of extraintestinal amebiasis and for treatment of acute attacks of malaria due to *P. vivax, P. malariae, P. ovale,* and susceptible strains of *P. falciparum.*

5. Chloroquine phosphate tablets are effective for suppressive treatment and for treatment of acute attacks of malaria due to *P. vivax, P. malariae, P. ovale,* and susceptible strains of *P. falciparum.* They are also effective for the treatment of extraintestinal amebiasis. Chloroquine phosphate tablets are effective in the treatment of discoid and systemic lupus erythematosus and rheumatoid arthritis.

6a. Hydroxychloroquine sulfate is effective for suppressive treatment and for treatment of acute attacks of malaria due to *P. vivax, P. malariae, P. ovale,* and susceptible strains of *P. falciparum.* It is also effective in the treatment of rheumatoid arthritis and discoid and systemic lupus erythematosus.

b. It is probably effective for the treatment of polymorphic light eruptions, giardiasis, and extraintestinal amebiasis.

7. Pyrimethamine is effective for suppressive treatment of malaria due to *P. vivax, P. falciparum,* and *P. malariae.* It is also effective for the treatment of toxoplasmosis when used concomitantly with a systemic sulfonamide.

8a. Piperazine hexahydrate with tyloxapol is effective for the treatment of ascariasis, and

b. Probably effective for the treatment of enterobiasis.

9. Piperazine citrate and piperazine phosphate are effective for the treatment of ascariasis and enterobiasis.

10. Piperazine calcium edetate is probably effective for the treatment ascariasis and enterobiasis.

11. Piperazine gluconate is probably effective for the treatment of ascariasis and enterobiasis.

12a. Glycobiarsol is effective for the treatment of intestinal amebiasis in adults and children weighing over 80 pounds but is not considered to be the drug of choice.

b. It is possibly effective for prophylaxis against intestinal amebiasis.

13a. Pyrvinium pamoate in suspension form is effective for the treatment of enterobiasis.

b. Pyrvinium pamoate in tablet form is probably effective for the treatment of enterobiasis.

14. Dithiazanine iodide is effective for the treatment of strongyloidiasis and trichuriasis but is considered too toxic for use except in life-threatening situations.

15a. Lucanthone hydrochloride is effective for the treatment of schistosomiasis due to *Schistosoma hematobium,* and *S. mansoni.*

b. It lacks substantial evidence of effectiveness for the treatment of schistosomiasis due to *S. japonicum.*

16. Bialamicol hydrochloride is effective for the treatment of intestinal amebiasis.

17a. Diethylcarbamazine citrate is effective for the treatment of Bancroft's filariasis, onchocerciasis, ascariasis, tropical eosinophilia, and loiasis; and

b. Possibly effective for the treatment of creeping eruption (cutaneous larva migrans).

18a. Hydroxystilbamide isethionate is effective for the treatment of visceral leishmaniasis (kala-azar) and American mucocutaneous leishmaniasis; and for the treatment of North American blastomycosis but is not considered to be the drug of choice.

b. It is possibly effective for relief of bone pain in multiple myeloma patients.

B. *Conditions for approval and marketing of drugs having an effective classification.* The Food and Drug Administration is prepared to approve abbreviated new-drug applications and abbreviated supplements to previously approved new-drug applications under conditions described herein.

1. *Form of drug.* a. Piperazine citrate and diethylcarbamazine citrate are in tablet or syrup form, piperazine hexahydrate with tyloxapol is in syrup form, piperazine phosphate is in wafer form, pyrvinium pamoate is in suspension form, and all are suitable for oral administration.

b. Chloroquine hydrochloride is in sterile aqueous solution form suitable for intramuscular administration.

c. Hydroxystilbamidine isethionate is in a sterile powder form suitable, after reconstitution, for intravenous administration.

d. The remainder of the drugs are in tablet form suitable for oral administration.

2. *Labeling conditions.* a. The labels bear the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drugs are labeled to comply with all requirements of the Act and regulations. The labeling bears adequate information for safe and effective use of the drug and is in accord with the guidelines for uniform labeling published in the FEDERAL REGISTER of February 6, 1970. The "Indications" sections are as follows:

INDICATIONS

1. *Primaquine phosphate:* For the radical cure (prevention of relapse) of vivax malaria.

2. *Amodiaquine hydrochloride:* For the suppressive treatment and for treatment of acute attacks of malaria due to *P. vivax, P. malariae, P. ovale,* and susceptible strains of *P. falciparum.* The drug is also indicated for the treatment of giardiasis and extraintestinal amebiasis.

3. *Amodiaquine hydrochloride with primaquine phosphate tablets:* For the suppressive treatment of malaria due to *P. vivax, P. malariae, P. ovale,* and susceptible strains of *P. falciparum.*

4. *Chloroquine hydrochloride injection:* For the treatment of extraintestinal amebiasis and for treatment of acute attacks of malaria due to *P. vivax, P. malariae, P. ovale,* and susceptible strains of *P. falciparum* when oral therapy is not feasible.

5. *Chloroquine phosphate tablets:* For the suppressive treatment and for acute attacks of malaria due to *P. vivax, P. malariae, P. ovale,* and susceptible strains of *P. falciparum.* The drug is also indicated for treatment of extraintestinal amebiasis, discoid and systemic lupus erythematosus, and rheumatoid arthritis.

6. *Hydroxychloroquine sulfate:* For the suppressive treatment and treatment of acute attacks of malaria due to *P. vivax, P. malariae, P. ovale,* and susceptible strains of *P. falciparum.* It is also indicated for the treatment of discoid and systemic lupus erythematosus, polymorphic light eruptions, rheumatoid arthritis, giardiasis, and extraintestinal amebiasis.

7. *Pyrimethamine:* For the suppressive treatment of malaria due to *P. vivax, P. falciparum,* and *P. malariae.* It is also indicated for the treatment of toxoplasmosis when used concomitantly with a systemic sulfonamide.

8. *Piperazine hexahydrate with tyloxapol; piperazine citrate; piperazine phosphate:* For the treatment of ascariasis and enterobiasis.

9. *Glycobiarsol:* For the treatment of intestinal amebiasis in adults and children weighing over 80 pounds but is not considered to be the drug of choice.

10. *Pyrvinium pamoate:* For the treatment of enterobiasis.

11. *Dithiazanine iodide:* For the treatment of strongyloidiasis and trichuriasis, in life-threatening situations.

12. *Lucanthone hydrochloride:* For the treatment of schistosomiasis due to *S. hematobium* and *S. mansoni.*

13. *Bialamicol hydrochloride:* For the treatment of intestinal amebiasis.

14. *Diethylcarbamazine citrate:* For the treatment of Bancroft's filariasis, onchocerciasis, ascariasis, tropical eosinophilia, and loiasis.

15. *Hydroxystilbamidine isethionate:* For the treatment of visceral leishmaniasis (kala-azar) and American mucocutaneous leishmaniasis. It is also indicated for the treatment of North American blastomycosis, but it is not considered to be the drug of choice.

c. The "Actions" sections for drugs containing 4-aminoquinolines, 8-aminoquinolines, or pyrimethamine should include a statement regarding the degree of effectiveness on various stages of the life cycle of the parasite and the degree to which strains of the various organisms are sensitive to the drug.

d. The "Warnings" section for chloroquine phosphate and hydroxychloroquine

sulfate should include a statement regarding ocular toxicity associated with long-term or high-dosage therapy.

e. The "Warnings" section for drugs containing 4-aminoquinoline should include a statement that this drug is not effective against chloroquine resistant strains of *P. falciparum*.

f. The "Warnings" section for preparations containing arsenicals should include a statement that arsenical encephalitis, exfoliative dermatitis, and agranulocytosis have occurred during therapy with the drug.

g. The "Contraindications" section for dithiazanine iodide should include a statement that this drug should not be administered to patients who are debilitated, seriously ill, or who have severe renal disease, except in life-threatening situations where other less toxic drugs are not effective.

h. The "Warnings" section for lucanthone hydrochloride should include the statements that serious toxic reactions occur, including convulsions and psychoses predominantly in adults and that significant G.I. disturbances and yellow discoloration of the skin occur frequently.

i. The "Warnings" section for hydroxystilbamidine isethionate should include a statement that patients with inadequate host defense mechanism, as defined by skin and serologic tests, will not respond and will require therapy with amphotericin B.

3. *Marketing status.* Marketing of the above drugs may be continued under the conditions described in the notice entitled "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study" published in the FEDERAL REGISTER July 14, 1970 (35 F.R. 11273), as follows:

a. For holders of "deemed approved" new-drug applications (i.e., an application which became effective on the basis of safety prior to October 10, 1962), the submission of a supplement for revised labeling, an abbreviated supplement for updating information, and adequate data to show the biologic availability of the drug in the formulation which is marketed as described in paragraphs (a)(1) (i), (ii), and (iii) of the notice of July 14, 1970. Biologic availability data for a drug administered by the intravenous route are not required.

b. For any person who does not hold an approved or effective new-drug application, the submission of an abbreviated new-drug application, to include adequate data to assure the biologic availability of the drug in the formulation which is, or is intended to be marketed, as described in paragraph (a)(3)(ii) of that notice. Biologic availability data for a drug administered by the intravenous route are not required.

c. For any distributor of the drug, the use of labeling in accord with this announcement for any such drug shipped within the jurisdiction of the Act as described in paragraph (b) of that notice.

4. For indications for which the drug has been classified as probably effective (included in the "Indications" section above) and possibly effective (not included in the "Indications" section above), continued use is described in (c), (d), (e) and (f) of that notice.

C. *Opportunity for a hearing.* 1. The Commissioner of Food and Drugs proposes to issue an order under the provisions of section 505(e) of the Federal Food, Drug, and Cosmetic Act withdrawing approval of all new-drug applications and all amendments and supplements thereto providing for the indication for which substantial evidence of effectiveness is lacking as described in paragraph A.15.b of this notice. An order withdrawing approval of the applications will not issue if such applications are supplemented, in accord with this notice, to delete such indication. Promulgation of the proposed order may cause any such drug for human use offered for the indication for which substantial evidence of effectiveness is lacking to be a new drug for which an approved new-drug application is not in effect. Any such drug then on the market would be subject to regulatory proceedings.

2. In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner will give the holders of any such applications, and any interested person who would be adversely affected by such an order, an opportunity for a hearing to show why such indications should not be deleted from labeling. A request for a hearing must be filed within 30 days after the date of publication of this notice in the FEDERAL REGISTER.

3. A request for a hearing may not rest upon mere allegations or denials but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing, together with a well organized and full factual analysis of the clinical and other investigational data that the objector is prepared to prove in a hearing. Any data submitted in response to this notice must be previously unsubmitted and include data from adequate and well controlled clinical investigations (identified for ready review) as described in section 130.12(a)(5) of the regulations published in the FEDERAL REGISTER of May 8, 1970 (35 F.R. 7250). Carefully conducted and documented clinical studies obtained under uncontrolled or partially controlled situations are not acceptable as a sole basis for approval of claims of effectiveness, but such studies may be considered on their merits for corroborative support of efficacy and evidence of safety.

4. If a hearing is requested and is justified by the response to this notice, the issues will be defined, a hearing examiner will be named, and he shall issue a written notice of the time and place at which the hearing will commence.

D. *Conditions for marketing drugs having no indications classified as effective.* 1. Marketing of amodiaquine with primaquine phosphate (pediatric dosage form), piperazine calcium edetate, piperazine gluconate, and pyrvinium pamoate (tablet form) which have been classified as probably effective, as stated in paragraphs A.3.b, A.10, A.11, and A.13.b may be continued for 12 months as described in paragraphs (c), (e), and (f) of the notice entitled "Conditions for Marketing New Drugs evaluated in Drug Efficacy Study" published in the FEDERAL REGISTER, July 14, 1970 (35 F.R. 11273).

2. Within 60 days from publication hereof in the FEDERAL REGISTER, the holder of any approved new-drug application for such drug is requested to submit a supplement to his application to provide for revised labeling as needed, which, taking into account the comments of the Academy, furnishes adequate information for safe and effective use of the Academy, furnishes adequate information for safe and effective use of the drug; is in accord with the guidelines for uniform labeling published in the FEDERAL REGISTER of February 6, 1970 (21 CFR 3.74); and recommends use of the drugs for the probably effective indications as follows:

INDICATIONS

a. *Amodiaquine with primaquine tablets:* For suppressive treatment of malaria due to *P. vivax, P. malariae, P. ovale,* and certain strains of *P. falciparum.*

b. *Pyrvinium pamoate tablets:* For the treatment of enterobiasis.

c. *Piperazine calcium edetate:* For the treatment of ascariasis and enterobiasis.

d. *Piperazine gluconate:* For the treatment of ascariasis and enterobiasis.

3. The "Actions" and "Warnings" sections for drugs containing amodiaquine shall include the statements made in paragraphs B.2.c and B.2.e above.

4. The supplement should be submitted under the provisions of § 130.9 (d) and (e) of the new-drug regulations (21 CFR 130.9 (d) and (e)) which permit certain changes to be put into effect at the earliest possible time, and the revised labeling should be put into use within the 60-day period.

5. After 60 days following publication hereof in the FEDERAL REGISTER, any such drug on the market without an approved new-drug application and shipped within the jurisdiction of the Federal Food, Drug, and Cosmetic Act should be labeled in accord with this notice.

A copy of the Academy's report has been furnished to each firm referred to above. Communications forwarded in response to this announcement should be identified with the reference number DESI 6002, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Maryland 20852:

Supplements (identify with NDA number): Office of Scientific Evaluation (BD-100), Bureau of Drugs.

Original abbreviated new-drug applications (identify as such): Drug Efficacy Study Implementation Project Office (BD-60), Bureau of Drugs.

Request for Hearing (identify with docket number): Hearing Clerk, Office of General Counsel (GC-1), Room 6-62, Parklawn Building.

Requests for the Academy's report: Drug Efficacy Study Information Control (BD-67), Bureau of Drugs.

All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD-60), Bureau of Drugs.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050-53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: July 6, 1971.

SAM D. FINE,
Associate Commissioner, for Compliance.

[Dockets Nos. 23482, 23629; Order 71-8-15]

KENNEDY AIRPORT EMERGENCY CARGO COMMITTEE AND AIRPORT SECURITY COUNCIL

Order Authorizing Multicarrier Discussions and Dismissing Application

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 3d day of August 1971.

On July 19, 1971, the Airport Security Council [1] filed in Docket 23629, on behalf of the air carriers, foreign and domestic, at the three New York metropolitan airports (JFK, La Guardia, and Newark) an application for permission to conduct multicarrier discussions for the purpose of seeking solutions to the serious air cargo security, traffic and storage problems which are expected to occur at the aforesaid airports if a dock strike affecting the New York ports takes place in the fall of 1971.

In support of the request the Council cites the reasons for its establishment and asserts that a 1969 dock strike in New York caused a tremendous overload of freight in the cargo facilities at the New York airports. This basic security problem, according to the application, led to confusion and great losses of cargo as well as economic and credibility problems between the airlines and their customers. Accordingly, the application asserts that if adequate collective planning on the part of the airlines is not undertaken a dock strike this fall could adversely affect security at the airports in question.[2]

The Council application asserts that the Council plans to bring the airlines together to discuss the drawing up of a plan that would avoid a situation wherein the airlines could be forced into a warehouse business beyond their capacity in the event of a dock strike. In this connection, the application indicates that the two most critical periods of cargo operations, in the event of a strike, are usually just prior to the strike and immediately following its termination. Accordingly, the Council seeks authority to conduct discussions commencing immediately after Board approval of such discussions and extending for 15 days after conclusion of the anticipated dock strike. In this view, the application seeks Board action as quickly as possible.

According to the Council application, primary areas of concern are traffic acceptance procedures, customs and storage facilities and cargo security. Accordingly, the major matters to be discussed would be the following:

1. Controlled acceptance and/or rerouting of articles of extraordinary value, restricted items and perishables when emergency is imminent;

2. Controlled acceptance and/or rerouting of general cargo before a terminal becomes incapable of coping with the emergency; [3]

3. Determination of security requirements such as (a) prevention of unauthorized access to cargo areas; (b) inspection for security weaknesses; (c) methods for locating cargo; (d) temporary use of leased trailers and off-airport warehousing; (e) determining labor requirements for an emergency; and (f) the maintenance of continuous fire and security patrols during the strike period.

In addition to the foregoing matters the application indicates that the proposed discussions will explore the following:

(a) The undertaking of discussions with U.S. Customs about problems U.S. Customs might encounter in the event of a dock strike; and

(b) The maintenance of a close relationship between sales and cargo operations so that the acceptance of air freight will not exceed terminal capacity to process such freight. Also the coordination of other airports and regular

[1] By Order 68-7-126, dated July 25, 1968, the Board approved an agreement (Agreement CAB 20374) among 23 air carriers and foreign air carriers serving the New York metropolitan area establishing the Airport Security Council. The agreement provides, inter alia, that the purpose of the Council is to establish and implement on behalf of the member carriers a positive cooperative program to take effective protective action against crime and pilferage at the airports in the New York metropolitan area. According to the agreement, each of the carriers signing the agreement is a member of the Council and will designate a representative to the meetings of the Council.

[2] The application indicates that the Council has discussed the matter with the Port of New York Authority and that the Authority agrees that a dock strike would cause an extremely serious airline security problem.

[3] In both (1) and (2) if a shipment could not be carried immediately, a new date of delivery would be assigned.

sources of cargo with the New York airports so that New York can handle a maximum amount of cargo.

The application asserts that adequate notice of all meetings to be held by the Council will be given to all air carriers, foreign and domestic, serving the three New York metropolitan airports; minutes will be taken and submitted to the Board if desired; and, any agreement among the airlines resulting from the meeting will be submitted to the Board for approval under section 412 of the Act, where appropriate.

The Kennedy Airport Emergency Cargo Committee, comprised largely of the same carriers as the Council, and formed to deal specifically with the dock strike,[4] has similarly filed in Docket 23482.[5]

Upon consideration the Board has decided to grant the Council's request to hold multicarrier discussions, subject to the restrictions set forth below. It appears that there may be a dock strike in New York this fall which could, without adequate planning and preparation by the carriers serving the metropolitan New York airports, cause the cargo inundation of such airports, resulting in substantial security, storage, and traffic problems. Accordingly, the Board finds that the public interest warrants approval of discussions designed to (a) prevent the flooding of any of the airports in question with enormous amounts of cargo and thus the deterioration of cargo services and protection at such airports, and (b) formulate procedures capable of ensuring the foregoing objective as well as adequate cargo customs and storage facilities and cargo security. The instant circumstances are similar to those which earlier this year caused the Board to authorize discussions relating to passenger congestion at the International Arrivals Building (IAB) and the North Passenger Terminal (NPT) complex at JFK.[6] However, in the present case the carriers and the Board are concerned with the proper handling of cargo rather than passengers. Nevertheless, it appears that occurrence of a dock strike this fall would, as was found with respect to the circumstances in the aforementioned discussions concerning JFK, present extraordinary circumstances which warrant the affected carriers' collective consideration.[7]

The Board understands that any air carrier or foreign air carrier serving the New York metropolitan area may become a party to the Airport Security Council agreement (Agreement CAB 20374) and participate in the activities of the Council.[7] In this connection, it is noted that the Council application asserts that adequate notice of all meetings to be held on this matter will be given to all air carriers, foreign and domestic, serving the airports in question and that any agreement among the airlines will be submitted to the Board for approval, when appropriate. The Board is of the impression that the applicants intend to use the Council's framework as a means for holding discussions and reaching agreement on the procedures to be employed in the event of a dock strike. This appears to be a workable arrangement, and, as such, is encouraged by the Board.[8] In this connection, the Board construes the application to mean, and will so require, that participation in the proposed discussions be available to all air carriers and foreign air carriers authorized to serve the three airports in question. The discussions themselves should be limited to those cargo security problems which will arise at the three New York airports in the event of a dock strike. On the other hand, the discussions may extend to those related areas of traffic acceptance procedures and customs and storage facilities to the extent indicated in the Council application.

The procedures to be followed in conducting the discussions will be left to the discretion of the parties involved. However, we will require that adequate notice of any meetings be given and that a Board observer be permitted to attend each meeting as well as any representative designated by the Authority, the Bureau of Customs and other interested Federal, State, or local departments and inspection agencies. In addition, we will require the carriers to file within 5 days of each discussion meeting a full and complete report of such meeting summarizing the intercarrier discussions and the arrangements made in and resulting from those discussions. The authorization for discussions granted herein shall be effective immediately and shall, absent a dock strike, expire on December 31, 1971. If a dock strike occurs the authorization shall terminate 15 days after termination of any dock strike in the New York metropolitan area commencing at any time between the date of this order and December 31, 1971.[9]

Accordingly, it is ordered, That:

1. The members of the Airport Security Council and the other air carriers and foreign air carriers providing air transportation from or to John F. Kennedy International Airport, La Guardia Airport, and Newark Airport are hereby authorized to hold discussions to reach agreement on procedures to be followed to alleviate cargo security problems at the aforementioned airports in the event of a dock strike in the metropolitan New York area, subject to the following conditions:

(a) The purpose of the discussion shall be to seek solutions to serious cargo security, traffic and storage problems which may occur at the metropolitan New York airports if a dock strike affecting the waterports in the metropolitan New York area takes place in the fall of 1971;

(b) Discussions and the agreements resulting therefrom shall be limited to those cargo security problems which will arise at the three metropolitan New York airports in the event of a dock strike in the metropolitan New York area, and cargo traffic acceptance, customs, and storage procedures necessary to deal with such problems;

(c) Eligibility to participate in the activities authorized herein shall extend to all U.S. certificated air carriers and all foreign air carriers authorized to engage in air transportation from or to JFK, La Guardia, and Newark Airports;

(d) A notice of any meeting called pursuant to this order shall be filed with the Board in Docket 23629 and mailed to all carriers referred to in subparagraph (c), supra, and agencies and authorities referred to in paragraph 4, infra, at least 7 calendar days prior to such meeting; a detailed report (or complete and accurate minutes of all discussions) will be made and copies thereof shall be served on each of the above persons upon whom a meeting notice must be mailed within 14 days after the conclusion of each discussion meeting, and two copies thereof shall be filed with the Board within 5 working days after the conclusion of each discussion meeting or at the same time that copies are served upon the carriers whichever is earlier;

(e) Representatives of the Board and all interested Federal, State, or local departments and agencies; of all carriers described in subparagrph (c), above; of the Port of New York Authority; and of any trade, shipping, or consumer association or group shall be permitted to participate in the meetings;

(f) The discussants shall not discuss matters other than those directly related to cargo traffic acceptance procedures, cargo customs and storage facilities and cargo security;

(g) The approval granted herein shall not be construed as approval of any agreement subject to section 412 of the Act which is entered into pursuant to any meetings or action of the discussants; all such agreements shall be filed with the Board for approval under section 412 of the Act, and shall be effective only upon receipt of Board approval;

(h) Except to the extent granted herein, the authorization granted herein shall not be construed as authorizing discussions of rates, fares, charges or inflight and other service in connection with air transportation.

2. The authorization granted herein shall expire on December 31, 1971, if a dock strike in the metropolitan New York area has not commenced prior to such date; or, in the event such a dock strike does occur prior to such date, such authorization shall expire within 15 days after the date of termination of such dock strike; in addition this order may be earlier revoked or amended at any time at the discretion of the Board;

3. The application of the Kennedy Airport Emergency Cargo Committee in Docket 23482 be and it hereby is dismissed; and

4. A copy of this order shall be served upon the Airport Security Council; each certificated air carrier; each foreign air carrier holding a foreign air carrier permit; the Departments of the Treasury, Transportation, and Justice; the Bureau of Customs; the Federal Aviation Administration; the Port of New York Authority; and the American Importers Association.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.71-11425 Filed 8-6-71;8:52 am]

[4] Comments in support of the Committee's application were received from Japan Air Lines; Lufthansa German Airlines; Alitalia; British Overseas Airways Corp.; United Air Lines; and TWA.

[5] By Order 71-1-55, Jan. 12, 1971, the Board authorized discussions relative to congestion at the IAB at JFK. By Order 71-5-69, May 14, 1971, the Board authorized discussions with respect to possible overcrowding at the NPT at JFK.

[6] The area of concern presently before the Board involves the processing of air cargo at the three airports in question under unusual and taxing conditions. In this regard, the Board understands that the procedures for which permission is sought to be discussed will affect not only the cargo security arrangements at the airports in question, but also the economic and procedural aspects of the day-to-day operations of the air carriers and foreign air carriers involved. For example, among the items which would be discussed would be controlled acceptance or rerouting of certain cargo. This, as the Council application indicates, might mean a reservations basis for the transportation of cargo. We express no view on the public interest factors involved, since any resulting agreements must be filed with us for approval under 49 U.S.C. 1382.

[7] A list of the members of the Council is filed as part of the original document.

[8] For this reason, we will dismiss the application in Docket 23482 of the ad hoc committee formed to conduct discussions in anticipation of the dock strike. The applicants in Docket 23482 do not oppose such action, assuming grant of the application in Docket 23629.

[9] Of course, notwithstanding the termination of this special authority of the Council, its authority deriving from previous Board approvals remains intact.

[Docket No. 23682; Order 71-8-13]

LOCAL SERVICE CLASS SUBSIDY RATE

Order Instituting Investigation and Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 3d day of August 1971.

By this order the Board is instituting an investigation directed to the establishment of a revised class subsidy rate for the local service carriers to be effective on and after July 1, 1971. This order also tentatively proposes a temporary subsidy rate for those carriers for the period on and after July 1, 1971, pending the establishment of a final rate in this proceeding.

Orders 71-1-143, January 29, 1971, and 71-3-7, March 1, 1971, established Class Rate V as the final rate to be paid for the period August 1, 1970, through June 30, 1971, to eight of the nine local service carriers. That rate is also the measure of the temporary rate to be paid to the ninth carrier, Frontier Airlines, Inc., for the same period, pending determination of Frontier's final rate.[1] Since Class Rate V expired by its terms on June 30, 1971, all local service carriers are on an open rate status as of July 1, 1971.[2] Therefore, we are formally instituting an investigation for the purpose of determining a new final class subsidy rate and to provide a basis for interim subsidy payments to all nine carriers pending the establishment of the final rate.[3]

Reported results for the nine local service carriers for the calendar year 1970 showed break-even need of $39.6 million and interest expense of $23.5 million for a total of $63.1 million in subsidy eligible services. Preliminary reports of the carriers for the January–May 1971, period indicate an increase of system break-even need of $6.9 million. Analysis of this increase as to subsidy eligible/ineligible services cannot be accomplished until definitive data requested from the carriers for fiscal year 1971 has been received. Offsetting such increase for purposes of projecting a final rate for fiscal year 1972 will be such matters as fare increases granted during fiscal year 1971, projected traffic growth and estimate of cost increases for fiscal year 1972. In the meanwhile, temporary subsidy is deemed necessary for continuation of operations. In accordance with past practice, temporary subsidy rates are to be established on the most current break-even need and interest expense. Under all of the circumstances, we believe that the continuation of Class Rate V as a temporary rate which produces an annual level of subsidy payment of $60.9 million is reasonable and risks little possibility of overpayment in the limited number of months that it will be effective, prior to the establishment of a final subsidy rate for fiscal year 1972. Accordingly, we are directing each of the local service carriers to show cause why we should not fix Class Rate V formula provisions as the basis for temporary subsidy payments on and after July 1, 1971.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, particularly sections 102, 204, 406, and 1002 (b) thereof:

It is ordered, That:

1. An investigation be, and it hereby is, instituted as of July 1, 1971, for the purpose of determining a new final local service class subsidy rate or taking such other action as the facts may warrant.[4]

2. Allegheny Airlines, Inc., Frontier Airlines, Inc., Hughes Air Corp. doing business as Air West, Mohawk Airlines, Inc., North Central Airlines, Inc., Ozark Air Lines, Inc., Piedmont Aviation Inc., Southern Airways, Inc., and Texas International Airlines, Inc., are hereby made parties to this investigation.

3. Each of the parties to this investigation is directed to show cause why the fair and reasonable temporary rate of compensation to be paid for the transportation of mail by aircraft, the facilities used and useful therefor and the services connected therewith between the points between which the carriers have been, are presently, or hereafter may be authorized to transport mail by their certificates of public convenience and necessity for the period on and after July 1, 1971, should not be fixed and determined as equal to the rate specified in Order 71-1-143 (which is hereby incorporated by reference herein), pending the fixing of final subsidy rates for the carriers in the instant proceedings.[5]

4. All further procedure herein shall be in accordance with the Board's rules

[1] Orders 71-6-141, June 29, 1971, and 71-7-96, July 19, 1971. Frontier has been on an open subsidy rate since Dec. 2, 1969, when it petitioned the Board to establish a new final rate for its operations. Our determination herein to place Frontier under the same temporary payment formula as we propose to apply to the other local service carriers rests on the same special circumstances as those on which we premised our parallel action in the cited orders.

[2] It was our intention, as we indicated when proposing that Class Rate V terminate as of June 30, 1971 (Order 71-1-143, page 7), to place the carriers on an open rate thereafter in order to enable the Board to reevaluate the structure of that rate and to make appropriate revisions of the subsidy level.

[3] Frontier is being included as a party to this proceeding. See note 1, supra.

[4] This order is not intended to disturb the service mail rates established under other orders of the Board.

[5] The rate specified in Order 71-1-143 is the sum of service mail pay otherwise established and subsidy.

of practice, particularly Rule 302, et seq., and if there is any objection to the rate specified herein, notice thereof must be filed within 8 days, and, if notice is filed, written answer and supporting documents must be filed within 15 days, after the date of service of this order.

5. If notice of objection is not filed within 8 days, or if notice is filed and answer is not filed within 15 days after service of this order, all parties shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order fixing the temporary subsidy rate specified herein: *Provided*, That if notice of objection and answer are filed by any carrier or carriers, the Board may enter an order fixing the rate specified herein for such carriers as have not filed notice of objection or, having filed such notice, have not filed timely answer.

6. This order shall be served upon all parties to this proceeding. This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[FCC 71-782]

INDIANA BELL TELEPHONE CO., INC., AND SOUTHWESTERN BELL TELEPHONE CO.

Forfeitures Imposed

JULY 30, 1971.

The Commission has notified Indiana Bell Telephone Co., Inc., Indianapolis, Ind., and Southwestern Bell Telephone Co., St. Louis, Mo., of the imposition of forfeitures for disconnecting telephone service contrary to the regulations in the applicable interstate tariffs. Failure to proceed in accordance with such tariffs is a violation of section 203 of the Communications Act of 1934.

In the case of Indiana Bell, the company disconnected the telephone service of one subscriber for 5 days because he was the roommate of another subscriber for a separate telephone service who was delinquent in the payment of bills for such separate service. There is no tariff authority for such a disconnection. Moreover, the company failed to provide written notice of the disconnection to either subscriber as required by the company's tariffs. For these violations of the Communications Act Indiana Bell is liable to forfeitures in the amount of $1,625.

In the case of Southwestern Bell, the company disconnected service without written notice as required by the tariffs. The company merely called the subscriber's 15-year-old son on the day the bill was received and advise him that service would be disconnected if the subscriber did not call the company by 2 p.m. of the day of the call. For this violation of the Act, Southwestern Bell is liable to forfeiture of $500.

In announcing these actions, the Commission wishes to emphasize that telephone subscribers are required to pay all sums due a telephone company for services which the subscribers obtain under tariffs filed with this Commission. The telephone company has not only the right but the duty to take reasonable steps to disconnect any such service for which the subscriber has not paid the amounts due or to take other appropriate action to collect such overdue amounts. However, the forfeitures are being imposed in these cases because of the Commission's concern that all carriers will conform to the due process provisions of their tariffs in exercising their right to disconnect.

Action by the Commission July 28, 1971.[1]

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[1] Commissioners Burch (Chairman), Bartley, Robert E. Lee, H. Rex Lee, Wells and Houser.

[Docket No. 16679, etc.; FCC 71-778]

RKO GENERAL, INC. (KHJ-TV), ET AL.

Memorandum Opinion and Order Regard Oral Argument Before the Commission En Banc

In regard applications of RKO General, Inc. (KHJ-TV), Los Angeles, Calif., Docket No. 16679, File No. BRCT-58, for renewal of broadcast license; and Fidelity Television, Inc., Norwalk, Calif., Docket No. 16680, Filed No. BPCT-3655, for construction permit for new television broadcast station. In regard applications of RKO General, Inc. (WNAC-TV), Boston, Mass., Docket No. 18759, File No. BRCT-63, for renewal of broadcast license; and Community Broadcasting of Boston, Inc., Boston, Mass., Docket No. 18760, File No. BPCT-4198; and The Dudley Station Corp., Boston, Mass., Docket No. 18761, File No. BPCT-4277; for construction permit for new television broadcast station.

1. The Commission has under consideration in Dockets Nos. 16679 and 16680 the following: (a) The initial decision of Hearing Examiner Thomas H. Donahue, FCC 69D-43, released August 13, 1969; (b) exceptions thereto, brief in support of exceptions, and request for permission to file a pleading in excess of the prescribed page length filed December 12, 1969, by RKO General, Inc.; (c) exceptions and brief in support thereof filed December 12, 1969, by Fidelity Television, Inc.; (d) reply brief filed June 5, 1970, by RKO; (e) reply brief filed on June 5, 1970, by Fidelity; (f) brief of Department of Justice as amicus curiae filed June 10, 1970; (g) reply to Department of Justice brief filed July 20, 1970, by RKO; (h) response to RKO brief filed August 10, 1970, by the Department of Justice; (i) petition to reopen the record filed January 8, 1971, by the Chief, Broadcast Bureau; (j) opposition to the petition to reopen, filed February 8, 1971, by RKO[1]; (k) comments on the petition to reopen, filed February 8, 1971, by Fidelity; (l) comments on RKO's opposition, filed February 18, 1971, by Community Broadcasting of Boston, Inc.[2]; (m) reply to RKO's opposition filed February 10, 1971, by Chief, Broadcast Bureau; (n) request for scheduling of oral argument, filed May 24, 1971, by Fidelity; (o) request by RKO for authorization to file an additional response to petition to reopen, filed June 15, 1971; (p) further statement by RKO in response to petition to reopen, lodged June 15, 1971; and (q) opposition to RKO's request for authorization to file an additional response, filed by Fidelity on June 21, 1971. In Dockets Nos. 18759-18761, the Boston proceeding, the Commission has under consideration: (a) Motion to strike unauthorized request for modification of issues, filed February 18, 1971, by The Dudley Station Corporation;[3] (b) opposition to the motion to strike, filed February 25, 1971, by RKO; and (c) reply to the opposition filed March 9, 1971, by the Dudley Station Corp.

[1] Included as an attachment thereto is the opposition of RKO General, Inc., to a petition to enlarge issues, filed Feb. 1, 1971, by Community Broadcasting of Boston, Inc., in Dockets Nos. 18759-61.

[2] Attached thereto is the petition to enlarge issues, filed Dec. 28, 1970, by Community Broadcasting of Boston, Inc., and reply to opposition of RKO General, Inc., filed Feb. 10, 1971, by Community in Dockets Nos. 18759-61 (i.e. the complements of the attachment described in Footnote 1, supra).

[3] The Dudley Station Corp. and Community Broadcasting of Boston, Inc., are competitors of RKO General, Inc. in Dockets Nos. 18759-61, the Boston, Mass., Channel 7 renewal proceeding (WNAC-TV, RKO General, Inc., is incumbent licensee) and have an interest herein as will become apparent.

2. The fact in common to these proceedings is that RKO General, Inc., is the licensee of KHJ–TV (Los Angeles) and WNAC–TV (Boston). It is likewise the wholly owned subsidiary of General Tire and Rubber Co., as are a number of nonbroadcast entities. On June 8, 1966, the license of KHJ–TV was designated for renewal in a comparative hearing.[4] On March 2, 1967, the United States filed civil action No. C–67–155 in the U.S. District Court for the Northern District of Ohio, Eastern Division, against General Tire and Rubber Co., RKO General, Inc., et al. alleging that General Tire and its various subsidiary corporations had engaged in coercive reciprocal dealings[5] in violation of the Sherman Antitrust Act,[6] and seeking an injunction against its continuance. On June 9, 1967, the Review Board amended the order of designation to include a provision that the outcome of the comparative proceeding in Los Angeles (KHJ–TV) would be "without prejudice to whatever action, if any" the Commission might deem appropriate as a result of the Ohio civil action.[7] The Hearing Examiner reopened the Los Angeles proceeding on March 11, 1968, to receive evidence on reciprocal dealing which had been developing in the civil antitrust action, "with the caveat that such evidence must be patently germane to RKO's stewardship of KHJ–TV * * *".[8]

3. A petition by Fidelity Television, Inc., for enlargement of issues based on the civil antitrust suit was denied by the Review Board.[9] Although denying Fidelity's application for review of the Review Board's determination on the ground that it had already obtained by previous actions of the Board and the Examiner substantially all of the relief requested, the Commission on its own motion added a conclusionary issue, to wit: [10]

To determine, in light of the evidence adduced with respect to the preceding issues, whether RKO General, Inc., should be disqualified or, if not, whether a comparative demerit should be assessed against it in this proceeding.

4. The KHJ–TV (Los Angeles) hearing proceeded to final adjudication. In his Initial Decision,[11] the Hearing Examiner made no affirmative finding that KHJ–TV is not qualified to be a broadcast licensee, but he concluded that Fidelity was the preferable applicant on a comparative basis. He therefore recommended that the KHJ–TV application for renewal of license be denied and that the application of Fidelity for a construction permit for a new television station on Channel 9 at Norwalk, Calif., be granted.

5. Thereafter, on December 11, 1969, the Commission designated the renewal application of RKO General, Inc., for Channel 7, Boston, Mass. (WNAC–TV), for hearing with two competing applications.[12] The issues included, inter alia:

3. To determine with respect to the application of RKO General, Inc., whether in view of the evidence concerning alleged anticompetitive practices by RKO General, Inc., or its parent corporation, General Tire and Rubber Co., RKO General, Inc., should be disqualified to remain a licensee of the Commission or if not so disqualified, whether a comparative demerit should be assessed against it in this proceeding.

The order provided that official notice might be taken of the Los Angeles KHJ–TV proceeding and that only new or additional evidence not adduced in that proceeding might be adduced in the Boston proceeding. It also included provisions that in the event of a grant to RKO, the grant would be subject to whatever action the Commission deemed appropriate as a result of the pending civil antitrust suit and the developments and findings in the proceeding before the Commission in Docket No. 16679 involving the renewal of KHJ–TV's license.

6. The antitrust action in the U.S. District Court was terminated on October 22, 1970, by a consent judgment. Consequently, the Commission will not have the benefit of any findings therefrom, and the reservation by the Commission of the right to predicate action in the RKO renewal proceedings on the outcome of the civil suit thereby becomes a nullity. The resolution of the Los Angeles and Boston proceedings must be based on the records developed in the adjudicatory hearings before the Commission.

7. The Broadcast Bureau seeks to reopen the KHJ–TV record for the introduction of additional evidence. It alleges that there is presently available considerably more evidence bearing on the anticompetitive activities of General Tire, RKO General, Inc., and their subsidiaries and affiliates than was available when the anticompetitive phase of the Los Angeles hearing was in progress. While the Broadcast Bureau indicated a preference for reopening the Los Angeles record with an issue identical to that in the Boston proceeding, it mentioned as a possible alternative making the outcome of the Los Angeles proceeding dependent upon the final result in Boston under the anticompetitive issue in a manner similar to that in which the ultimate result of the civil suit might have been used.

8. The Broadcast Bureau's petition herein further referred to another petition pending before the Review Board to add issues in the Boston proceeding to determine whether certain officers, employees and former employees of General Tire and RKO had misrepresented or concealed facts, or been lacking in candor in their testimony concerning reciprocal trade practices when testifying in the Los Angeles proceeding and, if so, whether RKO should be disqualified as a licensee in Boston or assessed a comparative demerit. The Bureau requested that the Commission either direct the Review Board to add such issues to Los Angeles or to add them itself. In the interval since the Bureau's filing, the Review Board has acted upon the pleadings before it and has added the following issues, to wit: [13]

(a) To determine whether in sworn testimony given in the course of the KHJ–TV proceeding, Dockets Nos. 16679–16680, officers, employees, and/or former employees of General Tire and Rubber Co., or of RKO General, Inc., misrepresented facts, concealed facts, or were lacking in candor with regard to the existence, nature, and extent of reciprocal trade practices engaged in by General Tire and Rubber Co. and RKO General, Inc.; and

(b) To determine in light of the evidence adduced pursuant to the aforementioned issue whether RKO General, Inc., should be disqualified as licensee of WNAC–TV or, alternatively, assessed a comparative demerit.

9. The position of the parties in the Los Angeles proceeding insofar as the anticompetitive issue and the issues concerning the alleged misrepresentations and lack of candor are concerned appear to be that the Broadcast Bureau prefers to have the subject matter thereof considered in a reopened KHJ–TV renewal proceeding. Fidelity asks that they be considered as a condition subsequent in the same manner as the basic anticompetitive issue in Boston. RKO, in its additional response to the Bureau's motion to reopen, submitted on June 15, 1971,[14] denies that there is any merit to the charges against it, but concedes that the issue as to veracity and candor added by the Review Board in the Boston proceeding is also relevant to the Los Angeles case. It therefore requests that the Los Angeles proceeding be reopened, that the candor issue be added, and that the proceeding be remanded to the Hearing Examiner in the Boston case for a consolidated hearing on that issue. The principal disagreement among the parties would appear to be whether a reopened hearing in the Los Angeles case is necessary and, if necessary, the nature and extent of the issues to be explored therein.

10. We see no purpose in reopening the Los Angeles proceeding either for the introduction of evidence concerning alleged antitrust activities of General Tire and RKO or for a hearing on the issues added by the Review Board. On the basis of his comparison of the qualifications of the two applicants, the Examiner recommended against a renewal of the KHJ–TV license and in favor of a grant of Fidelity's application for a construction permit. Only if the Examiner committed errors of decisional significance in his comparative analysis and the Commission contemplates a grant of the RKO renewal application will the additional evidence sought to be introduced be material to a decision on the KHJ–TV renewal application. In these circumstances we believe that the better and more expedient procedures is as follows:

(a) Deny the Bureau's motion to reopen and proceed with the disposition of the Los Angeles proceeding on the basis of the evidence now of record.

(b) Grant the request of the parties for oral argument and hold oral argument on the exceptions in Dockets Nos. 16679–16680 at the time and place scheduled herein.

(c) Make Fidelity a party to the Boston proceeding but limit its participation to matters pertaining to RKO's character qualifications to be a Commission licensee either by reason of antitrust or anticompetitive activities or by reason of the alleged conduct which forms the basis for the issues added by the Review Board. In this connection we note that counsel which represents Fidelity in the Los Angeles proceeding also represents Community Broadcasting of Boston, Inc., a competing applicant in the Boston case; and the same firm of attorneys represents RKO in both proceedings. Therefore, we believe that neither RKO nor Fidelity, nor in fact any other party to these proceedings, will be prejudiced or inconvenienced by the procedure herein adopted.

(d) In the event the Commission determines that on a comparative basis KHJ–TV is the preferable applicant, defer the issuance of a final decision until the conclusion of the Boston adjudicatory proceeding in Dockets Nos. 18759–18761, and thereafter take such action as appears to be appropriate in light of the evidence introduced in, and the outcome of, the Boston proceeding.

The procedure adopted herein will enable the Commission to proceed with the Los Angeles matter and bring it to a conclusion with no risk to the public interest. If Fidelity should be found to be the better applicant, RKO's character qualification would become irrelevant and the successful applicant can proceed to put its authorized broadcast facility into operation without awaiting the outcome of the Boston case. On the other hand, if on the present record RKO should be found to be the better applicant on a comparative basis, the award of a renewal of license may be held in abeyance until the pertinent evidence in the Boston proceeding is taken into account.

11. Turning now to the motion to strike filed in the Boston proceeding on February 18, 1971, by the Dudley Station Corp., we note that, while it is, in form, a motion to strike the opposition of RKO General, Inc., in toto, it is in actuality directed only to such portion of the pleading as would place "guidelines" upon the reception of evidence under the so-called anticompetitive issue in the Boston renewal proceeding. Insofar as the Boston renewal proceeding is concerned, the Examiner has defined the scope of evidence [15] which he plans to receive, and he has been affirmed by the Review Board.[16] Since our disposition of this matter does not involve a reopening of the KHJ–TV (RKO, Los Angeles) hearing, this portion of the opposition will not be considered or acted upon and the motion to strike the same becomes moot.

12. On June 10, 1970, the Department of Justice submitted in the Los Angeles proceeding Dockets Nos. 16679 and 16680 a brief as amicus curiae which is directed primarily to RKO's qualifications to be a Commission licensee by reason of the alleged anticompetitive and antitrust activities of General Tire and RKO. RKO responded on July 20, 1970, and the Department of Justice submitted a reply memorandum on August 10, 1970. Although we propose to confine our consideration at this time to the comparative aspects of the proceeding, we recognize that one of the questions presented is whether a comparative demerit should be assessed against RKO by reason of the evidence of record concerning its alleged anticompetitive conduct. We shall therefore accept for filing the aforementioned pleadings submitted by the Department of Justice and RKO.

13. *Accordingly, it is ordered,* That the petition to reopen the record filed on January 8, 1971, by the Broadcast Bureau is denied; and

14. *It is further ordered,* That RKO General's requests for permission to file a pleading in excess of the prescribed page length submitted December 12, 1969, and for authorization to file an additional response to the petition of the Chief, Broadcast Bureau to reopen the record submitted June 15, 1971, are granted and the tendered pleadings are accepted for filing; and

15. *It is further ordered,* That the brief of the Department of Justice as amicus curiae, the response of RKO General, Inc., and the reply of the Department are accepted for filing; and

16. *It is further ordered,* That the motion to strike filed on February 18, 1971, by the Dudley Station Corp. in Dockets Nos. 18759–61 (RKO, Boston), being moot, is dismissed; and

17. *It is further ordered,* That Issue (b) quoted in paragraph 8, supra, is amended to delete "licensee of WNAC–TV" and to substitute therefor "a licensee of the Commission"; and

18. *It is further ordered,* That Fidelity Television, Inc., is made a party to the proceedings in Dockets Nos. 18759–61 (RKO, Boston) and is authorized to participate in the hearing on the designated issues, insofar as such issues pertain to the qualifications of RKO General, Inc., to be a licensee of the Commission as set forth herein; and

19. *It is further ordered,* That in the event the Commission concludes in the Los Angeles Dockets Nos. 16679–16680 proceeding that KHJ–TV is the preferable applicant on a comparative basis, the issuance of a final decision will be held in abeyance pending the conclusion of the adjudicatory proceeding in the Boston Dockets Nos. 18759–18761 matter, and thereafter such action will be taken as appears to be necessary and appropriate in light of the evidence introduced in, and the outcome of, the Boston proceeding concerning the qualifications of RKO General, Inc., to be or continue to be a licensee of the Commission; and

20. *It is further ordered,* That the request of the parties for oral argument in the proceeding in Dockets Nos. 16679–16680 is granted; and

(a) That oral argument is scheduled before the Commission en banc on October 12, 1971, at 9:30 a.m.

(b) That subject to the filing within five days after release of this order of written notices of intention to appear and participate, the parties are authorized to present oral argument as follows:

RKO General, Inc., 30 minutes.
Fidelity Television, Inc., 25 minutes.
Chief, Broadcast Bureau, 5 minutes.

(c) That RKO General, Inc., may reserve part of its time for rebuttal.

Adopted: July 28, 1971.

Released: August 2, 1971.

FEDERAL COMMUNICATIONS COMMISSION,[17]

[17] Commissioner Johnson absent.

Communications, Inc. (Forum),[1] in order to determine the effect of alleged increases in the cost of film and in the salary scales for technical employees in the New York television market on the financial qualifications of Forum.

2. In support of its request, WPIX first points out that Forum estimates first year operating expenses of $9,193,400, including $3,336,000 for the cost of film and syndicated programing and $828,000 for the salaries of technical and engineering staff. Petitioner submits the affidavits of Louis N. Friedland,[2] an alleged expert on the purchase and sale of television film programing, and Arthur Korff, business manager of Local 1212, International Brotherhood of Electrical Workers (IBEW), AFL–CIO, to buttress its claim of inflationary rises in film and labor costs in New York City since this proceeding was designated for hearing. Specifically, with regard to film costs, Friedland claims that prices have increased in a range of 20 to 50 percent.[3] In addition, Friedland forecasts future price rises due to the reduction of network programing during prime time, changes in the method of payment for syndicated and feature films (requiring greater down payments and increased distributorship payments), and rises in residual costs, which, according to Friedland, will inhibit the number of off-network programs offered to local television. According to Korff, since January 1, 1970, wages for television technicians have increased from 8 to 22 percent, exclusive of additional increases in fringe benefits. Since Forum claims to have available capital resources totaling $4,050,000, and a reserve fund for unbudgeted contingencies amounting to approximately $380,000, WPIX asserts that it is doubtful, even if the station were constructed today, that this reserve would be sufficient to meet Forum's original cost estimates; therefore, petitioner requests modification of the existing issue to consider this question.[4]

3. The Broadcast Bureau, in opposition, asserts that Friedland's figures are qualified and merely speculative, because he limited cost estimates to certain film and is not competent to state what film Forum would purchase if licensed. For example, the Bureau points out, there is no allegation that Forum would be required to buy only film that has risen 50 percent in cost. The Bureau also attacks Friedland's ability to provide information regarding cost increase percentages for all distributors, because he is only associated with MCA, Inc.; and, the Bureau notes, no information is submitted concerning Friedland's experience, dealings with and knowledge of other companies, or statistical data on reports utilized in the preparation of his estimates.[5] The Bureau also questions the competence of Korff to speak for the other technicians unions, and faults his failure to provide the basis for his knowledge. However, the Bureau states that his esimates are less speculative than Friedland's.

4. In order to establish that Forum has sufficient cash reserves, the Bureau applies the maximum and minimum percentage increase figures of Friedland and Korff to Forum's first three months' cost estimates.[6] These computations disclose that if the high estimated increases are used (22 percent increase in technical salaries and 50 percent in film costs), a total of $462,540 would be required, while $182,160 would be needed if the low figures (8 percent and 20 percent) are used. Based on these figures, the Bureau contends that Forum's capital reserve is more than adequate to meet the minimum alleged increases, and is lacking only if Forum is required to assume costs at the alleged highest percentage figures. Therefore, the Bureau avers that only if one indulges in speculation concerning the purchase of syndicated film is there an adequate basis for the requested modification, and under these circumstances, the Bureau urges denial of the requested modification (citing Mt. Carmel Broadcasting Co., 8 FCC 2d 1033, 10 RR 2d 961 (1967)).

5. In opposition, Forum disputes WPIX's allegation that Forum will be unable to obtain attractive film programming to effectuate its recorded program proposal for the amount budgeted, $3,336,000; and asserts that WPIX did not provide any information as to its own present film costs to support its allegation that the Forum estimate is too low. Forum contends that it proposes to expend more money per hour for syndicated and feature films than WPIX spent in 1969 (the last year for which such figures are available). In this regard, Forum estimates that WPIX's cost for syndicated and feature film programming during 1969 was substantially less than $3,394,774, or approximately $650 per hour; Forum, on the other hand, plans to expend approximately $800 per hour on syndicated and feature films, with less prime time film than was utilized by WPIX.[7] Thus, Forum maintains that its budgeted amount is at least 22.8 percent higher than WPIX's expenditures and well within the inflationary price increase range set forth in the Friedland affidavit. Moreover, respondent avers, as did the Bureau, that Forum's contingency fund is more than adequate to cover even a 25 percent increase in its film cost estimate due to inflation, and still have a sufficient amount to cover unanticipated costs. With regard to the technical salaries, Forum charges that WPIX has failed to allege any fact to indicate that the technicians cannot be hired for the estimated $12,000 per year; and that even a 22 percent increase could be readily absorbed by the contingency fund.

6. In reply, WPIX counters that neither the Bureau nor Forum has submitted any data denying the allegation that substantial inflationary cost increases have occurred. Absent such controverting evidence, WPIX maintains, the conclusion is inescapable that Forum has failed to amend its application as to a matter of unquestionable materiality to its overall financial qualifications. WPIX asserts that Forum and the Bureau misconceive the nature of the problem, because the inflationary cost increases must be reflected in the Forum application. This is of prime concern to the Commission, the petitioner alleges, because it is impossible to determine whether Forum will have available all of the debt and equity capital on which it relies. In addition, WPIX submits the affidavit of Mr. T. E. Mitchell, vice president and treasurer of WPIX, who claims to be personally familiar with the film costs and wages in dispute. Mitchell states that WPIX's operating experience since January 1970, confirms the accuracy and validity of the Friedland and Korff affidavits. During 1970, according to Mitchell, WPIX paid over $4,138,000 for syndicated and feature films, while the average annual wage for permanent, full-time, nonsupervisory technical employees at WPIX is in excess of $14,000. Therefore, WPIX asserts that Forum's attempt to use WPIX film costs for 1969 to forecast its own future costs is misplaced.

7. In a supplemental opposition,[8] Forum reasons, based on the WPIX 1970 cost figures submitted by Mitchell, that WPIX expended $780 per hour for film costs in 1970, a sum which is still less than the average hourly cost proposed by Forum. Forum concedes, however, that based on WPIX's figures, its technical salary estimates may be understated by $175,000 a year, or approximately $45,000 for the first 3 months of Forum's operation. However, this amount, Forum urges, is de minimis.[9]

8. The Review Board is of the view that the allegations contained in the Friedland, Korff and Mitchell affidavits raise a substantial question as to the effect of inflationary trends on Forum's estimates for syndicated films and technicians' wages in the New York City market. Although it is impossible to pinpoint the exact degree of increase in the price of film attributable to inflation, petitioner has set forth adequate substantiation of its assertions to demonstrate that Forum's cost estimate for film, as it stands now, fails to reflect current market conditions. Furthermore, respondent has not presented any figures of its own to refute the alleged inflationary increases, and it appears that Forum has conceded that estimated expenses for the wages of technicians are understated by approximately $45,000 for the first 3 months operation. Forum's reliance on its financial reserve to cover these inflationary increases is apparently misplaced, because the existing financial issue has already put in issue Forum's available and reserve funds. For these reasons, the Board is constrained to modify the existing limited financial issue in order to determine the effects of inflation on these two key cost items.

9. *Accordingly, it is ordered*, That the motion for leave to file additional pleading and supplement to opposition to petition to modify financial issue, filed May 17, 1971, by Forum Communications, Inc., is granted, and the supplement is accepted; and

10. *It is further ordered*, That the motion for leave to file supplement to petition to modify financial issue, filed June 17, 1971, by WPIX, Inc., is granted, and the supplemental pleading is accepted; and

11. *It is further ordered*, That the petition to modify financial issue, filed April 8, 1971, by WPIX, Inc., is granted; and that the existing financial issue in this proceeding is modified by relettering subissues (e) and (f), to (f) and (g), respectively, and adding a new subissue (e), to read as follows:

(e) The effect of increasing costs of film and technicians' wages in the New York City television market on Forum's estimated costs of construction and first 3 months of operation.

Adopted: July 30, 1971.

Released: August 3, 1971.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.71-11433 Filed 8-6-71;8:54 am]

[1] This petition was filed Apr. 8, 1971; also before the Board are: (a) Opposition, filed Apr. 29, 1971, by the Broadcast Bureau; (b) opposition, filed Apr. 29, 1971, by Forum; (c) reply, filed May 11, 1971, by WPIX; (d) motion for leave to file additional pleading, filed May 17, 1971, by Forum; (e) motion for leave to file "supplement to petition to modify financial issue," filed June 17, 1971, by WPIX; (f) opposition to (e), filed June 25, 1971, by the Broadcast Bureau; and (g) opposition to (e) filed July 12, 1971, by Forum.

[2] Friedland is vice president and a director of MCA–TV, Universal Studios, and "related companies."

[3] Friedland states that: "• • • the average price for all types of syndicated film which would be of interest to the three New York City VHF independents has risen by approximately 20 percent. The average price for feature film rose • • • by approximately 25 percent • • • and in the case of many feature and nonfeature syndicated film lists, the increase has been as high as 50 percent."

[4] WPIX notes that, even if there has been only a 25 percent overall increase in Forum's originally budgeted cost for film and a 10 percent increase in engineering wage scales since designation, these increases alone would add approximately a million dollars a year to Forum's budgeted first-year expenses.

[5] In this connection, the Bureau characterizes as speculative Friedland's claim that reduction of network programing in prime time will reduce the amount of attractive off-network syndicated products available to independents.

[6] Because of the financial success of New York City television broadcasting stations, the Commission, in the designation order, stated that Forum need only demonstrate the availability of cash to meet the first 3 months' operating costs.

[7] Forum maintains that prime time film is more expensive than film utilized during other periods of the broadcast day.

[8] Forum's supplemental opposition is responsive to facts alleged for the first time in petitioner's reply pleading; the petition for acceptance of the supplemental pleading will therefore be granted.

[9] WPIX, in a supplement to its motion, submits Forum's first 5-year cash flow forecast, contending that the figures therein substantiate petitioner's claims. Although the Board is of the view that good cause exists for the late filing of this information, we agree with Forum and the Broadcast Bureau that the analysis contained in the forecast is of no material value in determining whether the requested issue is warranted; the figures merely reflect a general market increase in costs between 1964 and 1968, and are in no way shown to be related to the petitioner's allegations regarding the costs of film and wages.

FEDERAL MARITIME COMMISSION

AMERICAN EXPORT ISBRANDTSEN LINES, INC., ET AL.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 10 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

American Export Isbrandtsen Lines, Inc., Atlantic Container Line, Ltd., Dart Containerline Incorporated, Hapag-Lloyd Aktiengesellschaft, Sea-Land Service, Inc., Seatrain Lines, Inc., and United States Lines, Inc.

Notice of agreement filed by:

Paul J. McElligott, Esq., Ragan & Mason, The Farragut Building, 900 17th Street NW., Washington, DC 20006.

Agreement No. 9899-4, among the above-named parties, requests that the approval of the basic agreement and all amendments thereto be further extended to and including October 23, 1971.

Dated: August 4, 1971.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[Independent Ocean Freight Forwarder License 1100]

UNIVERSAL VAN LINES, INC.

Order of Revocation

By letter dated July 2, 1971, Universal Van Lines, Inc., 117 West Virginia Beach Boulevard, Norfolk, Va., was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 1100 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before July 27, 1971.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Universal Van Lines, Inc., has failed to furnish a surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) section 7.04(g) (dated September 29, 1970):

It is ordered, That the Independent Ocean Freight Forwarder License of Universal Van Lines, Inc., be returned to the Commission for cancellation.

It is further ordered, That the Independent Ocean Freight Forwarder License of Universal Van Lines, Inc., be and is hereby revoked effective July 27, 1971.

It is further ordered, That a copy of this order be published in the FEDERAL REGISTER and served upon Universal Van Lines, Inc.

AARON W. REESE,
Managing Director.

[Docket No. E-7653]

FEDERAL POWER COMMISSION

BLACK HILLS POWER AND LIGHT CO.

Notice of Application

AUGUST 3, 1971.

Take notice that on July 12, 1971, an application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by Black Hills Power and Light Co. (applicant), a corporation organized under the laws of the State of South Dakota and doing business in the States of South Dakota, Wyoming, and Montana, with its principal business office at Rapid City, S. Dak., seeking an order authorizing the issuance of up to $1.8 million of short-term notes. Applicant proposes to issue such short-term notes to enable it to carry on its construction program, to maintain an adequate working cash position and to redeem its First Mortgage Bonds, Series A, 3⅜ percent, dated September 1, 1971. Applicant will pay the prime rate of interest in effect at the time of issuance of the short-term notes. No underwriter's or finder's fee has been or will be paid in connection with the issuance of any such notes.

Any person desiring to be heard, or to make protest with reference to said application, should on or before the 20th day of August 1971, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.71-11412 Filed 8-6-71;8:52 am]

[Docket No. E-7648]

BONNEVILLE POWER ADMINISTRATION

Order Confirming and Approving Rates and Charges

AUGUST 3, 1971.

The Assistant Secretary of the Interior, on behalf of Bonneville Power Administration (BPA), pursuant to section 5 of the Bonneville Act (50 Stat. 731, 734-735, as amended, 59 Stat. 546), and section 5 of the Flood Control Act of 1944 (58 Stat. 887,890), on July 21, 1971, filed with the Federal Power Commission a request for confirmation and approval of the rates for the sale of additional electric energy made available by continuing the dual-purpose operation of the Hanford N-Reactor. The approval is requested for the rates as set forth in section 5 of Power Sales Contract No. 14-03-19309 (Power Sales Contract) between BPA and 16 industrial customers to cover the fiscal years 1972, 1973, and 1974.

The Power Sales Contract, together with contracts between (1) BPA and the Washington Public Power Supply System (WPPSS), and (2) the U.S. Atomic Energy Commission (AEC) and WPPSS, provides the basis for continuing the dual-purpose operation of the Hanford N-Reactor as proposed by the Office of Management and Budget (OMB).

In addition to the contracts involving WPPSS, pursuant to the OMB proposal and under the terms of the Power Sales Contract, the 16 industrial customers agreed to pay $9 million to AEC toward the funds necessary to continue the operation of the Hanford N-Reactor provided that the industrial customers are permitted to purchase additional electric energy from BPA totaling 3 billion kilowatt hours in fiscal years 1972-74. The Power Sales Contract also provides for the 16 industrial customers to pay BPA at the rate of 2 mills per kilowatt-hour for the aforementioned 3 billion kilowatt hours of energy.

Inasmuch as the Department of the Interior has represented that the approval herein sought is for rates to which all parties are in complete agreement, public notice of this filing was deemed unnecessary.

The Commission finds: It is appropriate for the purposes of the Bonneville Act and section 5 of the Flood Control Act of 1944 that the rates and charges set forth in section 5 of the Power Sales Contract No. 14-03-19039 between the Bonneville Power Administration and 16 industrial customers, relating to restart of the Hanford NPR Project, as referred to above, be confirmed and approved.

The Commission orders: The aforementioned rates and charges are hereby confirmed and approved for the period covering fiscal years 1972-74.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[FR Doc.71-11416 Filed 8-6-71;8:52 am]

[Docket No. RP71-31]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Order Providing for Hearing, Permitting Tracking Rate Increase To Become Effective Subject to Refund, and Providing Hearing Procedure

JULY 30, 1971.

Transcontinental Gas Pipe Line Corp. (Transco), on June 10, 1971, filed revised tariff sheets to its FPC Gas Tariff, Original Volume No. 1,[1] reflecting an increase in jurisdictional rates of $1,009,283 annually to become effective on July 26, 1971. The filing is made for the purpose of tracking advance payments made by Transco in seven separate advance payment contracts. Transco, on April 29, 1971, filed a motion for approval of an amendment to "Agreement as to Rates of Transcontinental Gas Pipe Line Corp." in order to permit it to make tracking rate filings reflecting advance payments for gas. We are by separate order issued this same date granting Transco's motion.

[1] These revised sheets are as follows: Second Revised Sheets Nos. 29-CC and 28-X.5, Sixth Revised Sheets Nos. 28-GG and 28-JJ, Ninth Revised Sheets Nos. 28-A.1, 28-A.4 and 28-X.3, 13th Revised Sheet No. 27, 18th Revised Sheets Nos. 26-G, 26-L and 26-Q, 22d Revised Sheet No. 28-DD, 23d Revised Sheets Nos. 28-AA and 28-K-2, 28th Revised Sheet No. 26-B, 29th Revised Sheets Nos. 17-F and 28-P, 30th Revised Sheet No. 17-B, 31st Revised Sheets Nos. 9, 19, 24, and 28-I, 32d Revised Sheet No. 16 and 33d Revised Sheets Nos. 5 and 12.

Upon the filing by Transco of additional data as requested by the Commission Staff on July 12, 1971, the June 10, 1971, filing was noticed on July 21, 1971. The North Carolina Utilities Commission has filed a "Notice of Intervention in Protest" of the tracking filing. North Carolina contends that the sum of $9,946,589, which Transco proposes to include in rate base to reflect advance payments, is not properly includable therein as the repayment of $8,409,167 of said amount is stated to be guaranteed, that the gas will be resold to produce ordinary revenue and that the advance payment is only a loan of funds. North Carolina says that Transco will realize a return on its investments through repayment, acquisition or rights, data and interests in the properties acquired or discovered pursuant to the contracts, that Transco will also obtain a reasonable and appropriate return as to those portions of the advances which become unrecoverable and that the return should not be prematurely derived from gas distributors and ultimately the ratepayers, through a tracking filing.

Transco filed an answer to North Carolina's Protest in which it contends and argues that North Carolina misunderstands and misconceives the nature and effect of the advance payments which Transco seeks authority to track. Transco states, inter alia, that the advance payments to producers are properly includable in rate base as it must obtain these funds from conventional sources and that there is no possibility of Transco earning a return on its advances unless it is able to include these payments in rate base as contemplated by the Commission's Orders Nos. 410 and 410-A.

Review of Transco's filing and the protest of the North Carolina Commission indicates that certain issues are raised which require development in evidentiary proceedings. The proposed increased rates have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful. We will therefore order a hearing on Transco's tracking filing and will allow the proposed increased rates to become effective, subject to refund, pending the outcome of the hearing.

The Commission finds:

It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that:

(1) The Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in the proposed revised tariff sheets contained in footnote 1 above and that those revised tariff sheets be allowed to become effective, subject to refund, as hereinafter provided; and

(2) The disposition of these proceedings be expedited in accordance with the procedures set forth below.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held commencing with a prehearing conference on September 21, 1971, at 10 a.m., e.d.t., in hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, concerning the lawfulness of the rates and charges contained in Transco's proposed revised tariff sheets contained in footnote 1 above.

(B) Transco's proposed revised tariff sheets are allowed to become effective as of July 26, 1971, subject to refund, pending hearing and decision thereon.

(C) Following the prehearing conference on September 21, 1971, all evidence shall be admitted to the record, subject to appropriate motions, if any, by parties to the proceeding.

(D) Following the admission of the evidence to the record, the parties shall proceed to effectuate the intent and purpose of § 2.59 of the Commission's rules of practice and procedure and of this order.

(E) On or before August 16, 1971, Transco and parties supporting Transco's filing shall serve their prepared testimony and exhibits. The prepared testimony and exhibits of the North Carolina Utilities Commission and any other parties in opposition to Transco's filing shall be served on or before August 30, 1971. Any rebuttal evidence by Transco and supporting parties shall be filed on or before September 7, 1971. Cross-examination of the evidence shall commence immediately following the prehearing conference on September 21, 1971. The Presiding Examiner, upon a showing of good cause, may grant such extensions of time as he deems appropriate.

(F) A Presiding Examiner to be designated by the Chief Examiner for that purpose (see Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding; shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.71-11413 Filed 8-6-71;8:52 am]

[Docket No. RP71-31]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Order Approving Amendment to "Agreement as to Rates"

JULY 30, 1971.

Transcontinental Gas Pipe Line Corp. (Transco), on April 29, 1971, filed a motion for an amendment to its "Agreement as to Rates" in the above-captioned docket. Transco's proposal would add a new Article VII in order to permit it to file tracking rate increases to give effect to inclusion in its rate base of advance payments in accordance with the provisions set forth in that article.

In support of its motion Transco states that as a result of the Commission's Orders Nos. 410 and 410-A in Docket No. R-380 allowing pipelines to account for and include in rate base advance payments as therein defined, a number of pipelines have made substantial outlays to producers in the form of advance payments and have filed with the Commission proposals to reflect in rates to their customers such payments and other advance payments made subsequent thereto. Transco says that it will be required to make additional advance payments to producers in its supply areas if it is to be able to compete effectively with other pipeline companies for the purchase of new gas supplies and stimulate additional drilling in such supply areas. Transco says that it has discussed the situation with its customers, has submitted to its customers the proposed changes in its "Agreement as to Rates" in this docket and has received no objection to the relief which is being sought herein. The tracking proposal would be an exception to Transco's 1-year moratorium on rate increases to which it agreed in the aforementioned agreement.

No protests or requests for formal hearing were filed before the due date of May 24, 1971. On July 14, 1971, the North Carolina Utilities Commission filed a "Notice of Intervention of Protest" requesting that Transco's motion and a subsequent tracking filing reflecting advanced payments be denied. North Carolina contends that Transco's motion should be denied on the grounds that the tracking of advance payments is not necessary, reasonable or appropriate as a part of Transco's efforts to purchase gas. North Carolina also claims that the amounts of advance payments are not properly includable in rate base, that Transco will realize a return on its investments without tracking advance payments and that the return should not be prematurely derived from gas distributors and ultimately the ratepayers through a tracking filing.

Transco filed an answer to North Carolina's protest in which it contends and argues that North Carolina misunderstands and misconceives the nature and effect of the advance payments which Transco seeks authority to track. Transco states, inter alia, that the advance payments to producers are properly includable in rate base as it must obtain these funds from conventional sources and that there is no possibility of Transco earning a return on its advances unless it is able to include these payments in rate base as contemplated by the Commission Orders Nos. 410 and 410-A.

Transco is competing for gas supply with other major pipelines such as Southern Natural Gas Co. and Natural Gas Pipe Line Company of America, which

have been allowed to recoup advance payments through rate base adjustments pursuant to our Orders Nos. 410 and 410–A. North Carolina's argument that Transco's advance payments are not reasonable, necessary or appropriate efforts to obtain gas supply are thus without merit. Furthermore, the proposed Article VII to the rate agreement provides adequate protection to Transco's customers in that it requires Transco to serve copies of any tracking filing reflecting advance payments on its customers 45 days prior to the proposed effective date of the rate change, together with, in the case of a rate increase, a detailed statement, under oath, of the transaction involved with workpapers showing calculation of the rate increase; and provides that if objection to a tracking increase is made prior to the effective date thereof, any portion of such increase found by the Commission, after hearing, to be unjustified shall be subject to refund.

The Commission finds: For the above-stated reasons the protest of the North Carolina Utilities Commission should be denied and Transco's motion, filed April 29, 1971, should be granted and Transco's "Agreement as to Rates" should be amended as proposed in its motion.

The Commission orders:

(A) The protest of the North Carolina Utilities Commission to Transco's motion of April 29, 1971, is denied.

(B) Transco's motion of April 29, 1971, is granted and Transco's "Agreement as to Rates" is amended by revising Article III of said agreement and adding a new Article VII to the agreement. Article III, as amended provides as follows:

With the exception of (1) rate filings which might be required as a result of changes of tax laws affecting Transco, (2) tracking filings made pursuant to Article IV hereof and (3) rate filings to reflect advance payments for gas in accordance with Article VII hereof, Transco will not, before January 1, 1972, place into effect increases in the jurisdictional rates contained in Article II hereof. It is understood and agreed, however, that Transco may file proposed rate increases sufficiently in advance of January 1, 1972, to permit the proposed increased rates to be placed in effect on January 1, 1972, after full suspension under the provisions of the Natural Gas Act.

The new Article VII provides as follows:

ADVANCE PAYMENTS

While the rates provided for in this stipulation and agreement are in effect, Transco may, from time to time prior to January 1, 1972, file and place into effect in accordance with the provisions of this Article VII, increases in its jurisdictional rates to give effect to inclusion in rate base of advance payments made by Transco. Such rate increases shall become effective without suspension but any such increase shall be subject to refund, if objection to it is made prior to the effective date thereof, as to that portion of such increase in rates found by the Commission after hearing to be unjustified. Transco agrees that, in the event all or any portion of an advance payment for which a rate increase has been made hereunder is repaid, in money or in gas, Transco will reflect such repayment in its rates during the term of this stipulation and agreement. "Advance payments" as used herein shall mean "advance payments for gas" as defined in Order No. 410–A or in any order which the Commission may hereafter issue in Docket No. R–380, Docket No. R–411 or any other docket modifying, superseding or in any manner changing the definition of "advance payments for gas."

The amount to be recovered by any rate increase filed hereunder, or the amount by which Transco's rates are to be reduced by reason of the repayment of an advance payment, shall be computed by multiplying (a) the difference between (i) the total amount of advance payments, less repayments, made by Transco as of a date at least forty-five (45) days prior to the proposed effective date of such rate change and (ii) the net amount of advance payments which are reflected in Transco's rates immediately prior to such rate change, by (b) 9.56 percent.

Changes in Transco's rates pursuant to this Article VII shall be applied solely to Transco's commodity charges of its two-part rates (as well as applied to the one-part rates of Transco) computed to the nearest one-tenth of a cent.

Transco shall file with the Commission and serve on its jurisdictional customers and all parties to these proceedings revised tariff sheets reflecting any rate change pursuant to the provisions hereof at least forty-five (45) days prior to the proposed effective date of such change. If such filing represents a rate increase, it shall contain (a) a statement under oath by an officer of Transco describing in full the transaction to which the advance payment relates together with a copy of the advance payment agreement; and (b) work papers showing how the rate increase was calculated. In the case of a rate decrease, the filing shall be accompanied by (a) a statement under oath by an officer of Transco setting out the details of the repayment and (b) work papers showing how the rate decrease was calculated. Any rate decrease to be filed pursuant to the provisions hereof shall be filed within ten (10) days after the date on which advance payments, less repayments, then reflected in Transco's rates have been reduced by one-tenth of one cent (0.1¢) per Mcf of jurisdictional sales.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. CP72-23]

TRUNKLINE GAS CO. AND TENNESSEE GAS PIPELINE CO.

Notice of Application

AUGUST 3, 1971.

Take notice that on July 27, 1971, Trunkline Gas Co. (Trunkline), Post Office Box 1642, Houston, TX 77001, and Tennessee Gas Pipeline Co., a division of Tenneco Inc. (Tennessee), Post Office Box 2511, Houston, TX 77001, filed in Docket No. CP72-23 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the operation of existing facilities for the exchange of natural gas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants state that they have contracted to purchase natural gas produced by Tenneco Oil Co. (Tenneco) in South Timballier, Block 196 Field, offshore Louisiana. Under the provisions of these natural gas purchase contracts, three-fourths of Tenneco's daily production, estimated to be between 30,000 Mcf and 40,000 Mcf of natural gas, will be purchased by Trunkline and one-fourth will be purchased by Tennessee.

To facilitate the receipt of natural gas by Tennessee, Tenneco will deliver all the natural gas purchased by Trunkline and Tennessee to Trunkline through facilities presently under construction under authorization from the Commission in Docket No. CP71-285. Trunkline will transport this natural gas onshore and deliver to Tennessee, at an existing interconnection between their facilities near Centerville, La., all the natural gas purchased from Tenneco less any volumes removed as fuel and shrinkage by Tenneco. Tennessee will redeliver Trunkline's portion, an amount equal to three fourths of the total volume received from Trunkline, to Trunkline at an existing interconnection between their facilities near Kinder, La.

Applicants state that the exchange of natural gas proposed herein will provide additional volumes of natural gas and a more efficient utilization of their respective facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 24, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.71-11415 Filed 8-6-71;8:52 am]

[Docket No. G-5379 etc.]

SKELLY OIL CO. ET AL.

Findings and Order After Statutory Hearing

AUGUST 2, 1971.

Findings and order after statutory hearing issuing certificates of public convenience and necessity, amending orders issuing certificates, permitting and approving abandonment of service, terminating certificates, substituting respondent, redesignating proceeding, and accepting rate schedules for filing.

Each applicant herein has filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce or for permission and approval to abandon service or a petition to amend an order issuing a certificate, all as more fully set forth in the applications and petitions to amend.

Applicants have filed FPC gas rate schedules or supplements to rate schedules on file with the Commission and propose to initiate, abandon, add, or discontinue in part natural gas service in interstate commerce as indicated in the tabulation herein.

Pennzoil United, Inc. (Operator), et al., applicant in Dockets Nos. CI69-803 and CI69-970, proposes to continue sales of natural gas heretofore authorized in Dockets Nos. CI69-804 and CI69-965, respectively, to be made pursuant to Stetco '68, Ltd., FPC Gas Rate Schedules Nos. 1 and 2, respectively. The contracts comprising Stetco's FPC Gas Rate Schedules Nos. 1 and 2 are identical to Pennzoil United's FPC Gas Rate Schedules Nos. 22 and 23, respectively, and will be superseded by supplements to the latter rate schedules. The rates under Stetco's rate schedules are effective subject to refund in Docket No. RI70-706 and Pennzoil United requests that it be substituted in lieu of Stetco as respondent in said proceeding and agrees to assume the total refund obligation from the time the increased rates were made effective subject to refund.

The Commission's staff has reviewed the applications and recommends each action ordered as consistent with all substantive Commission policies and required by the public convenience and necessity.

After due notice by publication in the FEDERAL REGISTER, no petition to intervene, notice of intervention, or protest to the granting of the applications has been filed.

At a hearing held on July 29, 1971, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the applications and petitions, as supplemented and amended, and exhibits thereto, submitted in support of the authorizations sought herein, and upon consideration of the record.

The Commission finds:

(1) Each applicant herein is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will, therefore, be a "natural-gas company" within the meaning of the Natural Gas Act upon the commencement of service under the authorizations hereinafter granted.

(2) The sales of natural gas hereinbefore described, as more fully described in the applications in this proceeding, will be made in interstate commerce subject to the jurisdiction of the Commission; and such sales by applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) Applicants are able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) The sales of natural gas by applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity; and certificates therefor should be issued as hereinafter ordered and conditioned.

(5) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the orders issuing certificates of public convenience and necessity in various dockets involved herein should be amended as hereinafter ordered.

(6) The sales of natural gas proposed to be abandoned, as hereinbefore described and as more fully described in the applications and in the tabulation herein, are subject to the requirements of subsection (b) of section 7 of the Natural Gas Act.

(7) The abandonments proposed by applicants herein are permitted by the public convenience and necessity and should be approved as hereinafter ordered, and the related certificates should be terminated.

(8) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that Pennzoil United, Inc. (Operator), et al., should be substituted in lieu of Stetco '68, Ltd., as respondent in the proceeding pending in Docket No. RI70-706 and that said proceeding should be redesignated accordingly.

(9) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the FPC gas rate schedules and supplements related to the authorizations hereinafter granted should be accepted for filing.

The Commission orders:

(A) Certificates of public convenience and necessity are issued upon the terms and conditions of this order authorizing sales by applicants of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, all as hereinbefore described and as more fully described in the applications and in the tabulation herein.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations, and orders of the Commission.

(C) The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 7 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's regulations thereunder and is without prejudice to any findings or orders which have been or which may hereafter be made by the Commission in any proceedings now pending or hereafter instituted by or against applicants. Further, our action in this proceeding shall not foreclose or prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contracts herein involved. The grant of the certificates aforesaid for service to the particular customers involved does not imply approval of all of the terms of the contracts, particularly as to the cessation of service upon termination of said contracts as provided by section 7(b) of the Natural Gas Act. The grant of the certificates aforesaid shall not be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificates.

(D) The orders issuing certificates of public convenience and necessity in Dockets Nos. G-5379, CI65-98, CI67-596, and CI70-129 are amended by adding thereto or deleting therefrom authorization to sell natural gas as more fully described in the applications and in the tabulation herein. In all other respects said orders shall remain in full force and effect.

(E) The certificates issued in Dockets Nos. CI69-804 and CI69-965 for service herein authorized to be continued in Dockets Nos. CI69-803 and CI69-970, respectively, are terminated.

(F) The certificates of public convenience and necessity and certificate authorizations granted in Dockets Nos. CI65-98, CI67-596, CI71-338, CI71-571, and CI71-785 are subject to the Commission's findings and order accompanying Opinion No. 586. If the quality of the gas deviates at any time from the quality standards set forth in § 154.106 (d) of the regulations under the Natural Gas Act so as to require a downward adjustment of the existing rates, notices of changes in rate shall be filed pursuant

FEDERAL RESERVE SYSTEM

ATLANTIC BANCORPORATION

Order Approving Acquisition of Bank Stock by Bank Holding Company

In the matter of the application of Atlantic Bancorporation, Jacksonville, Fla., for approval of acquisition of 52 percent or more of the voting shares of Gainesville Atlantic Bank, Gainesville, Fla., a proposed new bank.

There has come before the Board of Governors, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)) and § 222.3 (a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by Atlantic Bancorporation, Jacksonville, Fla. (Applicant), a registered bank holding company, for the Board's prior approval of the acquisition of 52 percent or more of the voting shares of Gainesville Atlantic Bank, Gainesville, Fla. (Bank), a proposed new bank.

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Florida Commissioner of Banking, and requested his views and recommendation. The Commission responded that he recommended approval of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on June 9, 1971 (36 F.R. 11126), providing an opportunity for interested persons to submit comments and views with respect to the proposal. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. Time for filing comments and views has expired and all those received have been considered by the Board.

The Board has considered the application in the light of the factors set forth in section 3(c) of the Act, including the effect of the proposed acquisition on competition, the financial and managerial resources and future prospects of the Applicant and the banks concerned, and the convenience and needs of the communities to be served, and finds that:

Applicant has 17 subsidiary banks with aggregate deposits of $645.7 million, representing 4.6 percent of the bank deposits in Florida and ranks as the fourth largest bank holding company in the State. (Banking data are as of December 31, 1970, and reflect holding company formations and acquisitions approved by the Board through June 30, 1971.) Approval of the acquisition of Bank would not presently alter this ranking or increase Applicant's deposits since Bank, as stated above, is a proposed new bank.

All of Applicant's existing subsidiaries are in excess of 45 miles from Gainesville with one exception. Applicant's First National Bank of Gainesville is 4 miles southeast of Bank and is the largest bank in the Gainesville area with deposits of $47.7 million. However, there are nine other banks competing in the area, including affiliates of Florida's first, fifth, and 13th largest holding companies. These latter three control some 44 percent of area deposits and are able to provide strong competition. Moreover, the Gainesville area has experienced rapid population growth and appears to possess attractive opportunities for other de novo entrants. Considering the present competition existing in Gainesville and the probability of increased future competition, the Board concludes that consummation of the proposed acquisition would not adversely affect competition in any relevant area.

The financial and managerial resources and future prospects of Applicant, its subsidiary banks, and Bank are regarded as satisfactory. The establishment of Bank would provide a more convenient banking location for many customers in the northern Gainesville area. Thus, considerations related to the convenience and needs of the community lend some weight in favor of approval. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

It is hereby ordered, On the basis of the Board's findings summarized above, that said application be and hereby is approved, provided that the acquisition so approved shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, and provided further that (c) Gainesville Atlantic Bank shall be open for business not later than 6 months after the date of this order. The periods described in (b) and (c) hereof may be extended for good cause by the Board or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[1] August 3, 1971.

[SEAL] KENNETH A. KENYON, *Deputy Secretary.*

[FR Doc.71-11342 Filed 8-6-71;8:45 am]

FIRST CHICAGO CORP.

Proposed Acquisition of I. J. Markin & Co.

First Chicago Corp., Chicago, Ill., a bank holding company, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843 (c)(8)) and § 222.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of I. J. Markin & Co., Chicago, Ill. Notice of the application was published on June 21, 1971, in the Chicago Tribune, a newspaper circulated in Chicago, Ill.

Applicant states that, upon consummation of its proposal, the proposed subsidiary would engage solely in activities (specifically mortgage lending) already specified by the Board in § 222.4(a)(1) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 222.4(b). The permissibility of such activities in general is not in issue with respect to this application.

The application may be inspected in Room 1020 of the Board's building or at the Federal Reserve Bank of Chicago.

Interested persons may express their views on the question whether performance of the mortgage banking function by I. J. Markin & Co. as an affiliate of applicant can, as set forth in section 4(c)(8) of the Act "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices". Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than September 2, 1971.

Board of Governors of the Federal Reserve System, August 2, 1971.

[SEAL] KENNETH A. KENYON, *Deputy Secretary.*

[FR Doc. 71-11343 Filed 8-6-71;8:45 am]

UNITED MIDWEST EQUITY, INC.

Order Approving Action To Become Bank Holding Company

In the matter of the application of United Midwest Equity, Inc., Detroit, Mich., for approval of action to become a bank holding company through the acquisition of 97.1 percent of the voting shares of Liberty State Bank and Trust, Hamtramck, Mich.

There has come before the Board of Governors, pursuant to section 3(a)(1) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(1)) and § 222.3 (a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by United Midwest Equity, Inc. (Applicant), Detroit, Mich., for the Board's prior approval of action where by Applicant would become a bank holding company through the acquisition of 97.1 of the voting shares of Liberty State Bank and Trust (Bank), Hamtramck, Mich.

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Commissioner of Financial Institutions for the State of Michigan, and requested his views and recommendation. The Commissioner recommended approval of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on July 10, 1971 (36 F.R. 13004), providing an opportunity for interested persons to submit comments and views with respect to the proposal. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. Time for filing comments and views has expired and all those received have been considered.

The Board has considered the application in the light of the factors set forth in section 3(c) of the Act, including the effect of the proposed acquisition on competition, the financial and managerial resources and future prospects of the Applicant and the bank concerned, and the convenience and needs of the communities to be served, and finds that:

Applicant is a nonoperating Michigan corporation recently formed for the purpose of acquiring Bank. As Applicant has

[1] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Brimmer, and Sherrill. Absent and not voting: Governors Daane and Maisel.

no present operations or subsidiaries, consummation of the proposal would eliminate neither existing nor potential competition, and there would be no adverse effects on competing banks.

Bank, with deposits of approximately $55 million, controls 0.3 percent of commercial bank deposits in the State of Michigan. The acquisition proposed herein should result in Bank becoming a stronger and more viable banking institution and a more effective competitor in the relevant market. Banking factors weigh in favor of approval of the application since the transaction would place responsible local interests in management of Bank, and Applicant proposes to undertake specific measures to improve Bank's present financial condition and to continue to improve operating procedures. While it appears that banking needs of the area are being adequately served at the present time, it is expected that consummation of the proposal will strengthen the Bank and enable it to better serve the banking needs of the area. Therefore, considerations relating to convenience and needs of the communities to be served also lend weight in favor of approval of the application. It is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved:

It is hereby ordered, For the reasons set forth above, that said application be and hereby is approved, provided that the acquisition so approved shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[1] August 3, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

Order Suspending Trading

AUGUST 3, 1971.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of Acme Missiles & Construction Corp., MSI Corp. and Camera Corporation of America and all other securities of Acme Missiles & Construction Corp., MSI Corp. and Camera Corporation of America being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period August 3, 1971, 12:30 p.m., e.d.t., through August 12, 1971.

By the Commission.

[SEAL] THEODORE L. HUMES,
Associate Secretary.

[31-8]

PACIFIC LIGHTING CORP.

Notice and Order for Hearing Regarding Revocation or Modification of Order Providing Exemption

AUGUST 3, 1971.

By order dated January 13, 1936 (1 S.E.C. 275), the Commission, pursuant to section 3(a)(1) of the Public Utility Holding Company Act of 1935 (Act), granted Pacific Lighting Corp. (Pacific), 810 South Flower Street, Los Angeles, CA 90017, as a holding company, and each of its subsidiary companies, an exemption from all provisions of the Act.

In its order, the Commission found that Pacific and each of its four public utility subsidiary companies (Los Angeles Gas and Electric Corp., Southern California Gas Co., Southern Counties Gas Co. of California, and Santa Maria Gas Co.) were incorporated in, and operated solely within, the State of California.

As of January 13, 1936, Pacific also owned more than 10 percent of the voting securities of four nonutility non-California corporations: Southern California Gas Corp. (Southern California), a Delaware corporation; Industrial Fuel Supply Co. (Industrial), a Delaware corporation; Ventura Fuel Co. (Ventura), a Delaware corporation; and Southern Fuel Corp. (Southern Fuel), a Nevada corporation. Of these companies, Industrial and Southern Fuel owned facilities for the transmission of natural gas and made sales of gas in large quantities to various agencies which made distribution thereof at retail. Ventura was an intermediate holding company whose only asset was stock in Industrial. Southern California, which was at one time a holding company, was in process of dissolution.

The annual report of Pacific filed with the Commission for 1970 lists as subsidiary companies of Pacific two utility companies and 18 nonutility companies, as follows:

UTILITY COMPANIES

Southern California Gas Co.
Pacific Lighting Service Co.

NONUTILITY COMPANIES

All-Year Weather, Inc.
Blackfield Hawaii Corp.
Central Plants, Inc.
Dual Fuel Systems, Inc.
Dunn Properties Corp.
W. D. Fowler and Sons Corp.
Fredricks Development Corp.
Hawaii real estate service group:
  Hawaii Shopping Center Corp.
  Hawaii Management Corp.
  Hawaii Real Property Corp.
  Don R. Cowell and Associates, Inc.
Pacific Lighting Exploration Co.
Pacific Lighting Gas Development Co.
Pacific Lighting Properties, Inc.
Pacific Offshore Pipeline Co.
Uni-Plant Corp.
Uni-Plant Leasing Co., Inc.
Uni-Plant Sales Co., Inc.

The following information appears in various documents filed with this Commission.

On June 1, 1971, Pacific Lighting Agricultural Corp., a wholly owned subsidiary company of Pacific, purchased a complex of agricultural properties (including real estate).

On August 1, 1970, Pacific consolidated its two former gas distribution subsidiary companies (Southern California Gas Co. and Southern Counties Gas Co.). The surviving entity, Southern California Gas Co., serves more than 3.1 million customers. Operations of the nonutility companies are grouped into the following major categories: agriculture, real estate development, central energy systems, equipment leasing, vehicle emissions control, and resource exploration.

Of the above-listed subsidiary companies, W. D. Fowler and Sons Corp. (Fowler) runs the largest pistachio nut operation in the United States. In addition, Fowler manages prune, olive, and citrus crop acreage for private investors.

Blackfield Hawaii Corp. (Blackfield Hawaii), acquired by Pacific in 1969, is an Hawaii-wide developer of resort hotels, apartments, condominiums, and shopping centers. A subsidiary company of Blackfield Hawaii, Realty Mortgage Corp. (Realty Mortgage), is the second largest mortgage company in Hawaii. Realty Mortgage maintains its own data processing center which is used by Blackfield Hawaii and other companies.

The Hawaii real estate service group of Pacific consisting of four operating units, in conjunction with Blackfield Hawaii, is stated by Pacific to provide coverage of the entire real estate development cycle in the Hawaiian Islands. The Hawaii real estate service group is engaged in consulting services, leasing activities, real estate brokerage and management services for commercial properties including shopping centers, office buildings, and warehouses. Hawaii Shopping Center Corp. is currently the largest commercial real estate service company in Hawaii.

Dunn Properties Corp. (Dunn), acquired by Pacific in 1969, is principally engaged in production and sale in Texas and California of fully developed "turn key" industrial properties suitable for light industry and warehouses. A subsidiary company of Dunn, Revcon, Inc., produces motorhomes.

Fredricks Development Corp. (Fredricks), a California-based developer of apartment house properties, was acquired by Pacific in January 1970. A Fredricks subsidiary company, Fredricks Sales, Inc., is a house furnishings supply company which is primarily engaged in providing interior furnishings for Fredricks' apartment developments. Fredricks also develops commercial properties and operates shopping centers, restaurants and a motel.

Pacific Lighting Properties, Inc. leases office, commercial, and industrial buildings and is engaged in the construction of an office building and two apartment developments.

Central Plants, Inc., and Uni-Plant Corp. operate seven central energy plants in the greater Los Angeles area.

All-Year Weather, Inc., guarantees loans for builders and developers as a means of assisting them to obtain financing for new construction.

Uni-Plant Leasing Co., Inc., leases and rents various types of equipment, chiefly small-tonnage gas air conditioning for commercial applications.

Uni-Plant Sales Co., Inc., guarantees the financing and also the performance of residential air conditioning.

Dual Fuel Systems, Inc., formed in 1970 by Pacific, promotes and markets a Pacific-developed dual fuel kit which permits motor vehicles to operate on natural gas—interchangeably with gasoline, if desired.

Pacific Lighting Exploration Co. and Pacific Lighting Gas Development Corp. are engaged, primarily through joint ventures with other companies, in exploration for natural gas reserves.

For the year ended December 31, 1970, Pacific and its subsidiary companies had total operating revenues of $683,481,000, including net "other income" of $8,139,000, and consolidated net income applicable to common stock of $35,041,000. The consolidated balance sheet of Pacific Lighting Corp. and Subsidiary Cos. at December 31, 1970, shows total properties (net) of $925,416,000, nonutility real estate (less accumulated depreciation) of $23,226,000, and real estate inventories (at cost) in the amount of $36,182,000.

The stated goal of Pacific as contained in its 1969 annual report "is to build earnings from nonutility sources to at least 25 percent of total net income within 5 years."

The Division of Corporate Regulation has advised that a question exists as to whether the diversification of Pacific into nonutility activities unrelated to the gas distribution operations of Southern California Gas Co. constitutes a change of circumstances from those existing at the time of the issuance of the 1936 exemption order such that continuation of Pacific's exemption from the Act is detrimental to the public interest or the interest of investors or consumers, and it appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a public hearing be held with respect to this matter, and that the stockholders of Pacific and other interested persons be afforded an opportunity to be heard at such hearing:

It is ordered, That a hearing be held at the office of the Securities and Exchange Commission, 500 North Capitol Street NW., Washington, DC 20549, on September 15, 1971 at 10 a.m. On such date, the hearing room clerk will advise as to the room in which the hearing will be held:

It is further ordered, That a Hearing Examiner, hereafter to be designated, shall preside at said hearing. The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18(c) of the Act and to a hearing officer under the Commission's rules of practice.

At such hearing, the Commission deems it appropriate that the following matters and questions be presented for consideration, without prejudice, however, to the presentation of additional matters and questions:

(1) Whether the circumstances which gave rise to the Commission's order of January 13, 1936, granting Pacific an exemption from the Public Utility Holding Company Act of 1935 no longer exist.

(2) Whether, and if so, to what extent, the continued exemption of Pacific from the Act would be detrimental to the public interest or the interest of investors or consumers.

(3) Whether the existing exemption of Pacific from the Act under section 3(a)(1) should be revoked or modified:

It is further ordered, That any person, other than Pacific, desiring to be heard in connection with this proceeding or proposing to intervene therein shall file with the Secretary of the Commission, on or before September 10, 1971, a written request relative thereto as provided in rule 9 of the Commission's rules of practice. A copy of such request should be served personally or by mail (airmail of the person being served is located more than 500 miles from the point of mailing) upon the applicant at

the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Persons filing an application to participate or be heard will receive notice of the date of hearing or any adjournment thereof as well as other actions of the Commission involving the subject matter of these proceedings:

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid by mailing copies of this notice and order for hearing by certified mail to Pacific, the Public Utilities Commission of the State of California, the Federal Power Commission, and the U.S. Department of Justice; that Pacific shall mail copies of this notice and order for hearing, not later than August 25, 1971, to the stockholders of record of Pacific; and that notice to all other interested persons shall be given by a general release of the Commission and by publication of this notice and order for hearing in the FEDERAL REGISTER.

By the Commission.

[SEAL] THEODORE L. HUMES,
Associate Secretary.

TARIFF COMMISSION

[TEA-I-22]

DINNERWARE

Rescheduling of Hearing Date

Notice is hereby given that the hearing in Investigation No. TEA-I-22, scheduled to be held in the Tariff Commission's Hearing Room, Tariff Commission Building, 8th and E Streets NW., Washington, DC, beginning at 10 a.m. e.d.s.t., on September 21, 1971, has been rescheduled for 10 a.m., e.d.s.t., on September 14, 1971.

The hearing is being held in connection with a Commission investigation under section 301(b) of the Trade Expansion Act of 1962 to determine whether, as a result in major part of concessions granted under trade agreements "articles, of fine-grained earthenware, of fine-grained stoneware, and of nonbone chinaware or of subporcelain, all the foregoing available in specified sets and provided for in items 53314, 533.16, 533.23, 533.25, 533.26, 533.28, 533.63, 533.65, 533.66, and 533.68 of the Tariff Schedules of the United States," are being imported into the United States in such increased quantities as to cause, or threaten to cause, serious injury to the domestic industry or industries producing articles which are like or directly competitive with the imported articles. Notice of the investigation was published in the FEDERAL REGISTER of June 16, 1971 (36 F.R. 11617).

Issued: August 4, 1971.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

[AA1921-77]

TEMPERED GLASS FROM JAPAN

Determination of Injury

The Assistant Secretary of the Treasury advised the Tariff Commission on May 3, 1971, that tempered sheet glass from Japan is being, and is likely to be sold in the United States at less than fair value within the meaning of the Antidumping Act, 1921, as amended. In accordance with the requirements of section 201(a) of the Antidumping Act(19 U.S.C. 160(a)), the Tariff Commission instituted Investigation No. AA1921-77 to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

A public hearing was held on June 22, 1971. Notice of the investigation and hearing was published in the FEDERAL REGISTER of May 8, 1971 (36 F.R. 8624).

In arriving at a determination, the Commission gave due consideration to all written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff.

On the basis of the investigation, the Commission has determined that an industry in the United States is being injured by reason of the importation of tempered sheet glass from Japan, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

STATEMENT OF REASONS FOR AFFIRMATIVE DETERMINATIONS BY COMMISSIONERS SUTTON AND MOORE

In our opinion, an industry in the United States is being injured by reason of the importation of tempered glass from Japan sold at less than fair value (LTFV) within the meaning of the Antidumping Act of 1921, as amended. In making our determination, we have considered the injured industry to consist of the facilities in the United States producing tempered glass. Tempered glass for patio doors, the specific article from Japan sold at LTFV, is currently produced in 13 plants, operated by nine firms.

The Commission's investigation has revealed that the price advantage afforded the foreign supplier by the sales at LTFV has contributed to market penetration by Japanese glass, market disruption on the East and West Coasts, and price suppression in the domestic market.

Market penetration and market disruption. In response to the passage by an increasing number of States of legislation requiring the use of "safety" glass in patio doors, as well as a rapidly expanding consumer demand, the U.S. consumption of tempered sheet glass for patio doors has multiplied in recent years. Apparent consumption in 1970—45 million square feet—was about three times the level of consumption in 1967—17 million square feet. In both 1967 and 1968 imports of tempered glass for patio doors from Japan supplied about 3 percent of U.S. consumption of such glass. However, in 1969, the year that included the period upon which Treasury based its LTFV determination, the Japanese share of the booming U.S. market sharply increased, amounting to more than 11 percent. While the Japanese market share declined in 1970 (likely in part because of Treasury's dumping investigation), it was still more than twice as large as in 1967 and 1968. The Treasury data shows that a substantial part of the imports of tempered glass from Japan during the period investigated (May–August 1969) were priced at LTFV. These LTFV sales were a significant contributing factor to the sudden penetration achieved by the Japanese in 1969.

There is considerable evidence that the U.S. market for tempered glass for patio doors was seriously disrupted as a result of the imports of such glass from Japan sold at LTFV. As will be described below, the sales of Japanese tempered glass in the United States have been an important cause of the severe price competition that has existed. The fivefold increase in imports of such glass from Japan between 1968 and 1969 had widespread market repercussions. Price discounting has prevailed, especially in coastal markets. As a consequence, one domestic producer who serves the East Coast has virtually dropped out of the market for tempered glass for patio doors.

Price effects. In markets where the product is generally homogeneous, where several suppliers exist, where customers are price conscious and able to shift from one supplier to another with relative ease, price competition is often intense. Under such circumstances, a small price advantage, one which might be unimportant in other markets, can be decisive in determining who makes a sale. These characteristics typify the domestic market for tempered glass for patio doors. A realized price differential of 1 cent per square foot, or less, can have an appreciable effect on sales. Hence, dumping margins in this case need not be great to confer a distinct advantage to the foreign producer, nor must the price advantage be such that the price of imported glass drastically undercuts the price of the domestic article.

Under the intensive price competition that has generally existed, prices of tempered glass in various local markets have often presented mixed and changeable patterns—the prices of domestic glass at times being above the prices of imported glass, and vice versa. Data obtained by the Commission indicate, however, that in 1969 and 1970 the delivered price of Japanese tempered glass for patio doors, on the average, was slightly less than that of the like domestic article. For a representative size of such tempered glass ($\frac{3}{16}$ inch thick, 34 x 76 inches in area) the difference was in the neighborhood of a cent per square foot. The ratio of LTFV margins to the amount of underselling was about 50 percent of the price differential on the West Coast and about 80 percent on the East Coast. Unquestionably, the LTFV margins were a significant factor enabling the Japanese supplier to engage in price competition. By the same token, the supply of Japanese glass available at highly competitive prices limited the ability of the domestic industry to improve its price position appreciably, without loss of customers to the imported article. Data show that for the United States as a whole, the average price per square foot of the representative size of patio glass mentioned above charged by domestic producers was not increased from 1969 through June 1971.

Conclusion. The sale of tempered glass from Japan at less than fair value was a significant factor augmenting the ability of the Japanese supplier to engage in price discounting and competition in the U.S. market. The LTFV sales contributed to market penetration and market disruption. The economic factors favorable to the domestic industry that have been present in recent years, such as the remarkably growing market which has resulted in the expansion of domestic capacity and output, should not detract from the adverse consequences and significant price effects of the LTFV sales. We determine that, within the meaning of the Act, an industry in the United States is being injured by reason of the imports of tempered sheet glass from Japan sold at LTFV.

STATEMENT OF REASONS FOR NEGATIVE DETERMINATION OF COMMISSIONERS LEONARD AND YOUNG

In our opinion no industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of tempered sheet glass from Japan sold at less than fair value. In our determination in this investigation, the industry is considered to consist of all of the domestic facilities producing tempered glass. Important in so defining the industry is the fact that the same facilities may be used for tempering glass for a number of end uses.

Sale at less than fair value. Tempered sheet glass from Japan, which the Treasury finds to be sold at less than fair value, consists almost entirely of that for patio doors. The imported glass, like the domestic, is delivered to the door manufacturer, freight and other costs prepaid, at the same price (about 40 cents a square foot) regardless of destination in the United States. The net price realized by the foreign supplier varies with the freight (roughly 4 to 7 cents a square foot). The price is equal to fair value or above on nearly all shipments from Japan to the Pacific Coast, and on two-thirds of those to the entire United States. It is below fair value, by an average of about three-fourths of 1 cent a square foot, on the remainder. On the shipments from Japan as a whole, the amount by which the glass is sold at less than fair value is about one-fourth of a cent a square foot or six-tenths of 1 percent. There are few circumstances under which a domestic industry would be injured by such a small margin. No such circumstances are found in this case.

Imports from Japan. Asahi Glass Co., in Tokyo, is the only Japanese company exporting tempered glass for patio doors to the United States. The firm was a minor source of imports until 1969 when, after a lump sum payment and for a continuing royalty, it was licensed by PPG Industries to produce nonautomotive glass by the Herculite-K or "gas hearth" process. Little increase occurred in the imports from Japan until April 1969.

Imports of tempered sheet glass from Japan in 1969 and 1970 were at the level of 4 million square feet a year. This was about 1 percent of U.S. consumption of tempered glass in all uses and about 10 percent of the consumption in patio doors. Any significance that might be attached to the larger proportion in patio doors is qualified by the rapid expansion taking place in domestic production for that use.

U.S. production. U.S. production of tempered glass as a whole increased from 250 million square feet a year in 1967 to a level of from 315 million to 335 million square feet a year in 1968–70. The production for use in patio doors, on the other hand, increased progressively. As compared with 15 million square feet in 1967, it became 23 million in 1968, and it increased further to 28 million square feet in 1969, and to 38 million in 1970. The increase (5 million square feet) in 1969 was larger than the total imports of tempered glass from Japan in that year and the increase (10 million square feet) in 1970 was two and one-half times as large as the imports from Japan. This situation is not indicative of injury or susceptibility to injury to the domestic industry from imports at less than fair value.

U.S. producers' shipments of all tempered glass in the final quarter of 1971 were 35 percent larger, and their shipments of tempered glass for patio doors were 45 percent larger than in the corresponding months of 1970, reflecting large additions to capacity during the year. New capacity is still under construction. This would be conclusive evidence that the imports had not prevented a new industry from being established.

Prices. The leading producers quote a uniform delivered price throughout the United States on tempered glass in standard sizes for patio doors. This price has lately been increased and is now 42½ cents a square foot. Producers' prices on actual transactions, however, range down to 35 cents a square foot.

Producers' prices on actual transactions have shown no trend since the first quarter of 1969, when they were reduced 5 percent. The reduction at that time could not have resulted from the imports from Japan at less than fair value, because the whole margin of sale below fair value (six-tenths of 1 percent) was only a small fraction of the domestic reduction in price, because the imports themselves had hardly begun to increase, and because the imported glass was only sold at about the same level as the domestic product.

Delivery by domestic producers is generally within 1 month of the order but 3 to 4 months are required for delivery from Japan, depending on the destination in the United States and on ship sailings. To be sold at all, Japanese glass of the same quality, therefore, would presumably have to be sold at a lower price than the domestic.[1] Net prices to buyers of the Japanese tempered glass, at 37 to 41 cents a square foot, have nevertheless been only about the same as for the domestic. They have been below prices by several domestic producers, but they have been above prices by one of the leading domestic producers.

Conclusion. We find that the margin of sale below fair value in this case is slight, that the imports in question are small and have not undersold the domestic product to any appreciable degree, and that the domestic industry is expanding. We conclude, therefore, that the imports at less than fair value are not causing injury to an industry in the United States, are not likely to cause injury to an industry in the United States, and are not preventing an industry in the United States from being established.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

INTERSTATE COMMERCE COMMISSION

[No. 35440]

DISTRIBUTION, EXCEPT AMONG COAL MINES, OF PRIVATELY OWNED FREIGHT CARS IN TIME OF CAR SHORTAGES

JULY 22, 1971.

Notice is hereby given that on January 25, 1971, Gifford-Hill and Co., Inc., and the Chicago, Rock Island and Pacific Railroad Co. have tendered a joint petition for a declaratory order under section 5(3) of the Administrative Procedure Act (5 U.S.C. sec. 554(e)) seeking a finding that the principles established by the Commission in Docket No. 12530, In Re Distribution Among Coal Mines of Privately Owned Cars and Cars for Railroad Fuel, 80 I.C.C. 520 and 93 I.C.C. 701, do

[1] Commissioners Sutton and Moore determined in the affirmative and Commissioners Leonard and Young determined in the negative. Pursuant to section 201(a) of the Antidumping Act, the Commission is deemed to have made an affirmative determination when the Commissioners voting are equally divided. Chairman Bedell did not participate in the determination.

[1] On sheet glass, the domestic producers state that the purchaser will ordinarily pay 3 to 5 percent more in order to have a domestic source.

not apply to privately owned (shipper-owned or furnished) freight cars. The relief sought, as stated by the petitioners, is:

Petitioners seek a declaration that privately (shipper) owned cars will not be counted against such shipper in the allocation of equipment in times of car shortage or, in the alternative, that relief be given from the Commission's orders as above set forth in order that petitioner, Gifford-Hill, may purchase open top hopper cars for the movement of its commodities without, in effect, being deprived of their use in times of car shortage by their diversion to other and competing shippers, either directly or indirectly by depriving Gifford-Hill of its fair share of carrier equipment through counting of such privately owned cars as if they were carrier-owned equipment.

On June 25, 1971, the Commission denied the petition insofar as it related to Docket No. 12530, because the latter concerns the distribution of cars among bituminous coal mines and the shipper-petitioner is a producer of quarry products. However, in the same order, the petition was accepted for consideration in a separate proceeding, as titled above.

The described petition should not be confused with another petition which has been filed in No. 12530 by certain railroads, supported by other petitioners, in which a declaratory order is sought finding that the outstanding order in No. 12530 does not apply to privately owned cars used in unit-train coal operations, or, in the alternative, for modification of the order to exempt such cars. Notice of that petition was given by publication in the FEDERAL REGISTER on October 1, 1970, 35 F.R. 15348.

Any person interested in the matter which is the subject of the petition in No. 35440 and who wishes to participate actively in any further proceedings herein shall make known that fact by filing with the Status Branch, Office of Proceedings, of the Commission, on or before 30 days from the date of publication of this notice in the FEDERAL REGISTER, a statement of its position with respect to the merits, including arguments in support. An original and 15 copies of such statements should be filed. The nature of any further proceedings, if any, will be determined after evaluation of those statements.

Notice of the filing of the petition is given by publication hereof in the FEDERAL REGISTER. Copies of future releases in this proceeding will be served only upon the petitioners and those responding to this notice.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 4, 1971.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 42258—*Muriatic (hydrochloric) acid from Plaquemine, La.* Filed by Southwestern Freight Bureau, agent (No. B-255), for interested rail carriers. Rates on acid, muriatic (hydrochloric), in tank carloads, as described in the application, from Plaquemine, La., to Clinton, Iowa.

Grounds for relief—Water competition.

Tariff—Supplement 279 to Southwestern Freight Bureau, agent, tariff ICC 4668. Rates are published to become effective on September 1, 1971.

FSA No. 42259—*Beet or cane sugar to Kenosha, Wis.* Filed by Western Trunk Line Committee, agent (No. A-2646), for interested rail carriers. Rates on sugar, beet or cane, in carloads, as described in the application, from points in Montana, also transcontinental and western trunkline territories, to Kenosha, Wis.

Grounds for relief—Market competition and rate relationship.

Tariffs—Supplement 113 to Western Trunk Line Committee, agent, tariff ICC A-4481, and supplements 32 and 136 to Trans-Continental Freight Bureau, agent, tariffs ICC 1822 and 1785, respectively. Rates are published to become effective on September 3, 1971.

By the Commission.

[Notice 729]

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 4, 1971.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice, any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-72953. By order of August 3, 1971, the Motor Carrier Board approved the transfer to Ivan E. Sherwood, doing business as Sherwood's Express, 81 Water Street, Howland, ME 04448, of Certificate of Registration No. MC-28687 (Sub-No. 1) issued October 14, 1966, to Gerald F. Kelley, doing business as Kelley's Express, 10 Main Street, Howland, ME 04448, evidencing a right to engage in transportation in interstate commerce as described in Certificate No. 81 issued prior to October 15, 1962, and renewed January 1, 1966, by the Public Utilities Commission of Maine.

No. MC-FC-73033. By order of August 3, 1971, the Motor Carrier Board approved the transfer to Wm. H. Powelson, doing business as Del-Penn Coachways, 35 Cornell Avenue, Gloucester, NJ 08030, of that portion of the operating rights in Certificate No. MC-71436 issued April 8, 1957, to the Short Line, Inc. of Pennsylvania, 212 West Market Street, West Chester, PA 19380, authorizing the transportation of passengers and their baggage, and express and newspapers, in the same vehicle with passengers, between Philadelphia, Pa., and Rehoboth Beach, Del., serving all intermediate points.

[SEAL] ROBERT L. OSWALD, *Secretary.*

INTERNATIONAL MONEY ORDERS—Postal Service revision of conversion table for Switzerland ... 14694

HAZARDOUS MATERIALS—DoT amendment of safety specifications of tank cars for chlorine; effective 10–15–71 14696

MIGRATORY BIRDS—Interior Dept. amendments to tagging requirements (2 documents); effective 8–10–71 14697

SALMON—Interior Dept. deletion of filing declaration for certain salmonids; effective 8–10–71 ... 14697

NATIONAL PARKS—Interior Dept. proposal on motor vehicle mufflers; comments within 30 days 14700

LAND OPENING—Interior Dept. order opening land in Montana; applications by 9–8–71 14701

POSTAGE RATES—Postal Service notice of temporary increase in certain third-class rates; effective 9–15–71 14711

Current White House Releases

WEEKLY COMPILATION OF PRESIDENTIAL DOCUMENTS

This unique service makes available transcripts of the President's news conferences; messages to Congress; public speeches, remarks, and statements; and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. It includes an Index of Contents and a system of cumulative indexes. Other finding aids include lists of laws approved by the President and of nominations submitted to the Senate, a checklist of White House releases, and a digest of other White House announcements.

This systematic publication of Presidential items provides users with up-to-date information and a permanent reference source concerning Presidential policies and pronouncements.

Subscription Price: $9.00 per year

FEDERAL REGISTER

Area Code 202 — Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Title 7—AGRICULTURE

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 3]

PART 722—COTTON

Subpart—Regulations for 1968 and Succeeding Years Extra Long Staple Cotton Program

1971 CROP PRICE SUPPORT PAYMENT

The regulations governing the Extra Long Staple Cotton Program for 1968 and succeeding years (33 F.R. 19159; 34 F.R. 14065; 36 F.R. 1464) are hereby amended as follows:

1. Section 722.704 is amended by changing paragraph (b) to read as follows:

§ 722.704 Price support payment factor.

* * * * *

(b) For 1971, the price support payment factor is 0.6911.

2. Section 722.709(a) is amended by adding at the end thereof the following new sentence:

§ 722.709 Price support payment.

(a) * * * For 1971, the price support payment rate shall be 12.69 cents per pound.

* * * * * *

(Sec. 101(f), as amended, 82 Stat. 701, 7 U.S.C. 1441(f))

Effective date. Since farmers are now completing their plans for the 1971 crop year, it is essential that the foregoing amendment to the regulations governing the Extra Long Staple Cotton Program for 1968 and Succeeding Years be made effective as soon as possible. It is hereby found and determined that compliance with the notice, public procedure, and 30-day effective date provisions of 5 U.S.C. 553 is impracticable and contrary to the public interest. Accordingly, this amendment shall become effective upon publication in the FEDERAL REGISTER (8–10–71).

Signed at Washington, D.C., on August 3, 1971.

CARL C. FARRINGTON,
Acting Administrator, Agricultural Stabilization and Conservation Service.

[FR Doc.71–11464 Filed 8–9–71;8:47 am]

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Valencia Orange Reg. 359, Amdt. 1]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908, 35 F.R. 16625), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Valencia oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1)(i), and (ii) of § 908.359 (Valencia Orange Regulation 359, 36 F.R. 13979) during the period July 30, through August 5, 1971, are hereby amended to read as follows:

§ 908.359 Valencia Orange Regulation 359.

* * * * *

(b) *Order.* (1) * * *

(i) District 1: 115,000 cartons;

(ii) District 2: 385,000 cartons.

* * * * *

(Sec. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 4, 1971.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[FR Doc.71–11463 Filed 8–9–71;8:46 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 11289; Amdt. 39–1266]

PART 39—AIRWORTHINESS DIRECTIVES

SIAI-Marchetti Models S.205–18/F, S.205–18/R, S.205–20/F, S.205–20/R, S.205–22/R, and S.208 Airplanes

Pursuant to the authority delegated to me by the Administrator, an airworthiness directive was adopted on July 16, 1971, and made effective immediately upon receipt as to all known U.S. operators of SIAI-Marchetti Models S.205–18/F, S.205–18/R, S.205–20/F, S.205–20/R, S.205–22/R, and S.208 airplanes. The directive requires inspections of the main landing gear wheel axle to strut tube fittings for cracks, and replacement of fittings found to be cracked during the inspections.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately as to all known U.S. operators of SIAI-Marchetti Models S.205–18/F, S.205–18/R, S.205–20/F, S.205–20/R, S.205–22/R, and S.208 airplanes by individual airmail letters dated July 16, 1971. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

SIAI–MARCHETTI. Applies to Models S.205–18/F, S.205–18/R, S.205–20/F, S.205–20/R, S.205–22/R, and S.208 airplanes.

Compliance is required as indicated.

To detect cracks in the main landing gear wheel axle to strut tube fittings, accomplish the following:

(a) Before further flight, unless already accomplished within the last 50 hours' time in service, and thereafter at intervals not to exceed 50 hours' time in service from the last check, visually check, using a magnifying glass of a least five power, the main landing gear wheel axle to strut tube fittings for

cracks in accordance with "Instructions" paragraph (a), SIAI-Marchetti Service Bulletin No. 205B27, dated November 11, 1970, or later RAI-approved revision or FFA-approved equivalent. The checks required by this paragraph may be performed by the pilot.

(b) Within the next 50 hours' time in service after the effective date of this AD, unless already accomplished within the last 250 hours' time in service, and thereafter at intervals not to exceed 300 hours' time in service from last inspection, inspect the main landing gear wheel axle to strut the fittings for cracks, using a dye penetrant method, in accordance with "Instructions" paragraph (b), SAIL-Marchetti Service Bulletin No. 205B27, dated November 11, 1970, or later RAI-approved revision or FFA-approved equivalent.

(c) If cracks which do not extend to the lateral external surface of a fitting are found during a check required by paragraph (a), or during an inspection required by paragraph (b), within the next 50 hours' time in service, and thereafter at intervals not to exceed 50 hours' time in service from the last inspection, inspect the main landing gear wheel axle to strut tube fittings for cracks, using a dye penetrant method in accordance with "Instructions" paragraph (b), SIAI-Marchetti Service Bulletin No. 205B27, dated November 11, 1970, or later RAI-approved revision or FFA-approved equivalent.

(d) If cracks are found on the lateral external area of a fitting during a check required by paragraph (a), or during an inspection required by paragraph (b) or (c), before further flight replace the cracked part with a new part of the same part number, in accordance with "Instructions" paragraph (d.1), SIAI-Marchetti Service Bulletin No. 205B27, dated November 11, 1970, or later RAI-approved revision or FFA-approved equivalent and continue to check in accordance with paragraph (a) and continue to inspect in accordance with paragraph (b).

This amendment is effective upon publication in the FEDERAL REGISTER (8–10–71), as to all persons except those persons to whom it was made immediately effective upon receipt of the airmail letter dated July 16, 1971, which contained this amendment.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on August 3, 1971.

R. S. SLIFF,
Acting Director,
Flight Standards Service.

[Docket No. 71-EA-48; Amdt. 39-1260]

PART 39—AIRWORTHINESS DIRECTIVES

Sikorsky Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to Sikorsky type S-61 helicopters.

There have been reports of fractures occurring in the auxiliary servo valve input links of the automatic flight control system. Investigation indicates the cause might be delayed brittle fractures, arising out of stress corrosion or overtorquing of the check nut. A fracture occurring in flight can cause erratic or full displacement of one of the flight controls with hazardous consequences.

Since this deficiency can occur or exist in helicopters of similar type design, an airworthiness directive is being issued which will require the installation of a secondary link. By reason of the foregoing safety implications, notice and public procedure hereon are impractical and the rule may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CER 11.89 (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

SIKORSKY AIRCRAFT. Applies to all S-61 Type Helicopters certified in all categories.

Compliance required as indicated.

To prevent a hardover in the auxiliary servo system, as the result of fracture of the servo valve input linkage, accomplish the following:

a. Within the next 50 hours' time in service after the effective date of this airworthiness directive, unless already accomplished, install a secondary link in the servo valve input linkage in accordance with section 2, paragraphs A, B, C, and G, of Sikorsky Service Bulletin No. 61B65-6A, dated July 1, 1971, or later approved revisions or an equivalent installation, both approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

b. Install secondary links per paragraphs (a) on all spare units, prior to installation on the aircraft.

(NOTE: Sikorsky Service Bulletin No. 61B65-6A of July 1, 1971, covers this subject.)

This amendment is effective August 17, 1971.

(Sec. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y. on August 2, 1971.

WALTER D. KIES,
Acting Director, Eastern Region.

[FR Doc.71-11453 Filed 8-9-71;8:46 am]

[Airspace Docket No. 71-EA-50]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration, Designation, and Revocation of Transition Area and Control Zone

On page 11221 of the FEDERAL REGISTER for June 10, 1971, the Federal Aviation Administration published a proposed rule so as to alter the Columbus, Ohio (36 F.R. 2071), and Columbus, Ohio (Ohio State University Airport) (36 F.R. 2071), control zones; and Columbus, Ohio, transition area (36 F.R. 2170); to revoke the Mount Vernon, Ohio, transition area (36 F.R. 2239); and designate a Columbus, Ohio (Lockbourne AFB), control zone.

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulations are hereby adopted, effective 0901 G.m.t. October 14, 1971.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 39 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on July 27, 1971.

WALTER D. KIES,
Acting Director, Eastern Region.

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete the caption and the description of the Columbus, Ohio, control zone and insert the following in lieu thereof:

COLUMBUS, OHIO (PORT COLUMBUS INTERNATIONAL AIRPORT)

Within a 6-mile radius of the center 39°59'41" N., 82°53'08" W. of Port Columbus International Airport, Columbus, Ohio; within 2 miles each side of the 094° bearing from the Grandview LOM, extending from the 6-mile radius zone to 2 miles east of the Grandview LOM and within a 1-mile radius of the center, 39°55'00" N., 82°54'00" W. of Price Field, Columbus, Ohio, excluding the portion that coincides with the Columbus, Ohio (Lockbourne AFB), control zone.

2. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to designate a Columbus, Ohio (Lockbourne AFB), control zone as follows:

COLUMBUS, OHIO (LOCKBOURNE AFB)

Within a 5.5-mile radius of the center, 39°49'00" N. 82°56'00" W. of Lockbourne AFB, Columbus, Ohio; within 1.5 miles each side of the Lockbourne TACAN 042° radial, extending from the 5.5-mile radius zone to 7 miles northeast of the TACAN; within 1.5 miles each side of the Lockbourne TACAN 229° radial, extending from the 5.5-mile radius zone to 6 miles southwest of the TACAN; within a 1.5-mile radius of center, 39°53'11" N., 82°57'53" W. of South Columbus Airport, Columbus, Ohio, and within a 1-mile radius of the center, 39°54'21" N., 82°51'17" W. of Esselburne Field Columbus, Ohio.

3. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Columbus, Ohio (Ohio State University Airport), control zone and insert the following in lieu thereof:

Within a 5-mile radius of the center, 40°04'40" N., 83°04'30" W. of Ohio State University Airport, Columbus, Ohio, and within 3 miles each side of the 273° bearing from the Ohio State University RBN, 40°-04'47" N., 83°04'54" W., extending from the 5-mile radius zone to 8.5 miles west of the RBN. This control zone shall be effective from 0700 to 2300 hours, local time, daily.

4. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Columbus, Ohio, 700-foot floor transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within an 11.5-mile radius of the center, 39°59'41" N., 82°53'08" W. of Port Columbus International Airport, Columbus, Ohio; within a 14-mile radius of the center, 39°49'00" N., 82°56'00" W. of Lockbourne AFB, Columbus, Ohio; within an 8-mile radius of the center, 40°19'43" N., 82°31'32" W. of Mount Vernon Airport, Mount Vernon, Ohio; within an 8-mile radius of the center, 40°01'29" N., 82°27'44" W. of Licking County Airport, Newark, Ohio; within a 7-mile radius of the center, 40°-04'40" N., 83°04'30" W. of Ohio State University Airport, Columbus, Ohio; within the arc of a 25-mile radius circle centered on a point located at 39°59'59" N., 82°53'44" W., extending clockwise from the 048° bearing from this point to the 170° bearing from this point and within 3.5 miles each side of the 273° bearing from the Ohio State University RBN, 40°04'47" N., 83°04'54" W., extending from the RBN to 11.5 miles west of the RBN.

5. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to revoke the Mount Vernon, Ohio, 700-foot floor transition area.

Title 20—EMPLOYEES' BENEFITS

Chapter III—Social Security Administration, Department of Health, Education, and Welfare

[Regs. No. 4, further amended]

PART 404—FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE (1950–____)

Subpart H—Evidence

CERTIFICATION OF EVIDENCE

The amendment to Regulations No. 4 of the Social Security Administration set forth below provides that a copy of a record, document, or other evidence, or an excerpt of information therefrom will be accepted as evidence in lieu of the orginal if certified as a true and exact copy or excerpt by a U.S. Consular Officer. The purpose of the amendment is to facilitate the submission of evidence in support of claims under title II of the Social Security Act (42 U.S.C. 401 et seq.) filed by persons outside the United States.

Inasmuch as this revision is merely technical in nature and relieves individuals outside the United States from hardships resulting from permanent surrender of original records or documents in support of claims, it should be made effective promptly to accomplish its purpose in the public interest. Accordingly, it is found upon good cause, under the rule making provisions of the Administrative Procedures Act, 5 U.S.C. 553, that notice and other public proceedings with respect to this revision are unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Date: July 1, 1971.

ROBERT M. BALL,
Commissioner of Social Security.

Approved: August 2, 1971.

ELLIOT L. RICHARDSON,
Secretary of Health, Education, and Welfare.

Paragraph (g) of § 404.701 is revised to read as follows:

§ 404.701 Evidence as to right to receive monthly benefits and lump-sum death payment, and to establishment of period of disability.

* * * * *

(g) *Certification of evidence by authorized individual.* In cases where a copy of a record, document, or other evidence, or an excerpt of information therefrom, is acceptable as evidence in lieu of the original, such copy or excerpt shall, except as may otherwise clearly be indicated, be certified as a true and exact copy or excerpt by:

(1) The official custodian of any such record; or

(2) An employee of the Social Security Administration authorized to make certifications of any such evidence; or

(3) An employee of the Veterans' Administration authorized to make such certifications in cases:

(i) Where such evidence is submitted or obtained in connection with an application for benefits under chapter 13 of title 38, United States Code (see paragraph (f) of this section), or

(ii) Where an individual in the Philippines has submitted evidence to the Veterans' Administration Regional Office in the Philippines, or to an employee of the Veterans' Administration authorized to receive such evidence at a place other than such office; or

(4) A U.S. Consular Officer where such evidence is being submitted by an individual who is outside the United States.

(Secs. 205 and 1102 of the Social Security Act, as amended, 53 Stat. 1368, as amended, 49 Stat. 647, as amended; sec. 5 of Reorganization Plan No. 1 of 1953, 67 Stat. 18, 631; 42 U.S.C. 405 and 1302)

Effective date. The foregoing amendment shall become effective upon publication in the FEDERAL REGISTER (8–10–71).

[FR Doc.71-11457 Filed 8-9-71;8:47 am]

Title 22—FOREIGN RELATIONS

Chapter I—Department of State

SUBCHAPTER B—PERSONNEL

PART 11—APPOINTMENT OF FOREIGN SERVICE OFFICERS

Written Examination

Section 11.2(b) of Title 22 of the Code of Federal Regulations is revised to eliminate the 31-year-old limit for applicants designated to take the written examination for appointment to class 7 or 8, Foreign Service officer.

Section 11.2(b) is revised to read as follows:

§ 11.2 Written examination for appointment to class 7 or 8.

* * * * *

(b) No person will be permitted to take a written examination for appointment as a Foreign Service officer or Foreign Service Information officer who has not been specifically designated by the Board of Examiners to take the particular examination. Prior to each written examination, the Board will establish a closing date for the receipt of applications for designation to take the examination. No person will be designated for the examination who has not, as of that closing date, filed an application with the Board. To be designated for the written examination, a candidate, as of the date of the examination, shall have been a citizen of the United States for at least 7½ years and shall be at least 21 years of age, except that an applicant who has been awarded a bachelor's degree by a college or university, or has completed successfully his junior year at a college or university, may qualify if at least 20 years of age.

* * * * *

(Secs. 212, 302, 303, 516, 517, 60 Stat. 1001, as amended; 1002, 1008, as amended; 22 U.S.C. 827, 842, 843, 911, 912; 22 U.S.C. 1221–1234)

Effective date. This revision shall become effective upon publication in the FEDERAL REGISTER (8–10–71).

Dated: July 27, 1971.

For the Secretary of State.

WILLIAM B. MACOMBER, JR.,
Deputy Under Secretary for Management.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

[CGFR 71-28 A]

PART 110—ANCHORAGE REGULATIONS

Hampton Roads, Va., and Adjacent Waters

The purpose of this amendment to the Anchorage Regulations is to establish two additional anchorage grounds for vessels used in the construction of the second Hampton Roads Bridge Tunnel.

This amendment is based on a notice of proposed rule making (CGFR 71-28) issued on April 23, 1971, and published in the FEDERAL REGISTER on April 28, 1971 (36 F.R. 7970), and Public Notice 5-122 issued by the Commander, Fifth Coast Guard District, on February 10, 1971. No comments were received in response to the public notice or notice of proposed rule making.

This amendment to § 110.168(a) establishes and describes two additional anchorage grounds which will provide moorings for construction equipment, water barges, and a tugboat close to the construction site of the second Hampton Roads Bridge Tunnel.

Accordingly, § 110.168(a) is amended by adding new subparagraphs (10) and (11) to read as follows:

§ 110.168 Hampton Roads, Va., and adjacent waters.

(a) • • •

(10) *Anchorage T–3, Construction Barges.* Anchorage T–3 is a 100-yard-diameter area with the center at latitude 36°59'05" N., longitude 76°18'22" W. (200 yards west of the present South Island). This anchorage is for the exclusive use of equipment and water barges used in the construction of the second Hampton Roads Bridge Tunnel.

(11) *Anchorage T–4, Construction Equipment.* Anchorage T–4 is a 100-yard-diameter area with the center at latitude 36°57'41" N., longitude 76°17'25" W. (700 yards southwest of Anchorage J–2, Willoughby Bay). This anchorage is for the exclusive use of tugboats used in the construction of the second Hampton Roads Bridge Tunnel.

• • • • • •

(Sec. 7, 38 Stat. 1053, as amended, sec. 6(g)(1)(A), 80 Stat. 937; 33 U.S.C. 471, 49 U.S.C. 1655(g)(1)(A); 49 CFR 1.46(c)(1), 33 CFR 1.05–1(c)(1) (35 F.R. 8279))

Effective date: This amendment shall become effective on September 7, 1971.

Dated: August 2, 1971.

R. E. HAMMOND,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Operations.

Title 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM

Sanford Recreation Area; Alcoholic Beverages, Safety Helmets and Water Sanitation

A proposal was published on page 19024 of the FEDERAL REGISTER of December 16, 1970, to amend § 7.57 of Title 36, Code of Federal Regulations, to add two new paragraphs. The purpose of the amendment is to establish safety regulations for the protection of motorcycle riders and their passengers and to establish boat sanitation requirements for vessels with marine toilets.

Interested persons were given 30 days within which to submit written comments, suggestions, or objections with respect to the proposed amendment. No comments, suggestions, or objections have been received. Therefore, the proposed amendment is adopted without change and set forth below. In addition, paragraph (a) of § 7.57, which regulates sales, gifts and possession of alcoholic beverages is hereby deleted, since the aspects of alcoholic beverage control covered therein are adequately and identically handled by paragraph (a) of § 2.16 of title 36. The amendment shall become effective at the beginning of the 30th calendar day following the date of this publication in the FEDERAL REGISTER.

(5 U.S.C. 553; 39 Stat. 535, 16 U.S.C. 3)

Section 7.57 is amended to delete paragraph (a) and add paragraphs (b) and (c) as follows:

§ 7.57 Sanford Recreation Area.

(a) [Deleted]

(b) *Safety helmets.* Motorcycle operators and their passengers shall wear safety helmets while riding.

(c) *Water sanitation.* All vessels with marine toilets so constructed as to permit wastes to be discharged directly into the water shall have such facility sealed to prevent discharge. Chemical or other type marine toilets with approved holding tanks or storage containers shall be permitted but will be discharged or emptied only at designated sanitary pumping stations.

FRANK F. KOWSKI,
Director, Southwest Region.

Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5102]

[New Mexico 12647]

NEW MEXICO

Partial Revocation of Executive Orders Nos. 6143, 6276, and 6583

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. The Executive Orders No. 6143 of May 23, 1933, No. 6276 of September 8, 1933, and No. 6583 of February 3, 1934, withdrawing lands to enable the State of New Mexico to make exchange selections as provided by the Act of June 15, 1926, 44 Stat. 746–748, are hereby revoked so far as they affect the following described lands:

NEW MEXICO PRINCIPAL MERIDIAN

(PUBLIC LANDS)

T. 20 S., R. 4 W.,
Sec. 34, lots 1, 2, 3, 5, 7, NE¼NW¼, S½NW¼.

T. 21 S., R. 4 W.,
Sec. 7, lot 1, N½NE¼, NE¼NW¼;

T. 28 S., R. 21 W.,
Sec. 3, SE¼SW¼.

The areas described aggregate approximately 39,609.47 acres of land in Dona Ana, Grant, Hidalgo, Luna, and Sierra Counties, of which 20,673.94 acres are public lands.

The topography includes broad basin floors, gently sloping plains and desert mountains. Elevations range from 4,000 to 5,000 feet in the basins and plains to more than 8,000 feet in the desert mountains. Soils range from shallow to deep sandy loams to rocky ridges and shallow soils in the higher elevations. Vegetation is of the southwestern desert shrub type in the lower elevations and common grasses with an overstory of piñon-juniper trees in the higher elevations.

2. At 10 a.m. on September 7, 1971, the public lands described in paragraph 1 of this order, shall be open to the operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on September 7, 1971, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. The lands shall be open to location for nonmetalliferous minerals at 10 a.m. on September 7, 1971. They have been and continue to be open to applications and offers under the mineral leasing laws and to location under the United States mining laws for metalliferous minerals.

Inquiries concerning the lands should be addressed to the Chief, Division of Technical Services, Bureau of Land Management, Post Office Box 1449, Santa Fe, NM 87501.

HARRISON LOESCH,
Assistant Secretary of the Interior.

AUGUST 2, 1971.

[Public Land Order 5103]

[Arizona 213]

ARIZONA

Partial Revocation of Reclamation Withdrawals

By virtue of the authority contained in section 3 of the Act of June 17, 1902, 32 Stat. 388, as amended and supplemented, 43 U.S.C. sec. 416 (1964), it is ordered as follows:

1. The departmental orders of January 31, 1903, and April 9, 1904, withdrawing lands under the second and first forms, respectively, for the Colorado River Survey and Project, are hereby revoked so far as they affect the following described lands:

GILA AND SALT RIVER MERIDIAN

T. 11 S., R. 25 W.,
Sec. 12, lots 1, 2, NE¼, and the east 660 feet of lots 3.

The areas described aggregate approximately 268 acres in Yuma County.

2. This revocation is in furtherance of the right of the State of Arizona to file a school land indemnity selection application for the lands, pursuant to sections 2275 and 2276, U.S. Revised Statutes, as amended, 43 U.S.C. Secs. 851, 852 (1964). Accordingly, the lands described in this order are hereby classified, pursuant to section 7 of the Act of June 28, 1934, 48 Stat. 1272, as amended, 43 U.S.C. sec. 315f (1964), as suitable for such selection. The lands, therefore, will not be subject to other use or disposition under the public land laws in the absence of a modification or revocation of such classification (43 CFR 2440.4).

HARRISON LOESCH,
Assistant Secretary of the Interior.

Title 49—TRANSPORTATION

Chapter I—Hazardous Materials Regulations Board, Department of Transportation

[Docket No. HM-84; Amdts. Nos. 173-51, 179-7]

PART 173—SHIPPERS

PART 179—SPECIFICATIONS FOR TANK CARS

Chlorine in Tank Cars

The purpose of this amendment to §§ 173.314, 179.100, and 179.102 of the Hazardous Materials Regulations as they apply to chlorine is to: (1) Authorize the use of larger capacity cars; (2) authorize use of weld joint efficiency of 100 percent in design calculations; (3) require any size chlorine tank to be built to specification 105A500W; (4) authorize use of self-extinguishing polyurethane foam as an insulating material; (5) add a requirement for use of specific "fine grain practice" steels in construction; (6) require marking "chlorine only" on each tank car; and (7) prohibit the use of specifications ARA-V and Class 105A cars having forge welded anchors.

On April 16, 1971, the Hazardous Materials Regulations Board published a notice of proposed rule making, Docket No. HM-84; Notice No. 71-12 (36 F.R. 7258) proposing the amendments described above. No objection to the proposal was received.

Several commenters requested modification of the proposal to more clearly express the Board's intent with respect to existing tank cars. A commenter also pointed out that one material specification in § 179.102-2(a)(4) should be updated. Other changes of editorial nature were suggested to §§ 173.314(c), Note 12, and 179.102-2(a). These suggested changes have been incorporated in this amendment.

In consideration of the foregoing, 49 CFR Parts 173 and 179 are amended as follows:

I. Part 173:

In § 173.314, paragraph (c) table and Note 12 are amended; Note 3 is canceled as follows:

§ 173.314 Requirements for compressed gases in tank cars.

• • • • • •

(c) • • •

Kind of gas	Maximum permitted filling density, Note 1	Required tank car, see § 173.31(a) (2) and (3)
Change	*Percent*	
Chlorine	125	DOT-106A500X, Note 7.
	125	DOT-105A500W, Note 12.

• • • • • •

NOTE: 3: [Canceled]

• • • • • •

NOTE 12: For special tank requirements applying to chlorine, see § 179.102-2. The quantity of chlorine loaded into a single-unit tank car must not exceed 90 tons. Nominal 16-, 30-, 55-, 85-, or 90-ton tank car tanks must be loaded to the nominal lading weights with a tolerance of plus 0, minus 2 percent. Tank cars built to ICC-105A500 may be stenciled either ICC-105A300 or ICC-5A500; tank cars built to ICC or DOT-105A500W may be stenciled either 105A300W or 105A500W; each tank must be equipped with the safety relief valve required by the stenciled specification. Existing tank cars, not larger than 30-ton chlorine capacity built to ARA-V, or not larger than 55-ton chlorine capacity built to ICC-105A300, or ICC-105A300W, may be continued in service if equipped with excess flow valves in accordance with § 179.102-2. ARA-V and ICC-105A cars having forge welded anchors must not be used for the transportation of chlorine.

• • • • • •

II. Part 179:

(A) In § 179.100-6 paragraph (a), the second explanation following the formula is amended to read as follows:

§ 179.100 General specification applicable to pressure tank car tanks.

§ 179.100-6 Thickness of plates.

(a) • • •

E=0.9 welded joints efficiency; except E=1.0 for seamless aluminum alloy heads, and for calculating the minimum wall thickness of class 105A tank shells and seamless heads.

• • • • • •

(B) In § 179.102-2, paragraph (a) is amended to read as follows:

§ 179.102 Special commodity requirements for pressure tank car tanks.

§ 179.102-2 Chlorine.

(a) Each tank car used to transport chlorine must comply with all of the following:

(1) Each tank must be constructed in compliance with spec. DOT-105A500W. A tank car must be operated and the jacket stenciled either DOT-105A300W or DOT-105A500W, and each tank must be equipped with the safety relief valve required by the stenciled specification.

(2) Interior pipes of liquid discharge valves must be equipped with excess flow valves of approved design.

(3) Insulation must be 4 inches minimum thickness of corkboard or of self-extinguishing polyurethane foam.

(4) Tanks must be fabricated from carbon steel complying with ASTM Specification A-516-70, Grade 70, or AAR Specification TC-128-70, Grade A or B.

(5) Each tank car jacket must be stenciled on both sides, in letters not less than 1½ inches high "Chlorine Only".

• • • • • •

(Secs. 831-835 of title 18, United States Code; sec. 9, Department of Transportation Act, 49 U.S.C. 1657)

This amendment is effective October 15, 1971, however, compliance with the regulations as amended herein is authorized immediately.

Issued in Washington, D.C., on August 4, 1971.

W. F. REA III,
Rear Admiral, Board Member, For the U.S. Coast Guard.

MAC E. ROGERS,
Board Member, For the Federal Railroad Administration.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

SUBCHAPTER B—HUNTING AND POSSESSION OF WILDLIFE

PART 10—MIGRATORY BIRDS

Possession, Tagging, and Recordkeeping

Section 10.9(b) of Title 50, Code of Federal Regulations presently requires migratory game birds left in the custody of another for certain purposes to have a tag attached identifying the hunter, the number and kinds of birds and the date they were killed.

This amendment will make clear that the tagging requirement also applies when birds are left in the custody of another for the purpose of having taxidermy services performed.

As amended §10.9(b) reads as follows:

§ 10.9 Restrictions applicable to possession, tagging, and recordkeeping requirements.

• • • • • •

(b) No person shall put or leave any migratory game birds at any place (other than at his personal abode), or in the custody of another person for picking, cleaning, processing, shipping, transportation, or storage (including temporary storage), or for the purpose of having taxidermy services performed, unless such birds have a tag attached, signed by the hunter, stating his address, the total number and kinds of birds, and the date such birds were killed. Migratory game birds being transported in any vehicle as the personal baggage of the possessor shall not be considered as being in storage or temporary storage.

• • • • • •

Since this amendment is to further clarify a present requirement, and imposes no new regulation, it is determined that notice and public procedure thereon are impracticable, unnecessary, and contrary to the public interest and shall become effective upon publication in the FEDERAL REGISTER (8-10-71).

(16 U.S.C. 703 et seq. (40 Stat. 755))

M. A. MARSTON,
Acting Director, Bureau of Sport Fisheries and Wildlife.

[FR Doc.71-11471 Filed 8-9-71;8:48 am]

PART 13—IMPORTATION OF WILDLIFE OR EGGS THEREOF

Salmon

The provisions of Title 50, Code of Federal Regulations, Chapter I, § 13.7(c) presently require that a written Declaration for Importation of Wildlife be filed with the District Director of Customs at the port of entry for Salmon landed in North America and brought into the United States for processing or sale, and also for any salmonid caught in the wild in North America under a sport or commercial fishing license.

It has been determined that this provision in § 13.7(c) is no longer necessary and should be deleted. Therefore, § 13.7 (c) is amended to read:

§ 13.7 Importation of live or dead fish, mollusks, and crustaceans or their eggs.

• • • • • •

(c) Nothing in this part shall restrict the importation and transportation of the fish family Salmonidae when such fish or eggs have been processed by canning, pickling, smoking, or otherwise prepared in a manner whereby all spores of the protozoan *Myxasoma cereleralis*, the causative agent of so-called "whirling disease," and the virus causing viral hemorrhagic septicema or so-called "Egtved disease," have been killed. Salmon landed in North America and brought into the United States for processing or sale, or any salmonid caught in the wild in North America under a sport or a commercial fishing license shall be exempt from the requirements for certification and from the filing of the Declaration for Importation of Wildlife.

Since this amendment benefits the public by relieving an existing restriction it has been determined that notice and public procedure thereon are unnecessary, impracticable and contrary to the public interest and that this amendment shall become effective upon publication in the FEDERAL REGISTER (8-10-71).

(18 U.S.C. 42 (62 Stat. 687 section 42 as amended).)

M. A. MARSTON,
Acting Director, Bureau of Sport Fisheries and Wildlife.

[FR Doc.71-11472 Filed 8-9-71;8:48 am]

PART 16—MIGRATORY BIRD PERMITS

Identity of Migratory Game Birds Left in Possession of Taxidermists

Section 16.12(c) of Title 50, Code of Federal Regulations, presently authorizes

a taxidermist to, among other things, receive, transport, hold in custody or possession for taxidermy purposes, migratory game birds belonging to another.

This amendment adds paragraph (g) to § 16.12 so as to further clarify the tagging requirement previously imposed for the purpose of maintaining the identity of birds left in the possession or custody of persons other than the owner.

As amended § 16.12(g) reads as follows:

§ 16.12 Taxidermist permits.

* * * * *

(g) Notwithstanding the provisions of paragraph (c) of this section, the receipt, possession and storage by a taxidermist of any migratory game birds taken by another by hunting is not authorized unless they are tagged as required by § 10.9 (b) of this chapter. The required tags may be removed during the taxidermy operations but must be retained by the taxidermist with the other records required to be kept by paragraph (d) of this section and must be reattached to the mounted specimen after mounting. The tag must then remain attached until the mounted specimen is delivered to the owner.

* * * * *

Since this amendement is to further clarify a present requirement, and imposes no new regulation, it is determined that notice and public procedure thereon are impracticable, unnecessary, and contrary to the public interest and that this amendment shall become effective upon publication in the FEDERAL REGISTER (8–10–71).

(16 U.S.C. 703 et seq. (40 Stat. 755))

M. A. MARSTON,
Acting Director, Bureau of Sport Fisheries and Wildlife.

PART 32—HUNTING

Flint Hills National Wildlife Refuge, Kans.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8–10–71).

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

KANSAS

FLINT HILLS NATIONAL WILDLIFE REFUGE

The public hunting of squirrels, cottontail rabbits, bobwhite quail, and greater prairie chickens on the Flint Hills National Wildlife Refuge, Kans., is permitted from October 1, 1971, through September 30, 1972, inclusive, but only on the area designated by signs as open to hunting. This open area, comprising 5,600 acres, is delineated on maps available at refuge headquarters, Burlington, Kans., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. Hunting shall be in accordance with all applicable State regulations governing the hunting of squirrels, cottontail rabbits, bobwhite quail, and greater prairie chickens subject to the following special conditions.

(1) The use of rifles is prohibited on the refuge.

(2) Vehicle access shall be restricted to designated parking areas and existing roads.

(3) Dogs—Not to exceed two per hunter may be used only to retrieve wounded or dead squirrels, cottontail rabbits, bobwhite quail, and greater prairie chickens.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 1, 1972.

LYLE A. STEMMERMAN,
Refuge Manager.

JULY 23, 1971.

PART 32—HUNTING

Flint Hills National Wildlife Refuge, Kans.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8–10–71).

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

KANSAS

FLINT HILLS NATIONAL WILDLIFE REFUGE

Public hunting of deer with firearms on the Flint Hills National Wildlife Refuge, Kans., is permitted from November 27 through December 5, 1971, inclusive, but only on the area designated by signs as open to hunting. This open area, comprising 5,600 acres, is delineated on maps available at refuge headquarters, Burlington, Kans., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following special conditions:

(1) Vehicle access shall be restricted to designated parking areas and existing roads.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 5, 1971.

LYLE A. STEMMERMAN,
Refuge Manager.

JULY 23, 1971.

PART 32—HUNTING

Flint Hills National Wildlife Refuge, Kans.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8–10–71).

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

KANSAS

FLINT HILLS NATIONAL WILDLIFE REFUGE

Public hunting of deer with bow and arrows on the Flint Hills National Wildlife Refuge, Kans., is permitted from October 16 through November 25, 1971, inclusive, but only on the area designated by signs as open to hunting. This open area, comprising 5,600 acres, is delineated on maps available at refuge headquarters, Burlington, Kans., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following special condition:

(1) Vehicle access shall be restricted to designated parking areas and existing roads.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 25, 1971.

LYLE A. STEMMERMAN,
Refuge Manager.

JULY 29, 1971.

[FR Doc.71–11461 Filed 8–9–71;8:46 am]

PART 33—SPORT FISHING

Flint Hills National Wildlife Refuge, KANSAS

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8–10–71).

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

FLINT HILLS NATIONAL WILDLIFE REFUGE

Sport fishing, including the taking of frogs, on the Flint Hills National Wildlife Refuge, Kans., is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 1,500 acres of reservoir waters and approximately 28 miles of river and stream channel, are delineated on maps available at refuge headquarters, Burlington, Kans., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) During the period October 1, 1971, through January 31, 1972, only Eagle Creek, the Neosho River and impoundments in the Eagle Creek and Hartford hunting units are open to public fishing, except the Neosho River Oxbow northeast of the Strawn Townsite is closed, as marked by buoys.

(2) During the period February 1, 1972, through September 30, 1972, all waters within the Flint Hills Refuge are open to sport fishing and the taking of bull frogs when in accordance with State of Kansas seasons.

(3) Vehicle access shall be confined to existing roads and trails not otherwise marked as closed to vehicle use.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through September 30, 1972.

LYLE A. STEMMERMAN,
Refuge Manager.

JULY 29, 1971.

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

National Park Service

[36 CFR Parts 4, 7]

GENERAL AND SPECIAL REGULATIONS

Notice of Proposed Rule Making

Pursuant to the authority contained in section 3 of the Act of August 25, 1916 (39 Stat. 535, as amended; 16 U.S.C. 3), section 2 of the Act of October 1, 1890 (26 Stat. 650; 16 U.S.C. 61), and section 5 of the Act of June 2, 1920 (41 Stat. 731; 16 U.S.C. 57), and 245 DM 1 (34 F.R. 13879, as amended), it is proposed to amend §§ 4.12 and 7.16 of Title 36 of the Code of Federal Regulations as set forth below.

The purpose of this amendment is to prohibit the operation of a motor vehicle equipped with a muffler cut-out, bypass, or similar device within areas of the National Park System; and to prohibit the presence of pets, and allow hitchhiking in designated locations at Yosemite National Park.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments to the Director, National Park Service, Department of the Interior, Washington, D.C. 20240, within 30 days of the publication of this notice in the FEDERAL REGISTER.

1. Section 4.12 is amended to read as follows:

§ 4.12 Mufflers.

(a) Every motor vehicle shall be equipped with a muffler in good working order anytime the motor vehicle is operating.

(b) Operating a motor vehicle equipped with a muffler cut-out, bypass, or similar device is prohibited.

2. Paragraphs (c) and (d) of § 7.16 are added to read as follows:

§ 7.16 Yosemite National Park.

* * * * *

(c) Dogs, cats, and other pets.

(1) Dogs, cats, and other pets are prohibited except:

(i) Guide dogs,

(ii) When traveling in a motor vehicle nonstop through the park, to privately-owned lands within the park, or to a commercial kennel within the park,

(iii) When kept at commercially operated kennels within the park.

(d) Hitchhiking and the soliciting of transportation is permitted off the roadway on the shoulder.

Dated: July 26, 1971.

RAYMOND L. FREEMAN,
Acting Director,
National Park Service.

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 926]

TOKAY GRAPES GROWN IN SAN JOAQUIN COUNTY, CALIFORNIA

Notice of Proposed Rule Making

Consideration is being given to the following proposal submitted by the Industry Committee established pursuant to the marketing agreement, as amended, and Order No. 926, as amended (7 CFR Part 926), which regulate the handling of Tokay grapes grown in San Joaquin County, Calif. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The proposal would regulate the handling of fresh Tokay grapes by limiting shipments of such grapes to those meeting the size and grade requirements hereinafter specified. The requirement that 65 percent of the grapes in each bunch and 30 percent of the grapes in the lower quarter of each bunch possess the color characteristics of "fairly well colored" reflects a desire, by the industry, to enhance the desirability of Tokay grapes by shipping a quality of fruit somewhat higher than U.S. No. 1 Table Grapes. It is believed, by the industry committee, that such quality requirements will be met by a quantity of grapes that is sufficient to fulfill the market demand.

The recommendations by the Industry Committee reflect its appraisal of the crop and the current and prospective market conditions. Shipments of Tokay grapes from the production area are expected to begin on or about August 25, 1971. The grade requirements provided herein are designed to prevent the handling on and after August 25, 1971, of any Tokay grapes of a lower grade than that herein specified, so as to provide consumers with good quality fruit, consistent with (1) the overall quality of the crop, and (2) improving returns to the producers pursuant to the declared policy of the act. The container marking requirement, is included to verify inspection of the fruit and assure compliance with the quality requirements specified herein.

The proposed regulation is as follows:

§ 926.308 Tokay Grape Regulation 7.

(a) *Order.* During the period August 25, 1971, through December 31, 1971, no handler shall ship any Tokay grapes, grown in the production area, which do not meet the following requirements:

(1) Such grapes shall meet the size and grade specifications of U.S. No. 1 Table Grapes including a requirement that each bunch shall have not less than 65 percent, by count, of berries showing characteristic color;

(2) Of the 25 percent, by count, of the berries of each bunch of such grapes which are attached to the lower part of the main stem, including laterals, at least 30 percent, by count, shall show characteristic color; and

(3) Any container of such grapes shall bear, in plain letters and figures on one outside end, a Federal-State Inspection Service lot stamp number showing that the grapes have been inspected in accordance with the established grade set forth in this section.

(b) *Definitions.* As used herein, the terms "handler", "ship", and "production area" shall have the same meaning as when used in the amended marketing agreement and order; "U.S. No. 1 Table Grapes" and "characteristic color" shall have the same meaning as when used in the U.S. Standards for Table Grapes (7 CFR 51.880–51.912; 36 F.R. 9125).

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than the 7th day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: August 5, 1971.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Consumer and Marketing Service.

DEPARTMENT OF DEFENSE

Office of the Secretary

[DoD Directive 1322.11]

EDUCATION IN RACE RELATIONS FOR ARMED FORCES PERSONNEL

Statement of Organization and Policy

The Deputy Secretary of Defense approved the following:

JUNE 24, 1971

I. *Objectives and purpose.* A. One essential element in attaining the goal of maintaining the highest degree of organizational and combat readiness within the Department of Defense is the presence of harmonious relations among all military personnel.

B. This Directive establishes the policies and designates the organizational elements assigned responsibility for developing an active DoD program of education in race relations and for assuring the attainment of those objectives.

II. *Applicability.* The provisions of this Directive apply to all active duty personnel of the Military Departments and Defense Agencies.

III. *Policy.* A. An Education Program in Race Relations will be conducted on a continuing basis for all military personnel in the effort to improve and achieve equal opportunity within the Department of Defense in keeping with the Human Goals proclaimed on August 18, 1969, and to eliminate and prevent racial tensions, unrest, and violence. As used herein race relations encompasses the interaction between all members of the Armed Forces—including all persons belonging to the majority and minority groups. This program will be under the guidance of the Assistant Secretary of Defense (Manpower and Reserve Affairs).

B. Military commanders will be alert to the continuing need for promoting racial harmony through educational and other leadership activities.

IV. *Organizational arrangements*—A. *Race Relations Education Board.* 1. There is established the Race Relations Education Board (RREB) which will serve as an advisory board to the Secretary of Defense, operating under the policy guidance and control of the Assistant Secretary of Defense (Manpower and Reserve Affairs).

2. The mission of the RREB will be to develop overall policy guidance for the DoD program of education in race relations for Armed Forces personnel on active duty.

3. The RREB membership will consist of the Assistant Secretary of Defense (Manpower and Reserve Affairs), as chairman, the Assistant Secretaries (Manpower and Reserve Affairs) of each Military Department, and one representative each from the Office of the Deputy Assistant Secretary of Defense (Equal Opportunity), the Deputy Assistant Secretary of Defense (Reserve Affairs), the Military Services, and such other individuals as may be invited from time to time by the Assistant Secretary of Defense (Manpower and Reserve Affairs).

B. *Defense Race Relations Institute (DRRI).* 1. There is established the Defense Race Relations Institute (DRRI) as a Department of Defense field activity, attached to a Military Department for administrative and logistical support, and operating under the supervision and direction of the Office of the Assistant Secretary of Defense (Manpower and Reserve Affairs).

2. The mission of the DRRI will be to conduct training for Armed Forces personnel designated as instructors in race relations, develop doctrine and curricula in education for race relations, conduct research, perform evaluation of program effectiveness, and disseminate educational guidelines and materials for utilization throughout the Armed Forces. Operations of DRRI will be subject to policy guidance by the RREB.

3. Membership. a. The Director will be selected by the Assistant Secretary of Defense (M&RA) from among designees of appropriate military rank submitted by Secretaries of the Military Departments, and the recommendations of the Race Relations Education Board. The Directorship will rotate among representatives of the Army, Navy, and Air Force. The Director will serve for 3 years and his performance will be subject to evaluation by the Assistant Secretary of Defense (Manpower and Reserve Affairs).

b. The Deputy Directors also will rotate among the Military Departments (so that all three Departments will be represented at the Director or Deputy Director level), and will be approved by the Race Relations Education Board.

c. Commissioned officer and enlisted personnel from all Department of Defense components on active duty, augmented by qualified civilian personnel, will be assigned duty with the faculty and staff of the DRRI on a prorated basis.

4. The Defense Race Relations Institute will be located as a tenant on an established military installation. The Military Department which is the host of the installation concerned will provide all administrative and logistic support to the DRRI. Initially, manpower spaces and financial support will be provided as approved by the Deputy Secretary of Defense as a separate action.

C. The Secretaries of the Military Departments will:

1. Select and assign full-time race relations instructors who will be trained by the DRRI on a schedule to be announced.

2. Develop internal plans for implementation of a program of education in race relations for all military personnel under their jurisdiction in accordance with curricula formulated and schedules directed by the RREB.

3. Assure that Military Commanders conduct such additional educational activities as considered necessary to maintain racial harmony.

V. *Programing, budgeting, and financing.* The Military Department assigned responsibility for administrative and logistical support will be responsible for programing, budgeting, and financing all expenses incident to the operation of the DRRI, except as indicated below, and will separately identify all such expenses in its Operation and Maintenance budget and financial plan submission to the Office of the Secretary of Defense:

A. The pay, allowances (including subsistence), PCS travel expenses of military personnel permanently or temporarily assigned to assist in the management of operation of the DRRI, including instructors, will be borne by the Service to which such personnel belong, and the salaries and expenses, including travel, of civilian personnel temporarily assigned will be borne by the Military Department or other DoD Components by which such personnel are employed.

B. Pay, allowances and travel costs (not integral to courses of instruction) of military and civilian personnel, assigned as students at the DRRI will be borne by their respective sponsoring DoD Components.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Administration).

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Montana 18526]

MONTANA

Order Providing for the Opening of Public Lands

AUGUST 2, 1971.

1. In an exchange of lands made under the provisions of section 8 of the Act of June 28, 1934 (48 Stat. 1269), as amended (43 U.S.C. 315g), the following lands have been conveyed to the United States:

PRINCIPAL MERIDIAN, MONTANA

T. 27 N., R. 32 E.,
Sec. 4, lots 1, 2, 3, and 4, and S½N½.

The areas described aggregate 356.16 acres.

2. The land is situated in Phillips County approximately 16 miles south-southeast of Malta. It is accessible via prairie trails. This land has a sagebrush cover and is valuable habitat cover and food for sage grouse. A reservoir is located on the tract and is useful for livestock grazing. The public lands in this area have been classified for multiple use management and retention in Federal ownership and are not open to application under the agricultural land laws (43 U.S.C. Chapters 7 and 9; 25 U.S.C. 334) or to sale under section 2455 of the Revised Statutes (43 U.S.C. 1171).

3. Subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, the lands are hereby open to application, petition, location, and selection. All valid applications received at or prior to 10 a.m., September 8, 1971, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

4. The mineral rights in the lands were not exchanged and their status is not affected by this order.

5. Inquiries concerning the lands should be addressed to the Bureau of Land Management, 316 North 26th Street, Billings, MT 59101.

ARTHUR R. GREGORY,
Acting Chief, Division of Technical Services.

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (34 F.R. 15787 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00428-00-46040. Applicant: Arizona State University, Tempe, Ariz. 85281. Article: Goniometer stage. Manufacturer: Japan Electron Optics Laboratory Co., Ltd., Japan.

Intended use of article: The article is an accessory for an existing JEM-100B electron microscope.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The application relates to an accessory for an instrument that had been previously imported for the use of the applicant institution. The article is being furnished by the manufacturer which produced the instrument with which the article is intended to be used.

The Department of Commerce knows of no similar accessory being manufactured in the United States, which is interchangeable with or can be readily adapted to the instrument with which the foreign article is intended to be used.

SETH M. BODNER,
Director,
Office of Import Programs.

[FR Doc.71-11474 Filed 8-9-71;8:48 am]

UNIVERSITY OF COLORADO

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (34 F.R. 15787 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00395-33-46040. Applicant: University of Colorado Medical Center, 4200 East Ninth Avenue, Denver, CO 80220. Article: Electron microscope, Model EM-9S-2. Manufacturer: Carl Zeiss, Inc., West Germany.

Intended use of article: The article will be used to study the fine structure of vertebrate spinal cord, vertebrate autonomic ganglia, and synaptic junctions between nerve and muscle graduate students and postdoctoral fellows will be taught electron microscope techniques in combination with other techniques in neurobiology in a course entitled Physiology.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The applicant requires an electron microscope which is suitable for instruction in the basic principles of electron microscopy. The foreign article is a relatively simple, medium resolution electron microscope designed for confident use by beginning students with a minimum of detailed programing. The most closely comparable domestic instrument is the Model EMU-4C electron microscope manufactured by the Forgflo Corp. The Model EMU-4C electron microscope is a relatively complex instrument designed for research, which requires a skilled electron microscopist for its operation. We are advised by the Department of Health, Education, and Welfare in its memorandum dated May 7, 1971, that the relative simplicity of design and ease of operation of the foreign article is pertinent to the applicant's educational purposes. We, therefore, find that the Model EMU-4C electron microscope is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

TEMPLE UNIVERSITY SCHOOL OF MEDICINE

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (34 F.R. 15787 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00386-33-46040. Applicant: Temple University School of Medicine, 3400 North Broad Street, Philadelphia, PA 19140. Article: Electron microscope, Model EM-9S. Manufacturer: Carl Zeiss, Inc., West Germany.

Intended use of article: The article will be used in training medical students, graduate students, postgraduate students, interns and residents in applied aspects of electron microscopy as a portion of their regular curriculum. These students will be instructed in the basic and actual operation of an electron microscope and how it can be effectively used as a tool in the area of pathology. Research includes the diagnosis and management of kidney disease, malignant melaneoma and of other neoplastic diseases.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The applicant requires an electron microscope which is suitable for instruction in the basic principles of electron microscopy. The foreign article is a relatively simple, medium resolution electron microscope designed for confident use by beginning students with a minimum of detailed programing. The most closely comparable domestic instrument is the Model EMU-4C electron microscope manufactured by the Forgflo Corp. The Model EMU-4C electron microscope is a relatively complex instrument designed for research, which requires a skilled electron microscopist for its operation. We are advised by the Department of Health, Education, and Welfare in its memorandum dated May 21, 1971, that the relative simplicity of design and ease of operation of the foreign article is pertinent to the applicant's educational purposes. We, therefore, find that the Model EMU-4C electron microscope is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

UNIVERSITY OF WISCONSIN

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (34 F.R. 15787 et seq.).

A copy of the record pertaining to this decision is availabie for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00385-33-46040. Applicant: University of Wisconsin, Pathology Department, Madison, Wis. 53706. Article: Electron Microscope, Model HS-8. Manufacturer: Hitachi, Ltd., Japan.

Intended use of article: The article will be used mainly for teaching and training purposes. The courses include Molecular and Ultrastructural Pathology, Experimental Pathology, Research in Pathology, and three elective courses. Research purposes include the examination of macrophages in tissue culture and renal biopsies from humans and experimental animals.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The applicant requires an electron microscope which is suitable for instruction in the basic principles of electron microscopy. The foreign article is a relatively simple, medium resolution electron microscope designed for confident use by beginning students with a minimum of detailed programing. The most closely comparable domestic instrument is the Model EMU-4C electron microscope manufactured by the Forgflo Corp. The Model EMU-4C electron microscope is a relatively complex instrument designed for research, which requires a skilled electron microscopist for its operation. We are advised by the Department of Health, Education, and Welfare in its memorandum dated May 21, 1971, that the relative simplicity of design and ease of operation of the foreign article is pertinent to the applicant's educational purposes. We, therefore, find that the Model EMU-4C electron microscope is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as

amended (34 F.R. 15787 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00227-00-07795. Applicant: National Aeronautics and Space Administration, Manned Spacecraft Center, Houston, Tex. 77058. R. & D. Procurement Branch, Space Station and Special Projects Contract Section JC44. Article: Accessories for an aerial camera system. Manufacturer: Goteberg Co., Sweden.

Intended use of article: The articles are accessories for an existing Hasselblad electric data camera system.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The application relates to accessories for an instrument that had been previously imported for the use of the applicant institution. The article is being furnished by the manufacturer which produced the instrument with which the article is intended to be used.

The Department of Commerce knows of no similar accessories being manufactured in the United States, which is interchangeable with or can be readily adapted to the instrument with which the foreign article is intended to be used.

SETH M. BODNER,
Director,
Office of Import Programs.

[FR Doc.71-11479 Filed 8-9-71;8:48 am]

UNIVERSITY OF NOTRE DAME

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (34 F.R. 15787 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00190-33-46040. Applicant: The University of Notre Dame DU LAC, College of Science, Notre Dame, Ind. 46556. Article: Electron microscope, EM 801. Manufacturer: Associated Electrical Industries, United Kingdom.

Intended use of article: The article will be used for graduate student instruction combined with research in advanced cytology. Program includes demonstrations of three dimensional reconstruction of virus-like particles in nephroblastoma; comparison of the developmental ultrastructure of Habrobracon during vetellogenesis and early embryogenesis; origin of hymenopteran accessory nuclei based on serial sectioning and reconstruction of the nursefollicle celloocyte complex; investigating cuticle formation in parasitic nematodes; intestinal cell differentiation in parasitic nematodes, and structure and function of mitochrondria.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article is equipped with a tilt stage having a guaranteed resolving power of 5 Angstroms. The most closely comparable domestic instrument is the Model EMU-4C electron microscope manufactured by the Forgflo Corp. (Forgflo). The Model EMU-4C can be equipped with a tilt stage but the guaranteed resolving power of this stage is 8 Angstroms. (The lower the numerical rating in terms of Angstrom units, the better the resolving power.) We are advised by the Department of Health, Education, and Welfare in its memorandum dated March 10, 1971, that the guaranteed resolving power of the tilt stage of the foreign article is pertinent to the applicant's research studies.

We, therefore, find that the Model EMU-4C electron microscope is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article for the purposes for which such article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

[FR Doc.71-11480 Filed 8-9-71;8:48 am]

UNIVERSITY OF LOUISVILLE

Amendment to Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following notice of decision published in Volume 36, Number 121 of the FEDERAL REGISTER (Wednesday, June 23, 1971) pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) is hereby amended to read EMU-4B where EMU-4C appeared in notice.

Docket No. 71-00205-33-46040. Applicant: University of Louisville, School of Dentistry, Health Sciences Center, Louisville, Ky. 40202. Article: Electron microscope, Model EM 300. Manufacturer: Philips Electronics NVD, The Netherlands.

Intended use of article: The article will be used for research on healing of superficial wounds inflicted to the wall of the large blood vessels; and ultrastructural study on the effect of cytotoxic agents on the microcirculation; and for educational purposes in oral pathology.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a continuous magnification from 200 to 500,000 magnifications, without changing the pole-piece. The most closely comparable domestic instrument is the Model EMU-4B which was formerly manufactured by the Radio Corp. of America and which is presently being supplied by the Forgflo Corp. The Model EMU-4B, with its standard pole-piece, has a specified range from 1,400 to 240,000 magnifications. For survey and scanning, the lower end of this range can be reduced to 200 magnifications or less. But the continued reduction of magnification induces an increasingly greater distortion. The domestic manufacturer suggests in its literature on the Model EMU-4B that for highest quality, low magnification electron micrographs in the magnification range between 500 and 70,000 magnifications, an optional low magnification pole-piece should be used. Changing the pole-piece on the Model EMU-4B requires a break in the vacuum of the column. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated January 22, 1971, that the applicant requires the capability of taking high-quality micrographs at low magnifications in order to achieve the purposes for which the article is intended to be used. HEW further advises that breaking the vacuum in the column induces the danger of contamination which would very likely lead to the failure of the experiment.

Therefore, the capability of moving from 220 to 500,000 magnifications without changing pole-pieces, while at the same time providing high-quality micrographs at low magnifications, is considered to be a pertinent characteristic. For these reasons, we find that the Model EMU-4B is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

MAYO FOUNDATION

Amendment to Notice of Application for Duty-Free Entry of Scientific Article

The following notice of application published in Volume 36, Number 139 of the FEDERAL REGISTER (Tuesday, July 20, 1971) pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) is hereby amended to read Rochester, Minn. 55901 instead of Rochester, N.Y. 55901.

Docket No. 71-00477-33-46500. Applicant: Mayo Foundation, 200 First Street Southwest, Rochester, Minn. 55901. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter A. B., Sweden.

Intended use of article: The article will be used for studies on viral diseases of the skin, tumors of the skin, ultrastructural histochemical techniques of the skin, and immuno-ultrastructural techniques of the skin in progress. Educational use will be in courses in graduate training and for thesis work investigating biologic and pathologic problems of the skin by ultrastructural methods. Application received by Commissioner of Customs: April 2, 1971.

UNIVERSITY OF WASHINGTON ET AL.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purpose for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the FEDERAL REGISTER.

Amended regulations issued under cited Act, as published in the October 14, 1969, issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket No. 71-00543-07-30650. Applicant: University of Washington, Seattle, Wash. 98105. Article: Meat separator. Manufacturer: Yanagiya Machinery Works, Inc., Japan.

Intended use of article: The article will be used for the research purpose of deboning fishery products prior to preparation of prepared foods such as fish sausage and fish protein concentrate. Educational purposes include Food Science courses and Advanced Unit Operations and Processes in Food Engineering. Application received by Commissioner of Customs: May 11, 1971.

Docket No. 71-00544-33-46040. Applicant: University of Alabama in Birmingham, 1919 Seventh Avenue South, Birmingham, AL 35233. Article: Electron microscope, Model EM9S-2. Manufacturer: Carl Zeiss, Inc., West Germany.

Intended use of article: The article will be used to study human tissues obtained by biopsy of outpatients or at the time of operations. This will include normal tissues from the female reproductive tract (for instance, cervical tissue, endometrial tissue), and tissues of premalignant and malignant conditions. The techniques of electron microscopy will be taught to medical students and housestaff physicians. Application received by Commissioner of Customs: May 11, 1971.

Docket No. 71-00545-33-07730. Applicant: Purdue University, Lafayette, Ind. 47907. Article: Searle X-ray camera with toroid optics. Manufacturer: Baird & Tatlock, United Kingdom.

Intended use of article: The article will be used to study nucleic acids and mucopoly-saccharides by the methods of X-ray diffraction analysis. The experiments to be conducted will involve the recording of the fiber diffraction on photographic plates; measurement of the intensities and their spatial distribution and the computation therefrom of the geometrical parameters of the molecules and molecular assemblies that would produce such a pattern. Application received by Commissioner of Customs: May 13, 1971.

Docket No. 71-00546-33-41400. Applicant: Veterans Administration Hospital, San Francisco, Calif. 94121. Article: SI-RO-KEEN microtome knife sharpener. Manufacturer: Peter T. Lawson, Scientific Instruments, Australia.

Intended use of article: The article will be used to sharpen the microtome knives for use in the applicant's paraffin and colloidin neurohistology laboratory. Studies concern nervous system diseases and autopsy and biopsy material. Application received by Commissioner of Customs: May 13, 1971.

Docket No. 71-00547-33-43780. Applicant: Ochsner Foundation Hospital, 1516 Jefferson Highway, New Orleans, LA 70121. Article: Innescu-Ross-Wooler Fascia Lata Valve Supports. Manufacturer: Hypodermic Services, United Kingdom. Intended use of article: The articles are being used in a clinical study in which these valves are used in humans. The fascia lata from the human is attached to the frame, which is used to replace the diseased heart valve that has been excised. Application received by Commissioner of Customs: May 13, 1971.

Docket No. 71-00548-65-46040. Applicant: Ames Research Laboratory, NASA Ames Research Center, Moffett Field, Calif. 94035. Article: Electron microscope, Model EM 300. Manufacturer: Philips Electronics NVD, The Netherlands.

Intended use of article: The article will be used on ultrastructure research on the lunar samples returned by the Apollo missions. It will also be associated with deeper space probes, i.e., to Mars. Reports of light flashes in the retina of the eye of astronauts and radiation measurements make it necessary to increase the understanding of the effects of galactic radiation on tissue ultrastructure. Application received by Commissioner of Customs: May 13, 1971.

Docket No. 71-00549-00-41200. Applicant: Health Research, Inc., 666 Elm Street, Buffalo, NY 14203. Article: Klystron tube, Model VC 104. Manufacturer: Varian Associates of Canada, Ltd., Canada.

Intended use of article: The article is a replacement tube for a microwave generator used for the study of radiation damage. Application received by Commissioner of Customs: May 18, 1971.

Docket No. 71-00550-01-90000. Applicant: University of Pennsylvania, Department of Chemistry, E. F. Smith Chemistry Laboratories, 215 South 34th Street, Philadelphia, PA 19104. Article: Rotating anode X-ray generator and attachment, Model GX6. Manufacturer: Elliot Automation Radar Systems, Ltd., United Kingdom.

Intended use of Article: The article will be used to provide high intensity X-radiation for single crystal X-ray diffraction studies of proteins for teaching and research. Application received by Commissioner of Customs: May 17, 1971.

Docket No. 71-00551-33-43780. Applicant: Ochsner Foundation Hospital, 1516 Jefferson Highway, New Orleans, LA 70121. Article: Inoescu-Ross-Wooler Fascia Lata Valve Supports. Manufacturer: Hypodermic Services, United Kingdom.

Intended use of article: The articles are being used in a clinical study in which these valves are used in humans. The fascia lata from the human is attached to the frame, which is used to replace the diseased heart valve that has been excised. Application received by Commissioner of Customs: May 17, 1971.

Docket No. 71-00552-33-46040. Applicant: Battelle Memorial Institute, Pacific Northwest Laboratories, Post Office Box 999, Richland, WA 99352. Article: Electron microscope, Model EM 300. Manufacturer: Philips Electronics NVD, The Netherlands.

Intended use of article: The article will be used for research on biological specimens derived from experiments in radiation biology and effects of thermal changes in river water on fish and to the study of pollutant particles with respect to size, radioactivity and composition. The effects of radiation on biological specimens will be studied for gross biological changes and ultrastructure changes, the damage due to the radiation and its effects. Application received by Commissioner of Customs: May 17, 1971.

WESTERN MICHIGAN UNIVERSITY ET AL.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purpose for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the FEDERAL REGISTER.

Amended regulations issued under cited Act, as published in the October 14, 1969, issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket No. 71-00553-33-46500. Applicant: Western Michigan University, Department of Biology, Wood Hall, Western Michigan Avenue, Kalamazoo, MI 49001. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article will be used to examine plant, animal and bacterial tissues, exhibiting normal and pathological laterations. The studies concern ultrastructural changes associated with viral infections, primarily as regards antigenic changes at the various membranes; and maturation of animal viruses at cell membranes resulting in antigenic alterations in both lytic and nonlytic conditions. Application received by Commissioner of Customs: May 17, 1971.

Docket No. 71-00554-33-46040. Applicant: Philadelphia General Hospital, 34th Street and Civic Center Boulevard, Philadelphia, PA 19104. Article: Electron microscope, Model HU-11E. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article will be used to study the biosynthesis and degradation of collagen, the major protein found in tissues such as skin, bone, and small blood vessels. Sections of tissues and cells which are either synthesizing or degrading collagen will be examined by the electron microscope. Also molecules such as enzymes which are involved in either the biosynthesis or degradation of collagen will be examined. Application received by Commissioner of Customs: May 18, 1971.

Docket No. 71-00555-65-46070. Applicant: Howard University, 2400 Sixth Street NW., Washington, DC 20001. Article: Scanning electron microscope, Model JSM-U3. Manufacturer: Japan Electron Optics Laboratory Co., Ltd., Japan.

Intended use of article: The article will be used for teaching and research regarding the ultrastructure of the surface of pollens and other airborne organic particles of plant origin; high resolution analysis of the outer surfaces of bacteria, fungi and yeasts; ultrastructure of biological pollutants of importance to students in civil engineering interested in sewerage problems; and for rapid analysis of minerals and dust and inorganic materials from the moon's surface. Application received by Commissioner of Customs: May 18, 1971.

Docket No. 71-00556-00-46040. Applicant: UCLA/University of California at Los Angeles, 405 Hilgard Avenue, Los Angeles, CA 90024. Article: Electromagnetic shutter with the equipment for exposure measurement. Manufacturer: Siemens AG, West Germany. Intended use of article: The article is an accessory for an existing Siemens IA electron microscope used for biological research. Application received by Commissioner of Customs: May 18, 1971.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGFR 71–77]

DESOTO WATERWAY, FLORIDA

Notice of Public Hearing on Proposed Bridge

A public hearing will be held at 2 p.m., September 13, 1971, at the Diplomat Country Club, 501 Diplomat Parkway, Hallandale, FL, to consider the application for a bridge permit submitted by the Mailman Development Corp. on April 21, 1971. The Mailman Development Corp. is seeking the Coast Guard's approval of the location and plans for a fixed bridge which they propose to build across the DeSoto Waterway of the Three Islands Development at Northeast Ninth Street, Hallandale, Fla. The plans submitted are for a fixed highway bridge, approximately 225 feet in length, with a vertical clearance of 6.8 feet above mean high water and 9.3 feet above mean low water, and a horizontal clearance of 41.8 feet.

Among the issues that the Coast Guard considers in deciding whether a bridge permit will be issued are the impact the proposed bridge will have on present and prospective navigation on the waterway and the environment. The environment issues include but are not limited to the impact of the bridge on recreational areas, wildlife and water fowl refuges, public parks, and historical sites.

The Commander, Seventh Coast Guard District, issued a Public Notice on April 27, 1971, to notify interested persons of the Mailman Development Corp.'s application. This public notice generated considerable public interest and controversy. Therefore, the Coast Guard has decided to hold this public hearing to gather additional information. Interested persons may present their views, at the public hearing, orally or in writing.

The hearing will be informal. A Coast Guard representative, who will preside at the hearing, will make a brief opening statement describing the proposed bridge and announce the procedures to be followed at the hearing.

Any person may make an oral statement if he notifies the Commander, Seventh Coast Guard District, 51 Southwest First Avenue, Miami, FL 33130, by September 1, 1971. Such notification should include the approximate time required to make the presentation. A transcript will be made of the hearing which may be purchased by the public.

Interested persons may also participate in the consideration of this bridge permit application by submitting their comments in writing to the Commander, Seventh Coast Guard District. Each comment should state the subject to which it is directed, reasons for any objections or proposed changes and the name and address of the person or organization, submitting the comment. Copies of all written communications will be available for examination by interested persons at the offices of the Commander, Seventh Coast Guard District.

All comments received before October 1, 1971 will be considered before final action is taken on the proposed bridge permit application. After the time set for the submission of comments, the Commander, Seventh Coast Guard District will forward the record, including all written comments and his recommendations to the Commandant, U.S. Coast Guard, Washington, D.C. 20591. The Commandant will make the final determination on the bridge permit.

(Sec. 502, 60 Stat. 847, as amended, sec. 4(f), 6(g)(6)(C), 80 Stat. 933, as amended; 33 U.S.C. 525, 49 U.S.C. 1653(F), 1655(g)(C); 49 CFR 1.46(c)(10))

Dated: Aug. 2, 1971.

C. R. BENDER,
Admiral, U.S. Coast Guard,
Commandant.

CIVIL AERONAUTICS BOARD

[Docket 23619; Order 71–8–9]

AMERICAN HANSA JET CORP.

Establishment of Service Mail Rate

Issued under delegated authority, August 2, 1971.

The Postmaster General filed a notice of intent July 16, 1971, pursuant to 14 CFR Part 298, petitioning the Board to establish for the above captioned air taxi operator, a final service mail rate of $1.35 per great circle aircraft mile for the transportation of mail by aircraft between Newark, N.J., and Pittsburgh, Pa., based on five round trips per week.

No protest or objection was filed against the proposed services during the time for filing such objections. The Postmaster General states that the Postal Service and the carrier agree that the above rate is a fair and reasonable rate of compensation for the proposed services. The Postmaster General believes these services will meet postal needs in the market. He states the air taxi plans to initiate mail service with Hansa, twin-engine jet aircraft (capacity restricted to 3,600 pounds).

It is in the public interest to fix, determine, and establish the fair and reasonable rate of compensation to be paid by the Postmaster General for the proposed transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, between the aforesaid points. Upon consideration of the notice of intent and others matters officially noticed, it is proposed to issue an order[1] to include the following findings and conclusions:

The fair and reasonable final service mail rate to be paid to American Hansa Jet Corp., in its entirety by the Postmaster General pursuant to section 406 of the Act for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, shall be $1.35 per great circle aircraft mile between Newark, N.J., and Pittsburgh, Pa., based on five round trips per week flown with Hansa, twin-engine jet aircraft (capacity restricted to 3,600 pounds).

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof, and regulations promulgated in 14 CFR Part 302, 14 CFR Part 298, and 14 CFR 385.16(f):

It is ordered, That:

1. American Hansa Jet Corp., the Postmaster General, Allegheny Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., and all other interested persons are directed to show cause why the Board should not adopt the foregoing proposed findings and conclusions and fix, determine, and publish the final rate specified above for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith as specified above as the fair and reasonable rate of compensation to be paid to American Hansa Jet Corp.;

2. Further procedures herein shall be in accordance with 14 CFR Part 302, and notice of any objection to the rate or to the other findings and conclusions proposed herein, shall be filed within 10 days, and if notice is filed, written answer and supporting documents shall be filed within 30 days after service of this order;

3. If notice of objection is not filed within 10 days after service of this order, or if notice is filed and answer is not filed within 30 days after service of this order, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order incorporating the findings and conclusions proposed herein and fix and determine the final rate specified herein;

4. If answer is filed presenting issues for hearing, the issues involved in determining the fair and reasonable final rate shall be limited to those specifically raised by the answer, except insofar as other issues are raised in accordance with Rule 307 of the Rules of Practice (14 CFR 302.307); and

5. This order shall be served on American Hansa Jet Corp., the Postmaster General, Allegheny Airlines, Inc., Trans World Airlines, Inc., and United Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.71–11490 Filed 8–9–71;8:49 am]

[1] As this order to show cause is not a final action, it is not regarded as subject to the review provisions of 14 CFR Part 385. These provisions will apply to final action taken by the staff under authority delegated in section 385.16(g).

DELAWARE RIVER BASIN COMMISSION

COMPREHENSIVE PLAN

Notice of Public Hearing

The Delaware River Basin Commission will hold a public hearing on August 25, 1971, at 10 a.m., in the South Auditorium of the ASTM Building, 1916 Race Street, Philadelphia, PA, on the following proposed amendment to the Comprehensive Plan for the Delaware River Basin:

REGIONAL SEWERAGE PLAN FOR DARBY CREEK WATERSHED

Purpose and need. The purpose of this plan and program is the designation and development of a regional sewerage solution for the area generally encompassing the Darby Creek watershed. Portions of the area concerned are presently suffering from inadequate sewerage service from several of the existing sewerage utilities; Darby Creek is severely polluted for much of its length; bans have been imposed on additional sewer connections in some areas, and health hazards exist. In accordance with the Commission's regionalization policy (Comprehensive Plan as amended by Resolution 68–6) the Commission and the interested Federal, State, and local agencies have undertaken various surveys and studies including those reported in the following references:

(1) Letter dated March 31, 1971, to Mr. James F. Wright, Executive Director, from Dr. William B. Strandberg, Coordinator, Darby Creek Watershed, transmitting the Joint Staff Position, March 29, 1971. (2) Proceedings of the Darby Creek Technical Task Force, March 19, 1971. (3) Survey Report and Findings, Darby Creek Area Sewerage, DRBC Staff Report, August 11, 1970.

On the basis of these and other studies and reports, it is believed that public interest would best be served by a regional sewerage system, the region to be served by the Philadelphia Southwest Water Pollution Control Plant (Philadelphia SW).

Service area. The service area of the existing Philadelphia SW regional system would generally be extended to include the Darby Creek watershed, including the service areas of the existing sewerage systems within the watershed.

General features. The regionalization plan includes three key features:

1. Connection of the Darby Creek Joint Authority (DCJA) sewerage system with the Philadelphia SW plant, by means of an interceptor.

2. Upgrading and enlargement of the Philadelphia SW plant to handle the enlarged service area.

3. A series of interim steps pending the 1976 completion of the Philadelphia SW plant as follows:

a. Construction of the temporary Cobbs Creek interconnection between the DCJA and Philadelphia SW sewer systems.

b. Construction of the interim measures at the Radnor-Haverford-Marple (RHM) treatment plant as authorized (DRBC Docket D–69–204CP).

c. Diversion of waste from RHM to DCJA as authorized (DRBC Docket D–69–204CP).

d. Upon completion of the interceptor, reduction of flows to the DCJA plant to 10 m.g.d., with the balance of flows diverted by means of the interceptor to Philadelphia SW.

e. Upon completion of the upgrading and enlargement of the Philadelphia SW plant, phaseout of the RHM plant. Phaseout of other treatment plants in the designated region on the basis of physical, economic, and financial considerations, with due consideration of the Delaware County Regional Sewerage System Study, scheduled for completion in October 1971.

Cost. Comparative cost and analyses shown in the referenced studies indicate that the regional plan is the most economical solution for the Darby Creek area. It has been estimated that the regional plan and program will produce long-term average annual cost savings of from 10–20 percent over subregional development.

All documents referred to herein are available for examination at the Commission offices by appointment. All persons wishing to testify are requested to register in advance with the Secretary of the Commission.

DAWES THOMPSON,
Acting Secretary.

AUGUST 3, 1971.

[FR Doc.71–11444 Filed 8–9–71;8:45 am]

FEDERAL POWER COMMISSION

[Docket No. G–2598 etc.]

TENNECO OIL CO. ET AL.

Notice of Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates[1]

JULY 29, 1971.

Take notice that each of the applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before August 27, 1971, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[2] Application previously noticed July 21, 1971 in Docket No. G-3252 et al., at a rate of 22 cents per Mcf. By letter filed July 7, 1971, applicant amended its application to reflect a rate of 24.5 cents per Mcf.
[3] Subject to upward and downward B.t.u. adjustment.
[4] Expiration of leases.
[5] Rate in effect subject to refund in Docket No. RI68-508.
[6] Amendment to pending Application.
[7] Applicant requests reissuance of certificate from July 1, 1971 to July 30, 1976.
[8] Includes 1.75 cents per Mcf tax reimbursement.
[9] Applicant proposes to abandon in part the sale of natural gas to Phillips Petroleum Co. for resale to El Paso Natural Gas Co. Applicant proposes in Docket No. C171-821 to make a sale from the subject properties to Tipperary Resources for resale to El Paso Natural Gas Co.
[10] Applicant is willing to accept a certificate at 20 cents; however, the contract provides for an initial rate of 25.25 cents per Mcf.

POSTAL SERVICE

POSTAL RATES AND FEES

Temporary Changes Effective September 15, 1971

By notice published in the FEDERAL REGISTER on May 4, 1971 (36 F.R. 8331–8333), the Post Office Department placed into effect, as of May 16, 1971, certain temporary changes in rates of domestic postage and fees for postal services, pursuant to 39 U.S.C. section 3641.

With respect to the classes of "reduced rate" mail identified in 39 U.S.C. section 2626, the increases reflected in such temporary rates did not exceed the first of a series of annual increases that the Department anticipated would be established for reduced rate mail under the separate rate schedules to be adopted pursuant to 39 U.S.C. section 3626. (See the notice published by the Department in the FEDERAL REGISTER on February 6, 1971, 36 F.R. 2571 et seq., identifying, in addition to the temporary rates, both the full proposed rates and the "first step rates" contemplated under the separate schedules for reduced rate mail.)

The Department's initial determination of the level of temporary rates was based on the assumption that pursuant to the authority contained in 39 U.S.C. section 2401(c), there would be appropriated to the Postal Service for fiscal year 1972 a sum determined by the Department to be equal to the full amount of the difference between the revenues that the Postal Service would have received if 39 U.S.C. section 3626 had not been enacted and the estimated revenues to be received on mail carried at the reduced rates specified in the separate schedules to be adopted under such section.

In its budget presentations to the Office of Management and Budget and to the Congress, the Post Office Department requested an appropriation to the Postal Service Fund for fiscal year 1972 in the full amount authorized by 39 U.S.C. 2401(c). The Budget of the U.S. Government, however, as transmitted to the Congress, expressed the view that full implementation of the rate increases proposed for third-class mail should not be deferred, and the amount requested in the Budget under 39 U.S.C. 2401(c) was reduced accordingly. In the Act making appropriations to the Postal Service for fiscal year 1972 (Public Law 92–49), the total amount requested in the Budget was further reduced. The Postal Service does not attribute any part of its fiscal year 1972 appropriation to the portion of its appropriation request under 39 U.S.C. 2401(c) that was eliminated in the Budget of the United States.

39 U.S.C. § 3627 authorizes adjustments in the rates of postage for mail sent at reduced rates under 39 U.S.C. 626 if Congress fails to appropriate an amount authorized under 39 U.S.C. 2401(c). In consonance with this provision, and against the background outlined in the preceding paragraphs, the Postal Service considers it appropriate, as a means of carrying out the provisions of title 39 of the United States Code, to place into effect the temporary changes in rates of domestic postage shown on the schedule set out below. These temporary changes are hereby placed into effect as of September 15, 1971, and the order published at 36 F.R. 8331–8333 is modified accordingly. The temporary changes hereby placed into effect will remain effective for a period ending 30 days after the Postal Rate Commission has transmitted to the Governors of the Postal Service its recommended decision with respect to the full proposed rates in question, unless this order is sooner revoked or modified.

THIRD-CLASS MAIL

Mail category	Postage rate unit	Current rates (cents)	May 16, 1971 temporary rates (cents)	Sept. 15, 1971 temporary rates (cents)
(1)	(2)	(3)	(4)	(5)
Third class:				
Single-piece rate	2 ozs	6	8	8
Do	3 ozs	8	10	10

SMALL BUSINESS ADMINISTRATION

INDIANA CAPITAL SBIC, INC.

Notice of Filing of Application for Transfer of Control of Licensed Small Business Investment Company

Notice is hereby given that application has been filed with the Small Business Administration (SBA) pursuant to § 107.701 of the regulations governing Small Business Investment Companies (13 CFR § 107.701 (1971)) for transfer of control of Indiana Capital SBIC, Inc. (Indiana), 927 South Harrison Street, Fort Wayne, IN 46802, a Federal Licensee under the Small Business Investment Act of 1958, as amended (15 U.S.C. Sections 661 et seq.) (Act), License No. 05/07-0025.

Indiana was licensed on January 24, 1961, and its private capital amounts to $300,000. The proposed transfer of control is subject to and contingent upon the approval of SBA.

Indiana Capital Corp., the parent, has agreed to sell 100 percent of the common stock of its subsidiary, Indiana, to the Waterfield Mortgage Co., Inc. (Waterfield), 123 West Berry Street, Fort Wayne, IN 46802.

Waterfield, an Indiana corporation, has 11 beneficial owners and will operate Indiana Capital SBIC, Inc., as a 100 percent owned subsidiary.

The officers and directors of Indiana will be:

Richard H. Waterfield, 4801 Stratford Road, Fort Wayne, IN 46807, Chairman and Director.
Joel K. Bravick, 3218 Delray Drive, Fort Wayne, IN 46805, President and Director.
Richard D. Waterfield, 2236 Wawonaissa Trail, Fort Wayne, IN 46807, Secretary, Treasurer and Director.
John R. Rhinehart, 4222 Indiana Avenue, Fort Wayne, IN 46807, Director.
Samuel K. Kreigh, 5115 Ivybrook Drive, Fort Wayne, IN 46805, Director.

Matters involved in SBA's consideration of the application include the general business reputation and character of the proposed new owner and management, and the probability of successful operations of the company under such management (including adequate profitability and financial soundness) in accordance with the Act and regulations.

Notice is hereby given that any interested persons may, not later than 15 days from the publication of this notice, submit to SBA in writing, relevant comments on the proposed transfer of control. Any such communication should be addressed to the Associate Administrator for Operations and Investment, Small Business Administration, 1441 L Street NW., Washington, DC 20416.

Dated: July 29, 1971.

A. H. SINGER,
Associate Administrator for Operations and Investment.

[Declaration of Disaster Loan Area 837 (Class B)]

NEW YORK

Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of July 1971, because of the effects of a certain disaster, damage resulted to residences and business property located in the State of New York;

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such area constitutes a catastrophe within the purview of the Small Business Act, as amended.

Now, therefore, as Associate Administrator for Operations and Investment of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Orange and Putnam Counties, N.Y., and adjacent areas, suffered damage or destruction resulting from a tornado occurring on July 29, 1971, and accompanying conditions.

OFFICE

Small Business Administration Regional Office, 26 Federal Plaza, Room 3930, New York, N.Y. 10007.

2. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to February 29, 1972.

Dated: August 2, 1971.

A. H. SINGER,
Associate Administrator for Operations and Investment.

DEPARTMENT OF AGRICULTURE

Packers and Stockyards Administration

B & H SALES CO. ET AL.

Proposed Posting of Stockyards

The Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards Administration, U.S. Department of Agriculture, has information that the livestock markets named below are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 202), and should be made subject to the provisions of the Act.

B & H Sales Co., Carson, Iowa.
Southwest Livestock, Inc., Lorman, Miss.
Mohawk Valley Beef Sales, Inc., Westernville, N.Y.
Van Zandt Commission Company, Inc., Wills Point, Tex.
Winnie Livestock Exchange, Winnie, Tex.

Notice is hereby given, therefore, that the said Chief, pursuant to authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), proposes to issue a rule designated the stockyards named above as posted stockyards subject to the provisions of the Act as provided in section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed rule, may do so by filing them with the Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards Administration, U.S. Department of Agriculture, Washington, D.C. 20250, within 15 days after publication in the FEDERAL REGISTER.

All written submissions made pursuant to this notice shall be made available for public inspection at such times and places in a manner convenient to the public business (7 U.S.C. 1.27(b)).

Done at Washington, D.C., this 4th day of August 1971.

G. H. HOPPER,
Chief, Registrations, Bonds, and Reports Branch, Livestock Marketing Division.

[Notice 343]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 5, 1971.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 30173 (Sub-No. 6 TA) (Correction), filed July 12, 1971, published FEDERAL REGISTER, issue of July 22, 1971, and republished as corrected this issue. Applicant: GAMACHE TRUCKING CO., INC., Bates Street, Post Office Box 612, Fall River, MA 02722. Applicant's representative: Francis J. Ortman, 1100 17th Street NW., No. 613, Washington, DC 20036. NOTE: The purpose of this republication is to note the correct address of the field office: 187 Westminster Street, Providence, RI 02903. Previous publication gave 817 Westminster Street in error. The rest of the notice of filing remains as previously published.

No. MC 98154 (Sub-No. 10 TA) (Correction), filed July 14, 1971, published FEDERAL REGISTER July 27, 1971, corrected and republished as corrected this. Applicant: BRUCE CARTAGE INCORPORATED, 3460 East Washington Road, Saginaw, MI 48601. Applicant's representative: Karl L. Gotting, 1200 Bank of Lansing, Michigan, Lansing, Mich. 48933. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt with by retail department stores, between Saginaw, Mich., and Grand Rapids, Mich., on the one hand, and, on the other, J. C. Penney Stores and warehouses located at points in Michigan south of a line beginning at Lake Michigan and extending along the north boundary of Manistee, Wexford, and Missaukee Counties, thence south along the east boundary of Missaukee County to the north boundary of *Clare County, thence east along north boundary of Clare County and the north boundary of Gladwin County to the east boundary* of Gladwin County, thence south along the east boundary of Gladwin and Midland Counties to a point due west of Kawkawlin, Mich., thence east along an imaginary line drawn east and west through Kawkawlin, Mich., to Saginaw Bay. Restriction: The operations authorized herein are subject to the following conditions: Said operations are restricted against the transportation of traffic to or from stores and warehouses located in Monroe, Washtenaw, Oakland, Ma-

comb, St. Clair, and Wayne Counties, Mich. Said operations are restricted to the transportation of traffic originating at Secaucus and Jersey City, N.J., and Statesville, N.C., for 150 days. NOTE: Applicant has authority to transport the commodities requested herein except that the same is restricted against transportation of articles weighing in the aggregate more than 500 pounds from one consignor at one location to one consignee at one location on any one day except traffic moving from Wauwautosa, Wis., which is not subject to said restriction. The purpose of this application is to eliminate such restriction insofar as shipments are made to stores and warehouses of J. C. Penney Co. from the points of Secaucus and Jersey City, N.J., and Statesville, N.C. Supporting shipper: E. F. Stadelman, General Traffic Manager, J. C. Penney Co., Inc., 1301 Avenue of the Americas, New York, NY 10019. Send protests to: C. R. Flemming, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 225 Federal Building, Lansing, Mich. 48933. The purpose of this republication is to include that portion which is underlined above which was inadvertently omitted from previous publication.

No. MC 103993 (Sub.-No. 646 TA) (Correction), filed July 20, 1971, published FEDERAL REGISTER, July 30, 1971, corrected and republished in part as corrected this issue. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Ralph H. Miller (same address as above). NOTE: The purpose of this partial republication is to set forth the correct MC No. 103993 in lieu of MC No. 103933 shown erroneously in previous publication. The rest of the application remains the same.

No. MC 111729 (Sub-No. 322 TA) (Correction), filed July 15, 1971, published FEDERAL REGISTER, July 27, 1971, corrected and republished in part as corrected this issue. Applicant: AMERICAN COURIER CORPORATION, 2 Nevada Drive, Lake Success, (NHP–PO) NY 11040. Applicant's representative: John M. Delany (same address as above). NOTE: The purpose of this partial republication is to reflect the correct spelling of the destination point in item (4) below as Whitewater, Wis., in lieu of Shitewater, Wis., shown erroneously in previous publication. (4) *Opthalmic goods and business papers and records* moving therewith, between Rosemont, Ill., on the one hand, and, on the other Fort Wayne, Hammond, and South Bend, Ind., Cedar Rapids, Davenport, and Dubuque, Iowa, Green Bay, Madison, Milwaukee, Oshkosh, and Whitewater, Wis. The rest of the application remains the same.

No. MC 118038 (Sub-No. 3 TA) (Amendment), filed July 14, 1971, published FEDERAL REGISTER, July 28, 1971, corrected and amended as corrected this issue. Applicant: EASLEY HAULING SERVICE, INC., North First Avenue and Quince Street, Yakima, WA 98907. Applicant's representative: Norman Richardson, Post Office Box 1261 (Gun Club Road), Yakima, WA 98907. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cellular styrofoam and plastic trays, cartons and containers*, from Wenatchee, Wash., to Multnomah, Hood River, Wasco, Jackson, and Marion Counties, Oreg., for 180 days. Supporting shipper: Dolco Packaging Corp., 1121 South Columbia Street, Wenatchee, WA 98801. Send protests to: District Supervisor W. J. Huetlg, Interstate Commerce Commission, Bureau of Operations, 450 Multanomah Building, 319 Southwest Pine Street, Portland, OR 97204. NOTE: The purpose of this republication is to reflect operations as a *common carrier* in lieu of contract carrier and to reflect the correct docket number as MC 118038 (Sub-No. 3 TA) in lieu of MC 103494 (Sub-No. 21 TA) shown erroneously in previous publication.

No. MC 126313 (Sub-No. 4 TA) (Correction), filed July 14, 1971, published FEDERAL REGISTER, July 27, 1971, corrected and republished as corrected this issue. Applicant: BEAUCE EXPRESS, INC., Post Office Box 38, St. George (Beauce), Quebec. Applicant's representative: Frank J. Weiner, 6 Beacon Street, Boston, MA 02108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sulphite and woodpulp*, from ports of entry on the international boundary lines between the United States and Canada, located at Jackman and Coburn Gore, Maine, and Norton Mills, Derby Line, Troy, Richford, and Highgate Springs, Vt., to points in Maine, New Hampshire, and Vermont, for 180 days. Supporting shippers: John Breakey, Ltd., Breakeyville (Levis), Quebec; St. Raymond Paper, Ltd., Desbiens, Quebec. Send protests to: District Supervisor Ross J. Seymour, Bureau of Operations, Interstate Commerce Commission, 424 Federal Building, Concord, NH 03301. NOTE: The purpose of this republication is to reflect the correct docket number as MC 126313 (Sub-No. 4 TA) in lieu of MC 135770 TA, shown erroneously in previous publication and to include an additional shipper, which was inadvertently omitted in previous publication.

No. MC 135530 (Sub-No. 1 TA) (Correction), filed June 16, 1971, published FEDERAL REGISTER, June 29, 1971, corrected and republished in part as corrected this issue. Applicant: LAKE CENTER INDUSTRIES TRANSPORTATION, INC., 111 Market Street, Winona, MN 55987. Applicant's representative: Charles E. Nieman, 1160 Northwestern Bank Building, Minneapolis Minn. 55402. NOTE: The purpose of this partial republication is to set forth the correct territory description to read as follows in item (c) between Decorah, Iowa, on the one hand, and, on the other points in Minnesota and Wisconsin. The rest of the notice remains the same.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1971, and specifies how they are affected.

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 213—EXCEPTED SERVICE

Department of the Interior; Correction

In the FEDERAL REGISTER (F.R. Doc. 71–11093) of Wednesday, August 4, 1971, on page 14301 it was erroneously stated that two Confidential Assistants (interdepartmental activities) to the Secretary were excepted under Schedule C.

Subparagraph (28) of paragraph (a) of § 213.3312 should read as follows:

§ 213.3312 Department of the Interior.

(a) Office of the Secretary. • • •

(28) One Confidential Assistant (interdepartmental activities) to the Secretary.

• • • • • •

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954–58 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.71–11512 Filed 8–10–71;8:46 am]

Title 7—AGRICULTURE

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Admt. 1]

PART 958—ONIONS GROWN IN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREG.

Limitation of Shipments

Notice of rule making regarding a proposed amendment to limitation of shipments, to be effective under Marketing Agreement No. 130 and Order No. 958, both as amended (7 CFR Part 958), regulating the handling of onions grown in the production area defined therein, was published in the July 30, 1971, issue of the FEDERAL REGISTER (36 F.R. 14142). This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). The notice afforded interested persons an opportunity to file data, views, or arguments pertaining thereto not later than 5 days following its publication in the FEDERAL REGISTER. None was filed.

Findings. After consideration of all relevant matters, including the proposal set forth in the aforesaid notice which was recommended by the Idaho-Eastern Oregon Onion Committee, established pursuant to the said marketing agreement and order, it is hereby found that the amendment to the limitation of shipments regulation, as hereinafter set forth, will tend to effectuate the declared policy of the act.

The grade, size, and quality requirements provided herein are necessary to prevent onions of poor quality or undesirable sizes from being distributed in fresh market channels. They will also provide consumers with good quality onions consistent with the overall quality of the crop, and maximize returns to producers for the preferred quality and sizes. The regulations with respect to special purpose shipments for other than fresh market use are designed to meet the different requirements for such outlets.

It is hereby further found that good cause exists for not postponing the effective date of this amendment until 30 days after its publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of onions grown in the production area have already begun, (2) to maximize benefits to producers, this regulation should apply to as many shipments as possible, (3) information regarding the provisions of this amendment, which are similar to those which were in effect during most of the previous season, has been made available to producers and handlers in the production area, (4) this amendment will not require any special preparation by handlers which cannot be completed by the effective date, and (5) notice of the proposed amendment was published in the FEDERAL REGISTER of July 30, 1971.

Regulation, as amended. Section 958.316 (36 F.R. 13260) is hereby amended to read as follows:

§ 958.316 Limitation of shipments.

During the period August 10, 1971, through May 15, 1972, no person may handle any lot of yellow or white varieties of onions unless such onions are at least "moderately cured," as defined in paragraph (e) of this section, and meet the requirements of paragraph (a) of this section, or unless such onions are handled in accordance with paragraph (b), (c), or (d) of this section.

(a) *Grade, size, and pack requirements*— (1) *Yellow varieties.* U.S. No. 1, 2¼ inches minimum diameter; or U.S. No. 1, 1½ inches minimum to 2¼ inches maximum diameter, if packed separately; or U.S. No. 2 grade, 3 inches minimum diameter, if not more than 30 percent of the lot is comprised of onions of U.S. No. 1 quality.

(2) *White varieties.* U.S. No. 1, 1½ inches minimum diameter; or U.S. No. 2, if not more than 30 percent of the lot is comprised of onions of U.S. No. 1 quality, 1½ inches minimum diameter; or U.S. No. 2, 1 inch minimum to 2 inches maximum diameter if packed separately.

(b) *Special purpose shipments.* The minimum grade, size, and quality requirements of this section shall not be applicable to shipments of onions for any of the following purposes.

(1) Planting;
(2) Livestock feed;
(3) Charity;
(4) Dehydration;
(5) Canning; and
(6) Freezing.

(c) *Safeguards.* Each handler making shipments of onions for dehydration, canning, or freezing pursuant to paragraph (b) of this section shall:

(1) First apply to the committee for and obtain a Certificate of Privilege to make such shipments;

(2) Prepare, on forms furnished by the committee, a report in quadruplicate on each individual shipment to such outlets authorized in paragraph (b) of this section;

(3) Bill or consign each shipment directly to the applicable processor; and

(4) Forward one copy of such report to the committee office, and two copies to the processor for signing and returning one copy to the committee office. Failure of the handler or processor to report such shipments by promptly signing and returning the applicable report to the committee office shall be cause for cancellation of such handler's Certificate of Privilege and/or the processor's eligibility to receive further shipments pursuant to such Certificate of Privilege. Upon cancellation of any such Certificate of Privilege the handler may appeal to the committee for reconsideration.

(d) *Minimum quantity exception.* Each handler may ship up to, but not to exceed, 1 ton of onions each day without regard to the inspection and assessment requirements of this part, if such onions meet minimum grade, size, and quality requirements of this section. This exception shall not apply to any portion of a shipment that exceeds 1 ton of onions.

(e) *Definitions.* The terms "U.S. No. 1" and "U.S. No. 2" have the same meaning as when used in the U.S. Standards for Grades of Onions (§§ 51.2830–51.2854 of this title). The term "moderately cured" means the onions are mature and are more nearly well cured than fairly well cured. Other terms used in this section have the same meaning as when used in Marketing Agreement No. 130 and this part.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated August 5, 1971, to become effective August 10, 1971.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[Amdt. 1]

PART 980—VEGETABLES; IMPORT REGULATIONS

Onions

Notice of rule making regarding proposed restrictions on the importation of onions into the United States to be made effective under section 8e–1 of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 608e–1), was published in the July 31, 1971, FEDERAL REGISTER (36 F.R. 14205).

The notice afforded interested persons an opportunity to file data, views, or arguments in regard thereto not later than the fifth day after publication. None was filed.

Findings. (a) After consideration of all relevant matters, including the proposal set forth in the aforesaid notice, and other available information, it is hereby found that the proposal as published in the notice should be issued and that such restrictions on the importation of onions, as hereinafter provided, comply with the grade, size, quality and maturity requirements applicable to onions produced in the United States, and effective under Marketing Order No. 958, as amended (7 CFR Part 958) regulating the handling of onions grown in designated counties of Idaho and Malheur County, Oreg. This regulation is subject to amendment with adequate notice as domestic regulations are changed.

(b) It is hereby further found that good cause exists for not postponing the effective date of this regulation beyond the time specified (5 U.S.C. 553) in that (1) the requirements established by this regulation are mandatory under Section 8e of the act; (2) all known onion importers were notified of the proposed regulation; and (3) notice hereof was published in the July 31, 1971, FEDERAL REGISTER (36 F.R. 14205), and such notice is determined to be reasonable.

In § 980.110 *Onion import regulation* (36 F.R. 13260), the introductory paragraph and paragraph (a) are deleted and the following new paragraphs are substituted in lieu thereof:

§ 980.110 Onion import regulation.

Except as otherwise provided, during the period beginning August 14, 1971, and continuing through May 15, 1972, no person may import onions of the yellow or white varieties unless such onions are inspected and meet the requirements of this section.

(a) *Minimum grade, size, quality, and condition*—(1) *Yellow varieties.* U.S. No. 2, or better grade, 1½ inches minimum diameter.

(2) *White varieties.* U.S. No. 2, or better grade, 1 inch minimum diameter.

(3) *Yellow and white varieties.* At least "moderately cured."

(4) *Condition.* Due consideration shall be given to the time required for transportation and entry of onions into the United States. Onions with transit time from country of origin to entry into the United States of 10 or more days may be entered if they meet an average tolerance for decay of not more than 5 percent, provided they meet the other requirements of this section.

Dated August 6, 1971, to become effective August 14, 1971.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[FR Doc.71–11599 Filed 8–10–71;8:54 am]

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

Salable and Reserve Percentages and Handler Reserve Obligation and Voluntary Diversion Operations for 1971–72 Crop Year

Notice was published in the July 24, 1971, issue of the FEDERAL REGISTER (36 F.R. 13788), regarding proposals recommended by the Prune Administrative Committee to: (1) Establish salable and reserve percentages for California dried prunes of 60 percent and 40 percent, respectively, for the 1971–72 crop year; (2) eliminate the requirement in § 993.56 as to setaside reflecting average marketable content of receipts for the 1971–72 season; (3) provide resultant setaside procedures for the required composition of each handler's reserve obligation for such season; and (4) authorize diversion operations with respect to prune plums during the 1971–72 crop year. The proposals were pursuant to the provisions of the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The notice afforded interested persons an opportunity to submit written data, views, or arguments with respect to the proposals. None were received within the prescribed time.

The percentages proposed in the notice were based on the estimates of the Prune Administrative Committee that California's 1971 dried prune production would be 185,000 tons. The Crop Reporting Board's estimate, as of July 1, 1971, also was 185,000 tons.

The Committee's proposal to eliminate the requirement in § 993.56 as to setaside reflecting average marketable content of receipts for the 1971–72 season was based on its determination that this requirement is not essential to achieve program objectives for the crop of that season. On the basis of its proposed resultant setaside procedures for the 1971–72 season, as described in said notice, the Committee found that such procedures would assure that the trade demand for manufacturing prunes, as well as prunes for consumption as prunes, will be met.

The Committee's proposal that diversion operations with respect to prune plums during the 1971–72 crop year be authorized was based on its estimate that California's estimated 1971 dried prune production would exceed trade demand for that crop by a little more than 109,000 tons, natural condition weight. The diversion operations proposed for the 1971–72 crop year would be coordinated with, and used in implementation of, the volume regulations proposed by the Committee for the 1971–72 crop year.

After consideration of all relevant matter presented, including that in the notice, the information and recommendation submitted by the Prune Administrative Committee, and other available information:

A. The Committee's proposal to eliminate the requirement in § 993.56 as to setaside reflecting the average marketable content of receipts for the 1971–72 season is hereby approved.

B. It is found that to establish the salable and reserve percentages and the required composition of each handler's reserve obligation for the 1971–72 crop year, as hereinafter set forth, will tend to effectuate the declared policy of the act.

C. The Committee's recommendation that diversion operations with respect to the 1971–72 crop year be permitted is concurred in, and such operations are hereby authorized pursuant to § 993.62.

Therefore, the salable and reserve percentages for prunes and handler reserve obligation for the 1971–72 crop year shall be as follows:

§ 993.207 Salable and reserve percentages for prunes and handler reserve obligation for the 1971–72 crop year.

(a) *Percentage.* The salable and reserve percentages for the 1971–72 crop year shall be 60 percent and 40 percent, respectively.

(b) *Reserve obligation.* The reserve obligation of each handler shall, in accordance with § 993.56, be a weight of natural condition prunes equal to the sum of the results of applying the reserve percentage to the natural condition weight on each lot of prunes received by him from producers and dehydrators, excluding the weight obligation of § 993.49(c), plus that diverted tonnage on diversion certificates credited to or held by the handler that were issued by the Committee in accordance with § 993.162. With respect to the reserve obligation incurred by the handler in connection with such receipt of prunes from a producer or dehydrator the handler shall hold the quantity of undersized prunes received from such producer or dehydrator necessary to meet the applicable reserve obligation referable to the total receipts from such producer or dehydrator. In the event the quantity of undersized prunes is insufficient to meet the applicable reserve obligation, or the handler has not received any undersized prunes from a producer or dehydrator, the remainder of the reserve obligation applicable to any such receipts of prunes which do not contain sufficient undersized prunes, and the reserve obligation applicable to any such receipts of prunes which do not contain any undersized prunes, shall be comprised of natural condition prunes, by variety and standard or substandard grade, and shall be consistent with the receipt by field pricing size categories other than undersized prunes: *Provided,* That a handler's reserve obligation with respect to all prunes received from producers and dehydrators shall be the weighted average size count of prunes exclusive of undersized prunes in all such lots within each such category, as computed from inspection analysis.

(c) *Field pricing size categories.* Undersized prunes, and other field pricing size categories by variety and grade expressed in minimum and maximum numbers of prunes per pound for each, are as follows:

Undersized prunes—Prunes which pass freely through a round opening 25/32 inch in diameter;

Standard French prunes—33 or less, 34/50, 51/60, 61/70, 71/81, 82/101, 102/111, 112/121, and 122 or more;

Substandard French prunes—70 or less, 71/101, and 102 or more;

Standard non-French prunes (except Robe de Sargent)—24 or less, 25/29, 30/33, 34/50, and 51 or more;

Substandard non-French prunes (except Robe de Sargent)—51 or less, and 52 or more;

Standard Robe de Sargent—33 or less, 34/50, 51/60, and 61 or more; and

Substandard Robe de Sargent—61 or less, and 62 or more.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) The relevant provisions of said amended marketing agreement and this part require that salable and reserve percentages established for a particular crop year shall be applicable to all prunes received during the crop year by handlers, from producers and dehydrators, excluding the weight obligation of § 993.49(c); (2) the current crop year began on August 1, 1971, and the percentages established herein will apply automatically to such prunes beginning with such date; (3) the Prune Administrative Committee has recommended that diversion operations be authorized with respect to the 1971–72 crop year; (4) this action concurs in the Committee's recommendation that such operations should be permitted; (5) harvest of California's prune plums will begin soon, at which time diversion could begin; (6) producers should be afforded the maximum advance notice practicable that diversion operations for the 1971–72 crop year have been authorized; and (7) such diversion operations will tend to effectuate the declared policy of the act and tend to maximize returns to producers.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 5, 1971.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Consumer and Marketing Service.

Chapter XVIII—Farmers Home Administration, Department of Agriculture

SUBCHAPTER B—LOANS AND GRANTS PRIMARILY FOR REAL ESTATE PURPOSES

[FHA Instruction 444.12]

PART 1822—RURAL HOUSING LOANS AND GRANTS

Unsatisfactory Performance or Improper Action by Persons Dealing with Farmers Home Administration Rural Housing (RH) Applicants, Borrowers, and Grantees

Correction

In F.R. Doc. 71–10648 appearing at page 13766 in the issue of Saturday, July 24, 1971, the following changes should be made:

1. The first four lines of § 1822.351 (b)(2) should read as follows:

(2) "Affiliates": Persons are affiliates of each other when directly or indirectly one person controls or has the power to control another or when a third party controls or has the power to control both. * * *

2. The letters "IOG" appearing in the first and ninth lines of § 1822.353(b)(4)(ii)(*b*) should read "OIG".

Title 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

PART 100—STATEMENT OF ORGANIZATION

Ports of Entry

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

1. Districts 3 and 21 of paragraph (b) *District offices* of § 100.4 are amended to read as follows:

3. *New York City, N.Y.* The district office in New York City, N.Y., has jurisdiction over the following counties in the State of New York: Bronx, Dutchess, Kings, Nassau, New York, Orange, Putnam, Queens, Richmond, Rockland, Suffolk, Sullivan, Ulster, and Westchester; also, over the U.S. immigration office located in Hamilton, Bermuda.

* * * * *

21. *Newark, N.J.* The district office in Newark, N.J., has jurisdiction over the State of New Jersey.

2. District 3 of subparagraph (2) *Ports of entry for aliens arriving by vessel or by land transportation* of paragraph (c) *Suboffices* of § 100.4 *Field Service* is amended to read as follows:

DISTRICT NO. 3—NEW YORK, N.Y.

CLASS A

New York, N.Y. (the port of New York includes, among others, the port facilities at Poughkeepsie and Yonkers, N.Y.).

3. Subparagraph (2) *Ports of entry for aliens arriving by vessel or by land transportation* of paragraph (c) *Suboffices* of § 100.4 *Field Service* is amended by adding District 21 to read as follows:

DISTRICT NO. 21—NEWARK, N.J.

CLASS A

Newark, N.J. (the port of Newark includes, among others, the port facilities at Bayonne, Carteret, Edgewater, Elizabeth, Hoboken, Jersey City, Linden, Perth Amboy, Port Newark, Sewaren, and Weehawken, N.J.).

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

Compliance with the provisions of section 553 of title 5 of the United States Code (80 Stat. 383), as to notice of proposed rule making is unnecessary in this instance because the above-prescribed rules relate to agency management.

This order shall become effective on October 1, 1971.

Dated: August 5, 1971.

RAYMOND F. FARRELL,
Commissioner of Immigration and Nautralization.

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Release No. 34–9268]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

Prompt Notice of Net Capital or Recordkeeping Violations

The Securities and Exchange Commission announced today that it has adopted Rule 17a–11 (17 CFR 240.17a–11) and Form X–17A–11 (17 CFR 249.621) under the Securities Exchange Act of 1934 (the "Act") to provide the Commission and the self-regulatory bodies with an adequate and timely flow of information on the financial and operational condition of broker-dealers. The rule was published for comment on April 20, 1971, in Securities Exchange Act Release No. 9128 and in the FEDERAL REGISTER for April 20, 1971 at 36 F.R. 7972. The Commission has considered the several comments on the proposed rule which were submitted in response to that release. The rule, as adopted herein, has been modified to reflect certain suggestions contained in the comments.

The rule has four major provisions.

First, it provides that when the net capital of a broker-dealer is less than required by any capital rule to which it is subject (in total or relative to the firm's aggregate indebtedness), immediate telegraphic notice must be given to the Commission and the self-regulatory organizations to which it belongs, and a report setting forth the firm's financial condition must be filed with them within 24 hours after such net capital deficiency occurs.

Second, the rule provides that when a broker-dealer's net capital computation, made and recorded pursuant to Rule 17a–3(a)(11) (17 CFR 240.17a–3(a)(11)), indicates that its aggregate indebtedness exceeds 1,200 percent of its net capital or that its total net capital is less than 120 percent of the minimum net capital required of it, measured under any net capital rule to which the firm is subject, the firm must file a report on Form X–17A–11, furnishing data as to its financial and operational condition. Such report must be filed within 15 days after the end of any month for which the net capital computation showing a net capital ratio in excess of 1,200 percent (or total net capital less than 120 percent of the minimum required) was made, and within 15 days after the end of each month thereafter until 3 successive months have elapsed during which the net capital computation does not reflect a net capital ratio in excess of 1,200 percent (or total net capital less than 120 percent of the minimum required).

Third, the rule provides that, if any broker-dealer subject to Rule 17a–3 (17 CFR 240.17a–3) is not making and keeping current the books and records specified therein, immediate telegraphic notice of that fact, specifying the books and records not made or kept current, must be given to the Commission and the self-regulatory organizations to which it belongs. Within 48 hours thereafter, the broker-dealer must file a written report stating what steps have been taken to correct the situation.

Fourth, the rule provides that any self-regulatory body which learns that a member firm has failed to give a notice or file a report as required by the rule must itself give notice of that fact.

Form X–17A–11, which is designed to furnish the Commission and the self-regulatory bodies with financial and operational information on firms experiencing problems, consist of two parts. Part I requests the data called for by the NASD Form Q questionnaire, which all NASD members are required to fill in on a routine basis quarterly. Part II requests specific data which has proven to be of significance in the past with regard to brokerage failures.

To meet comments which pointed out the need to maintain surveillance of brokers whose net capital was close to the minimum required by the applicable net capital rule, and not merely of brokers whose net capital ratio was close to the ceiling permitted, paragraph (b) of the proposed rule was modified to require a monthly report from firms whose net capital was less than 120 percent of the minimum required. To meet comments suggesting the need for clarifying the requirement that brokers file a report of "financial condition" within 24 hours of falling into net capital violation, paragraph (a)(2) of the proposed rule was modified to specify the financial information required, which information is substantially the same as that required under Rule 17a–5(j)(17 CFR 240.17a5(j)) for firms which cease to be a member in good standing of a national securities exchange.

The Commission expects that the requirement in paragraph (e) of the rule that all notices and reports be filed not only with the Commission but also with the appropriate self-regulatory bodies will materially increase the interchange of information and the coordination of action with respect to filing firms.

Commission action. The Securities and Exchange Commission, acting pursuant to the provisions of the Securities Exchange Act of 1934, particularly sections 8(b), 15(c)(3), 17(a), and 23(a) thereof, and deeming it necessary for the exercise of the functions vested in it, and necessary and appropriate in the public interest and for the protection of investors, hereby adopts § 240.17a–11 and its accompanying Form X–17A–11 (17 CFR 249.621), as indicated below, effective September 15, 1971.

I. Part 240 of Title 17 of the Code of Federal Regulations is amended by adding thereunder new § 240.17a–11 to read as follows:

§ 240.17a–11 Supplemental current financial and operational reports to be made by certain exchange members, brokers, and dealers.

(a) Every broker, dealer, or member of a national securities exchange or of a registered securities association, subject to § 240.15c3–1 or to a net capital rule of a national securities exchange or registered securities association, whose net capital at any time is less than the minimum required by any capital rule to which such person is subject, shall:

(1) Give telegraphic notice as set forth in paragraph (e) of this section that such person's net capital is less than is required by any such capital rule, identifying the applicable net capital rule or rules. The notice shall be given on the same day that such person's capital becomes less than required by any of the aforesaid rules to which such person is subject; and

(2) Within 24 hours thereafter file a report of his financial condition as of the date which required the giving of the notice in subparagraph (1) of this paragraph. Such report of financial condition shall consist of:

(i) A proof of money balances of all ledger accounts in the form of a trial balance;

(ii) A computation of aggregate indebtedness and net capital made in accordance with § 240.15c3–1;

(iii) An analysis of the aggregate market value of fully paid securities in customers' security accounts not segregated showing the location of such securities;

(iv) Ledger net credit balances of money borrowed from banks, trust companies and other financial institutions and from others, which are fully or partially secured by securities carried for the account of any customer, showing, for each loan, an analysis of the market value of all collateral for such borrowings by source of collateral, stating separately the market value of: (*a*) Securities carried for the accounts of customers, (*b*) securities ownd by the broker or dealer or by any general or special partner or any director or official of such broker or dealer, and (*c*) any other securities;

(v) The aggregate amount of customers' ledger debit balances;

(vi) The aggregate amount of customers' credit balances, stating the amount of free credit balances separately; and

(vii) The approximate number of customer accounts and the date business was suspended. (If business is continuing, state specifically the nature of the business being conducted.)

(b) If a computation made and recorded, by a member, broker or dealer pursuant to the requirements of § 240.17a–3(a)(11) shows that his aggregate indebtedness is in excess of 1,200 per centum of his net capital, or that his total net capital is less than 120 per centum of the minimum net capital required of him, such person shall file a report on Form X–17A–11 within 15 calendar days after the end of the month for which such computation was required to be made and recorded, and within 15 calendar days after the end of each month thereafter until 3 successive months shall have elapsed during which his aggregate indebtedness does not exceed 1,200 per centum of his net capital, and his total net capital does not fall below 120 per centum of the minimum net capital required of him.

(c) At any time when a member, broker or dealer subject to § 240.17a–3 fails to make and keep current the books and records specified therein, he shall immediately give telegraphic notice of such fact, specifying the books and records which have not been made or which are not current, and within 48 hours of the telegraphic notice file a report stating what steps have been and are being taken to correct the situation.

(d) Whenever any national securities exchange or national securities association learns that a member, broker or dealer has failed to file a notice or file a report as required by paragraph (a), (b), or (c) of this section, such organization shall immediately report such failure as provided in paragraph (e) of this section.

(e) Every notice and report required to be given or filed by this rule shall be given to or filed with the principal office of the Commission in Washington, D.C., with the Regional Office of the Commission for the region in which the member, broker or dealer has his or its principal place of business, and with each national securities exchange and registered securities association of which such person is a member.

II. Part 249 of Chapter II of Title 17 of the Code of Federal Regulations is amended by adding thereunder a new § 249.621 to read as follows:

§ 249.621 Form X–17A–11, for report of information required of certain members, brokers and dealers, pursuant to section 17 of the Act and § 240.17a–11 of this chapter.

(a) This form shall be filed, as indicated in paragraph (b) of this section, pursuant to § 240.17a–11 of this chapter, as a report of capital computation for each month in which aggregate indebtedness of persons described below exceeds 1,200 per centum of net capital, as computed pursuant to § 240.17a–3(a)(11) of this chapter and for each month thereafter until 3 successive months have elapsed during which such indebtedness does not exceed 1,200 per centum of net capital, by each of the following:

(1) Every member of a national securities exchange who transacts a business in securities directly with other members of a national securities exchange;

(2) Every broker or dealer who transacts a business in securities through the medium of any member of a national securities exchange; and

(3) Every broker or dealer registered pursuant to section 15 of the Act, as amended.

(b) This report shall be filed within 15 calendar days after the end of each month for which it is required, in the following manner:

(1) One copy shall be filed at the principal office of the Securities and Exchange Commission, 500 North Capitol Street, Washington, DC 20549.

(2) One copy shall be filed with the Regional Office of the Securities and Exchange Commission for the region in which the member, broker, or dealer has his or its principal place of business; and

(3) One copy shall be filed at the principal office of each registered national securities exchange and each registered national securities association of which such member, broker or dealer, is a member or is otherwise entitled to the exercise of any privilege of membership.

(c) Copies of Form X–17A–11 for the above purpose may be obtained from the principal office of the Commission or from any of its regional offices.

Copies of Form X–17A–11[1] may be obtained on request from the Publications Division, Securities and Exchange Commission, Washington, D.C. 20549, or any of its regional offices.

Incorporation by reference approved by the Director of the Office of the Federal Register on August 10, 1971.

(Secs. 15(c)(3), 17(a), 23(a), 48 Stat. 895, 897, 901, secs. 3, 4, 8, 49 Stat. 1377, 1379; secs. 2, 5, 52 Stat. 1075, 1076, sec. 6, 78 Stat. 570, secs. 7(d), 9(f), 84 Stat. 1653, 1654, 15 U.S.C. 780(c), 78r(a), 78w(a))

By the Commission, July 29, 1971.

[SEAL] THEODORE L. HUMES,
Associate Secretary.

PART 270—RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

Contractual Plans for Mutual Fund Shares and Variable Annuities

On July 2, 1971, the Securities and Exchange Commission published notice (Investment Company Act Release No. 6600) of the adoption, among other things, of Rules 27e–1 and 27f–1 under the Investment Company Act of 1940 (Act) (36 F.R. 13134). In paragraph (f) of Rule 27e–1, the Commission prescribed Form N–27E–1 as the form of notice to be used to inform certificate holders of their right of surrender pursuant to section 27(d) of the Act. In paragraph (g) of Rule 27f–1, the Commission prescribed Form N–27F–1 as the form of notice to be used to inform certificate holders, other than holders of plans upon which total charges to be deducted from any payment do not exceed 9 percent of such payment and holders of variable annuity contracts, of their withdrawal right under section 27(f) of the Act (15 U.S.C. 80a–27(f)).

The Association of Mutual Fund Plan Sponsors has requested that the Commission make minor changes in the forms, the affected portions of which were originally adopted as submitted by the Association. The changes are designed to facilitate the use of the forms in instances where plans are sold with completion insurance and to account for the fact that under certain circumstances certificates might be surrendered to the plan sponsor rather than to the plan custodian.

The Commission has determined to amend the instructions to Forms N–27E–1 (17 CFR 274.127e–1) and N–27F–1 (17 CFR 274.127f–1) as set forth below. Amendment of the forms is made pursuant to the authority granted the Commission in sections 27(e), 27(f), and 38(a) of the Act (15 U.S.C. 80a–27(e), 80a–27(f), 80a–37(a)). Sections 27 (e) and (f) provide that the Commission may make rules specifying the method, form and contents of the notices required by those sections. Section 38(a) of the Act authorizes the Commission to issue such rules as are necessary or appropriate to the exercise of the powers conferred upon the Commission in the Act.

Commission action. Part 270 of Chapter II of Title 17 of the Code of Federal Regulations are amended in the following manner:

1. Section 270.27e–1 is amended by revising the language in paragraph (f), subparagraph B., *Itemized instructions* to Form N–27E–1, Item (13) by adding after the word "bank" the words "• • • or other person authorized to accept surrendered certificates."

As so amended, Item (13) shall read as follows:

Itemized instructions. • • •

(13) Name and address of the custodian bank or other person authorized to accept surrendered certificates.

II. Section 270.27f–1 is amended by adding a new sentence in paragraph (g), subparagraph B., *Itemized instructions* to Form N–27F–1, Item (9), after the word "payment" reading "If a portion of the payments is used for the purchase of completion insurance, the amount attributable thereto shall not be included as a charge and the following phrase shall be added: 'apart from insurance premiums based upon the amount of coverage in effect at the time of payment'."

As so amended, Item (9) shall read as follows:

Itemized instructions. • • •

(9) The dollar amount of the charges to be deducted from each payment made by the certificate holder after the first regular payment upon which there would be a reduction in the rate of the applicable sales charge below 9 percent of the certificate holder's gross payment. If a portion of the payments is used for the purchase of completion insurance, the amount attributable thereto shall not be included as a charge and the following phrase shall be added: "apart from insurance premiums based upon the amount of coverage in effect at the time of payment."

III. Section 270.27f–1 is amended by revising the language in paragraph (g), subparagraph B., *Itemized instructions* to Form N–27f–1, Item (18), by adding after the word "bank" the words, "• • • or other persons authorized to accept surrendered certificate." As so amended Item (18) shall read as follows:

Itemized instructions. • • •

(18) The name and address of the custodian bank or other person authorized to accept surrendered certificates.

The Commission considers the foregoing amendments to be technical rather than substantive modifications with respect to which no notice under 5 U.S.C. 553 is necessary. Accordingly, the Commission action is declared effective immediately upon publication (8–11–71).

(Secs. 27(e), 27(f), 38(a), 54 Stat. 841, 84 Stat. 1424, 1425; 15 U.S.C. 80a–27(e), 80a(f), 80a–37(a), Public Law 91–547)

By the Commission, July 27, 1971.

[SEAL] THEODORE L. HUMES,
Associate Secretary.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

PIPERONYL BUTOXIDE AND PYRETHRINS

A petition (FAP 0H2530) was filed with the Food and Drug Administration by McLaughlin Gormley King Co., 1715 Southeast Fifth Street, Minneapolis, Minn. 55414, proposing issuance of a food additive regulation to provide for the safe use of a combination of piperonyl butoxide and pyrethrins as components in the adhesive layer of two ply sheets of cellophane/polyethylene bags to be used only for packaging dried fruits. Subsequently, the petitioner amended the petition by changing dried fruits to dried prunes.

Piperonyl butoxide and pyrethrins qualify both as pesticide chemicals and food additives, as defined by the Federal Food, Drug, and Cosmetic Act (sec. 201 (q) and (s), 68 Stat. 511, 72 Stat. 1784;

[1] Form X–17A–11 filed as part of original document.

21 U.S.C. 321 (q) and (s)). Pesticide tolerances for these two substances and their use as food additives in food for human consumption have previously been established.

The Reorganization Plan No. 3 of 1970, published in the FEDERAL REGISTER of October 6, 1970 (35 F.R. 15623), transferred (effective December 2, 1970) to the Administrator of the Environmental Protection Agency the functions vested in the Secretary of Health, Education, and Welfare for establishing tolerances for pesticide chemicals under sections 406, 408, and 409 of the Federal Food, Drug, and Cosmetic Act, as amended (21 U.S.C. 346, 346a, and 348).

Based on consideration given data submitted in the petition and other relevant material, it is concluded that residues in dried prunes packaged in bags of 2 or more pounds capacity will not exceed 3 parts per million of piperonyl butoxide and 0.3 part per million of pyrethrins under the conditions set forth below.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), the authority transferred to the Administrator (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs of the Environmental Protection Agency (36 F.R. 9038), Part 121, Subpart D, is amended:

1. In § 121.1074 by adding a new subparagraph to paragraph (a) and by adding a new paragraph to the end, as follows:

§ 121.1074 Piperonyl butoxide.

* * * * * *

(a) * * *

(4) In two-ply bags consisting of cellophane/polyethylene sheets bound together by an adhesive layer when it is incorporated in the adhesive. The treated sheets shall contain not more than 50 milligrams of piperonyl butoxide per square foot. Such treated bags are to be used only for packaging dried prunes and are to be of 2 or more pounds capacity.

* * * * * *

(f) A tolerance of 3 parts per million is established for residues of piperonyl butoxide in or on dried prunes when present as a result of migration from its use in the adhesive layer of two-ply bags consisting of cellophane/polyethylene sheets and the bags are of 2 or more pounds capacity.

2. In § 121.1075 by adding a new subparagraph to paragraph (a) and by adding a new paragraph to the end, as follows:

§ 121.1075 Pyrethrins.

* * * * * *

(a) * * *

(4) In two-ply bags consisting of cellophane/polyethylene sheets bound together by an adhesive layer when it is incorporated in the adhesive. The treated sheets shall contain not more than 10 milligrams of pyrethrins per square foot. Such treated bags are to be used only for packaging dried prunes and are to be of 2 or more pounds capacity.

* * * * * *

(f) A tolerance of 0.3 part per million is established for residues of pyrethrins in or on dried prunes when present as a result of migration from its use in the adhesive layer of two-ply bags consisting of cellophane/polyethylene sheets and the bags are of 2 or more pounds capacity.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, 1626 K Street NW., Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (8–11–71).

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: August 4, 1971.

LOWELL E. MILLER,
Acting Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.71–11569 Filed 8–10–71;8:53 am]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Permitted In Food for Human Consumption

CHEMICALS FOR CONTROLLING MICRO-ORGANISMS IN CANE-SUGAR AND BEET-SUGAR MILLS

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 0H2495) filed by Industrial Bio-Test Laboratories, Inc., 1810 Frontage Road, Northbrook, Ill. 60062, and other relevant material, concludes that the food additive regulations should be amended to provide for the additional safe use of a combination of disodium ethylenebisdithiocarbamate, ethylenediamine, and sodium dimethyldithiocarbamate for controlling micro-organisms in beet-sugar mills. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.1155 is revised to read as follows:

§ 121.1155 Chemical for controlling micro-organisms in cane-sugar and beet-sugar mills.

The food additives disodium cyanodithioimidocarbonate, disodium ethylenebisdithiocarbamate, ethylenediamine, potassium *N*-methyldithiocarbamate, and sodium dimethyldithiocarbamate may be safely used in accordance with the following conditions:

(a) They are used in the control of micro-organisms in cane-sugar and/or beet-sugar mills as specified in paragraph (b) of this section.

(b) They are applied to the sugar mill grinding system in one of the combinations listed in subparagraph (1), (2), or (3) of this paragraph. Quantities of the individual additives in parts per million are expressed in terms of the weight of raw cane or raw beets.

(1) Combination for cane-sugar mills:

	Parts per million
Disodium cyanodithioimidocarbonate	2.5
Ethylenediamine	1.0
Potassium *N*-methyldithiocarbamate	3.5

(2) Combination for cane-sugar mills:

	Parts per million
Disodium ethylenebisdithiocarbamate	3.0
Sodium dimethyldithiocarbamate	3.0

(3) Combination for cane-sugar mills and beet-sugar mills:

	Parts per million
Disodium ethylenebisdithiocarbamate	3.0
Ethylenediamine	2.0
Sodium dimethyldithiocarbamate	3.0

(c) To assure safe use of the additives, their label and labeling shall conform to that registered with the Environmental Protection Agency.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–62, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (8–11–71).

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: August 2, 1971.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[FR Doc.71–11534 Filed 8–10–71;8:49 am]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

NITRILE RUBBER MODIFIED ACRYLONITRILE-METHYL ACRYLATE COPOLYMERS

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 1B2604) filed by Vistro Corp., Midland Building, Cleveland, Ohio 44115, and other relevant material, concludes that § 121.2614 should be amended to revise the specifications and extractives limitations for the nitrile rubber modified acrylonitrile-methyl acrylate copolymers permitted as components of articles intended for food-contact use. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2614(b) is amended by revising subparagraph (1)(iv), to replace the dimethyl formamide specification with an acetonitrile specification, and by revising subparagraph (2) (i) and (ii), to delete the words "freshly distilled," as follows:

§ 121.2614 Nitrile rubber modified acrylonitrile-methyl acrylate copolymers.

* * * * * *

(b) * * *

(1) * * *

(iv) Acetonitrile-soluble fraction after refluxing the base polymer in acetonitrile for 1 hour is not greater than 95 percent by weight of the basic copolymers.

(2) * * *

(i) Extracted copolymer not to exceed 2.0 parts per million in aqueous extract obtained when a 100-gram sample of the basic copolymers is extracted with 250 milliliters of demineralized (deionized) water at reflux temperature for 2 hours.

(ii) Extracted copolymer not to exceed 0.5 part per million in *n*-heptane extract obtained when a 100-gram sample of the basic copolymers is extracted with 250 milliliters of reagent grade *n*-heptane at reflux temperature for 2 hours.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–62, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (8–11–71).

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: August 2, 1971.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[FR Doc.71–11535 Filed 8–10–71;8:49 am]

SUBCHAPTER D—HAZARDOUS SUBSTANCES

PART 191 — HAZARDOUS SUBSTANCES: DEFINITIONS AND PROCEDURAL AND INTERPRETATIVE REGULATIONS

Charcoal Briquettes and Other Forms of Charcoal for Cooking or Heating; Declaration as Hazardous Substances That Require Special Labeling

In the FEDERAL REGISTER of September 2, 1970 (35 F.R. 13887), a notice was published in which the Commissioner of Food and Drugs proposed that Part 191 be amended to declare charcoal briquettes and other forms of charcoal as "hazardous substances" within the meaning of section 3(a) of the Federal Hazardous Substances Act and to require special labeling under section 3(b) of that act.

Review of death certificates and information from other sources indicate that at least 37 fatalities have occurred in the United States in recent years (including at least 27 in the last 4 years) because individuals have used charcoal briquettes for cooking or heating purposes indoors or in tents, trailers, automobiles, boats, and similar confined areas. There have been a number of near fatalities from such use, with fatalities being averted when individuals overcome by carbon monoxide were discovered and removed to fresh air.

In response to the proposal, 20 comments were received from charcoal briquette manufacturers, the Charcoal Briquet Institute, the National Retail Merchants Association, Consumers Union, and various individuals.

All of the individuals commenting on the proposal expressed the opinion that a warning statement is necessary and urged its adoption. All of the manufacturers responding agreed that some warning is needed but pointed out that most charcoal bags now bear warning statements such as: "Caution: For Indoor Use, Cook Only In Properly Ventilated Areas." They objected to the text of the proposed special labeling statement. The Charcoal Briquet Institute, the National Retail Merchants Association, and several companies stressed the importance of a lead time of at least 2 years for the effective date of any new regulation, to allow for an orderly disposition of current inventories of bags or other containers used for charcoal, both filled and unfilled.

The comment was made that the presently used cautionary labeling has not been in use long enough to adequately assess whether this labeling has had the effect of reducing the number of deaths and accidents. Other comments of this nature indicated that the currently used cautionary labeling is adequate in that most people are aware that charcoal briquettes, like any fuel, produce carbon monoxide when burned.

Recent investigations by the Food and Drug Administration of carbon monoxide poisonings, from the use of charcoal briquetts in confined areas, have indicated the following on the part of users:

1. A lack of knowledge that proper ventilation is necessary, or of what constitutes proper ventilation and

2. Ignorance of the fact that charcoal briquettes produce carbon monoxide while also consuming available oxygen.

Repeatedly, individuals have used charcoal for heating with the briquettes placed in an unvented charcoal grill and, since heat is desired, little or no ventilation is used. A majority of the reported deaths have occurred during the cooler months as a consequence of using charcoal for heat. Deaths and injuries have occurred from the burning of charcoal briquettes in barns, fruit cellars, large and small rooms in houses, cabins, campers, tents, garages, sheds, boats, trailers, automobiles, and other similar areas.

Several comments questioned whether charcoal is either per se, or under reasonably foreseeable conditions of use, a hazardous substance within the meaning of section 2(f) of the Federal Hazardous Substances Act. There is no question that charcoal has produced personal injury and death as a result of its customary or reasonably foreseeable use, namely as a fuel. Thus, the Commissioner concludes that charcoal is "toxic" as defined in section 2(g) of that act and is therefore a hazardous substance within the meaning of section 2(f) of that act.

Several comments indicated that the proposed warning statement is too drastic. The Commissioner agrees that this objection has some merit and the proposed language has been modified to make the statement more specific and informative, while maintaining the necessary warning.

Having considered all of the comments and other pertinent material, the Commissioner concludes (1) that charcoal briquettes and other forms of charcoal, in containers for retail sale and intended for cooking or heating, are hazardous substances within the meaning of the Federal Hazardous Substances Act and (2) that presently used warning statements are inadequate. The Commissioner also finds that a period of time should be allowed for the transition from current inventories of filled and unfilled bags or other containers for such products to new containers with the new warning.

Therefore, pursuant to provisions of the Federal Hazardous Substances Act (secs. 2 (f), (g), 3 (a), (b), 74 Stat. 372, 374–375, as amended; 15 U.S.C. 1261, 1262) and the Federal Food, Drug,

and Cosmetic Act (sec. 701, 52 Stat. 1055, as amended; 21 U.S.C. 371), and under authority delegated to the Commissioner (21 CFR 2.120), Part 191 is amended by adding a new § 191.5 and by adding to § 191.7(b) a new subparagraph (6) as follows:

§ 191.5 Products declared to be hazardous substances under section 3(a) of the act.

(a) The Commissioner finds that the following articles are hazardous substances within the meaning of the act because they are capable of causing substantial personal injury or substantial illness during or as a proximate result of any customary or reasonable foreseeable handling or use:

(1) Charcoal briquettes and other forms of charcoal in containers for retail sale and intended for cooking or heating.

§ 191.7 Products requiring special labeling under section 3(b) of the act.

• • • • • •

(b) • • •

(6) Charcoal briquettes and other forms of charcoal in containers for retail sale and intended for cooking or heating.

(i) Because inhalation of the carbon monoxide produced by burning charcoal indoors or in confined areas may cause serious injury or death, containers of such products shall bear the following borderlined statement:

> WARNING: Do not use for Indoor Heating or Cooking Unless Ventilation Is Provided for Exhausting Fumes to Outside. Toxic Fumes May Accumulate and Cause Death.

(ii) For bags of charcoal the statement specified in subdivision (i) of this subparagraph shall appear within a heavy borderline in a color sharply contrasting to that of the background, on both front and back panels in the upper 25 percent of the panels of the bag at least 2 inches below the seam, and at least 1 inch above any reading material or design elements in type size as follows: The signal word "WARNING" shall appear in capital letters at least three-eighths inch in height; the remaining text of the aforementioned warning statement shall be printed in letters at least three-sixteenths inch in height.

Any person who will be adversely affected by the foregoing order may at any time within 30 days following the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–62, 5600 Fishers Lane, Rockville, Maryland 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing, and such objections must be supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in six copies. Received objections and requests for a hearing may be seen in the above office during regular business hours, Monday through Friday.

Effective date. This order shall become effective August 1, 1972, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of proper objections or lack thereof will be given by publication in the FEDERAL REGISTER.

(Secs. 2 (f), (g), 3 (a), (b), 74 Stat. 372 374–375, as amended, 15 U.S.C. 1261, 1262; sec. 701, 52 Stat. 1055, as amended, 21 U.S.C. 371)

Dated: August 4, 1971.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

[FR Doc.71–11536 Filed 8–10–71;8:49 am]

Chapter III—Environmental Protection Agency

PART 420—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Carboxin

A petition (PP 0F0939) was filed by Uniroyal, Inc., Agricultural Chemicals, Bethany, Conn. 06525, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act as amended (21 U.S.C. 346a), proposing establishment of tolerances for combined negligible residues of the fungicide carboxin (5,6-dihydro-2-methyl - 1,4-oxathiin-3-carboxanilide) and its metabolite 5,6-dihydro-3-carboxanilide-2-methyl - 1,4-oxathiin-4-oxide (calculated as carboxin) in or on the raw agricultural commodities cottonseed, peanuts, and the grains of barley, oats, sorghum, and wheat at 0.2 part per million. Subsequently, the petitioner amended the petition by withdrawing all of the above commodities except cottonseed.

Prior to December 2, 1970, the Secretary of Agriculture certified that this pesticide chemical is useful for the purpose for which a tolerance is being established, and the Fish and Wildlife Service of the Department of the Interior advised that it has no objection to this tolerance.

Part 120, Chapter I, Title 21 was redesignated Part 420 and transferred to Chapter III (36 F.R. 424).

Based on consideration given data submitted in the petition and other relevant material, it is concluded that:

1. The proposed usage is not reasonably expected to result in residues of the fungicide or its metabolite in eggs, meat, milk, and poultry. The usage is classified in the category specified in § 420.6(a)(3).

2. The tolerance established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs of the Environmental Protection Agency (36 F.R. 9038), Part 420 is amended by adding the following new section to Subpart C:

§ 420.301 Carboxin; tolerance for residues.

A tolerance is established for combined negligible residues of the fungicide carboxin (5,6-dihydro-2-methyl-1,4-oxathiin-3-carboxanilide) and its metabolite 5,6 - dihydro-3-carboxanilide-2-methyl-1,4-oxathiin-4-oxide (calculated as carboxin) in or on the raw agricultural commodity cottonseed at 0.2 part per million.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, 1626 K Street NW., Washington, DC 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (8–11–71).

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: August 4, 1971.

LOWELL E. MILLER,
Acting Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.71–11570 Filed 8–10–71;8:53 am]

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER A—INCOME TAX

[T.D. 7138]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Extension of Time to File Corporate Income Tax Return

In order to revise the rules under the Income Tax Regulations (26 CFR Part 1) under section 6081 of the Internal Revenue Code of 1954, such regulations are amended as follows:

Section 1.6081–3 is amended as follows:

§ 1.6081–3 Automatic extension of time for filing corporation income tax returns.

(a) *In general.* • • •

(1) An application must be prepared in duplicate on Form 7004, "Application for Automatic Extension of Time to File U.S. Corporation Income Tax Return", and must be signed by a person authorized by the corporation to request such extension. Such person must be a person authorized under section 6062 to execute the return of the corporation; a person currently enrolled to practice before the Treasury Department; or after November 7, 1965, either an attorney who is a member in good standing of the bar of the highest court of a State, possession, territory, commonwealth, or the District of Columbia, or a certified public accountant duly qualified to practice in a State, possession, territory, commonwealth, or the District of Columbia.

• • • • •

(b) *Consolidated returns.* An application for an automatic extension of time for filing a consolidated return shall be made by a person authorized by the parent corporation to request such extension. Such person must be a person authorized under section 6062 to execute the return of the parent corporation; a person currently enrolled to practice before the Treasury Department; or after November 7, 1965, either an attorney who is a member in good standing of the bar of the highest court of a State, possession, territory, commonwealth, or the District of Columbia, or a certified public accountant duly qualified to practice in a State, possession, territory, commonwealth, or the District of Columbia. There shall be attached to such application a statement listing the name and address of each member of the affiliated group for which such consolidated return will be made. For taxable years beginning after December 31, 1970, the original of such application shall be filed with the internal revenue officer with which the parent corporation will file its income tax return. Upon the timely filing of Form 7004 with the internal revenue officer with which such corporation files its return, the 3-month extension shall be considered as granted to the affiliated group for the filing of its consolidated return or for the filing of each member's separate return. For taxable years beginning after December 31, 1970, in the event that the privilege of filing a consolidated return is not exercised, the parent corporation and members of the affiliated group shall attach to their completed separate income tax returns a copy of the application (Form 7004).

• • • • •

Because of the need for immediate guidance with respect to the provisions contained in this Treasury decision, and because it does not appear that the changes are adverse to persons concerned, it is found unnecessary and impracticable to issue this Treasury decision with notice and public procedure thereon under 5 U.S.C. 553(b), or subject to the effective date limitation of 5 U.S.C. 553(d).

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Capitalization of Costs of Planting and Developing Almond Groves

On May 20, 1971, notice of proposed rule making with respect to the amendment of the Income Tax Regulations (26 CFR Part 1) under section 278 of the Internal Revenue Code of 1954 (relating to capitalization of costs of planting and developing almond groves) to reflect the changes made by the Act of January 12, 1971 was published in the FEDERAL REGISTER (36 F.R. 9142). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendment of the regulations as proposed is hereby adopted, subject to the changes set forth below:

Paragraph (a)(2) of § 1.278–1, as set forth in paragraph 2 of the notice of proposed rule making, is changed by revising subdivision (ii).

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805).

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

Approved: August 6, 1971.

EDWIN S. COHEN,
Assistant Secretary of the Treasury.

In order to conform the Income Tax Regulations (26 CFR Part 1) under section 278 of the Internal Revenue Code of 1954 to the Act of January 12, 1971 (Public Law 91-680, 84 Stat. 2064), such regulations are amended as follows:

PARAGRAPH 1. Section 1.278 is amended to read as follows:

§ 1.278 Statutory provisions; capital expenditures incurred in planting and developing citrus and almond groves.

SEC. 278. *Capital expenditures incurred in planting and developing citrus and almond groves*—(a) *General rule.* Except as provided in subsection (b), any amount (allowable as a deduction without regard to this section), which is attributable to the planting, cultivation, maintenance, or development of any citrus or almond grove (or part thereof), and which is incurred before the close of the fourth taxable year beginning with the taxable year in which the trees were planted, shall be charged to capital account. For purposes of the preceding sentence, the portion of a citrus or almond grove planted in 1 taxable year shall be treated separately from the portion of such grove planted in another taxable year.

(b) *Exceptions.* Subsection (a) shall not apply to amounts allowable as deductions (without regard to this section), and attributable to a citrus or almond grove (or part thereof) which was:

(1) Replanted after having been lost or damaged (while in the hands of the taxpayer), by reason of freeze, disease, drought, pests, or casualty, or

(2) Planted or replanted before—

(A) December 30, 1969, in the case of a citrus grove, or

(B) December 30, 1970, in the case of an almond grove.

[Sec. 278 as added by sec. 216, Tax Reform Act 1969 (83 Stat. 373); as amended by Act of January 12, 1971 (Public Law 91–680, 84 Stat. 2064)]

PAR. 2. Section 1.278–1 is amended by revising the title thereof, by revising paragraph (a)(1)(i), by revising subdivisions (ii) and (iii) of paragraph (a)(2), by renumbering subdivisions (ii) and (iii) of paragraph (a)(2) as (iii) and (iv) respectively and adding a new subdivision (ii) to paragraph (a)(2), by revising paragraph (a)(3)(i), by revising paragraph (b)(1), and by revising paragraph (b)(2)(i). These amended and added provisions read as follows:

§ 1.278–1 Capital expenditures incurred in planting and developing citrus and almond groves.

(a) *General rule.* (1)(i) Except as provided in subparagraph (2)(iii) of this paragraph and paragraph (b) of this section, there shall be charged to capital account any amount (allowable as a deduction without regard to section 278 or this section) which is attributable to the planting, cultivation, maintenance, or development of any citrus or almond grove (or part thereof), and which is incurred before the close of the fourth taxable year beginning with the taxable year in which the trees were planted. For purposes of section 278 and this section, such an amount shall be considered as "incurred" in accordance with the taxpayer's regular tax accounting method used in reporting income and expenses connected with the citrus or almond grove operation. For purposes of this paragraph, the portion of a citrus or almond grove planted in 1 taxable year

shall be treated separately from the portion of such grove planted in another taxable year. The provisions of section 278 and this section apply to taxable years beginning after December 31, 1969, in the case of a citrus grove, and to taxable years beginning after January 12, 1971, in the case of an almond grove.

* * * * *

(2) * * *

(ii) For purposes of section 278 and this section, an "almond grove" is defined as one or more trees of the species *Prunus amygdalus*.

(iii) An amount attributable to the cultivation, maintenance, or development of a citrus or almond grove (or part thereof) shall include, but shall not be limited to, the following developmental or cultural practices expenditures: Irrigation, cultivation, pruning, fertilizing, management fees, frost protection, spraying, and upkeep of the citrus or almond grove. The provisions of section 278(a) and this paragraph shall apply to expenditures for fertilizer and related materials notwithstanding the provisions of section 180, but shall not apply to expenditures attributable to real estate taxes or interest, to soil and water conservation expenditures allowable as a dededuction under section 175, or to expenditures for clearing land allowable as a deduction under section 182. Further, the provisions of section 278(a) and this paragraph apply only to expenditures allowable as deductions without regard to section 278 and have no application to expenditures otherwise chargeable to capital account, such as the cost of the land and preparatory expenditures incurred in connection with the citrus or almond grove.

(iv) For purposes of section 278 and this section, a citrus or almond tree shall be considered to be "planted" on the date on which the tree is placed in the permanent grove from which production is expected.

(3) (i) The period during which expenditures described in section 278(a) and this paragraph are required to be capitalized shall, once determined, be unaffected by a sale or other disposition of the citrus or almond grove. Such period shall, in all cases, be computed by reference to the taxable years of the owner of the grove at the time that the citrus or almond trees were planted. Therefore, if a citrus or almond grove subject to the provisions of section 278 or this paragraph is sold or otherwise transferred by the original owner of the grove before the close of his fourth taxable year beginning with the taxable year in which the trees were planted, expenditures described in section 278(a) or this paragraph made by the purchaser or other transferee of the citrus or almond grove from the date of his acquisition until the close of the original holder's fourth such taxable year are required to be capitalized.

* * * * *

(b) *Exceptions.* (1) Paragraph (a) of this section shall not apply to amounts allowable as deductions (without regard to section 278 or this section) and attributable to a citrus or almond grove (or part thereof) which is replanted by a taxpayer after having been lost or damaged (while in the hands of such taxpayer) by reason of freeze, disease, drought, pests, or casualty.

(2) (i) Paragraph (a) of this section shall not apply to amounts allowable as deductions (without regard to section 278 or this section), and attributable to a citrus grove (or part thereof) which was planted or replanted prior to December 30, 1969, or to an almond grove (or part thereof) which was planted or replanted prior to December 30, 1970.

[T.D. 7137]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

PART 13—TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1969

Amortization of Certain Coal Mine Safety Equipment

On May 26, 1971, there was published in the FEDERAL REGISTER (36 F.R. 9561) a notice of proposed rule making with respect to the amendment of the Income Tax Regulations (26 CFR Part 1) to conform such regulations to section 187 of the Internal Revenue Code of 1954, relating to the amortization of certain coal mine safety equipment, as added by section 707(a) of the Tax Reform Act of 1969 (83 Stat. 674). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendment of the regulations as proposed is hereby adopted. Section 1.187–1 of the regulations hereby adopted supersedes those provisions of § 13.0 of this chapter relating to section 187(b) of the Code, which were prescribed by T.D. 7032, approved March 9, 1970 (35 F.R. 4330).

(Sec. 7805, Internal Revenue Code of 1954. 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

Approved: August 6, 1971.

EDWIN S. COHEN,
Assistant Secretary of the Treasury.

In order to conform the Income Tax Regulations (26 CFR Part 1) to reflect the changes made by section 707(a) of the Tax Reform Act of 1969 (83 Stat. 674) relating to amortization of certain coal mine safety equipment, such regulations are hereby amended as set forth below. Section 1.187–1 of the regulations hereby adopted supersedes those provisions of § 13.0 of this chapter relating to section 187(b) of the Internal Revenue Code of 1954, which were prescribed by T.D. 7032, approved March 9, 1970 (35 F.R. 4330).

PARAGRAPH 1. The following regulations are prescribed under section 187 to precede § 1.211:

§ 1.187 Statutory provisions; amortization of certain coal mine safety equipment.

Sec. 187. *Amortization of certain coal mine safety equipment*—(a) *Allowance of deduction.* Every person, at his election, shall be entitled to a deduction with respect to the amortization of the adjusted basis (for determining gain) of any certified coal mine safety equipment (as defined in subsection (d)), based on a period of 60 months. Such amortization deduction shall be an amount, with respect to each month of such period within the taxable year, equal to the adjusted basis of the certified coal mine safety equipment at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such adjusted basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction provided by this section with respect to any certified coal mine safety equipment for any month shall be in lieu of the depreciation deduction with respect to such equipment for such month provided by section 167. The 60-month period shall begin, as to any certified coal mine safety equipment, at the election of the taxpayer, with the month following the month in which such equipment was placed in service or with the succeeding taxable year.

(b) *Election of amortization.* The election of the taxpayer to take the amortization deduction and to begin the 60-month period with the month following the month in which the certified coal mine safety equipment was placed in service, or with the taxable year succeeding the taxable year in which such equipment is placed in service, shall be made by filing with the Secretary or his delegate, in such manner, in such form, and within such time, as the Secretary or his delegate may by regulations prescribe, a statement of such election.

(c) *Termination of amortization deduction.* A taxpayer which has elected under subsection (b) to take the amortization deduction provided by subsection (a) may, at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Secretary or his delegate before the beginning of such month. The depreciation deduction provided under section 167 shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect to such equipment.

(d) *Certified coal mine safety equipment.* For purposes of this section, the term "certified coal mine safety equipment" means property which——

(1) Is electric face equipment (within the meaning of section 305 of the Federal Coal Mine Health and Safety Act of 1969) required in order to meet the requirements of section 305(a)(2) of such Act,

(2) The Secretary of the Interior certifies is permissible within the meaning of such section 305(a)(2), and

(3) Is placed in service before January 1, 1975.

For purposes of this section, any property placed in service in connection with any used electric face equipment which the Secretary of the Interior certifies makes such electric face equipment permissible shall be treated as a separate item of certified coal mine safety equipment.

(e) *Special rules.* (1) The adjusted basis of any certified coal mine safety equipment, with respect to which an election is made under this section, shall not be increased, for purposes of this section, for amounts chargeable to capital account for additions or improvements after the amortization period has begun.

(2) The depreciation deduction provided by section 167 shall, despite the provisions of subsection (a), be allowed with respect to the portion of the adjusted basis which is not taken into account in applying this section.

[Sec. 187 as added by sec. 707(a), Tax Reform Act 1969 (83 Stat. 674)]

§ 1.187–1 Amortization of certain coal mine safety equipment.

(a) *Allowance of deduction*—(1) *In general.* Under section 187(a), every person, at his election, shall be entitled to a deduction with respect to the amortization of the adjusted basis (for determining gain) of any certified coal mine safety equipment (as defined in § 1.187–2), based on a period of 60 months. Such 60-month period shall, at the election of the taxpayer, begin either with the month following the month in which such equipment was placed in service or with the succeeding taxable year. For rules as to making or discontinuing the election, see paragraphs (b) and (c) of this section. For the computation of the adjusted basis (for determining gain) of any certified coal mine safety equipment, see paragraph (b) of § 1.187–2.

(2) *Amount of deduction.* (i) Such amortization deduction shall be an amount, with respect to each month of such 60-month period which falls within the taxable year, equal to the adjusted basis for determining gain of the certified coal mine safety equipment at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in such 60-month period. Such adjusted basis at the end of any month shall be computed without regard to the amortization deduction for such month. The total amortization deduction with respect to any certified coal mine safety equipment for a particular taxable year is the sum of the amortization deductions allowable for each month of the 60-month period which falls within such taxable year.

(ii) If any certified coal mine safety equipment is sold or exchanged or otherwise disposed of during a particular month, then the amortization deduction (if any) allowable to the transferor in respect of that month shall be that portion of the amount to which such person would be entitled for a full month which the number of days in such month during which the equipment was held by such person bears to the total number of days in such month.

(3) *Effect on other deductions.* (i) The amortization deduction provided by section 187(a) with respect to any month shall be in lieu of the depreciation deduction which would otherwise be allowable with respect to such equipment under section 167 for such month.

(ii) If the adjusted basis of such coal mine safety equipment as computed under section 1011 for purposes other than the amortization deduction provided by section 187(a) is in excess of the adjusted basis, as computed under paragraph (b) of § 1.187–2, then such excess shall be recovered through depreciation deductions under the rules of section 167. See section 187(e), and paragraph (b)(2) of § 1.187–2.

(iii) See section 179 and paragraph (e)(1)(ii) of § 1.179–1 for additional first-year depreciation in respect of certified coal mine safety equipment.

(4) *Special rules.* (i) If the assets of a corporation which has elected to take the amortization deduction under section 187(a) are acquired by another corporation in a transaction to which section 381 (relating to carryovers in certain corporate acquisitions) applies, the acquiring corporation is to be treated as if it were the transferor or distributor corporation for purposes of this section.

(ii) For the right of estates and trusts to take the amortization deduction provided by section 187 see section 642(f) and § 1.642(f)–1.

(iii) For the allowance of the amortization deduction in the case of coal mine safety equipment of partnerships see section 703 and § 1.703–1.

(iv) In the case of certified coal mine safety equipment held by one person for life with the remainder to another person, the amortization deduction under section 187(a) shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant during his life.

(5) *Effective date.* The provisions of this paragraph shall apply to taxable years ending after December 31, 1969.

(6) *Meaning of terms.* Except as otherwise provided in § 1.187–2, all terms used in section 187 and the regulations thereunder shall have the meaning provided by this section and § 1.187–2.

(b) *Election of amortization*—(1) *In general.* Under section 187(b), an election by the taxpayer to make amortization deductions with respect to any certified coal mine safety equipment and to begin the 60-month amortization period shall be made by a statement to that effect attached to his return for the taxable year in which falls the first month of the 60-month amortization period so elected. Such statement shall include the following information:

(i) A description clearly identifying each piece of certified coal mine safety equipment for which an amortization deduction is claimed;

(ii) The date on which such equipment was "placed in service" (see paragraph (a)(2)(i) of § 1.187–2);

(iii) The date on which the amortization period began;

(iv) The total costs paid or incurred in the acquisition and installation of such equipment;

(v) A computation showing the adjusted basis (as defined in paragraph (b) of § 1.187–2) of the equipment as of the beginning of the amortization period;

(vi) In the case of electric face equipment which is newly acquired by the taxpayer, a statement that the equipment has been certified by the Secretary of the Interior or the Director of the Bureau of Mines as being permissible within the meaning of section 305(a)(2) of the Federal Coal Mine Health and Safety Act of 1969; and

(vii) In the case of property placed in service in connection with used electric face equipment (within the meaning of paragraph (a)(2)(ii) of § 1.187–2), a statement that such property has resulted in the used electric face equipment becoming permissible and a copy of the notification that such property is permissible.

(2) *Late certification.* If, 90 days before the date on which the return described in this paragraph is due, a piece of coal mine safety equipment has not been certified as permissible by the Secretary of the Interior or the Director of the Bureau of Mines, then the election may be made by a statement in an amended income tax return for the taxable year in which falls the first month of the 60-month amortization period so elected. The statement and amended return in such case must be filed not later than 90 days after the date the equipment is certified as permissible by the Secretary of the Interior or the Director of the Bureau of Mines. Amended income tax returns or claims for credit or refund should also be filed at this time for other taxable years which are within the amortization period and which are subsequent to the taxable year for which the election is made. Nothing in this paragraph shall be construed as extending the time specified in section 6511 within which a claim for credit or refund may be filed.

(3) *Other requirements and considerations.* No method of making the election provided for in section 187(a) other than that prescribed in this section shall be permitted on or after August 11, 1971. A taxpayer who does not elect in the manner prescribed in this section to take amortization deductions with respect to certified coal mine safety equipment shall not be entitled to such deductions. In the case of a taxpayer who has elected prior to (such date) the statement required by subparagraph (1) of this paragraph shall be attached to his income tax return for his taxable year in which (such date) occurs.

(c) *Election to discontinue or revoke amortization*—(1) *Election to discontinue.* (i) Under section 187(c), if a taxpayer has elected to take the amortization deduction provided by section 187(a) with respect to any certified coal mine safety equipment, he may, after such election and prior to the expiration of the 60-month amortization period, elect to discontinue the amortization deduction for the remainder of the 60-month period for such equipment.

(ii) An election to discontinue the amortization deduction shall be made by a statement in writing filed with the district director or with the director of the internal revenue service center with

whom the return of the taxpayer is required to be filed for its taxable year in which falls the first month for which the election terminates. In addition, a copy of such statement shall be attached to the taxpayer's income tax return filed for such taxable year. Such statement shall specify the month as of the beginning of which the taxpayer elects to discontinue such deductions, and shall be filed before the beginning of the month specified therein. In addition, such notice shall contain a description clearly identifying the certified coal mine safety equipment with respect to which the taxpayer elects to discontinue the amortization deduction. If the taxpayer so elects to discontinue the amortization deduction, he shall not be entitled to any further amortization deductions under section 187 with respect to such equipment.

(2) *Revocation of elections made prior To August 11, 1971.* If before August 11, 1971 an election under section 187(a) has been made, consent is hereby given for the taxpayer to revoke such election without the consent of the Commissioner. Such election may be revoked by filing a notice of revocation on or before November 9, 1971. Such notice shall be in the form and shall be filed in the manner required by subparagraph (1)(ii) of this paragraph. If such revocation is for a period which falls within one or more taxable years for which an income tax return has been filed, an amended income tax return shall be filed for any taxable year in which a deduction was taken under section 187 on or before November 9, 1971.

(3) *Depreciation subsequent to discontinuance or in the case of revocation of amortization.* (i) A taxpayer who elects in the manner prescribed under subparagraph (1) of this section to discontinue amortization deductions under section 187(a) or under subparagraph (2) of this paragraph to revoke an election made prior to August 11, 1971 with respect to an item of certified coal mine safety equipment may be entitled to a deduction for depreciation with respect to such equipment. See section 167 and the regulations thereunder.

(ii) In the case of an election to discontinue an amortization deduction under section 187, the deduction for depreciation shall be computed beginning with the first month as to which such amortization deduction is not applicable, and shall be based upon the adjusted basis (see section 1011 and the regulations thereunder) of the property as of the beginning of such month. Such depreciation deduction shall be based upon the remaining portion of the period authorized under section 167 for the facility, as determined as of the first day of the first month as of which the amortization deduction is not applicable.

(iii) In the case of a revocation of an election under section 187 referred to in paragraph (c)(2) of this section the deduction for depreciation shall begin as of the time such depreciation deduction would have been taken but for the election under section 187. See subparagraph (2) of this section for rules as to filing amended returns for years for which amortization deductions have been taken.

(d) *Examples.* This section may be illustrated by the following examples:

Example (1). On September 30, 1970, the X Corporation, which uses the calendar year as its taxable year, places in service a piece of coal mine safety equipment required as a result of the Federal Coal Mine Health and Safety Act of 1969 which is certified as indicated in paragraph (a) of § 1.187–2. The cost of the equipment is $120,000. On its income tax return filed for 1970, the corporation elects to take the amortization deductions allowed by section 187(a) with respect to the equipment and to begin the 60-month amortization period with October 1970, the month following the month in which it was placed in service. The adjusted basis at the end of October 1970 (determined without regard to the amortization deduction allowed by section 187(a) for that month) is $120,000. The allowable amortization deduction with respect to such equipment for the taxable year 1970 is $6,000, computed as follows:

Monthly amortization deductions:	
October: $120,000 divided by 60	$2,000
November: $118,000 ($120,000 minus $2,000) divided by 59	2,000
December: $116,000 ($118,000 minus $2,000) divided by 58	2,000
Total amortization deduction for 1970	6,000

Example (2). Assume the same facts as in example (1). Assume further that on May 20, 1972, X properly files notice of its election to discontinue the amortization deductions with the month of June 1972. The adjusted basis of the equipment as of June 1, 1972 (assuming no capital additions or improvements) is $80,000, computed as follows: Yearly amortization deductions computed in accordance with example (1):

1970	$6,000
1971	24,000
1972 (for the first 5 months)	10,000
Total amortization deductions for 20 months	40,000
Adjusted basis at beginning of amortization period	120,000
Less: Amortization deductions	40,000
Adjusted basis as of June 1, 1972	80,000

Beginning as of June 1, 1972, the deduction for depreciation under section 167 is allowable with respect to the property on its adjusted basis of $80,000.

Example (3). Assume the same facts as in example (1), except that on its income tax return filed in 1970, X does not elect to take amortization deductions allowed by section 187(a) but that on its income tax return filed for 1971 X elects to begin the amortization period as of January 1, 1971, the taxable year succeeding the taxable year the equipment was placed in service. Assume further that the only adjustment to basis for the period October 1, 1970, to January 1, 1971, is $3,000 for depreciation (the amount allowable, of which $2,000 is for additional first year depreciation under section 179) for the last 3 months of 1970. The adjusted basis (for determining gain) for purposes of section 187 as of that date is $120,000 less $3,000 or $117,000.

§ 1.187–2 Definitions.

(a) *Certified coal mine safety equipment*—(1) *In general.* (i) The term "certified coal mine safety equipment" means property which—

(*a*) Is electric face equipment (within the meaning of section 305 of the Federal Coal Mine Health and Safety Act of 1969) required in order to meet the requirements of section 305(a)(2) of such Act,

(*b*) The Secretary of the Interior or the Director of the Bureau of Mines certifies is permissible within the meaning of such section 305(a)(2), and

(*c*) Is placed in service (as defined in subparagraph (2)(i) of this paragraph) before January 1, 1975.

(ii) In addition, property placed in service in connection with any used electric face equipment which the Secretary of the Interior or the Director of the Bureau of Mines certifies makes such used electric face equipment permissible shall be treated as a separate item of certified coal mine safety equipment. See subparagraph (2)(ii) of this paragraph.

(2) *Meaning of terms.* (i) For purposes of subparagraph (1)(i)(*a*) of this paragraph, the term "placed in service" shall have the meaning assigned to such term in paragraph (d) of § 1.46–3.

(ii) For purposes of subparagraph (1)(ii) of this paragraph, the term "property" includes those costs of converting existing nonpermissible electric face equipment to a permissible condition which are chargeable to capital account under the principles of § 1.1016–2. Property is considered to be placed in service in connection with used electric face equipment (which was not permissible) if its use causes such electric face equipment to be certified as permissible.

(b) *Adjusted basis*—(1) *In general.* The basis upon which the deduction with respect to amortization allowed by section 187 is to be computed with respect to any item of certified coal mine safety equipment shall be the adjusted basis provided in section 1011 for the purpose of determining gain on the sale or other disposition of such property (see part II (section 1011 and following) subchapter O, chapter 1 of the Code) computed as of the first day of the amortization period. For an example showing the determination of the adjusted basis referred to in the preceeding sentence in the case where the amortization period begins with the taxable year succeeding the taxable year in which the property is placed in service see example (3) in paragraph (d) of § 1.187–1.

(2) *Capital additions.* The adjusted basis of any certified coal mine safety equipment, with respect to which an election is made under section 187(b), shall not be increased, for purposes of section 187, for amounts chargeable to the capital account for additions or improvements after the amortization period has begun. However, nothing contained in this section or § 1.187–1 shall be deemed to disallow a deduction for depreciation for such capital additions. Thus, for example, if a taxpayer places a piece of certified coal mine safety equipment in service in 1971 and in 1972 makes improvements to it the expenditures for which are chargeable to the capital account, such improvements shall not increase the adjusted basis of the equipment for purposes of computing the amortization deduction allowed by section 187(a). However, the depreciation deduction provided by section 167 shall be allowed with respect to such improvements in accordance with the principles of section 167.

PAR. 2. Paragraph (e)(1) of § 1.179–1 is amended by adding the following new (c) and (*d*) to subdivision (iii) thereof. These added provisions read as follows:

§ 1.179–1 Additional first-year depreciation allowance.

* * * * * * *

(e) *When allowance is available.* (1) * * *

(iii) * * *

(*c*) Qualified railroad rolling stock which the taxpayer elects to amortize under the provisions of section 184.

(*d*) A piece of certified coal mine safety equipment which the taxpayer elects to amortize under the provisions of section 187.

* * * * * * *

Title 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 608—HANDKERCHIEF, SCARF, AND ART LINEN INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5 and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 208) and Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp. p. 1004), and by means of Administrative Order 614 (35 F.R. 15226), the Secretary of Labor appointed and convened Industry Committee No. 101–D for the Handkerchief, Scarf, and Art Linen Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under section 6(c) of the Act to employees in the industry, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 101–D are hereby published in this order amending § 608.2 of Title 29, Code of Federal Regulations.

As amended, § 608.2 reads as follows:

§ 608.2 Wage rates.

* * * * * * *

(a) *Pre-1961 coverage classifications.* The classifications for pre-1961 coverage apply to all activities in the industry to which section 6 of the Fair Labor Standards Act would have applied prior to the Fair Labor Standards Amendments of 1961.

(1) *Hand-sewing on oblong scarves classification.* (i) The minimum wage for this classification is $1.25 an hour.

* * * * * * *

(2) *Other operations on oblong scarves classification.* (i) The minimum wage for this classification is $1.40 an hour.

* * * * * * *

(3) *Hand-sewing on products other than oblong scarves classification.* (i) The minimum wage for this classification is 60 cents an hour.

* * * * * * *

(4) *Other operations classification.* (i) The minimum wage for this classification is 78 cents an hour.

* * * * * * *

(Secs. 5, 8, 52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 206)

Effective date. This amendment shall become effective upon the expiration of 15 days after the date of publication.

Signed at Washington, D.C., this 5th day of August 1971.

HORACE E. MENASCO,
Administrator, Wage and Hour Division, U.S. Department of Labor.

PART 609—WOMEN'S AND CHILDREN'S UNDERWEAR AND WOMEN'S BLOUSE INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5 and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 208) and Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp. p. 1004), and by means of Administrative Order No. 614 (35 F.R. 15226), the Secretary of Labor appointed and convened Industry Committee No. 102–A for the Women's and Children's Underwear and Women's Blouse Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under section 6(c) of the Act to employees in the industry, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 102–A are hereby published in this order amending § 609.2 of Title 29, Code of Federal Regulations.

As amended, § 609.2 reads as follows:

§ 609.2 Wage rates.

* * * * * * *

(a) * * *

(1) *Hand-sewing classification.* (i) The minimum wage for this classification is $1.35 an hour.

* * * * * * *

(2) *Other operations classification.* (i) The minimum wage for this classification is $1.45 an hour.

(ii) This classification is defined as all operations in the women's and children's underwear and women's blouse industry in Puerto Rico other than those included in the hand-sewing classification.

* * * * * * *

(c) *1966 coverage classification.* (1) The minimum wage for this classification is $1.60 an hour.

* * * * * * *

(Secs. 5, 8, 52 Stat. 1062, 1064 as amended; 29 U.S.C. 205, 208)

Effective date. This amendment shall become effective upon the expiration of 15 days after the date of publication.

Signed at Washington, D.C., this 5th day of August 1971.

PART 611—SWEATER AND KNIT SWIMWEAR INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5 and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 208) and Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp. p. 1004), and by means of Administrative Order No. 614 (35 F.R. 152–6), the Secretary of Labor appointed and convened Industry Committee No. 102–B for the Sweater and Knit Swimwear Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under section 6(c) of the Act to employees in the industry, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 102–B are hereby published amending § 611.1 and revising § 611.2 of Title 29, Code of Federal Regulations.

1. As amended, § 611.1 reads as follows:

§ 611.1 Definition.

The sweater and knit swimwear industry in Puerto Rico is defined as follows: The manufacture of men's, women's, misses', boys', and girls' knit sweaters, sport shirts, shrugs, shoulderettes, boleros, and similar knitwear, and women's, misses', and girls' knit swimwear: *Provided, however,* That the industry shall not include the embroidery of any article or trimming by a crochet beading process or with bullion thread.

2. As revised, § 611.2 reads as follows:

§ 611.2 Wage rates.

Wages at rates not less than $1.60 an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer in the sweater and knit swimwear industry in Puerto Rico, who in any workweek is engaged in commerce or in the production of goods for commerce or is employed in an enterprise engaged in commerce or in the production of goods for commerce as these terms are defined in section 3 of the Act.

(Secs. 5, 6, 8, 52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 206, 208)

Effective date. This amendment shall become effective upon the expiration of 15 days after the date of publication.

Signed at Washington, D.C. this 5th day of August 1971.

HORACE E. MENASCO,
Administrator, Wage and Hour Division, U.S. Department of Labor.

[FR Doc.71–11605 Filed 8–10–71;8:54 am]

PART 612—WOMEN'S OUTERWEAR, NEEDLEWORK, AND MISCELLANEOUS FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5 and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 208) and Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp. p. 1004), and by means of Administrative Order No. 614 (35 F.R. 15226), the Secretary of Labor appointed and convened Industry Committee No. 101–C for the Women's Outerwear, Needlework, and Miscellaneous Fabricated Textile Products Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under section 6(c) of the Act to employees in the industry, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 101–C are hereby published, amending Part 612 of Title 29, Code of Federal Regulations, by changing the heading of Part 612 and definition and by deleting paragraphs (b) (1) and (3) and renumbering amended paragraphs (b) (2) and (4) to (b) (1) and (2).

As amended, Part 612 of Title 29, Code of Federal Regulations, reads as follows:

§ 612.1 Definition.

The women's outerwear, needlework, and miscellaneous fabricated textile products industry in Puerto Rico is defined as follows: The manufacture from any material of women's and girls' outerwear (except scarves, blouses and girls' dresses) and all other apparel and apparel furnishings and accessories made by knitting, crocheting, cutting, sewing, embroidering, or other processes; and the manufacture of all textile products and the manufacture of like articles in which a synthetic material in sheet form is the basic component: *Provided, however,* That the industry shall not include any product or activity included in the artificial flower, decoration, and party favor industry in Puerto Rico (Part 688 of this chapter), the button, jewelry, and lapidary work industry in Puerto Rico (Part 616 of this chapter), the corsets, brassieres, and allied garments industry in Puerto Rico (Part 614 of this chapter), the gloves and mittens industry in Puerto Rico (Part 603 of this chapter), the hosiery industry in Puerto Rico (Part 687 of this chapter), the men's and boys' clothing and related products industry in Puerto Rico (Part 615 of this chapter), the shoe and related products industry in Puerto Rico (Part 601 of this chapter), the straw, hair, and related products industry in Puerto Rico (Part 613 of this chapter), the textile and textile products industry in Puerto Rico (Part 699 of this chapter), the handkerchief, scarf, and art linen industry in Puerto Rico (Part 608 of this chapter), the women's and children's underwear and women's blouse industry in Puerto Rico (Part 609 of this chapter), the sweater and knit swimwear industry in Puerto Rico (Part 611 of this chapter), and the children's dress and related products industry in Puerto Rico (Part 610 of this chapter), as defined in the wage orders for these industries.

§ 612.2 Wage rates.

* * * * * *

(b) * * *

(1) *Hand-crocheting and hand-embroidery of crocheted hats classification.* (i) The minimum wage for this classification is $1.35 an hour.

(ii) This classification is defined as the operations of hand-crocheting, hand-knitting, and hand-embroidery of crocheted or knitted headwear for women, misses, girls, and infants 3 years of age and under.

(2) *General classification.* (i) The minimum wage for this classification is $1.58 an hour.

(ii) This classification is defined as all activities in the women's outerwear, needlework and miscellaneous fabricated textile products industry in Puerto Rico, other than those in the hand-crocheting and hand-embroidery of crocheted hats classification.

* * * * * *

(Secs. 5, 8, 52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 208)

Effective date. This amendment shall become effective upon the expiration of 15 days after the date of publication.

Title 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

SUBCHAPTER B—PERSONNEL; MILITARY AND CIVILIAN

[DOD Directive 1215.6]

PART 92—POLICIES RELATING TO SENIOR RESERVE OFFICERS CORPS (ROTC) PROGRAMS

JUNE 19, 1971.

The Deputy Secretary of Defense has approved the following revision to Part 92:

Sec.
92.1 Purpose and applicability.
92.2 Policy.
92.3 Procedures regarding oaths, security requirements, physical examination, deferment, commissioning, and assignment of graduates.

AUTHORITY: The provisions of this Part 92 issued under sec. 6(d)(1), 62 Stat. 611; 50 App. U.S.C. 456(d)(1); sec. 301, 80 Stat. 379; 5 U.S.C. 301.

§ 92.1 Purpose and applicability.

This part outlines the purpose and objectives of the Senior ROTC program, and establishes policy guidance for the Military Departments in conducting and administering ROTC.

§ 92.2 Policy.

(a) *Purpose and objectives of the Senior ROTC program.* (1) The purpose of the Senior ROTC is to provide a permanent and stable program of military education at designated college level institutions to prepare selected students for service as regular or reserve commissioned officers in the Army, Navy, Air Force, or Marine Corps.

(2) Senior ROTC educational programs qualify students for commissioning and establish a sound basis for their future professional growth and effective performance in the Military Service of their choice. The primary objectives of the Senior ROTC program are to provide ROTC students with:

(i) An understanding of the fundamental concepts and principles of military or naval science or aerospace studies;

(ii) A basic understanding of associated professional knowledge;

(iii) A strong sense of personal integrity, honor, and individual responsibility; and

(iv) An appreciation of the requirements for national security.

(b) *Establishment and continuation of ROTC units at educational institutions.* (1) To receive consideration for establishment of an ROTC unit an educational institution must:

(i) Apply in writing to a Military Department;

(ii) Be fully accredited by the appropriate regional or national authority;

(iii) Agree to provide adequate physical facilities as specified by the respective Military Department; and

(iv) Certify that it does not discriminate with respect to admission or subsequent treatment of students on the basis of race, color, or national origin.

(2) ROTC units will not be established or maintained at an educational institution unless:

(i) The senior commissioned officer of the Military Department concerned is given the academic rank of professor;

(ii) The institution fulfills the terms of its agreement with the Secretary of the Military Department concerned;

(iii) The institution adopts as a part of its curriculum a four (4) year course of military instruction or a two (2) year course of advanced training of military instruction, or both, which the Secretary of the Military Department concerned prescribes and conducts. Student enrollment shall be elective or compulsory as provided by State law or the authorities of the institution.

(3) Two (2) or more Military Departments may operate ROTC units on the same campus. Decisions to collocate additional units should be based on the school's ability to accommodate the additional unit without affecting the ability of the original unit to remain productive. Prior to final selection of an educational institution to receive a new ROTC unit, a Service will:

(i) Furnish lists of proposed new units to the other Services;

(ii) Consult with any Service which already has a unit at the school under consideration or is actively considering the school for establishment of a new unit;

(iii) Negotiate with such Service when problems may arise from collocation of two or more ROTC units on the same campus; and

(iv) Refer the matter to Office of the Assistant Secretary of Defense (Manpower and Reserve Affairs) if the difficulties cannot be resolved among the Services.

(4) Prior to releasing information on the location of proposed ROTC units, the Military Departments will provide this information to OASD(M&RA) and the other Services.

(c) *Disestablishment of ROTC units.* The annual officer production or projected production from each ROTC unit should be adequate to justify the investment of Department of Defense resources.

(1) Officer production indices from an ROTC unit will be based on the production record of the past 2 years and the production potential for the current year and the projected year based on advanced course enrollment in Military Science 3 and 4 or other Service equivalent. A unit will be considered substandard when its officer production index (an average of the four (4) year period) is below:

(i) Fifteen (15) officers per year where an institution prescribes a four (4) year or combination four (4) and two (2) year program, and

(ii) Ten (10) officers per year where the institution prescribes a two (2) year program.

(2) Each year the Military Departments will advise ROTC institutions whose units fall below the prescribed minimum production index that the units have been placed in an evaluation status for a two (2) year

(3) Units will be released from evaluation status as soon as they meet or exceed the minimum production index.

(4) At the end of the two (2) year evaluation period, or earlier if mutually agreed upon between the Services and the host institutions, the Military Departments should initiate disestablishment procedures. Units should be phased out with sufficient time to permit enrolled ROTC students to complete the program or offer the students a practical alternative for obtaining commissions.

(5) OASD(M&RA) will be advised when ROTC units are placed in an evaluation status and of the final disposition of each case.

(6) Other criteria such as cost per officer produced, quality of officer produced, institutional support, and retention rate of graduates by institution may be considered by the Military Departments concerned in actions pertaining to disestablishment of ROTC units.

(7) The decision to disestablish an ROTC unit is the prerogative of the Secretary of the Military Department concerned.

(d) *Department of Defense policy regarding operation of ROTC units.*—(1) *Academic credit for ROTC courses taught by military instructors.* ROTC courses will be reviewed by host institutions for credit on the same basis as other institutional courses. The Military Departments will urge that maximum credit be provided. If credit is questioned, the institution should recommend adjustments which would make the courses credit worthy. Regardless of the amount of credit, reflection of ROTC course grades should appear on student transcripts. Denial of degree credit would not necessarily mean withdrawal of the unit.

(2) *Student eligibility for ROTC based on undergraduate major courses of study.* Undergraduate students will not be denied the opportunity to enroll in ROTC solely because of their major course of study.

(3) *Review procedures (board of inquiry, investigating officer, etc.) conducted when students drop ROTC in violation of their contractual agreements.* The Military Departments will conduct a hearing or review (by a board or an officer) and permit at least one (1) university official (an administrator or faculty member appointed by the institution) to observe the hearing or consult in the review. The final decision on ordering to active duty will be made by the Military Department as prescribed by law.

(4) *Ordering student contract violators to active duty in their enlisted grades.* The Military Departments will delay ordering contract violators to active duty until they would normally complete their degree requirements or disenroll from the institution, whichever occurs first. Two (2) years active enlisted service will be required of scholarship and nonscholarship students who default during their junior or senior years. Scholarship students who complete the four (4) year course but refuse to accept their commissions will be ordered to enlisted active duty for four (4) years. Scholarship students who default during their freshman or sophomore years will not incur an active enlisted commitment.

(5) *Appropriate titles for military officers assigned to ROTC.* In accordance with 10 United States Code 2102(b)(1), the senior officer of each ROTC unit must receive the academic rank of professor (excluding tenure), including appropriate prerogatives and perquisites associated with the position of a professor as head of a department or program at the institution. As an alternative to the title of professor, the most complimentary title for the ROTC unit commander is the military title of the officer. Other titles such as Visiting Professor are acceptable provided the prerogatives and perquisites of professorial rank (excluding tenure) accompany the position, and the title is not demeaning or indicative of some lesser status. Other ROTC officers will be evaluated by the host institution for appropriate academic rank using procedures comparable to those used for their civilian faculty colleagues.

(6) *Descriptive title of ROTC unit on campus, i.e., program, department or other term.* The word "Program" in lieu of "Department" is acceptable as a descriptive term for the ROTC educational

activity provided no extracurricular connotation is involved. The term "program" in this sense would be applied to ROTC in the same manner as other academic programs within the institution.

(7) *Unit discretion on uniforms and amount of drill.* The Military Departments will prescribe the specific standards of performance which cadets and midshipmen should achieve in drill. The specific amount of drill to obtain this standard will be prescribed by the Professors of Military Science, Naval Science and Aerospace Studies. Uniforms will be worn for drill and as otherwise prescribed by the Commanding Officer of the unit.

(8) *Institutional standing committees on ROTC.* The Military Departments will cooperate with institutional standing committees on ROTC to develop mutually a program of instruction consistent with the goals of both parties. Where the university poses changes which are inconsistent with the law or military policies, the Military Departments shall reject the proposals.

(9) *Course substitution.* The Military Departments may use institutionally taught courses or courses taught jointly by both civilian and military faculties when these courses satisfy the objective contained in the ROTC curriculum and exist or can be developed by the university. Guest lecturers may provide specific hours of instruction in areas where they are academically qualified provided the institution approves of this practice. This provision shall not be used to reduce the required minimum military contact hours as specified by the Military Departments.

(e) *Acceptance by ROTC staff members of payments or other benefits offered by educational institutions.* An ROTC staff member may accept only the following payments or other benefits from an institution.

(1) Reasonable compensation or other benefits specifically for services that are rendered the institution other than during the duty hours of the military staff members of the ROTC unit (such as coach for an athletic team, parking lot attendant, Assistant Military Property Custodian, Commandant of Cadets, Assistant Commandant of Cadets), provided the services are not part of the member's regularly assigned military duties, do not interfere with the full and effective performance of his official military duties, do not bring discredit upon the government, and do not interfere with the customary or regular employment of local civilians in their art, trade, or profession. Duty hours for individual staff members of an ROTC unit may not vary from the duty hours of the unit simply to permit them to qualify for compensation for services rendered to an institution during the duty hours of the ROTC unit.

(2) Housing, if a reasonable rental is paid therefor. If housing is accepted by a member from an institution at other than a reasonable rental, as for example, without charge, the housing will be considered as furnished on behalf of the United States and the member will not be entitled to a basic allowance for quarters.

(3) Reimbursement by the institution for expenses incurred by the member for services that he performed at the request of the institution and, although clearly beyond the scope of his regularly assigned military duties, that he might have been expected to perform by virtue of his position, such as hosting a social function for visiting dignitaries or conducting an offcampus workshop for faculty or students. Itemized bills for these expenses must be presented to the institution. Whenever practicable, however, arrangements should be made for the institution to be billed for these expenses so that they may be paid directly by the institution. Under no circumstances may a commuted or fixed allowance be accepted from the institution for the purposes of meeting these expenses.

(4) Enrollment in courses by the member or any member of his immediate family; tickets to school or school sponsored activities; parking privileges; books and other supplies and materials from the institution's book store; and library privileges, either without charge or at a reduced rate if offered on the same basis to civilian members of the staff or faculty of the institution.

§ 92.3 Procedures regarding oaths, security requirements, physical examination, deferment, commissioning and assignment of graduates.

(a) *Oaths and security requirements*—(1) *Basic course enrollment*—(i) With the exception of foreign students enrolled under 10 United States Code 2103 (b), each applicant for formal enrollment in the basic course, Senior ROTC, will execute the following oath or affirmation:

I do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign or domestic; that I will bear true faith and allegiance to the same; and that I take this obligation freely, without any mental reservation or purpose of evasion.

(ii) Students who are required or permitted by educational institutions to undergo military training and who are not accepted for formal enrollment may receive basic course instruction with the proval of the Military Department concerned.

(2) *Financial assistance programs and advanced course enrollment.* Each applicant for appointment or enrollment in any of the financial assistance programs of the Services and each applicant for appointment or enrollment in the advanced course Senior ROTC will satisfy the loyalty and security requirements for enlistment in the Reserve Components of the appropriate Military Service.

(b) *Physical examination.* (1) To reduce to an absolute minimum the loss, at graduation, of persons found physically disqualified for appointment as commissioned officers, thorough and complete physical examinations will be conducted prior to enrollment in the scholarship program or at the time of, or immediately prior to, enrollment in the advanced courses of Army, Navy, and Air Force ROTC programs.

(2) Such examinations will, in all respects, be equal to the examination conducted to determine physical qualifications for appointment as commissioned officers.

(3) Physically disqualified persons may participate in a non-enrolled status with the approval of the Military Department concerned.

(c) *Deferment agreements.* Enrollees who acquire exemption or deferment from induction by virtue of their enrollment in ROTC will execute agreements as provided in section 456(d)(1) of title 50, appendix, United States Code. Enrollees other than those described above may be required to execute such agreements as may be prescribed by the Secretary of the Military Department concerned.

(1) The DD Form 44 [1] will be issued for all financial assistance grant and nonfinancial assistance grant students who have registered with Selective Service. The following procedures will apply:

(i) DD Form 44 will be submitted to the local Selective Service board at the time ROTC students enter the program.

(ii) DD Form 44 may be forwarded to local boards subsequent to selecting a financial assistance grant student for admittance to the program.

(iii) DD Form 44 may be forwarded to local boards for 2-year ROTC program students subsequent to selection for 6-week field training.

(2) All other students who are already enrolled in ROTC but are not of draft age will have their DD Form 44 submitted to the local board at the time they are required to register with Selective Service.

(d) *Cross enrollment.* A student at an institution that does not have an ROTC unit is eligible, if otherwise qualified, to be a member of a unit at another institution.

(e) *Commissioning of graduates.* Upon the successful completion of the required course of instruction, a graduate of a program referred to herein shall, if otherwise qualified, be appointed a Regular or Reserve Officer in the appropriate Armed Force.

(f) *Assignment of graduates.* (1) A graduate who has executed an agreement described in paragraph (c) of this section shall serve on active duty under the terms of the agreement. If not needed on active duty at the time of appointment, a graduate will be ordered to active duty for a period of 3 to 6 months with the Armed Force in which commissioned.

(2) Graduates shall be called to active duty or active duty for training as soon as possible within a 12-month period following their appointment as commissioned officers.

(3) Graduates who have fulfilled their active military training and service obli-

[1] Filed as part of original. Copies available from Director of Selective Service, Washington, D.C. 20435.

gation, or who have enlisted Reserve status and have performed 6 months active duty for training under section 511 or section 672(d) of title 10, United States Code, following their appointment as commissioned officers and in accordance with military service requirements, may either be ordered to active duty for training per subparagraph (1) of this paragraph, under conditions contained in agreements with the Military Departments, or be given appropriate Ready Reserve assignments, preferably in the Selected Reserve when unit location and skill requirements are compatible with the residence of the assignee and his military skill.

(4) A graduate may be delayed from being ordered to active duty or active duty for training under regulations issued by the Secretary of the Military Department concerned if he:

(i) Is the recipient of a fellowship or scholarship,

(ii) Has been accepted by a recognized institution of higher education for graduate studies,

(iii) Would suffer undue personal hardship, or

(iv) Is otherwise precluded from reporting as ordered for cogent and acceptable reasons. If delayed, he shall remain subject to the assignment criteria prescribed in subparagraphs (1) through (3) of this paragraph, and shall be assigned to active duty or active duty for training, as appropriate, at such time as the cause of his delay ceases to exist.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Administration).

Chapter VI—Department of the Navy

MISCELLANEOUS AMENDMENTS TO CHAPTER

Chapter VI of Title 32 is amended as follows:

PART 719—NONJUDICIAL PUNISHMENT, NAVAL COURTS AND CERTAIN FACTFINDING BODIES

Subpart A—Nonjudicial Punishment

Part 719 is amended by revising § 719.101(f)(3) to read as follows:

§ 719.101 General provisions.

• • • • • •

(f) • • •

(3) *To whom made when the officer who imposed the punishment is in the chain of command of the Commandant of the Marine Corps.* Any appeal from nonjudicial punishment in accordance with paragraph 135, MCM, shall be made to the officer who is the next superior in the chain of command to the officer who imposed the punishment. This shall be the case without regard to whether the appellant is, at the time of his appeal, a member of an organization within that chain of command. In those cases in which the Commandant of the Marine Corps is the next superior in the chain of command and in which the officer who imposed punishment is not a general officer in command, the appeal shall, in the absence of specific direction to the contrary by the Commandant, be made to the Marine Corps general officer in command geographically nearest the officer who imposed the punishment.

• • • • • •

Subpart B—Convening Courts-Martial

Part 719 is amended by revising § 719.103 as follows:

§ 719.103 Designation of additional convening authorities.

(a) *General courts-martial.* In addition to those officers authorized by 10 U.S.C. 822(a)(3) through (5) and (7), the following officers are, under the authority granted to the Secretary of the Navy by 10 U.S.C. 822(a)(6), designated as empowered to convene general courts-martial:

(1) All flag officers or general officers, or their immediate temporary successors, in command of units or activities of the Navy or Marine Corps.

(2) The following officers or their successors in command:

Chief of Naval Operations.
Vice Chief of Naval Operations.
Commandant of the Marine Corps.
Commander, Service Group One.
Commander, Service Force, 6th Fleet.
Commanders, Fleet Air Wings.
Commanders, Fleet Air Commands.
Commander, Morocco—U.S. Naval Training Command.
Commanding Officer, U.S. Naval Support Activity, Naples.
Commander, U.S. Naval Activities, Spain.
Commander, U.S. Naval Training Center, Bainbridge, Md.
Commander, U.S. Naval Training Center, San Diego, Calif.
Commander, U.S. Naval Training Center, Orlando, Fla.

(3) The Commanding Officer, U.S. Naval Disciplinary Command, Portsmouth, N.H., is hereby designated as empowered to exercise limited general court-martial jurisdiction for the purpose of performing the functions described in paragraphs 100c, 102, and 107, MCM. See § 719.129(a)(2) concerning the clemency powers of the Commanding Officer of the Naval Disciplinary Command.

(b) *Special courts-martial.* In addition to those officers otherwise authorized by 10 U.S.C. 23(a)(1) through (6), the following officers are, under the authority granted to the Secretary of the Navy by 10 U.S.C. 823(a)(7) empowered to convene special courts-martial:

(1) Commanding officers of all battalions and squadrons, including both regular and reserve Marine Corps commands.

(2) Any commander whose subordinates in the tactical or administrative chain of command have authority to convene special courts-martial.

(3) All commanders and commanding officers of units and activities of the Navy, except inactive-duty-training Naval Reserve units.

(4) All directors, Marine Corps Districts.

(5) All officers in charge, Naval Inactive Ship Maintenance Facilities.

(6) All administrative officers, U.S. Naval Shipyards.

(7) All directors, Navy Recruiting, Navy Recruiting Areas.

(8) The following specifically designated officers;

Director, U.S. Naval Research Laboratory, Washington, D.C.
Administrative Officer, U.S. Naval Supply Center, Pearl Harbor, Hawaii.
Director, Administrative Services Department, U.S. Naval Supply Center, Oakland, Calif.
Administrative Officer, U.S. Naval Supply Center, Puget Sound, Bremerton, Wash.
Head, Military Personnel Department, U.S. Naval Station, San Diego, Calif.
Head, Military Personnel Department, U.S. Naval Station, Treasure Island, San Francisco, Calif.
Head, Military Personnel Department, U.S. Naval Station, Norfolk, Va.
Officer in Charge, Transient Personnel Unit, Naval Administrative Command, Naval Training Center, Great Lakes, Ill.
Director, Fleet Home Town Newa Center.

Requests pursuant to article 23a(7), UCMJ, for specific designation of commands to convene special courts-martial that are otherwise undesignated shall be forwarded to the Judge Advocate General via the chain of command.

(c) *Summary courts-martial.* Those officers who are empowered to convene general and special courts-martial may convene summary courts-martial.

PART 720—DELIVERY OF PERSONNEL; SERVICE OF PROCESS AND SUBPOENAS; PRODUCTION OF OFFICIAL RECORDS

Subpart A—Delivery of Personnel

Part 720 is amended by revising § 720.6 to read as follows:

§ 720.6 Delivery of personnel to Federal authorities.

(a) *Authority to deliver.* Commanding officers are authorized to and should deliver personnel to Federal law enforcement authorities who display proper credentials and represent to the command that a Federal warrant for the arrest of the individual concerned has been issued, subject to exceptions in § 720.8.

(b) *Agreement not required of Federal authorities.* The agreement described in § 720.5 will not be exacted as a condition to the delivery of personnel to Federal law enforcement authorities. In the event that a person delivered is acquitted, or, if convicted, immediately upon satisfying any sentence of the court, or upon other disposition of his case, the person will be returned to the naval service (provided that naval authorities desire his return) and the necessary expenses will be paid from an appropriation under the control of the Department of Justice.

PART 755—CLAIMS FOR INJURIES TO PROPERTY UNDER ARTICLE 139 OF THE UNIFORM CODE OF MILITARY JUSTICE

Part 755 is amended by revising § 755.10 to read as follows:

§ 755.10 Effect of court-martial proceedings.

Administrative action under these regulations is separate and distinct from and is not affected by any disciplinary action against the offender; consequently, a person may be tried and punished for violation of the UCMJ without regard to proceedings under these regulations. The two proceedings, one disciplinary and the other administrative, are legally independent of each other and action in one proceeding is not determinative in the other; the court-martial is of a criminal nature and the assessment of damage is of a civil nature. Acquittal or conviction of the alleged offender by court-martial is evidence but is without independent controlling effect upon the proceedings under Article 139, UCMJ, or approval or denial of a claim thereunder.

MERLIN M. STARING,
Rear Admiral, JAGC, U.S. Navy,
Acting Judge Advocate General of the Navy.

AUGUST 4, 1971.

Title 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 6—MISCELLANEOUS FEES

Visitor Use Charges

Pursuant to the authority contained in section 3 of the Act of August 25, 1916 (29 Stat. 535, as amended; 16 U.S.C. 3) paragraphs (b), (c), (d), (e), (f), (g), and (h) of § 6.7 of the Code of Federal Regulations, entitled "Visitor use charges," are hereby revoked.

The purpose of the revocation is to delete paragraphs (b) through (h) of §6.7 from Title 36, since they have been superseded by §§ 18.1–18.14 of Title 43, which were published at page 18376 of the FEDERAL REGISTER of December 3, 1970 (35 F.R. 18376), and amended at page 3468 of the FEDERAL REGISTER of February 25, 1971 (36 F.R. 3468). Paragraph (a) of § 6.7, providing criminal penalties for wrongful entry is retained pursuant to 43 CFR 18.11 which states that heads of administering agencies shall use such legal means as are at their disposal to enforce fee regulations in Part 18.

Paragraphs (b) through (h) of § 6.7 are hereby revoked.

RAYMOND L. FREEMAN,
Acting Director,
National Park Service.

JULY 29, 1971.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 114—Department of the Interior

PART 114–35—TELECOMMUNICATIONS

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 (Supp. V, 1965–1969) and sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c), a new Part 114–35 is added to Chapter 114, Title 41 of the Code of Federal Regulations, as set forth below.

This new part shall become effective on the date of its publication in the FEDERAL REGISTER (8–11–71).

WARREN F. BRECHT,
Deputy Assistant Secretary of the Interior.

AUGUST 5, 1971.

Subpart 114–35.2—Major Changes and New Installations

§ 114–35.204 Submission of changes.

(a) All requests for major changes or new installations of telecommunications services, except radio service, shall be submitted through the Bureau Telecommunications services, except radio service, shall be submitted through the Bureau Telecommunications Coordinator, to the Departmental Communications Specialist, Telecommunications Staff Office, Office of Management Operations, Department of the Interior, Washington, D.C. 20240, for transmittal to the General Services Administration as appropriate. In addition to the items listed in the Federal Property Management Regulations (FPMR 101–35.2), the following shall also be deemed major changes or new installations of telecommunication facilities which shall be submitted to the Departmental Communications Specialist for review and approval prior to installation:

(1) Automatic Call Distributing Systems or any communication device which automatically distributes incoming calls.

(2) 20–40 Dial Paks or any automatic dial intercommunicating system with more than two communicating paths.

(3) Addition of switch or line capacity to any switchboard system, manual or dial, operated by a Bureau, Office or Service.

(4) Touch-tone service.

(5) Long Distance Xerography or similar graphic transmission systems or equipment.

(6) Requests for connection to the long distance voice network portion of the FTS where such service cannot be provided locally by the GSA Regional Office, or where provision of such service incurs consolidated switchboard common distributable charges.

(7) Installation of any wire telecommunication service, facility or equipment involving a minimum contract period of 1 year or more.

The Departmental Communications Specialist will provide, upon request, assistance in any area of wire telecommunications services. Requests for such assistance should be submitted through the Bureau Telecommunications Coordinator, to the Director of Management Operations.

(b) Installations involving an extension or major change to existing radiocommunication systems, or the implementation of new radiocommunication systems, shall be submitted to the Communications Engineer, Telecommunications Staff Office, Office of Management Operations, Department of the Interior, Washington, D.C. 20240, for review, frequency assignment, and coordination with other agencies, as appropriate.

[FR Doc.71-11543 Filed 8-10-71;8:48 am]

PART 114–40—TRANSPORTATION AND TRAFFIC MANAGEMENT

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 (Supp. V, 1965–1969) and sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c), a new Part 114–40 is added to Chapter 114, Title 41 of the Code of Federal Regulations, as set forth below.

This new part shall become effective on the date of its publication in the FEDERAL REGISTER (8–11–71).

WARREN F. BRECHT,
Deputy Assistant Secretary of the Interior.

AUGUST 5, 1971.

Subpart 114–40.3—Freight Rates, Routes, and Services

§ 114–40.307 Tonnage reports.

In fulfilling the reporting requirements of FPMR 101–40.307, it is recognized that outbound shipments of 100 short tons or more will occur infrequently. Accordingly, a monthly report will be required only for the months in which such a shipment is made. This report, when required, shall be submitted in the form of Appendix I, in duplicate, to reach the Office of Management Operations by not later than the 15th of the month following the month reported. Negative reports are not required.

[FR Doc.71-11545 Filed 8-10-71;8:48 am]

PART 114–47—UTILIZATION AND DISPOSAL OF REAL PROPERTY

Surplus Real Property Disposal

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 (Supp. V, 1965–1969) and sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c), Chapter 114, Title 41 of the Code of Federal Regulations, is amended as set forth below.

These amendments shall become effective on the date of publication in the FEDERAL REGISTER (8–11–71).

WARREN F. BRECHT,
Deputy Assistant Secretary, Management and Budget.

AUGUST 5, 1971.

Subpart 114–47.3—Surplus Real Property Disposal

The table of contents for Subpart 114–47.3 is modified to read as follows:

Sec.

114–47.301	General provisions of subpart.
114–47.301–3	Disposals under other laws.
114–47.301–5	Records and reports.
114–47.302	Designation of disposal agencies.
114–47.302–2	Holding agency.
114–47.304	Advertised and negotiated disposals.
114–47.304–8	Report of identical bids.
114–47.304–12	Explanatory statements.
114–47.304–50	Sales to Government employees.
114–47.304–51	Noncollusive bids and proposals.
114–47.304–52	Compliance review.
114–47.308	Special disposal provisions.
114–47.308–3	Property for historic monument sites.
114–47.308–7	Property for use as public park or recreation areas.

Section 114–47.308–3 is amended to read as follows:

§ 114–47.308–3 Property for historic monument sites.

The Director, Bureau of Outdoor Recreation, shall make all determinations and perform all other functions assigned to the Secretary in FPMR 101–47.308–3. The authority to exercise the authority conferred in the Secretary by FPMR 101–47.308–3 has been delegated to the Director, Bureau of Outdoor Recreation in 248 DM 1.

Section 114–47.308–7, as set forth below, is added to Subpart 114–47.3:

§ 114–47.308–7 Property for use as public park or recreation areas.

The Director, Bureau of Outdoor Recreation, shall make all determinations and perform all other functions assigned to the Secretary in FPMR 101–308–7. The authority to exercise the authority conferred in the Secretary by FPMR 101–47.308–7 has been delegated to the Director, Bureau of Outdoor Recreation in 248 DM 1.

[FR Doc.71-11544 Filed 8-10-71;8:48 am]

Title 49—TRANSPORTATION

Chapter III—Federal Highway Administration, Department of Transportation

SUBCHAPTER B—MOTOR CARRIER SAFETY REGULATIONS

[Docket No. MC–31; Notice 71–18]

RETENTION OF RECORDS AT REGIONAL OR TERMINAL OFFICE

The Director, Bureau of Motor Carrier Safety, is authorizing Directors of Regional Motor Carrier Safety Offices to consider and dispose of carrier requests for permission to retain certain required records at a location other than the carrier's principal place of business.

The Motor Carrier Safety Regulations require the retention of certain records by the motor carrier. Sections 391.51, 394.3, 395.8, and 397.19 require, respectively, the retention, at the carrier's principal place of business, of driver qualification files, accident registers, drivers' daily logs, and drivers' receipts for certain documents required when transporting class A or class B explosives. These sections provide that the Director of the Bureau of Motor Carrier Safety may grant a motor carrier permission to maintain records at a regional or terminal office.

To a large extent, the Director of the Bureau of Motor Carrier Safety has relied on the advice of the Director of the Regional Motor Carrier Safety Office and the Safety Investigator serving the principal place of business of a carrier to determine whether the convenience of the carrier and the work of the Bureau will be served by permitting the carrier to maintain divided records. The Director believes that the Bureau can more expeditiously respond to the requests of motor carriers to retain records at regional or terminal offices by delegating the authority to make these decisions to the Directors of the Regional Motor Carrier Safety Offices. The Bureau has issued guidelines to these Directors to insure that requests will be handled in a uniform manner with no unnecessary inconvenience to the motor carriers concerned.

Sections 391.51(g), 394.3(a), 395.8(s), and 397.19(b) are being amended to implement this delegation of authority. Since these amendments are procedural in nature and impose no new burden upon any person, notice and public procedure thereon are unnecessary, and they are effective upon publication in the FEDERAL REGISTER (8–11–71).

(Sec. 204, Interstate Commerce Act, 49 U.S.C. 304; sec. 6, Department of Transportation Act, 49 U.S.C. 1655; delegations of authority in 49 CFR 1.48 and 389.4)

In consideration of the foregoing, Parts 391, 394, 395, and 397 of Subchapter B of Chapter III of Title 49 CFR are amended as follows:

PART 391—QUALIFICATIONS OF DRIVERS

I. Paragraph (g) of § 391.51 is revised to read as follows:

§ 391.51 Driver qualification files.

* * * * *

(g) Upon a written request to, and with the approval of, the Director, Regional Motor Carrier Safety Office, for the region in which a motor carrier has his principal place of business, the carrier may retain one or more of its drivers' qualification files at a regional or terminal office. The addresses and jurisdictions of the Directors of Regional Motor Carrier Safety Offices are shown in § 390.40 of this subchapter.

PART 394—RECORDING AND REPORTING OF ACCIDENTS

II. The introductory clause of § 394.3 (a) is revised to read as follows:

§ 394.3 Accident register.

(a) Every motor carrier shall have in its files at its principal place of business an accident register. Upon a written request to, and with the approval of, the Director, Regional Motor Carrier Safety Office, for the region in which a motor carrier has principal place of business, the carrier may maintain the accident register at a regional or terminal office. The addresses and jurisdictions of the Directors of Regional Motor Carrier Safety Offices are shown in § 390.40 of this subchapter. The register shall be maintained currently and contain at least the following items of information with respect to each recordable accident:

* * * * *

PART 395—HOURS OF SERVICE OF DRIVERS

III. Paragraph (s) of § 395.8 is revised to read as follows:

§ 395.8 Driver's daily log.

* * * * *

(s) *Retention of driver's log.* Daily logs for each calendar month may be retained at the driver's home terminal until the 20th day of the succeeding calendar month and shall then be forwarded to the carrier's principal place of business where they shall be retained for 12 months from date of receipt. However, upon a written request to, and with the approval of, the Director, Regional Motor Carrier Safety Office, for the region in which a motor carrier has his principal place of business, a motor carrier may forward and retain such logs at a regional or terminal office. The addresses and jurisdictions of the Directors of Regional Motor Carrier Safety Offices are shown in § 390.40 of this subchapter. The driver shall retain a copy of each daily log for 30 days which shall be in his possession while on duty.

PART 397—TRANSPORTATION OF HAZARDOUS MATERIALS; DRIVING AND PARKING RULES

IV. Paragraph (b) of § 397.19 is revised to read as follows:

§ 397.19 Instructions and documents.

* * * * *

(b) A driver who receives documents in accordance with paragraph (a) of this section must sign a receipt for them. The carrier shall retain the receipt in his files for 1 year at his principal place of business. However, upon a written request to, and with the approval of, the Director, Regional Motor Carrier Safety Office, for the region in which a motor carrier has his principal place of business, the carrier may maintain the receipts at a regional or terminal office. The addresses and jurisdictions of the Directors of Regional Motor Carrier

Safety Offices are shown in § 390.40 of this subchapter.

Issued on July 28, 1971.

ROBERT A. KAYE,
Director,
Bureau of Motor Carrier Safety.

Chapter V—National Highway Traffic Safety Administration, Department of Transportation

[Docket No. 70-23; Notice 3]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Motor Vehicle Brake Fluids

Correction

In F.R. Doc. 71-8730 appearing at page 11987 in the issue for Thursday, June 24, 1971, make the following changes in the introduction and to § 571.21, Federal Motor Safety Standard No. 116:

1. On page 11988, column 1, 3d complete paragraph, line 17, delete the word "of".

2. On page 11988, column 2, line 5, the reference to "ASM Thermometers" should read "ASTM Thermometers".

3. On page 11989, S 5.1.5.2 line 7, the reference to "437° C." should read "437° F.".

4. On page 11989, S5.1.6(1), line 2, the reference to "0.005" should read "0.055".

5. On page 11992, table IV of S6.3.2, delete the degree markings in the columns headed "Thermometer number".

6. On page 11992, S6.3.3(a):

a. Insert a close parenthesis mark following "Viscositles."

b. Change the formula to read:

$$C_2 = \frac{g_2}{g_1} \times C_1$$

7. On page 11993, S6.4.6, line 2 the word "branke" should read "brake".

8. On page 11993, S6.6.1, line 8, insert an open parenthesis mark preceding "212°".

9. On page 11994, S6.6.4(a), lines 3 and 4, the word "silicone" should read "silicon". In line 36, "thyl" should read "ethyl".

10. On page 11994, S6.6.5, line 16, insert an open parenthesis mark preceding "73.4°".

11. On page 11995, S6.9.3(b), line 2, the reference to "S6.93(a)" should read "S6.9.3(a)".

12. On page 11996, S6.11.5, line 11, the reference to "51°" should read "5°".

13. On page 11996, S6.12.4, line 12, after "5°" insert "C.".

14. On page 11997, S6.13.4(c), line 13, insert an open parenthesis mark preceding "1,000".

15. On page 11997, S6.13.5, line 14 from the bottom of the column, insert the word "a" preceding "glass".

16. On page 11998, S7.5.1, Table VI, following the column headed "Diameter of swing, inches" insert a footnote "a" reference.

[Docket 69-31; Notice 3]

PART 573—DEFECT REPORTS

Extension of Effective Date

Motor vehicle safety regulations concerning Defect Reports were issued February 17, 1971 (36 F.R. 3064). The effective date of these regulations was specified as August 16, 1971. A petition for reconsideration was received from the White Motor Corporation, and is denied in a separate issuance in this edition of the FEDERAL REGISTER (36 F.R. 14774).

The question has been raised as to what time period is to be included in the first quarterly report required by the regulation. Because of the delay in responding to the petition, and in order to resolve the question presented concerning the first quarterly report, the effective date of the standard is hereby extended to October 1, 1971. The first quarterly report will thus represent a summary of the complete quarter between October 1, 1971, and December 31, 1971.

This notice is issued under the authority of sections 103, 113, and 119 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1392, 1402, 1407) and the delegation of authority at 49 CFR 1.51.

Issued on August 6, 1971.

CHARLES H. HARTMAN,
Acting Administrator.

[FR Doc.71-11582 Filed 8-10-71;8:53 am]

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

Chautauqua National Wildlife Refuge, Ill.

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER. (8-11-71).

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

ILLINOIS

CHAUTAUQUA NATIONAL WILDLIFE REFUGE

Public hunting of blue-winged, green-winged, and cinnamon teal on the Chautauqua National Wildlife Refuge, Ill., is permitted from September 18 through September 26, 1971, but only on the area designated by signs as open to hunting. This open area comprising 745 acres is delineated on a map available at refuge headquarters, Havana, Ill., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Hunting shall be in accordance with all applicable State and Federal regulations subject to the following special condition:

(1) Blinds—Temporary blinds of wood or brush may be constructed. Blinds do not become the property of those constructing them and will be available on a daily basis.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuges generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 10, 1970.

JOHN E. TOLL,
Refuge Manager, Chautaugua National Wildlife Refuge, Havana, Ill.

AUGUST 3, 1971.

[FR Doc.71-11504 Filed 8-10-71;8:46 am]

PART 32—HUNTING

Aransas National Wildlife Refuge, Tex.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8-11-71).

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

TEXAS

ARANSAS NATIONAL WILDLIFE REFUGE

Public hunting of deer, wild hogs and javelina on a portion of the Aransas National Wildlife Refuge, Tex., with bow and arrow is permitted from noon September 17 through September 30, 1971, inclusive. That portion open to hunting is designated by signs and delineated on maps available at refuge headquarters in Austwell, Tex., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. Hunting shall be in accordance with applicable State hunting regulations subject to the following special conditions:

(1) A bag limit of one (1) deer, either sex, and one (1) javelina may be taken by each hunter. There is no limit as to the number of wild hogs taken.

(2) All hunters must check in and out of the hunting area at the refuge entrance on Texas Farm Road 2040.

(3) A valid 1971-72 State of Texas hunting license is required of each participant.

(4) All hunting arrows must bear the name and address of the user in a non-water-soluble medium.

(5) Possession of target or field arrows outside of the vehicle on the refuge is prohibited.

(6) Shooting at, or of other wildlife species on the refuge other than deer, javelina, or wild hogs is prohibited.

(7) All motor vehicles must travel only on the shell surfaced roads or designated trails of the refuge.

(8) No deer may be removed from the refuge without a metal transportation seal being attached to the carcass by a refuge officer.

(9) In the event of an early arrival of any whooping cranes, the refuge or any portion thereof may be immediately closed to hunting.

The provisions of this special regulation, supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 30, 1971.

LEMOYNE B. MARLATT,
Acting Refuge Manager, Aransas National Wildlife Refuge, Austwell, Tex.

JULY 29, 1971.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 9848; Amdt. 39-1042]

PART 39—AIRWORTHINESS DIRECTIVES

SIAI-Marchetti Model Airplanes; Correction

Amendment 39-1042 (35 F.R. 11556), amending Amendment 39-844 (34 F.R. 14517), AD 69-19-7, amending Part 39 of the Federal Aviation Regulations is corrected by changing "(P/N 205-6-179-02)" in paragraph (d) to read "(P/N 205-6-179-03)."

Issued in Washington, D.C., on August 3, 1971.

R. S. SLIFF,
Acting Director,
Flight Standards Service.

[FR Doc.71-11576 Filed 8-10-71;8:50 am]

[Docket No. 71-SO-134; Amdt. 39-1261]

PART 39—AIRWORTHINESS DIRECTIVES

Maule M-4-180 And M-4-220 Series Aircraft

Installations have been made with low undrainable spots in the fuel line located under the front seats. An aluminum through-bulkhead fitting has been used in the fuel feed line. These nonconformities could result in fuel line blockage due to water trappage in the low undrainable low spots and the aluminum firewall fitting reduces the firewall fire protection. Since these conditions are likely to exist in other airplanes of the same type design, an airworthiness directive is being issued to inspect for low spots in the fuel line, remove as necessary, and ascertain that a steel fitting is used at the fuel feed line firewall bulkhead fitting on Maule M-4-180 and M-4-220 series aircraft.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697) § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

MAULE AIRCRAFT. Applies to Model M-4-180 Serial Nos. 3001C through 3005C and Model M-4-220 Serial Nos. 2001C through 2070C, certificated in all categories.

Compliance required within the next 50 hours' time in service after the effective date of this airworthiness directive.

To prevent fuel line blockage due to low spots and to maintain the firewall fire protection, accomplish the following:

(1) Inspect the fuel line located underneath the front seats for low undrainable spots. If low spots are found, remove low spots by hand bending and resecure fuel line with additional clamps or ty-raps. With the aircraft in a three-point position, this fuel line must have a downward slope from the right side to the left side of the aircraft.

(2) Inspect fuel feed line firewall bulkhead fitting located on the left side of the firewall and ascertain that it is a steel AN832-6 fitting. If the fitting is aluminum, replace it with an AN832-6 steel fitting.

Maule Service Letter 23 covers the above inspections and changes.

This amendment becomes effective August 16, 1971.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on August 2, 1971.

JAMES G. ROGERS,
Director, Southern Region.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Federal Airway Segment; Correction

On July 21, 1971, F.R. Doc. 71-10276 was published in the FEDERAL REGISTER (36 F.R. 13377) effective September 16, 1971.

This document amended Part 71 of the Federal Aviation Regulations in part by designating a segment of VOR Federal airway No. 190 north alternate from Phoenix, Ariz., to St. Johns, Ariz., via the intersection of the Phoenix 015° and the St. Johns 263° radials.

The Phoenix 015° radial should have been 051° as stated in the notice of proposed rule making published in the FEDERAL REGISTER (36 F.R. 9076) on May 19, 1971.

Since this amendment is editorial in nature and no substantive change in the regulation is effected, notice and public procedure thereon are unnecessary.

In consideration of the foregoing, effective upon publication in the FEDERAL REGISTER (8-11-71), F.R. Doc. 71-10276 (36 F.R. 13377) is amended as hereinafter set forth.

In Item 1.a. "Phoenix 015°" is deleted and "Phoenix 051°" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act 49 U.S.C. 1655(c))

Issued in Washington, D.C., on August 3, 1971.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

[Airspace Docket No. 71-SO-127]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Airspace

The purpose of these amendments to Part 73 of the Federal Aviation Regulations is to alter the time of designation of Restricted Area R-3003, Fort Gordon, Ga., and the designated altitude and time of designation of Restricted Area R-3004, Fort Gordon, Ga.

The Department of the Army has requested that the time of designation of R-3003 be changed from "Continuous" to "0730 to 1700 local time, Monday through Saturday," that the designated altitude of R-3004 be lowered from 20,000 feet MSL to 18,000 feet MSL, and that the time of designation be changed from "Continuous" to "As published by NOTAM 24 hours in advance."

Since these amendments restore airspace to the public use and relieve a restriction, notice and public procedure thereon are unnecessary, and good cause exists for making these amendments effective on less than 30 days notice.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective upon publication in the FEDERAL REGISTER (8-11-71), as hereinafter set forth.

1. In § 73.30 (36 F.R. 2337) is amended as follows: In R-3003 Fort Gordon, Ga., the time of designation is changed from "Continuous" to "0730 to 1700 local time, Monday through Saturday."

2. In § 73.30 (36 F.R. 2337) is amended as follows: R-3004 Fort Gordon, Ga., the designated altitude is changed from "Surface to 20,000 feet MSL" to "Surface to and including 18,000 feet MSL." The Time of Designation is changed from

"Continuous" to "As published by NOTAM 24 hours in advance."

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on August 3, 1971.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

[Airspace Docket No. 71-SW-32]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Area

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to reduce the size of the McGregor, N. Mex., Restricted Area R-5103A and to correct the restricted area number.

The Department of the Army has concurred in the modification of the boundaries and the designated altitudes of R-5103A. This action will provide a corridor and release the airspace from the surface to 1,500 feet above the surface to permit access to the Sacramento Estates Airport, N. Mex.

Since this amendment will restore airspace to public use and relieves a restriction, notice and public procedure thereon are unnecessary, and good cause exists for making this amendment effective on less than 30 days notice.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective upon publication in the FEDERAL REGISTER (8-11-71), as hereinafter set forth.

In § 73.51 (36 F.R. 2349) the McGregor, N. Mex., Restricted Area R-5103A is amended as follows:

1. In the Caption, "R-5103A" is deleted and substitute therefor "R-5103."

2. In the text, "latitude 32°39'40" N., longitude 105°40'00" W."; is deleted and substitute therefor "latitude 32°39'02" N., longitude 105°40'34" W."

3. In the text the following is added: and also excluding that airspace beginning at lat. 32°42'49" N., long. 105°48'10" W.; to lat. 32°40'47" N., long. 105°49'38" W.; to lat. 32°39'42" N., long. 105°47'42" W.; to lat. 32°41'58" N., long. 105°46'12" W.; to the point of beginning from the surface to 1500 feet above the surface.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on August 4, 1971.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

Chapter II—Civil Aeronautics Board

SUBCHAPTER B—PROCEDURAL REGULATIONS

[Reg. PR-121; Amdt. 6]

PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

Aircraft Depreciation Expense

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 6th day of August 1971.

In a notice of proposed rule making,[1] the Board proposed to amend Part 302 of the Procedural Regulation (14 CFR Part 302), so as to revise the method prescribed in Subpart K[2] for determining costs for depreciation, return on investment, and taxes.[3]

The only comment in response to the notice of proposed rule making was filed jointly by Mohawk Airlines, Inc., and North Central Airlines, Inc.; the comment supports the proposed rule. For this reason, we have determined to adopt the rule essentially as proposed. We are, however, making an editorial change in certain language in paragraph (a) of the rule. Specifically, where the phrase, "experience revenue ramp-to-ramp hours" was used in the proposed rule, we are substituting the phrase, "prescribed time rate."[4]

In consideration of the foregoing, the Board hereby amends Part 302 of the Procedural Regulations (14 CFR Part 302), effective September 8, 1971, as follows:

Amend § 302.1106 to read as follows:

§ 302.1106 Aircraft depreciation expense.

In order to determine the amount of aircraft depreciation expense, proceed in accordance with the following steps:

(a) Refer to the compilation for the latest 12-month period setting forth, by type of aircraft, each carrier's prescribed time rate per stop and per mile. Multiply the change in the number of stops forecast to be caused by the proposed route change by the prescribed time rate per stop, and multiply the change in the number of miles forecast to be caused by the proposed modifications by the prescribed time rate per mile. Add the products of these multiplications to obtain total revenue ramp-to-ramp hours involved in the change.

(b) Refer to the compilation for the latest 12-month period setting forth the prescribed hourly depreciation rate, by type of aircraft for each carrier, and ascertain the applicable figure.

(c) Multiply the amount ascertained in paragraph (b) of this section by the number of hours determined in paragraph (a) of this section, in order to determine the total annual amount of aircraft depreciation expense.

(Secs. 204(a), 401, 1001, Federal Aviation Act of 1958, as amended, 72 Stat. 743, 754, 788; 49 U.S.C. 1324, 1371, 1481)

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.71-11579 Filed 8-10-71;8:51 am]

[1] PDR-33, May 19, 1971, Docket 23416 (36 F.R. 9566, May 26, 1971).

[2] Standardized method for costing proposed changes in the authorized operations of local service carriers.

[3] Since § 302.1107 (return on investment and tax allowance) incorporates by reference the computations made under § 302.1106 (aircraft depreciation expense), it is necessary to amend only § 302.1106 in order to achieve the desired result.

[4] The Board publication, "Local Service Carriers' Unit Costs", is being modified as appropriate to accommodate this amendment.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 910]

LEMONS GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Proposed Size Regulation

Notice is hereby given that the Department is considering a proposed size regulation for lemons grown in Arizona and designated part of California, pursuant to the applicable provisions of the marketing agreement, as amended, and order No. 910, as amended (7 CFR Part 910, 36 F.R. 9061), regulating the handling of lemons grown in Arizona and designated part of California. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The current size regulation, Lemon Regulation 453 (35 F.R. 17527), is effective through November 13, 1971, and the proposed regulation would continue, through September 2, 1972, the same size requirements on the handling of lemons as are currently in effect. The proposed regulation would limit the handling of lemons grown in District 1, District 2, or District 3 to lemons measuring 1.82 inches or larger. The proposal was submitted by the Lemon Administrative Committee, established under said amended marketing agreement and order as the agency to administer the terms and provisions thereof. The regulation recommended by the committee reflects its appraisal of the lemon crop and the current and prospective marketing conditions. The size limitation proposed are designed to prevent the handling of lemons, on and after the proposed effective date, of sizes smaller than those herein specified so as to provide consumers with desirable sizes of fruit consistent with (1) the overall size composition of the crop, and (2) improving returns to growers pursuant to the declared policy of the act.

Order. (a) From November 14, 1971 through September 2, 1972, no handler shall handle any lemons grown in District 1, District 2, District 3, which are of a size smaller than 1.82 inches in diameter, which shall be the largest measurement at a right angle to straight line running from stem to the blossom end of the fruit: *Provided*, That not to exceed 5 percent, by count, of the lemons in any type of container may measure smaller than 1.82 inches in diameter.

(b) As used in this section "handle", "handler", and "District 1", "District 2", and "District 3" each shall have the same meaning as when used in the said amended marketing agreement and order.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed regulation shall file same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the 30th day after publication of this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: August 6, 1971.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[7 CFR Part 1030]

[Docket No. AO-361-A2-RO2]

MILK IN CHICAGO REGIONAL MARKETING AREA

Partial Decision on Proposed Amendments to Marketing Agreement and to Order

A public hearing was held upon proposed amendments to the marketing agreement and the order regulating the handling of milk in the Chicago Regional marketing area. The hearing was held, pursuant to the provisions of the Agricultural Marketing Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice (7 CFR Part 900), at Chicago, Ill., and Oshkosh, Wis., on August 20-27, 1969, pursuant to notice thereof issued on July 25, 1969 (34 F.R. 12529), and at Madison, Wis., on October 20 and 21, 1970, pursuant to notices thereof which were issued August 3, 1970 (35 F.R. 12545), and August 21, 1970 (35 F.R. 13660).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Regulatory Programs, on April 27, 1971, filed with the Hearing Clerk, U.S. Department of Agriculture, his partial recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings and general findings of the partial recommended decision are hereby approved and adopted and are set forth in full herein, with the following modifications:

1. Under the heading "1. Pool plant performance requirements for supply plants" the second sentence is modified.

(a) Under the subheading "Present provisions" revisions are made in the first three paragraphs.

(b) Under subheading "Proposals" both paragraphs are modified.

(c) Subheading "Intent of provisions" is changed and thereunder the first paragraph is deleted, and the fifth through 12th paragraphs are revised.

(d) Subheading "Modification of provisions" is deleted and thereafter the first, second, fifth, sixth, ninth, 10th, 11th, 13th, and 14th paragraphs are revised; and a new paragraph is inserted after the 13th paragraph.

(e) Under subheading "Proposal not adopted" a revision is made in the first paragraph and six new paragraphs are inserted after paragraph two.

2. Under the heading "2. Diversion of producer milk" the first paragraph is revised.

(a) Under subheading "Intent of provisions" the second paragraph is revised.

(b) Under subheading "Modification of provisions" the first paragraph is revised; five paragraphs are substituted for paragraph six; two new paragraphs are inserted after paragraph nine; and two new paragraphs are substituted for paragraph 11.

The material issues on the record of the hearing relate to:

1. Pool plant performance requirements for supply plants and reload points.

2. Diversion of producer milk.

3. Allocating to class I milk specified receipts from a producer-handler.

This decision deals only with issues No. 1 and 2. Issue No. 3 was considered previously in a separate decision.

Issues No. 1 and 2 of this hearing represent a partial reopening of the hearing held August 20-27, 1969, in Chicago, Ill., and Oshkosh, Wis., which concerned these two issues plus several others.

The Deputy Administrator on February 27, 1970, issued a recommended decision based on the August 20-27, 1969, hearing record.

Based on the exceptions received to this recommended decision the Assistant Secretary found in his July 13, 1970, decision that in the public interest the hearing should be reopened for the purpose of receiving additional pertinent evidence upon which a full and comprehensive reexamination of the supply plant performance requirements could be made. Since the hearing was to be reopened with respect to additional performance requirements for supply plants, it was further concluded that any change in the limits on diversions should be considered in conjunction therewith.

The findings and conclusions set forth below represent this reexamination of the supply plant performance requirements and the provisions relating to the diversion of producer milk.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on issues No. 1 and No. 2 are based on evidence presented at the hearing and the record thereof:

1. *Pool plant performance requirements for supply plants.* The provisions

of the order pertaining to the shipments of milk from supply plants to distributing plants should be modified to better effect the intent of the present monthly shipping standards prescribed for pool plant status of supply plants. Briefly, the order should prescribe (1) that only net quantities of milk received at a distributing plant from any supply plant be used in determining supply plant shipping performance, (2) that the milk storage tanks in a supply plant other than a reload facility have the capacity to hold the largest quantity of milk either received at or shipped from the plant as a single load, and (3) that only milk physically unloaded into a storage tank or into another tank truck at a plant shall be considered as received at such plant.

Present provisions. Two different types of supply plants that qualify for pool plant status by performing similar supply functions are described in the order. One type is the plant that contains stationary storage tanks and assembles milk received from dairy farmers for shipment when needed to a distributing plant. Any receipts of milk not shipped to a distributing plant are processed into manufactured products either within the plant or at a nonpool manufacturing plant. Often this type of supply plant operation is a grade A receiving room containing stationary storage tanks located in the same building with a manufacturing plant.

The other type of supply plant (commonly referred to as a "reload station") is a building in which milk that is picked up at farms in small farm bulk tank trucks is transferred into a larger over-the-road tank truck for transshipment to a distributing plant or a manufacturing plant. Although a reload station does not contain a holding tank there are certain conditions in the order it must meet. Such station must be in a building approved by an appropriate health authority which has facilities adequate for cleansing tank trucks and at which milk moved from the farm is transferred and commingled in another tank truck with other milk for transshipment.

Both of these types of operations are considered supply plants and qualify for pooling on the basis of the shipping percentages set forth below.

A supply plant presently qualifies for pooling by shipping at least 40 percent of its milk received from producers (including producer milk diverted) to pool distributing plants and producer-handler plants, and to any partially regulated distributing plant as class I milk to the extent of the latter's distribution of class I milk in the marketing area, during September, October, and November, and by shipping 30 percent thereof in such manner in all other months.

The Director of the Dairy Division is authorized to increase or decrease these percentages as much as 10 percentage points during any month August through December if supply conditions warrant. Also, supply plants that qualify as pool plants during each month of August–December retain their pool status during the next 7 months regardless of the amount shipped. For the purpose of shipping performance, a handler, or two or more cooperatives, may qualify two or more supply plants as a unit.

Proposals. A group of operating cooperatives proposed that in order to qualify for pool status a supply plant ship 20 percent of its milk to distributing plants during January, February, March, and July, and 10 percent during April, May, and June as opposed to the present automatic qualification during such months of any plant pooled in the preceding August–December period. They proposed also that the order specify that only milk physically received in a plant be considered a receipt at the plant, and that for measuring shipping performance only net receipts at a distributing plant from a supply plant (i.e., receipts less any return shipments) should be counted.

Other proposals by two bargaining cooperatives would either eliminate, or add further conditions to, the unit pooling of supply plants.

Revised conditions for pooling supply plants. Distributing plants in the densely populated Chicago metropolitan segment of the marketing area depend on receipts of milk from distant supply plants in Wisconsin for about 80 percent of their fluid milk requirements. The volume of milk needed each day by distributing plants, however, varies greatly during the week, since such plants usually operate only 5 days per week and their sales of milk to stores also vary, being substantially greater at the end of the week than at the beginning. Supply plants, on the other hand, receive a relatively steady volume of milk from farms each day. There is, however, a seasonal variation in such receipts since milk production on farms is substantially lower during the fall months compared to the spring months.

Raw milk, as received from farms is highly perishable and when it is not needed for bottling use it must be processed into manufactured dairy products. This is usually done at outlying supply plants or at nonpool manufacturing plants in the milkshed. The daily volume of reserve supplies ranges from a relatively limited volume on peak bottling days during the short production months to the entire volume of milk produced on those days in the flush production months when bottling plants are not operating.

It is necessary, therefore, that there be sufficient manufacturing facilities available at all times to process all the milk associated with the market. On certain days, particularly in the fall months, a very limited proportion of the capacity of manufacturing facilities is used since distributing plants utilize a high proportion of the milk produced to meet their bottling requirements. However, during the flush production months substantial volumes of milk associated with the market must be used in manufacturing outlets.

Because of the fixed costs of operating the manufacturing facilities that serve as outlets for the reserve supplies of milk on the market, the operators of such facilities have a financial stake in keeping them operating on a steady basis. Typically, such manufacturing facilities are owned by those handlers who operate pool supply plants. Pool supply plant operators receive the marketwide uniform price to pay their producers irrespective of whether their milk was shipped for fluid use or retained for manufacturing use. In these circumstances a supply plant operator has a financial incentive to hold his milk supplies for manufacturing use and let other handlers serve the fluid outlets in the market.

Most pool supply plants that serve distributing plants in the Chicago metropolitan segment of the market ship that quantity of milk requested by operators of distributing plants. The distributing plants pay a predetermined handling charge per hundredweight (to cover the cost of handling and accounting for such milk, including at least partial reimbursement for the cost of maintaining manufacturing capacity left idle on the days the milk is shipped to the city).

In the Wisconsin segment of the market, however, shipments of milk from supply plants to distributing plants often are for the purpose only of qualifying the supply plants since the distributing plants can get all the milk they need directly from producers' farms. Some supply plant operators make specific prearrangements with distributing plants to receive their shipment of milk, but then to return it promptly to the supply plant or to a nonpool manufacturing plant for processing into manufactured products (Class II). The latter practice has become quite prevalent. There have been numerous instances where supply plant operators even make payments in various amounts to operators of distributing plants in order to pool their milk in this manner. These payments and the added hauling cost incurred are offset by the benefits of pooling the milk, whereby the supply plant operator accounts for the milk at the Class II price and is credited at the higher uniform price to pay his producers. Such "back-hauling" practice constitutes a predetermined commitment of pool milk to manufacturing use. It was estimated that as many as 20 percent of the Wisconsin handlers may be engaging in such practice.

The back-hauling practices in the market have been accompanied to some degree by partial unloading of the tank truck at a supply plant for the purpose of establishing the entire load of milk as a receipt at the plant. Moreover, some handlers have gone to the extent of constructing "supply" plants at which only the altering of tank truck loads of milk takes place. Such facilities may contain only a small vat where a small amount of milk is pumped out of the tank truck into the vat and then pumped back into the same tank truck.

Currently, there are nine pool supply plants, other than reload facilities, where tank holding capacity is less than 2,000 pounds. There are 17 additional such supply plants which have holding capacity of less than most over-the-road tank trucks. Some of these supply plants are located at or very near the location of the distributing plant which receives the supply plant milk. In all instances but one, the distributing plants now served by these supply plants had previously received milk directly from producers to meet their needs. As indicated above, in this heavy production area there is no question but that such distributing plants can purchase adequate quantities of milk directly from producers' farms for their needs.

It can now be observed that this change in operations enables the quantity of milk to be qualified to be expanded greatly beyond the quantity of milk received and used at the distributing plant, since distributing plants qualify for pool status on the basis of the proportion of their total milk receipts disposed of on routes. Accordingly, milk associated with the supply plant but not shipped to the distributing plant does not enter into the computation of the distributing plant's performance on routes as it would if the milk were received directly from farms or diverted from the distributing plant to a nonpool plant.

It was not contemplated that handlers could exploit the pooling provisions by the methods described above. Accordingly, rather than fixing the conditions for pooling a supply plant in terms of the proportion of milk allocated to Class I use at the distributing plant, which would not be known to the supply plant operator at the time of shipment, they were set up in terms of the amount of milk shipped in order that the supply plant operator would have reasonable grounds for knowing his pool status at time of shipment.

In view of the benefits of pooling, no supply plant, or a supply plant unit, should be free, however, to precommit its milk supplies to manufacturing use. In interim periods when the milk is not being shipped for actual Class I use, or for those amounts in excess of Class I needs, such supply plant milk remains eligible for pooling even though the milk is put to manufacturing use. Consequently, demonstration of continuing availability of milk for fluid use must be based on some objective quantitative measure rather than on a contention that the milk is available. Such a condition for pooling is a reasonable one since the burden of meeting the varying and uncertain requirements of the Class I market would fall more heavily on some plants if others were able to precommit their supplies to manufacturing.

The above-mentioned handling practices circumvent the intent of the pooling provisions since, as previously indicated, they enable milk to be qualified for pool status when it is predesignated for manufacturing use. Accordingly, the shipping performance provisions of the order should be modified to recognize only those handling practices that reflect a normal and efficient flow of fluid milk to meet the needs of the fluid market (distributing plants).

The basic function of a supply plant is to assemble milk from farms at a location near such farms for efficient shipment to distant distributing plants. To function in this manner in the case of bulk tank handling, it is necessary that the plant be either a reload facility whereby milk is pumped from farm pick-up tank trucks into an over-the-road tank truck for transshipment, or a facility with adequate stationary storage tanks into which milk is transferred for later shipment. To reflect properly this assembly function, the order provisions should recognize as a receipt at a supply plant only that amount of milk either unloaded from a tank truck into another tank truck in the plant, or unloaded into one or more storage tanks in the plant. For determining shipping performance a shipment from the plant should be measured as that amount of milk loaded into a tank truck from a storage tank, or from another tank truck, in the plant.

The supply plant may function in the capacity of holding milk for later shipment. This is typically the case for a supply plant located in the same building with a nonpool manufacturing plant. In this type of facility, however, it is difficult to determine whether milk was physically received in a holding tank in the supply plant or simply pumped through a pipe in the plant to the nonpool manufacturing plant. If the milk is so pumped into the manufacturing plant it should appropriately be considered as received at such plant since no supply function takes place with respect to such milk at the supply plant. On the other hand, if the milk is pumped into and held in a storage tank it remains available for shipment to distributing plants and, accordingly, should be considered a receipt at the supply plant. Should the milk in the storage tank subsequently be pumped into the non-pool plant it should be considered a transfer of milk to such plant.

Such a transfer of milk is a common practice in the market and should be permitted to continue. Otherwise the milk would have to be loaded into a tank truck to move it to the nonpool plant. Moreover, the storage capacity in the supply plant can be used to perform a useful purpose with respect to the manufacturing operation once the plant operator decides to transfer the milk therein to the nonpool plant rather than to a distributing plant.

To continue to permit this practice in meeting conditions of performance for pooling, however, the order should require that such supply plant maintain storage capacity to hold the largest single quantity of milk either received at or shipped from the plant as a single load. This is necessary to demonstrate that the supply function is performed with respect to the milk received at or shipped from the plant. It is also necessary to avoid the circumstances described previously whereby many supply plants have qualified for pool status with only token storage capacity and thus have failed to carry out a true supply function.

Only the quantity of milk that is physically unloaded at a supply plant should be considered as received at such plant. If only part of a tank load of milk is unloaded, the plant performs no supply function with respect to the milk that remains on the tank truck and moves on to another plant where such remainder of the milk is unloaded. Consequently, such remainder of milk should be considered as received wherever else it is actually unloaded.

Similarly, if a partially loaded tank truck stops at a supply plant to take on additional milk, only that quantity of milk added should be considered a shipment of milk from such plant. The milk already on the tank truck should be treated as a receipt at the plant at which it is actually unloaded. No supply function is performed by the supply plant with respect to the milk already in the truck on arrival there.

In the event that milk is picked up at several farms in a tank truck and partially unloaded at a plant, the quantity unloaded should be considered a receipt from the individual producers involved on a pro rata basis because it would be impossible to determine which farmers' milk was unloaded and which farmers' milk remained on the truck. The milk remaining on the truck should be a receipt on a pro rata basis at the plant at which actually unloaded, except in the case of the option now provided in the order whereby the operator of a distributing plant elects, with respect to split loads of milk, to be a bulk tank handler for the entire load.

To be consistent in regard to what shall constitute a receipt of producer milk at any type of pool plant, the order should specify that only the quantity of milk picked up at the farm that is physically unloaded either into processing equipment in a pool plant, into a holding tank in a pool plant or into another tank truck in a pool plant should be considered as a receipt of producer milk at the pool plant. To the extent that any milk picked up at the farm is unloaded at a nonpool plant, such quantity should be considered as diverted from the pool plant to the nonpool plant if reported as producer milk by the responsible handler. When milk on the tank truck is picked up at more than one farm, the quantity of each producer's milk to be considered as received at a pool plant or as diverted to a nonpool plant should be prorated over the total quantity of milk picked up at all such farms.

Such greater definitiveness of what constitutes a receipt of milk at a plant, and a shipment of milk from the plant, needs to be supplemented by further specificity with respect to movements of milk between a pool supply plant and a pool distributing plant if the intent of the present supply plant shipping provisions is to be carried out.

Essentially, the intent of the supply plant shipping provisions is to reflect the need and use of supply plant milk by pool distributing plants and other specified outlets in the market. As earlier stated, shipments to producer-handlers

and to partially regulated distributing plants to the extent of their Class I sales in the marketing area are accorded shipping performance credit. Likewise, any shipment of condensed skim milk to a pool distributing plant also is credited as a qualifying shipment if utilized in a Class I product.

Other supply plant shipments to pool distributing plants should be tied in the future more directly to the use of such milk at distributing plants. To effect the intent of the performance provisions, it is necessary to provide that only the net amount of milk received for the month at a pool distributing plant shall be counted toward meeting the minimum qualifying percentage of shipment. This is reasonable and necessary to avoid the conditions described previously giving performance credit for milk shipped to distributing plants which is promptly shipped back for use in manufactured dairy products, often going to nonpool manufacturing plants as well as to pool supply plants.

This will not change present performance practices with respect to the bulk of the supply plant milk on the market which is shipped for actual use at distributing plants: Adoption of net shipments in measuring shipping performance would have impact only in those instances where transfers of fluid milk products in the form of bulk milk and skim milk back to pool supply plants and nonpool manufacturing plants are currently being made.

Shipments of bulk fluid milk products from a distributing plant to commercial food establishments for use in bakery products, candy or processed foods, and transfers of fluid milk products in a form other than bulk milk or skim milk should not be deducted in determining net receipts from supply plants. There is no indication that any such movements of fluid milk products are involved in the back-hauling problem discussed hereinbefore.

There are circumstances, however, such as on weekends and off-peak bottling days when distributing plants that receive some milk directly from producers must transfer some milk to supply plants or divert it to nonpool manufacturing plants. This practice should be accommodated on any day when the plant is not also receiving supply plant milk. The computation of net shipments therefore must be determined on a daily basis. Since milk could arrive at a distributing plant at the end of one day and be shipped back out at the beginning of the next day, the recommended decision specified that no performance credit should be given on milk shipped to a distributing plant on 1 day which is shipped back the following day. This condition should not be adopted since it may tend to deny shipping credit on supply plant milk received on the day prior to a nonbottling day that the plant operator transfers milk received directly from producers.

Diversions of milk from a distributing plant to a nonpool plant on the day of any receipt from a supply plant also should be subtracted from receipts from the supply plant in arriving at "net" receipts from the supply plant. Otherwise a supply plant operator could arrange to have a distributing plant operator divert his producer milk to a nonpool plant, his own or another, at the same time he is shipping supply plant milk to the distributing plant. Allowance should be made, however, due to emergencies such as hazardous road conditions or a breakdown of trucking equipment, to permit up to 3 days' production of milk to be diverted from distributing plants during the month on the same days qualifying shipments of milk are received from supply plants, provided that the market administrator is notified in writing of such emergency.

Should a distributing plant receive milk from more than one supply plant, the net receipts at the distributing plant should be prorated among such plants according to the respective quantities received from them. This will afford the same treatment to shipments from supply plants that is accorded receipts of producer milk at more than one plant and also will correspond to the allocation of receipts at a pool distributing plant from more than one supply plant on which location adjustment credit applies.

Adoption of the forementioned provision in the order should discourage any circumvention of the intent of the present supply plant performance provisions of the order, without having any significant impact on normal marketing practices of handlers.

Proposals not adopted. The proposals which call for year-round shipping performance by all supply plants and elimination or restriction of the unit pooling of supply plants should not be adopted on the basis of this record. Such proposals would tend to detract from the efficient marketing of supply plant milk since they would require shipments of milk from the most distant plants, which are more than 300 miles from Chicago, when the needed supply may be available from supply plants located in the nearer in zones of the milkshed. In the interest of efficient marketing it is desirable to allow as much flexibility in milk procurement channels as possible while still achieving the basic purposes of regulation. The application of the regular supply plant shipping provisions to the low production months and the unit pooling provision were adopted to enable the use of the milk supplies closest to the population center of the marketing area before milk at distant plants which would involve extra transportation cost assessed against producer returns.

In light of the modifications adopted above to make the order more effective with respect to supply plant performance, these proposals should not be adopted, especially since their adoption would tend to reduce marketing efficiency.

Some of the exceptions to the modifications provided herein as to conditions of supply plant performance urged that they not be adopted because they would: (1) Curtail the quantity of milk that could be pooled under the order; (2) affect competition among processors for milk supplies; (3) influence prices of milk resold among handlers; (4) place the identification of a producer for pool status beyond the control of the producer; (5) employ factors other than price to assure a supply of milk for the market; and (6) require the installation of handling facilities in plants. In addition, such exceptors contend that the changes should be postponed in light of a project recently initiated by the Department to study the alternative means of incorporating expected increases in qualified supplies of Grade A milk in the major production areas of the country into the system of Federal orders.

It may not be concluded that any substantial quantity of milk now associated with the market cannot continue to be pooled under the terms of the order as revised herein. The minimum shipping percentages for supply plants are not changed by this decision, but made more definitive. Moreover, most of the producers delivering to the supply plants that will be affected by this decision are members of cooperatives interested in their welfare as producers for this market. Such cooperatives have not expected to the thrust of the new terms.

As to their effect on competition among processors, the revised provisions should tend to place all operators of supply plants on a more uniform competitive basis in handling supplies of pool milk as opposed to the present circumstance that some plants control pool milk supplies precommitted to the manufacturing market while other plants serve the needs of the fluid market and have only a portion of their milk available for manufacturing use. In this context the terms of the order do have impact on the prices at which handlers resell their milk for manufacturing. The price at which milk is transferred among handlers for fluid use is also influenced by the order. This is an obvious result of any scheme of classified pricing.

Exceptors contend that the order need only "ascertain that a producer produces pure and wholesome milk and offers it for sale", as a basis for pooling in the Chicago Regional market. There is a distinction to be made between establishing reasonable conditions for pooling in a given market and providing a "right" of pooling in such market. Exceptors aver that the matter of pooling a supply plant or a producer at such a plant is simply a matter of "identification," and that this is the basic purpose of the provisions being modified by this decision. If the basis of pooling were only a matter of identification, it would be simple enough to name those plants and persons (producers) expressing an interest in pooling in this market. Presumably, if pooling on such a basis here were feasible, it likewise would be feasible in any other market, and plants and producers could choose their market pool whether or not they expected to perform any economic service of benefit to the handler or market chosen as the outlet.

It is difficult to see any basis in equity for pooling simply on identification of the person choosing to be pooled. The fluid milk market is the preference market for milk and there are benefits to be derived from participation in the fluid market not available when producing or selling in the manufacturing market. The Chicago Regional order does not deny entry to the fluid market for any producer or plant but provides the basis for orderly entry by recognizing marketing functions rendered in response to the market's requirements for milk and establishing reasonable rules for participation. It regularizes the purchase transaction between producers and their buyers and distributes the benefits derived from the higher-valued fluid market uniformly among producers serving it. The key to the market for both producers and plants is in the actual serving of the market under the reasonable conditions specified which apply in the same manner to all plants and producers performing similar functions. The modifications of the order provided herein essentially deal with a limited problem of whether supply plant milk should be counted as performance for pooling when back-hauled for manufacturing. When supplies of milk appropriately become associated with this market, it should not be accomplished on the basis of back-hauling it.

The modifications of the order provided herein should not be delayed pending the completion of a study of the alternative means of incorporating expected increases in qualified supplies of Grade A milk into the system of Federal orders. Such study is of much broader scope than the marketing of milk under the Chicago Regional order. Moreover, it focuses on expected marketing developments. This decision, however, deals with specific marketing problems with respect to milk now being marketed under the terms of the Chicago Regional order. These limited problems should be dealt with now rather than putting off consideration of them until it can be determined whether future developments may indicate a need to further modify the terms of Federal milk orders generally.

2. *Diversion of producer milk.* The order should be amended to price all diverted producer milk at the location of the plant to which diverted, except in the case of diversions from a distributing plant diverted milk shall be priced at the location of the distributing plant in either of the following circumstances: (1) If no more than four days' production of milk of a producer is diverted therefrom during the month, or (2) if the diverted milk is part of a tank truck load that exceeds the storage capacity in such plant.

Presently, producer milk may be diverted from a pool plant to a nonpool plant during any month August-December to the extent the quantity diverted does not exceed the quantity of such producer's milk received at the pool plant. During the remaining months of the year unlimited diversions are allowed. The pricing of the first 6 days' production that is diverted each month is at the location of the plant from which diverted. All milk diverted in excess of 6 days' production each month is priced at the location of the plant of actual receipt.

Proposals. There were numerous proposals put forth at the 1969 hearing session to amend these provisions. At the reopened hearing only one of the previous proposals to amend these provisions was supported again. At the reopened hearing new proposals were made by the group of operating cooperatives that would price all diverted milk at the location of the plant to which diverted.

One group of cooperative associations proposed at the 1969 hearing session, and again at the reopened hearing, to reduce the allowable diversions to nonpool plants each month to three days' production in the case of supply plants and to 8 days' production in the case of distributing plants. This proposal was opposed at both hearing sessions by certain other organizations.

An association of Chicago milk dealers testified at the reopened hearing in support of retaining the provision which prices the first 6 days' production each month of diverted milk at the location of the plant from which diverted. In its brief it was suggested that milk diverted up to one-half the days each month should be priced at the location of the plant from which diverted.

Intent of provisions. The diversion privilege is intended primarily to obtain efficiency in the disposition of that milk temporarily not needed at a pool plant. Nonpool manufacturing plants are the customary outlets for about one-half the market's reserve milk supply. Many of the pool plants on the market, whether distributing plants or supply plants, do not have manufacturing facilities. It was stated earlier that some of the present supply plants are simply receiving stations or reload points at which milk is assembled from farms for transshipment to distributing plants.

Most distributing plants do not process and package milk on Sundays. On the days that they do operate, their processing and packaging schedule generally varies in accordance with their daily sales volumes. The daily sales volume of distributing plants is very uneven because purchases of milk by consumers at stores tend to be greater during the latter part of the week. The home delivery volume is substantially greater on Fridays and Saturdays than on the remaining weekdays.

The operators of distributing plants typically associate a sufficient supply of milk with their operations by receipts of direct ship milk from dairy farmers and from supply plants to cover their requirements on peak bottling days during the period of seasonally low production. Consequently, there are substantial quantities of milk produced on the other days of the week during the low production season, as well as throughout the period of seasonally high production, that must be moved to plants where they can be utilized in manufactured dairy products. In many instances such plants are nonpool plants engaged primarily in processing manufacturing grade milk.

Modification of provisions. The provision which prices the first 6 days' production of diverted milk each month at the plant from which diverted should be amended to price all diverted milk at the location of the plant of actual receipt, except in certain cases of limited diversion from a distributing plant. The present provision was added to the order primarily to accommodate the weekend milk which occasionally must be diverted to nonpool plants.

Most appropriately, milk should be priced at the plant of actual physical receipt. The exception presently provided in the order was intended to accommodate a very limited diversion need and recognized that a change in the point of pricing on such a limited basis would likely be confusing to the producers involved and would result in reduced returns since haulers likely would be the principal beneficiary of any savings because of a shorter haul to the manufacturing plant.

The current hearing demonstrates that the provision is now being used to facilitate the association of milk with city distributing plants and the handling of milk in a manner not contemplated when it was adopted, tending to impede the operation of the order.

During the 12-month period ending August 1970, diversion of not more than 6 days' production amounted to 202 million pounds, an increase of 58 percent compared to the previous 12-month period ending August 1969 which amounted to 127 million pounds. On the other hand, total diversions of 436 million pounds were up 88 percent while the quantity diverted in excess of 6 days' production of 234 million pounds increased 125 percent. Further, during the 12-month period ending August 1969, diversions of not more than 6 days' production of 127 million pounds accounted for 55 percent of the total quantity of milk diverted (232 million pounds), while the comparable percentage for the period ending August 1970 was only 46 percent, a drop of 9 percent. Thus, total diversions each month increasingly represent more than may be accounted for simply by weekend reserve milk.

The need for increased diversions indicates that handlers have generally associated with city distributing plants many additional producers whose farms are located in the distant zones. Under present provisions the milk can be received at city distributing plants on the minimum number of days each month (i.e., one-half the days during August-December with no minimum requirement during the remaining 7 months) and then be diverted to manufacturing plants located near the producers' farms on the remaining days. Six days' production each month so diverted is priced at the city plant location. In this circumstance, on the first 6 days' production that is diverted each month the producer receives the uniform price applicable at the city plant location rather than that applicable at the location of the manufacturing plant where the milk is physically

received even though the extra cost of transporting the milk to the city is not incurred.

The recommended decision concluded that the provision which prices the first 6 days' production of diverted milk each month at the plant from which diverted should be discontinued.

Producer and handler groups, in their exceptions, contend that complete elimination of the provision would tend to result in inequities in prices among producers who deliver their milk directly to Chicago distributing plants on a regular basis. Accordingly, they request the adoption of a modification of the present provision rather than its complete elimination. Such requested modification of the provision would price diverted milk at the plant from which diverted in circumstances where the milk of a producer was not diverted more than once per week or more than 4 days during the month provided that milk of the producer was received in the plant the day before diversion on either basis.

As previously indicated, the present provision was intended to accommodate a situation of very limited need to divert milk—essentially those diversions that are made on days of the week when the plant is not processing milk. Many distributing plants in the market do not process and package milk on Sundays. Consequently, the milk of many of the producers who regularly deliver milk to such plants is diverted to nonpool manufacturing plants on such days. Diversions of milk from distributing plants located in near-in price zones are usually made to nonpool plants located in more distant price zones.

In such circumstances the producer whose milk is diverted would not be credited the same uniform price as other producers whose milk is not diverted from the plant. Such disparity in uniform prices to producers occurs also in the circumstance of two plants similarly located that regularly receive milk directly from producers and one such plant diverts some of its producer milk but the other does not. In the case of infrequent or limited diversion it cannot be expected that compensatory adjustments will be made in the hauling rate that the producer pays for the delivery of his milk to the plant from which it is diverted.

Because of these situations, uniform pricing of milk to producers is enhanced if those producers whose milk is diverted is priced at the location from which diverted. Modification of the present provision to provide such pricing only in the circumstances where a producer's milk is diverted not more than 4 days' production during the month will tend to accommodate such situation. If more than 4 days' production of a producer is diverted during the month, all of such producer's milk should be priced at the location of the plant where diverted.

The spokesman for the group of operating cooperatives testified that during the months of limited diversions (August–December) tank truckloads of producer milk are "technically" received at a pool plant by unloading such milk through a pipe in the pool plant to a nonpool plant in the same building, or partially unloading and reloading the tank truck at the pool plant before unloading it at a nonpool plant. In such cases the milk is considered to be transferred from a pool plant to a nonpool plant. The pool plant performs no useful receiving function in either case, however. The loads of milk are handled in this manner to avoid having some milk considered as overdiverted and, thus, disqualified as producer milk. Through this method of operation handlers circumvent the diversion provisions applicable during August–December which limit the quantity of a producer's milk that may be diverted to not more than the quantity that is received at a pool plant.

It is intended that all the milk picked up at producers' farms in a tank truck be unloaded at a pool plant in order to be considered a receipt of producer milk at the pool plant. Further, milk picked up at producers' farms and unloaded at a nonpool plant is intended to mean a diversion when reported as producer milk by the responsible handler.

To prevent the above-described circumvention of the August–December diversion limitations, the producer milk definition in the order should be amended to specify more precisely what quantity of milk will be considered as received at a pool plant and what quantity will be considered as diverted to a nonpool plant. The provisions set forth in the previous issue accomplish this by describing what shall be considered a receipt of producer milk at a pool plant.

Exceptions to the recommended decision pointed out that the above application of the terms "receipt" and "diversion" would hinder a milk handling technique practiced by many small pool distributing plants that do not use a full tank truck load of milk and do not have storage capacity to hold an entire load of milk. At such plants the quantity of milk needed for bottling is unloaded and the remainder of the load is moved to a nonpool manufacturing plant. To accommodate this situation it was suggested that the entire load of milk be considered a receipt at the pool distributing plant and that that quantity left on the tank truck be considered a transfer to the nonpool plant where it is unloaded.

This situation can more appropriately be accommodated under the diversion provisions of the order whenever all the milk is priced at the location of the pool distributing plant. Such pricing point on the entire quantity of milk picked up at the farm is appropriate since the producer incurs the cost of shipping such milk the entire distance between his farm and the distributing plant. Accordingly, the order should provide that in the case of the diversion of part of a split load of milk from a distributing plant that does not have storage capacity to hold the entire load, such milk shall be priced at the location of the distributing plant.

The proposal described previously which would limit diversions of producer milk to manufacturing plants to only 3 days' production per month from supply plants and 8 days' production from distributing plants should not be adopted. Virtually all of the milk supply for the market is hauled from the farm to plants in bulk tank trucks. As described previously, on the days when the milk is not needed at distributing plants it is usually more economical to move the milk directly from the farm to nonpool manufacturing plants than to first assemble it at pool supply plants and distributing plants for movement to such manufacturing plants. The proposal is therefore denied.

However, the order should specify that milk is eligible for diversion only if the person producing such milk delivered milk as producer milk to a pool plant prior to the diversion and until the end of the first full month after his milk is first received in a pool plant the quantity of such producer's milk diverted shall not exceed the quantity received in a pool plant. The concept and purpose of "diversion" carries with it the connotation that the normal place of delivery is the pool plant and the order should be amended to assure that a producer's milk is received at a pool plant on a regular basis as a condition of identifying his milk with the market.

In exceptions producer associations suggested that delivery to a pool plant on a "regular basis" be determined as not less than 15 days during the month. The above modification would have this impact but still enable a handler who is engaged in using split loads of milk to add a new producer on such split load whereby a portion of the producer's milk is diverted each day.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings, and conclusions, and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

The testimony presented by a regulated handler containing two proposals to amend the order was ruled to be beyond the scope of the hearing by the hearing examiner. One proposal would allow the operator of a pool supply plant to be the handler on producer milk delivered direct from the farm to pool distributing plants of other handlers and have such milk count toward qualifying the supply plant. The other proposal would allow two or more handlers operating supply plants to establish a unit of supply plants for qualifying purposes.

Upon a review of the testimony of the handler the ruling of the hearing examiner with respect to this testimony is approved for the reasons he stated. Secondly, adoption of these proposals would be inconsistent with the other findings contained herein since the primary thrust of this decision is to employ performance provisions that reflect more effective supply performance by supply plants, while the proposals would permit the qualification of additional plants as supply plants without any shipment ever being made from such plants to pool distributing plants.

General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto: and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on Exceptions

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing Agreement and Order

Annexed hereto and made a part hereof are two documents, a Marketing Agreement regulating the handling of milk, and an Order amending the order regulating the handling of milk in the Chicago Regional marketing area which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which is published with this decision.

Determination of Producer Approval and Representative Period

March 1971 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order, as amended and as hereby proposed to be amended, regulating the handling of milk in the Chicago Regional marketing area is approved or favored by producers, as defined under the terms of the order, as amended and as hereby proposed to be amended, and who, during such representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

Signed at Washington, D.C., on August 6, 1971.

RICHARD E. LYNG,
Assistant Secretary.

Order[1] Amending the Order, Regulating the Handling of Milk in the Chicago Regional Marketing Area:

Findings and Determinations

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Chicago Regional marketing area. The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Chicago Regional marketing area shall be in conformity to and in compliance with the terms and conditions of the order, as amended, and as hereby amended, as follows:

The provisions of the proposed marketing agreement and order amending the order contained in the recommended decision issued by the Deputy Administrator, Regulatory Programs, on April 27, 1971, and published in the FEDERAL REGISTER on April 30, 1971 (36 F.R. 8155; F.R. Doc. 71-6070), shall be and are the terms and provisions of this order, amending the order, and are set forth in full herein, with the following changes:

Revisions are made in §§ 1030.10(c), 1030.11(b)(5)(i), and 1030.16(e). The cross references to § 1030.16 throughout the order are changed to conform to the revision of § 1030.16.

1. In § 1030.10 paragraph (c) is revised to read as follows:

§ 1030.10 Plant.

• • • • •

(c) "Supply plant" means a plant from which a Grade A fluid milk product is shipped or transshipped during the month to another plant. Such supply plant shall be equipped with storage capacity sufficient to hold the largest quantity of fluid milk product either received in the plant or shipped from the plant as a single load during the month, except no storage capacity shall be maintained in a plant at which only milk moved from the farm in a tank truck which is transferred and commingled in another tank truck with other milk for transshipment.

2. In § 1030.11 paragraph (b) the text through subparagraph (1)(i) plus subparagraph (5) is revised as follows:

§ 1030.11 Pool plant.

• • • • •

(b) A supply plant from which the quantity of fluid milk products (except filled milk) and condensed skim milk shipped or transshipped during the months in accordance with subparagraphs (1) and (2) of this paragraph is not less than the percentages specified in subparagraph (4) of this paragraph subject to subparagraphs (5), (6), (7), and (8) of this paragraph of the volume of

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

Grade A milk received from dairy farmers and cooperative associations pursuant to § 1030.13(e), including producer milk diverted under § 1030.16. Such receipts shall be reduced by the disposition of packaged fluid milk products described in subparagraph (3) of this paragraph.

(1) Shipped or transshipped as fluid milk products to and physically unloaded into:

(i) Pool plants pursuant to paragraph (a) of this section to the extent of the quantity determined pursuant to subparagraph (5) of this paragraph;

• • • • • •

(5) For the purpose of determining the percentage specified in subparagraph (4) of this paragraph the quantity of fluid milk products moved pursuant to subparagraph (1)(i) of this paragraph shall be a net quantity assignable at pool distributing plants computed by subtracting from the quantity of fluid milk products received from a supply plant, but not to exceed such quantity, the amounts described in subdivisions (i) and (ii) of this subparagraph. If fluid milk products are received from more than one supply plant such net quantity assignable shall be prorated among such supply plants in accordance with the total receipts from such plants.

(i) The quantity of fluid milk products in the form of bulk milk and skim milk transferred from the distributing plant to pool supply plants plus any such bulk shipments to nonpool plants as Class II milk, other than pursuant to § 1030.41(b)(4), on the day of the receipt from the supply plant.

(ii) If milk is diverted from the distributing plant on the date of the receipt from the supply plant, the quantity so diverted, except any diversion of milk (not to exceed 3 days' production of any individual producer) made because of an emergency situation such as a breakdown of trucking equipment or hazardous road conditions shall not be subtracted if such emergency is reported to the market administrator.

• • • • • •

3. Section 1030.15 is revised as follows:

§ 1030.15 Producer.

"Producer" means any person who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority and whose milk is received at a pool plant or diverted pursuant to § 1030.16 except:

(a) A dairy farmer who is a government and has nonproducer status for the month pursuant to § 1030.9;

(b) A producer handler as defined in any order (including this part) issued pursuant to the Act; and

(c) A dairy farmer who is defined as a producer under the terms of another order issued pursuant to the Act whose milk is received at a pool plant as a diversion from an other order plant and is assigned pursuant to § 1030.46(a)(4)(ii) and the corresponding step of § 1030.46(b).

4. Section 1030.16 is revised as follows:

§ 1030.16 Producer milk.

"Producer milk" means milk produced by producers which is:

(a) Received at a pool plant directly from producers, by being physically unloaded into processing facilities or a storage tank (including another tank truck in the case of a reload facility), and the shrinkage of skim milk and butterfat in milk received from producers' farms which was not unloaded in a pool plant. Such direct receipts from producers shall include the portion of a tank truck load of milk unloaded in a pool plant in the case where a portion of such load was first unloaded at another pool plant or diverted to a nonpool plant. The quantity of milk so received at each such plant shall be prorated over the total quantity of milk picked up at each producer's farm.

(b) Received by a handler pursuant to § 1030.13(h).

(c) Received at a pool plant from a cooperative association handler pursuant to § 1030.13(e). The utilization value of such milk at class prices shall be included in the receiving handler's net pool obligation pursuant to § 1030.70;

(d) Received by a cooperative association as a handler pursuant to § 1030.13(e) to the extent of the shrinkage of skim milk and butterfat received from producers' farms which was not received in a pool plant under paragraph (c) of this section. In applying §§ 1030.53 and 1030.82 such skim milk and butterfat shall be deemed to be received at the location of the pool plant to which delivery is normally made.

(e) Diverted from a pool plant to a nonpool plant subject to the conditions specified in this paragraph. Milk shall be eligible for diversion as producer milk only if the person producing such milk had delivered milk as producer milk to a pool plant prior to the diversion, and until the end of the first full month after his milk is first received in a pool plant the quantity of such producer's milk diverted shall not exceed the quantity received in a pool plant. Milk picked up at a producer's farm in a tank truck, to the extent it is unloaded at a nonpool plant, shall be subject to the conditions specified in this paragraph and if the tank truck contains milk from more than one producer the quantity subject to the conditions specified in this paragraph shall be prorated over the total quantity of milk picked up at each producer's farm. Milk so diverted shall be considered as received at the pool plant from which diverted in calculating the percentages specified in § 1030.11. The location price differentials pursuant to § 1030.82 shall be based on the zone location of the nonpool plant(s) where such milk is physically received, except in the case of a distributing plant, diverted milk of a producer shall be priced at the location of such plant if during the month not more than 4 days' production of such producer is diverted, or if the diverted milk is part of a tank truckload of milk that exceeds the milk storage capacity in such distributing plant. Diverted milk shall be limited as follows:

(1) Milk of a producer diverted for the account of the operator of the plant from which such milk is diverted in any of the months August through December which does not exceed the quantity of such producer's milk received in the pool plant;

(2) Milk of a producer diverted by a cooperative as a handler pursuant to § 1030.13(d) may not in any of the months August through December exceed the quantity of such producer's milk received in the pool plant from which it was diverted. To the extent that milk diverted by a cooperative as a handler during any month would result in the plant failing to qualify as a pool plant under § 1030.11 such diverted milk shall not be producer milk;

(3) Milk diverted to an other order plant shall be producer milk pursuant to this section only if it is not producer milk under such other order; and

(4) Milk of a producer diverted by a handler who fails to report the information required pursuant to § 1030.31(b)(4) shall not be considered producer milk pursuant to this paragraph.

5. In § 1030.30 subparagraph (3) of paragraph (a) is revised to read as follows:

§ 1030.30 Reports of receipts and utilization.

• • • • • •

(a) • • •

(3) Fluid milk products received from pool plants of other handlers (or other pool plants, as applicable), including a separate statement of the net receipts from each supply plant computed pursuant to § 1030.11(b)(5), except during the months of January through July no such separate statement need be made if receipts from supply plants are from only plants that were pool plants during the prior months of August through December;

• • • • • •

6. The cross references to paragraphs (a–1), (b), (c), and (d) of § 1030.16 are changed to paragraphs (b), (c), (d), and (e), respectively, wherever they appear throughout the order (namely in §§ 1030.31(b)(3), 1030.41(b), 1030.45(c), 1030.70, and 1030.88).

MILK IN QUAD CITIES-DUBUQUE, AND CERTAIN OTHER MARKETING AREAS

Decision on Proposed Amendments to Marketing Agreements and to Orders

A public hearing was held upon proposed amendments to the marketing agreement and the order regulating the handling of milk in the Quad Cities-Dubuque, Cedar Rapids-Iowa City, North Central Iowa, and Des Moines, Iowa, marketing areas. The hearing was held, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice (7 CFR Part 900), at Moline, Ill., on April 13, 1971, pursuant to notice thereof issued on April 5, 1971 (36 F.R. 6593), and supplemental notice issued April 7, 1971 (36 F.R. 6833).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Regulatory Programs, on June 4, 1971, filed with the Hearing Clerk, U.S. Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision are hereby approved and adopted and are set forth in full herein, with the following modifications:

1. Under the heading "1. Class I price differentials" paragraph 21 is revised; three new paragraphs are inserted after paragraph 22.

2. Under the heading "3. The determination of which order should regulate a plant" paragraphs 1 and 16 are revised; a new paragraph is added after paragraph 17.

The material issues on the record of the hearing relate to:

1. Class I price differentials.

2. Location adjustments to the Class I and uniform prices.

3. The determination of which order should regulate a plant from which milk is distributed in more than one regulated market.

4. Whether an emergency exists to warrant the omission of a recommended decision and whether amendments should be made for a temporary period.

Findings and Conclusions

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Class I price differentials.* The Class I price differential under the Des Moines order should be reduced 5 cents. The Class I price differentials under the Quad Cities-Dubuque and Cedar Rapids-Iowa City orders should be increased 3 cents. No change should be made in the Class I price differential under the North Central Iowa order.

The Class I price differential under each of the orders is an amount added to the basic formula price to determine the Class I price. The basic formula price is the same under each order and consists of the average of the prices reported paid for manufacturing grade milk in the States of Minnesota and Wisconsin. The amounts of the Class I differentials (base zone), however, vary among the orders as follows: Des Moines, $1.45; Quad Cities-Dubuque, $1.30; Cedar Rapids-Iowa City, $1.30; and North Central Iowa, $1.25.

Three regulated handlers proposed various changes in the amounts of the Class I differentials under the orders. A Des Moines order handler proposed that the Des Moines order Class I differential be reduced 10 cents, to $1.35; and that the Quad Cities-Dubuque and Cedar Rapids-Iowa City differentials be increased 5 cents, to $1.35. Another handler, with a plant located in Des Moines and regulated under the Quad Cities-Dubuque order, proposed that the Des Moines, Quad Cities-Dubuque, and Cedar Rapids-Iowa City order differentials be changed to $1.39, and that the North Central Iowa order Class I differential be changed to $1.35. A Waterloo handler regulated under the North Central Iowa order proposed that the differential under that order be reduced 10 cents, to $1.15.

Proponent handlers contended that because of the extensive overlapping of milk procurement and sales areas of the handlers regulated under the various orders, the proposed change in the differentials is necessary to provide pricing equity among handlers under these orders.

The above proposals, and certain location adjustment proposals discussed hereinafter, were prompted primarily because of the pricing situation for handlers located in Des Moines. One handler there became regulated under the Quad Cities-Dubuque order beginning September 1970, because of a greater volume of distribution from the plant in that order marketing area than in the Des Moines marketing area. Prior to September 1970, the handler's sales accounts in the Quad Cities-Dubuque marketing area were served from another plant operated by the handler in Rock Island, Ill., at which bottling operations were discontinued. This handler distributes milk on routes throughout the marketing areas of all four of the above-mentioned orders plus the Kansas City market (which also has a Federal order). Des Moines handlers who are regulated under the Des Moines order also have milk distribution areas that encompass the Des Moines, Cedar Rapids-Iowa City, and North Central Iowa markets.

Handlers not located in Des Moines but regulated under the other Iowa orders have distribution patterns overlapping those of the Des Moines handlers. A handler in Waterloo, Iowa, and regulated under the North Central Iowa order has route sales in all four Iowa order markets. A handler in Cedar Rapids, Iowa, regulated under the Quad Cities-Dubuque order, has sales routes that overlap those of handlers regulated under each of the four orders. A handler located in Ottumwa, Iowa, regulated under the Des Moines order, has sales routes in the Des Moines, Cedar Rapids-Iowa City, and Quad Cities-Dubuque marketing areas.

The handlers indicated above compete not only with each other and with a number of handlers regulated under each of the four Iowa orders, but also with handlers regulated under the Southeastern Minnesota-Northern Iowa (Dairyland) and Chicago Regional Federal milk orders which have Class I price differentials lower than those under the Iowa orders. A Rochester, Minn., handler regulated under the Dairyland order, which has a Class I differential of $1.06, has milk distribution routes which extend into the North Central Iowa and Des Moines marketing areas. Another Dairyland regulated handler, in Austin, Minn., also distributes milk in the North Central Iowa marketing area. Three handlers regulated under the Chicago Regional order distribute milk in the Quad Cities-Dubuque marketing area. The plants of the Chicago Regional handlers are located in Huntley, Ill.; Beloit, Wis.; and Whitewater, Wis. The location adjustment provisions of the Chicago Regional order effect Class I differentials at these plants of $1.24, $1.18, and $1.18, respectively.

The milk supply area for the four Iowa markets consists of territory in 112 counties throughout most of Iowa (82 counties), southern Minnesota (14 counties), southwestern Wisconsin (10 counties), and northwestern Illinois (6 counties). There is widespread overlapping of the procurement areas of handlers regulated under each of the four Iowa orders. It is most intensive in the seven northeast Iowa counties of Tama, Benton, Black Hawk, Buchanan, Bremer, Fayette, and Winneshiek wherein milk from each county is supplied to handlers under all four orders. Milk produced in these seven counties plus the nine Iowa counties of Allamakee, Chickasaw, Clayton, Delaware, Dubuque, Howard, Linn, Jones, and Jackson accounted for 50.7 percent of the total supply on the four Iowa markets in December 1970. These 16 counties, all in northeast Iowa, constitute a large proportion of the present source of production for each of the Iowa markets and handlers under all four orders complete in this area for their supplies of milk.

The plants of the competing handlers, however, are situated at varying distances from this major portion of the supply. Waterloo, Iowa, is situated in the southwestern segment of thi. heavy production area of northeast Iowa. Four of the seven handlers regulated under the North Central Iowa order have plants in Waterloo. These plants are situated about 100 miles closer to this supply of milk than are plants in Des Moines, which is situated in southcentral Iowa. The distance between Des Moines and Waterloo is 108 miles. The Des Moines order plant in Ottumwa, Iowa, is 125 miles south of Waterloo.

Cedar Rapids, Iowa City, and Quad Cities (Davenport, Iowa; and Rock Island, Moline, and East Moline, Ill.) are south of the northeast Iowa heavy production areas.

Milk production on the Iowa markets in counties south of Waterloo during December 1970 amounted to 36.6 million pounds while Class I use of handlers under the Des Moines, Cedar Rapids-Iowa City and Quad Cities-Dubuque orders amounted to 55.2 million pounds. Since virtually all of the Class I use

under these three orders is at plants located south of Waterloo and generally south of the aforementioned 16 northeast Iowa counties which account for 50 percent of the milk on the markets, such plants must rely on milk produced in these counties or in lower priced areas farther to the north for an adequate supply of milk.

Alternative supplies of milk could not be attracted from the higher priced markets to the south and west such as St. Louis, Kansas City, and Nebraska-Western Iowa.

Milk production on the Iowa markets in counties lying south and west of Waterloo, toward Des Moines, was 18.3 million pounds in December 1970, while Class I use under the Des Moines order was 22.5 million pounds. Consequently, Des Moines handlers must compete for a portion of the supply in northeast Iowa or beyond such area for an adequate supply. Since the aforementioned surplus production area in northeast Iowa and beyond is situated about 100 miles farther from Des Moines plants than plants in the vicinity of Waterloo, additional transportation costs are incurred in moving any of such supplies to Des Moines vs. delivery of such milk to Waterloo. At the rate of location adjustment in the Des Moines order 16 cents is allowed to transport milk the 108 miles from Waterloo to Des Moines. In this circumstance, a Class I price at Des Moines as much as 20 cents above the Class I price at Waterloo exceeds that necessary to attract an adequate supply for the Des Moines market in competition with handlers under the North Central Iowa order.

Milk production on the Iowa markets in counties south and east of Waterloo during December 1970 amounted to 19 million pounds while Class I use of handlers under the Cedar Rapids-Iowa City and Quad Cities-Dubuque orders amounted to 32.7 million pounds. Consequently, handlers under these orders must compete for a supply of milk in the northeast Iowa surplus production area.

Handlers in the Cedar Rapids-Iowa City and Quad Cities-Dubuque markets are located closer to the northeast Iowa supply than handlers in the Des Moines market, however. The greatest concentration of production in northeast Iowa is in Delaware and Dubuque counties wherein 18.2 million pounds of milk was produced for the Iowa markets in December 1970. Dyersville, Iowa, which is located in the center of this two-county area, is 174 miles from Des Moines and 98 miles from Davenport, or a difference of 76 miles. Independence, Iowa, in Buchanan County which is directly west of Delaware County, is 58 miles farther from Des Moines than Iowa City. Further north in this section of Iowa the difference in the distance to Des Moines versus Davenport becomes less. For example, Decorah, Iowa, in Winneshiek County is only 7 miles farther from Des Moines than Davenport.

In the above circumstance a somewhat higher price needs to be maintained at Des Moines than in the Cedar Rapids-Iowa City and Quad Cities areas to enable Des Moines handlers to compete for milk supplies in northeast Iowa. About one-half of the milk supplies in the northeast Iowa counties is situated up to 50 miles farther from Des Moines handlers' plants than from most handlers' plants in the Cedar Rapids-Iowa City and Quad Cities areas. A difference in price of 7 cents should enable Des Moines handlers to compete effectively for milk supplies so situated in the northeast Iowa production area. As indicated hereinbefore, an adequate supply of milk for the Des Moines market relative to the North Central Iowa market is reasonably assured from present sources of production if the Class I price is maintained 15 cents above the North Central Iowa Class I price, rather than the present 20 cents.

The availability of milk supplies for the Des Moines market from southern Minnesota also supports the reduction in the Des Moines Class I price differential. The northern Iowa and southern Minnesota portion of the supply area for the Iowa markets overlaps most of the supply area and marketing area of the Dairyland order. A large and an increasing volume of Grade A milk is available in such territory.

The Class I price differential under the Des Moines order is 39 cents above the Class I differential under the Dairyland order. The Dairyland market covers territory in northern Iowa and southern Minnesota. The distances from Des Moines, Iowa, to Austin and Rochester, Minn., the locations of the two plants regulated under the Dairyland order which distribute milk south into Iowa, are about 155 miles and 210 miles, respectively. The location adjustment under the Des Moines order would amount to 24 cents at Austin and 31½ cents at Rochester, which amounts are significantly less than the 39-cent difference in the Class I differentials between the markets. One Des Moines handler testified that he has been offered milk from a Dairyland source at a transportation cost of 30 cents.

The North Central Iowa market lies between the Des Moines market and the Dairyland market. The present Class I differential of $1.25 appropriately reflects the value of Class I milk delivered to plants in this market relative to the lower value of milk delivered to plants in the Dairyland market and relative to the higher value determined above for milk delivered to plants in Des Moines. The 19-cent higher Class I differential under the North Central Iowa order at Waterloo compared to the Class I differential at Rochester, Minn., under the Dairyland order closely reflects the cost of transporting available supplies of milk the 113 miles from Rochester to Waterloo.

In this circumstance proposals to change the North Central Iowa Class I price differential should be denied.

The Class I price differentials under the Quad Cities-Dubuque and Cedar Rapids-Iowa City orders should be set at the level needed to attract adequate milk supplies to handlers in these markets in competition with handlers in neighboring Iowa markets. It was concluded hereinbefore that the Class I price level in these two markets should be maintained at least 7 cents below the Class I price level for the Des Moines market and that the Des Moines price be maintained 15 cents above the North Central Iowa Class I price, to enable handlers in all four markets to effectively compete for present supplies of milk in northeast Iowa. Moreover, since such supplies in northeast Iowa are the most economical source of milk for the several markets, any adjustments to prices under these orders at this time should maintain present aggregate returns to producers serving the four markets to the extent such can be accomplished in the context of maintaining the interorder price relationships determined appropriate hereinbefore.

In these circumstances, it is concluded that the Des Moines Class I differential should be reduced 5 cents and the Class I differential under the Quad Cities-Dubuque and Cedar Rapids-Iowa City orders increased 3 cents. This will establish Class I prices for these markets that will reflect the relative costs of getting milk transported to the respective markets from the common production area of northeast Iowa. Because of the difference in cost of obtaining adequate supplies for the respective markets, the proposals to provide identical prices under the Des Moines, Cedar Rapids-Iowa City, and Quad Cities-Dubuque orders by reducing the Des Moines price and increasing the other two are denied.

Certain cooperatives in exceptions to the above change in the Class I differentials among the orders contend that the use of the 1.5 cents per 10 miles hauling rate associated with distance between plant locations, as provided in the orders, should not be relied on to reflect differences in farm to plant hauling costs that are associated with distance. They conclude that an exhibit in the record, No. 15, demonstrates that such costs exceed 1.5 cents per 10 miles. To the contrary, the exhibit supports the use of such rate for this purpose.

For example, it shows that producers located in Fayette County, Iowa, pay 7 cents per hundredweight more than producers located in Linn County, Iowa, to get their milk hauled to Cedar Rapids. Producers' Farms in Fayette County are about 50 miles farther from Cedar Rapids than producers' farms in Linn County. Fayette County is also about 50 miles farther from Des Moines than Linn County and the exhibit shows that producers in Fayeete County pay 7 cents more than producers in Linn County to get their milk hauled to Des Moines. The extra 7 cents paid to get milk hauled the extra 50 miles to market very closely reflects a rate of 1.5 cents per 10 miles.

The cooperative further except to the changes in the Class I differentials on the basis that they do not fully maintain the same aggregate returns to producers that the present differentials provide. To fully maintain such returns would necessitate a different set of price relationships among the orders than is hereinbefore concluded to be appropriate. Moreover, the magnitude of the reduction in returns to producers resulting from this decision when compared to the aggregate value of Class I milk pooled under these orders is very slight, 0.02 percent. This is significantly less than the amount of variation in returns from month to month due to the action of the basic formula price and/or changes in Class I utilization. Consequently, it is not expected that the net reduction in the Class I differentials will have any detectable impact on the availability of supply for the markets.

2. *Location adjustments to the Class I and uniform prices.* The location adjustment provisions of the Quad Cities-Dubuque order should be modified. At Quad Cities-Dubuque order plants located within the Des Moines marketing area the Class I and uniform prices should be adjusted by the amount (7 cents per hundredweight) that the Des Moines order Class I price will exceed the Quad Cities order Class I price. The same adjustment should apply to the Class I and uniform prices at plants located in the territory in Iowa south of U.S. Highway No. 80 and beyond 70 miles from the nearer of the City Hall, Rock Island, Ill., or the Post Office, West Liberty, Iowa.

Presently, the Quad Cities-Dubuque order establishes a minus location adjustment to the Class I and uniform prices at plants located outside both the marketing area and the Des Moines marketing area and beyond 70 miles from the nearer of the City Hall, Rock Island, Ill., or the Post Office, West Liberty, Iowa. Such adjustment is at the rate of 10 cents per hundredweight, plus 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 80 miles. A minus 10-cent location adjustment applies in Dubuque and Jackson Counties, Iowa, and in East Dubuque, Ill. Also a plus adjustment applies at a plant located in the Des Moines marketing area, in the amount that the Des Moines Class I price exceeds the Quad Cities Class I price.

Cooperative associations proposed that the Quad Cities-Dubuque order location adjustments at plants located outside the marketing area and beyond 60 miles from the nearer of the Rock Island and West Liberty basing points be plus amounts at plants located south of U.S. Highway No. 80, and minus amounts at plants located north of U.S. Highway No. 80, at the rate of 10.5 cents, plus 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 70 miles. Also, at any plant located south of U.S. Highway No. 80 the amount of the plus adjustment would be limited to any amount that the Des Moines Class I price exceeds the Quad Cities Class I price.

A handler located in Des Moines but regulated under the Quad Cities-Dubuque order, proposed that the Quad Cities-Dubuque order Class I and uniform prices at all plants outside the marketing area and beyond 70 miles from the nearer of the basing points be reduced by 10 cents, and by an additional 1.5 cents for each 10 miles or fraction thereof that such plant distance exceeds 80 miles.

The above-proposed modifications of the Quad Cities-Dubuque location adjustment provisions were directed mainly to effectuation of appropriate adjustments of Class I and uniform prices at plants located in the Des Moines marketing area and in the territory between the Des Moines and Quad Cities-Dubuque marketing areas. The proposal by the cooperatives would provide, at plants so located, a plus location adjustment, while the handler's proposal would provide a minus location adjustment.

Location adjustments reflect the difference in value of milk delivered by producers to another plant location as compared to its value delivered to the location (f.o.b. market) for which the basic price is announced under the order. In the case of the Quad Cities-Dubuque and Des Moines orders prices are announced for the largest population centers in the marketing area. The Quad Cities (Rock Island, Davenport, Moline, and East Moline) and Des Moines are the largest population centers in the respective markets and no adjustments to prices under the respective orders apply at such locations.

Because whole milk is bulky, the cost of transporting it from one location to another is significant relative to its price. The production of milk frequently takes place at a substantial distance from the population center where it is processed and consumed. In some instances, the milk is received at a country receiving plant and then moved to the city bottling plant, and frequently it is moved from surplus production areas to areas of deficit production where needed for Class I use. The cost of moving milk in these circumstances gives rise to different values of milk at different plant locations where the milk is received from producers' farms.

In northeast Iowa there are plants serving the Des Moines and Quad Cities markets. Location adjustments are provided under the orders which reduce the Class I price to the handler at such plant locations to compensate for the cost he incurs in moving milk to the centers of population. Accordingly, in this situation the location adjustments recognize the cost associated with distance for transporting milk for bottling purposes from a plant in this main supply area to plants in the population centers. If milk is moved to one of these centers from any other distance supply area, the location value relative to the market likewise is recognized through the location adjustment provisions.

The location adjustment on the uniform, or blend, price to the producer, at the same rate as to the handler, is applicable when the producer delivers to the plant location in the supply area rather than to the city bottling plant at a greater distance from his farm. If he actually delivers his milk to the city plant at his own hauling cost, he is compensated by receiving the uniform price announced at the city location. If he does not, the location value of his milk is less by the amount allowed the handler for transporting milk from the country plant location to the city bottling plant and this is reflected in his uniform, or blend, price.

In competing markets with market-wide pooling there is strong tendency for available supplies to gravitate to the respective market pools in a way that tends to equalize the net return to producers under both orders at overlapping supply locations. Since the supply area for the Des Moines market overlaps the supply area for the Quad Cities market in northeast Iowa, the net return to producers under the two orders tend to equate in such supply area. If the distance from such common supply area to the respective population centers is different, it follows that the cost to the producer for transporting milk to the respective centers also will be different.

This difference is reflected in the higher Class I differential fixed for the more distant center of population. It also is reflected in the total amount of location adjustment under the two orders applicable at a given point in the supply area, since the rate of adjustment associated with distance is the same under both orders (1.5 cents per 10 miles). In this circumstance the Class I and uniform prices f.o.b. Des Moines will exceed the Class I and uniform prices f.o.b. Rock Island (the basing points for pricing under the respective orders) by the amount of the extra transportation cost in moving milk from the common supply area to Des Moines versus Rock Island.

Therefore, to assure that milk is delivered to a plant located in the Des Moines marketing area but regulated under the Quad Cities-Dubuque order, the Quad Cities-Dubuque order should provide a location adjustment at a plant in the Des Moines marketing area to reflect the higher value of milk delivered there versus delivery to the Quad Cities marketing area resulting from the difference in transportation cost in moving milk to the Des Moines marketing area location from the common supply area on which both markets depend as the nearest and most economical source of milk.

The determination of the value of milk delivered to the Des Moines market relative to the Quad Cities area, made hereinbefore, indicated a 7-cent higher value for milk delivered to Des Moines than to the Quad Cities Area. This 7-cent higher price in Des Moines should be reflected in the location adjustment provisions of the Quad Cities-Dubuque order in order that a plant located in the Des Moines marketing area but regulated under the Quad Cities order, and competing for a supply of milk to be delivered to the Des Moines location under the circumstances previously described, will be on the same price terms as a Des Moines order handler in competing for milk. By delivering his milk to the Des Moines location, whether the plant at Des Moines is regulated under the Des Moines order or under the Quad

Cities order, the producer performs the same economic service to the handler, i.e., the delivery of his milk at the cost necessary to get it to that location.

A Quad Cities order handler located in Des Moines contend in its brief that a minus location adjustment under the Quad Cities order should apply at Des Moines to reflect the cost of moving milk from there to the Quad Cities marketing area. The handler pointed out that a minus 19-cent location adjustment applied to its Des Moines plant in September 1970 when it first shifted regulation from the Des Moines order to the Quad Cities-Dubuque order. The minus location adjustment provision was suspended immediately for the month of October 1970, however, and the order was amended effective November 1970 to provide a plus location adjustment in the amount that the Des Moines Class I price exceeded the Quad Cities-Dubuque Class I price.

A minus location adjustment normally is appropriate at a plant that is located closer to the source of supply for a market as compared to plants in the marketing area. In the instance of the Des Moines plant regulated by the Quad Cities order, this is not the situation. As previously described, Des Moines is farther from the main production center and plants in Des Moines, whether regulated under one order or the other, will not be fully supplied unless the full cost of delivery from a country supply plant, or directly by the producer in the principal production area for these markets is compensated for in the producer's price.

Des Moines is in a relatively deficit area of production and the producer should be compensated for whatever extra expense is involved for him to deliver to such location as compared to an alternative market outlet such as the Quad Cities or North Central Iowa market. While the supply service performed by the producer for the handler is essentially the same kind of service in each case, the cost to him of supplying plants located at Des Moines is somewhat higher than for the other markets.

The provision, not unusual in milk orders, for the regulation of a distributing plant on the basis of the market where it distributes the greatest proportion of its total milk receipts resulted in the regulation under the Quad Cities-Dubuque order of the above-referred-to plant located in the Des Moines marketing area. This occurred after a period of time when the plant was regulated under the Des Moines order on the basis of its having the greater amount of sales in that market. The operator of this plant contends that the plant should have the benefit of a lower price because it is under the Quad Cities order. While this plant has sales of milk in the lower priced Quad Cities area, such sales are a relatively small proportion of the total Class I sales from such plant. The plant also continues to have sales (as it had when it was a plant regulated by the Des Moines order) in the lower priced North Central Iowa market. It also sells in the higher priced Greater Kansas City market and in other areas, including the city of Des Moines. The producers at this plant must fulfill the need of milk for all such sales, not only for the relatively small proportion represented by his Quad Cities business.

The fact that a handler may sell some Class I milk in a lower priced market has no bearing on the cost to producers of serving him with a supply of milk to his plant. It is not unusual for handlers to sell in lower priced markets, as well as in higher priced markets. That is the handler's business decision but the fact that he does so, does not entitle him to pay producers less than their milk is worth considering the cost they incur in delivering to him at the plant location of his choice.

Accordingly, the price level at a Quad Cities order plant located in Des Moines should be adjusted to reflect the higher value of milk determined above to be reasonable, under the discussion of the Des Moines order price, for that location.

In view of the foregoing considerations, the handler's proposal for a minus location adjustment under the Quad Cities-Dubuque order at Des Moines is denied.

Actually, however, the plus adjustment is of more benefit to the handler than a minus adjustment, since the handler's net obligation to the producer-settlement fund for milk is less than it would be without the location adjustment. This is due to the application of the adjustment to the uniform price as well as the Class I price. The handler is charged the amount of the plus adjustment on his Class I volume but receives a credit at the plus adjustment rate on the total volume of his receipts of milk from producers plus any other source fluid milk products assigned to Class I use. Invariably total receipts exceed total Class I use, consequently the amount of the credit exceeds the amount of the Class I obligation attributable to the location adjustment.

With a minus location adjustment the total obligation to the producer-settlement fund would be greater than it would be with no adjustment since the reduction in the credit on the volume of receipts would amount to more than the reduction in the obligation on the Class I volume. Moreover, it is reasonable to expect that the handler would have to pay the higher Des Moines order competitive price to attract a milk supply to his plant location.

The present location adjustment provisions of the Quad Cities order provide minus amounts in all territory outside the marketing area and outside the Des Moines marketing area and beyond 70 miles from the nearer of the Rock Island and West Liberty basing points. A portion of such territory is the unregulated territory in Iowa near the eastern edge of the Des Moines marketing area, specifically Davis County and portions of Van Buren, Lee, and Poweshiek counties. Although there are no presently regulated plants so situated, it is inconsistent to have a minus location adjustment in such territory when a plus adjustment of 7 cents would apply just to the west within the Des Moines marketing area.

The cooperatives' proposal would apply a plus adjustment in such territory south of U.S. Highway No. 80, in the amount that the Des Moines Class I price exceeded the Quad Cities Class I price. U.S. Highway No. 80 crosses Iowa in an east-west direction through Davenport, Iowa City, and Des Moines.

The territory south of U.S. Highway No. 80 and beyond 70 miles from the West Liberty basing point is about the same distance from the northeast Iowa heavy production area as is Des Moines and Ottumwa (the two basing points for pricing under the Des Moines order). In this circumstance if a plant were located in such unregulated territory, but regulated under the Quad Cities-Dubuque order, the conditions of attracting a supply of milk to such a plant would be the same as for a plant within the Des Moines marketing area. It may be noted further that the price applicable in such area under the Des Moines order is the same as applies at Des Moines and Ottumwa.

Accordingly, a plus location adjustment under the Quad Cities order in the amount that the Des Moines Class I price exceeds the Quad Cities Class I price should apply in this territory as well as within the Des Moines marketing area.

Any minus location adjustment under the Quad Cities-Dubuque order should be limited to territory north of U.S. Highway No. 80, as proposed by the cooperatives. As found hereinbefore handlers whose plants are located in the vicinity of the Quad Cities, Iowa City, Des Moines, and Ottumwa logically compete for supplies of milk produced in the lower priced areas to the north in Iowa, Minnesota, Wisconsin, and northwestern Illinois. The territory south of U.S. Highway No. 80 is essentially deficit production territory relative to the area north of such highway. All markets to the south of the Iowa markets such as Central Illinois, Southern Illinois, St. Louis-Ozarks, and Kansas City have Class I and uniform prices that exceed the Quad Cities-Dubuque order Class I and uniform prices. Consequently, any supplies of milk situated in Iowa to the south of U.S. Highway No. 80 in the vicinity of the Quad Cities, Iowa City, Des Moines, and Ottumwa have at least as high a value as the prices f.o.b. these respective cities. Milk supplies south of U.S. Highway No. 80 in Illinois, Missouri, and Nebraska are attracted to the higher priced markets in those States and thereby are not available at a price less than is fixed f.o.b. the Quad Cities area. Accordingly, the Quad Cities-Dubuque order location adjustment should be reduced in only that territory north of U.S. Highway No. 80.

The location adjustment under the North Central Iowa order for Zone 2 should be increased 3 cents. Zone 2 consists of the Iowa counties of Marshall, Tama, Linn, and Johnson. Cedar Rapids is located in Linn County and Iowa City is located in Johnson County. To assist in getting an adequate supply of milk to any North Central Iowa order plants at such locations, the 3-cent increase in the Cedar Rapids-Iowa City order Class I differential hereinbefore concluded to be appropriate should also be reflected at such locations under the North Central Iowa order. A plant in Marshalltown, Iowa, regulated under the North Central Iowa order is in Marshall County. Marshalltown is 48 miles northeast of Des Moines and 60 miles southwest of Waterloo. An 8-cent plus differential in this area under the North Central Iowa order will appropriately reflect the higher value of milk delivered to Marshalltown vs. Waterloo, and the lower value of milk delivered there relative to Des Moines.

There were additional proposals published in the notice dealing with matters related to location adjustments, such as; the addition of the Iowa counties of Clayton and Delaware to the minus 10-cent location adjustment zone under the Quad Cities-Dubuque order, and location adjustment credits on transfers of milk between pool plants. Proponents indicated they intend to offer testimony on such proposals later in conjunction with their recent request for a hearing on proposed expansion of the marketing area. Accordingly, no action is taken on this record with respect to such proposals.

3. *The determination of which order should regulate a plant.* The provisions of the Quad Cities-Dubuque order that relate to a distributing plant that simultaneously meets the pooling requirements of the order and also those of another order should be revised. Specifically, the plant should remain regulated under the Quad Cities-Dubuque order until after the third consecutive month in which it remained qualified but had a greater proportion of its sales of fluid milk products in another regulated marketing area and also qualified as a pool plant under the other order. Furthermore, such provisions should accommodate the reciprocal situation where a distributing plant that has a greater proportion of its sales in the Quad Cities market than in another order's marketing area is, nevertheless, subject to the lock-in provisions of another order.

The corresponding provisions of the Des Moines order should be revised in the same manner as those of the Quad Cities-Dubuque order. No proposals were under consideration at the hearing with respect to such type of provision for the Cedar Rapids-Iowa City or North Central Iowa orders.

The Quad Cities-Dubuque and Des Moines orders presently provide that a plant that is fully subject to the pricing and payment provisions of another order and distributes a greater proportion of its Class I milk in such other market shall be exempt for the month from all but the reporting provisions of the respective orders.

A fully regulated handler under the Quad Cities-Dubuque order and a cooperative association representing the majority of producers associated with such order proposed that the "lock-in" provision be added to both the Des Moines and Quad Cities-Dubuque orders.

Proponents stated that currently neither producer organizations nor handlers can determine until the following month under which order a plant is qualified for pooling. They contended that in the past this has created uncertainty and abrupt changes in prices for producers and handlers alike.

The handler proponent said that the loss or acquisition of a chain store or school milk contract by a handler, usually representing a sizable volume of milk, makes the inclusion of a lock-in provision in both the Des Moines and Quad Cities-Dubuque orders necessary if disruptive marketing conditions are to be avoided. Such an occurrence could change a plant's pattern of distribution and ultimately result in its being regulated under another order.

Proponent handler stated that its plant faces the likelihood of becoming regulated under the Kansas City order in the near future. This, it was concluded, would come about primarily because of the plant's loss of Class I sales on school milk contracts in the Quad Cities-Dubuque market.

If the loss of these school milk sales during the summer months causes this particular plant to become regulated under the Kansas City order, it likely will disrupt milk procurement operations for the handler, because the producers presently supplying this plant will be unable to obtain full "bases" under the Kansas City order base-excess plan since their milk would have been delivered to other plants during part of the September-December base-forming period.

The cooperative association witness stated that a lock-in provision would provide needed supply and price stability to the Quad Cities-Dubuque market. As evidence of the need for more market stability, this witness cited several instances during 1970 when shifts in regulation of plants had had a sharp impact on the Quad Cities-Dubuque market.

For example, a sizable plant at Des Moines, previously regulated under the Des Moines order, became regulated under the Quad Cities-Dubuque order in September 1970, after bottling operations at the Rock Island, Ill., plant of the same handler were transferred to the Des Moines plant.

A distributing plant located in Cedar Rapids, Iowa, shifted regulation from the Quad Cities-Dubuque order to the North Central Iowa order for the months of May, June, and July 1970 because it failed to meet the minimum pool distributing plant qualification requirements of the Quad Cities-Dubuque order.

A distributing plant located at Ottumwa, Iowa, and a supply plant at Cresco, Iowa, also experienced a change of regulation when during May 1970 they became regulated under the Quad Cities-Dubuque order after being regulated previously under the Des Moines order.

Since the Des Moines and Quad Cities-Dubuque markets are moderate in size, the introduction or loss of sizable supplies or Class I sales can have significant impact on producer returns.

The aforementioned instances of plants shifting in and out of the Quad Cities-Dubuque and Des Moines orders sufficiently demonstrate the need for provisions that will minimize such occurrences in the future. Such provisions also would provide adequate forewarning that a shift in a plant's regulation was imminent. However, these provisions should not provide continued regulation to a plant that does not meet the pool plant qualification provisions of the Quad Cities-Dubuque order during any month that such plant would otherwise be locked-in. Not requiring a plant to qualify creates the potential for abuse of the order by associating unlimited supplies of milk with a plant which could result in distortions to the detriment of producers regularly supplying the market.

The lock-in provision should provide that the Quad Cities-Dubuque order continue to regulate a plant until after the third consecutive month in which it remained qualified but had a greater proportion of its sales in the marketing area of another order. For the 3-month lock-in period, the other order, however, must permit the plant to be pooled by the Quad Cities-Dubuque order in which market it has the lesser portion of its sales. If the other order does not have such a complementary pooling provision, but requires that the plant be pooled under that order, the plant should be exempt from all but the reporting provisions of the Quad Cities-Dubuque order.

For the Quad Cities-Dubuque order to be complementary to orders with similar provisions, it should exempt from full regulation any plant with more fluid milk sales in the marketing area than in another marketing area but which is subject to full regulation under the other order. This should apply also to any plant which continues to be regulated under another order under a similar provision while having a greater proportion of its fluid milk product disposition in the Quad Cities marketing area. Additional amendatory language is incorporated to effect this feature of the lock-in provisions.

A similar proposal was made for the Des Moines order and should be adopted. If such were not provided, a plant which normally would be locked-in under the Quad Cities-Dubuque order could, on the basis of its Class I distribution in the Des Moines marketing area for 1 month, become regulated under the Des Moines order. Further, a distributing plant normally regulated under the Des Moines order shifted regulation to the Quad Cities-Dubuque order for the month of May 1970.

The pool plant definition of the Des Moines order should be modified by providing a cross reference to the lock-in provision adopted.

4. *Emergency action and amendment for a temporary period. Request for emergency action.* The issuance of a recommended decision and opportunity to file exceptions thereto should be provided on the issues of this hearing.

On the basis of emergency conditions alleged by petitioners for the hearing, the hearing notice specified that evidence would be received on whether the recommended decision should be omitted.

Several witnesses requested prompt action on their proposals and specifically requested that the recommended decision be omitted. However, a substantial number of the briefs filed opposed the omission of a recommended decision.

The amendments concluded to be appropriate in this decision would reduce the Des Moines order Class I price differential 5 cents; increase the Quad Cities-Dubuque and Cedar Rapids-Iowa City Class I price differentials 3 cents; modify the location adjustment provisions of the Quad Cities-Dubuque order and North Central Iowa order; and provide a pool plant "lock-in" provision for the Des Moines and Quad Cities-Dubuque orders that would allow a distributing plant to continue to be regulated under the particular order until after the third consecutive month in which it remained so qualified but had greater sales in another regulated marketing area.

Alternatives to these amendments were proposed and interested persons, therefore, should be given an opportunity to file exceptions thereto.

Amendment for a temporary period. The amendments concluded to be appropriate in this decision should not specify a temporary period of application.

Certain proposals dealing with the merger of the Des Moines and Cedar Rapids-Iowa City orders and the marketing area expansion of the Quad Cities-Dubuque order were submitted for consideration at the hearing but were omitted from the hearing notice because of the claimed emergency nature of the hearing. The hearing notice stated that evidence would be received on whether the amendments should be made for a temporary period.

Witnesses testified that a hearing should be held in the near future to consider merger and marketing area expansion proposals. Furthermore, the same sentiment was expressed in the briefs filed.

In these circumstances, no purpose would be served by setting an expiration date on the amendments contained herein.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach new conclusions are denied for the reasons previously stated in this decision.

Two offers of proof were made, one with respect to a petition for suspension action and one with respect to a research report. These offers have been reviewed and the action taken on them by the presiding officer is hereby affirmed for the reasons stated by such officer on the record of the hearing.

General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of each of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

The following findings are hereby made with respect to each of the aforesaid tentative marketing agreements and orders:

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on Exceptions

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing Agreement and Order

Annexed hereto and made a part hereof are two documents, a Marketing Agreement regulating the handling of milk, and an Order amending the orders regulating the handling of milk in the aforesaid specified marketing areas, which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which is published with this decision.

Determination of Producer Approval and Representative Period

April 1971 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the orders, as amended and as hereby proposed to be amended, regulating the handling of milk in the aforesaid specified marketing areas, are approved or favored by producers, as defined under the terms of each of the orders, as amended and as hereby proposed to be amended, and who, during such representative period, were engaged in the production of milk for sale within the respective marketing areas.

Signed at Washington, D.C., on August 6, 1971.

RICHARD E. LYNG,
Assistant Secretary.

Order[1] Amending the Orders, Regulating the Handling of Milk in Certain Specified Marketing Areas:

Findings and Determinations

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of each of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

The following findings are hereby made with respect to each of the aforesaid orders:

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the aforesaid specified marketing areas. The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in each of the specified marketing areas shall be in conformity to and in compliance with the terms and conditions of each of the orders, as amended, and as hereby amended, as follows:

The provisions of the proposed marketing agreements and order amending each of the orders contained in the recommended decision issued by the Deputy Administrator, Regulatory Programs, on June 4, 1971, and published in the FEDERAL REGISTER on June 10, 1971, shall be and are the terms and provisions of this order, amending the orders, and are set forth in full herein with the following modifications: Revisions are made in § 1063.61 of the Quad Cities-Dubuque order and § 1079.61 of the Des Moines order. Section 1079.10 of the Des Moines order is revised.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

PART 1063—MILK IN THE QUAD CITIES-DUBUQUE MARKETING AREA

1. In § 1063.52, subparagraphs (2) and (3) of paragraph (a) are revised to read as follows:

§ 1063.52 Location adjustments to handlers.

(a) • • •

(2) At a plant located outside the marketing area, north of U.S. Highway No. 80, and, except as provided in subparagraph (3) of this paragraph, 70 miles or more, by the shortest hard-surfaced highway distance as determined by the market administrator, from the nearer of the City Hall, Rock Island, Ill., or the Post Office, West Liberty, Iowa, subtract 10 cents and subtract an additional 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 80 miles; and

(3) At a plant located in that Iowa territory beyond 70 miles from the nearer of the City Hall, Rock Island, Ill., or the Post Office, West Liberty, Iowa, and south of U.S. Highway No. 80, or within the Des Moines, Iowa, marketing area as specified in Part 1079, add any amount by which the price specified in § 1063.50(b) is exceeded by the applicable Class I price at the same location pursuant to Part 1079 regulating the handling of milk in the Des Moines, Iowa, marketing area.

• • • • • •

2. In § 1063.61 paragraph (a) is revised to read as follows:

§ 1063.61 Plants subject to other Federal orders.

• • • • • •

(a) A distributing plant, a supply plant or a plant otherwise qualified as a pool plant pursuant to § 1063.10(c) during any month in which such plant would be subject to the classification and pricing provision of another order issued pursuant to the Act unless the disposition of fluid milk products, except filled milk, from such plant to pool plants qualified under § 1063.10 and to retail and wholesale outlets in the Quad Cities-Dubuque marketing area exceeds such disposition to retail and wholesale outlets in such other marketing area and to pool plants regulated by such other order except in the following circumstances:

(1) If a distributing plant were qualified pursuant to § 1063.10(a) during each of the three immediately preceding months, it would continue to be subject to all the provisions of this part until after the third consecutive month in which it remains so qualified and has a greater proportion of its fluid milk product disposition, except filled milk, made in the above described manner in such other marketing area, unless, notwithstanding the provisions of this paragraph, it is regulated under such other order; or

(2) A distributing plant qualified pursuant to § 1063.10(a) that is fully regulated under another Federal order but which has greater fluid milk product (except filled milk) disposition during the month on routes in the Quad Cities-Dubuque marketing area and to pool plants qualified on the basis of route distribution in the Quad Cities-Dubuque marketing area than in such other Federal order marketing area.

• • • • • •

3. Revise § 1063.50(b) to read as follows:

§ 1063.50 Basic formula and class prices.

• • • • • •

(b) The Class I milk price shall be the basic formula price for the preceding month plus $1.13, and plus 20 cents.

• • • • • •

PART 1070—MILK IN THE CEDAR RAPIDS-IOWA CITY MARKETING AREA

Revise § 1070.50(b) to read as follows:

§ 1070.50 Basic formula and class prices.

• • • • • •

(b) The Class I milk price shall be the basic formula price for the preceding month plus $1.13, and plus 20 cents.

• • • • • •

PART 1078—MILK IN THE NORTH CENTRAL IOWA MARKETING AREA

Revise § 1078.52(a)(1) to read as follows:

§ 1078.52 Location differentials to handlers.

(a) • • •

(1) Zone 2 amount, plus 8 cents. Zone 2 means all the territory in the Iowa counties of Marshall, Tama, Linn, and Johnson.

• • • • • •

PART 1079—MILK IN THE DES MOINES, IOWA, MARKETING AREA

1. Revoke § 1079.17 *Base zone.*

2. Revise § 1079.50(b) to read as follows:

§ 1079.50 Basic formula and class prices.

• • • • • •

(b) The Class I milk price shall be the basic formula price for the preceding month plus $1.20 and plus 20 cents.

3. Revise § 1079.52(a) to read as follows:

§ 1079.52 Location differentials to handlers.

(a) For producer milk received at a plant located outside the marketing area, and 60 miles or more by the shortest hard-surfaced highway distance, as measured by the market administrator from the main post offices of Des Moines and Ottumwa, Iowa, which is classified as Class I or assigned Class I location adjustment credit pursuant to paragraph (b) of this section and for other source milk for which a location adjustment is applicable, the price specified in § 1079.50(b) shall be reduced 10 cents, and shall be reduced an additional 1.5 cents for each 10 miles or fraction thereof in excess of 75 miles from the designated post offices.

• • • • • •

4. In § 1079.61, paragraph (a) is revised to read as follows:

§ 1079.61 Plants subject to other Federal orders.

• • • • • •

(a) A distributing plant or a supply plant during any month in which such plant would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless the disposition of fluid milk products, except filled milk, from such plant to pool plants qualified under § 1079.10 and to retail and wholesale outlets in the Des Moines, Iowa, marketing area exceeds such disposition to retail and wholesale outlets in such other marketing area and to pool plants regulated by such other order except in the following circumstances:

(1) If a distributing plant were qualified pursuant to § 1079.10(a) during each of the 3 immediately preceding months, it would continue to be subject to all the provisions of this part until after the third consecutive month in which it remains so qualified and has a greater proportion of its fluid milk product disposition, except filled milk, made in the above-described manner in

such other marketing area, unless, notwithstanding the provisions of this paragraph, it is regulated under such other order; or

(2) A distributing plant qualified pursuant to § 1079.10(a) that is full regulated under another Federal order but which has greater fluid milk product (except filled milk) disposition during the month on routes in the Des Moines marketing area and to pool plants qualified on the basis of route distribution in the Des Moines marketing area than in such other Federal order marketing area.

5. Revise § 1079.10 to read as follows:

§ 1079.10 Pool plant.

"Pool plant" means a plant described in paragraph (a) or (b) of this section except as provided in §§ 1079.60 and 1079.61: *Provided*, That if a portion of a plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

(a) A distributing plant from which a volume of Class I milk, except filled milk, equal to not less than 35 percent of the Grade A milk received at such plant from dairy farmers and from other plants is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) and not less than 15 percent of such receipts or an average of not less than 7,000 pounds per day, whichever is less, is so disposed of to such outlets in the marketing area.

(b) A supply plant from which the volume of fluid milk products, except filled milk, shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is equal to not less than 35 percent of the Grade A milk received at such plant from dairy farmers during such month: *Provided*, That if such shipments are not less than 50 percent of the receipts of Grade A milk directly from dairy farmers at such plant during the immediately preceding period of September through November, such plant shall be a pool plant for the months of March through June, unless written application is filled with the market administrator on or before the 15th day of any of the months of March, April, May, or June to be designated a nonpool plant for such month and for each subsequent month through June of the same year.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 6745]

HAWKER SIDDELEY MODEL DH-114 "HERON" AIRPLANES

Proposed Airworthiness Directive

Amendment 39-128 (30 F.R. 11030), AD 65-20-3, requires periodic X-ray inspection of Hawker Siddeley Model DH-114 "Heron" airplanes that do not incorporate Modification No. 1529 for internal corrosion of the tubular structure of engine mounting frames, P/N's 14EM-11A and 12A, with serial numbers DHB/1 and subsequent, or with serial numbers prefixed by "DH/ • • •". Based on service experience since the issuance of Amendment 39-128, the FAA has determined that internal corrosion of the tubular structure may also develop on engine mounting frames, P/N's 14EM11A and 12A, that incorporate Modification No. 1529 or that have been manufactured to the standards of Modification No. 1529 (which are identified by serial numbers prefixed by "S4/DHB • • •" or "BGB/DHB • • •"). Therefore, the FAA is considering superseding Amendment 39-128, AD 65-20-3, with a new AD that would continue the repetitive X-ray inspection requirements of Amendment 39-128, AD 65-20-3, for the tubular structure of engine mounting frames, P/N's 14EM-11A and 12A, with serial numbers DHB-1 and subsequent, or with serial numbers prefixed by "DH/ • • •", that do not incorporate Modification No. 1529, and that that would require repetitive X-ray inspections of the tubular structure of engine mounting frames, P/N's 14EM-11A and 12A, that incorporate Modification No. 1529, or that have been manufactured to the standards of Modification No. 1529.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20590. All communications received on or before September 10, 1971, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

HAWKER SIDDELEY. Applies to Hawker Siddeley Model DH-114 "Heron" Airplanes. Compliance is required as indicated.

To prevent hazardous internal corrosion of the tubular structure of engine mounting frames, P/N's 14EM11A and 12A, accomplish the following:

(a) For airplanes with engine mounting frames with serial numbers DHB/1 and subsequent, or with serial numbers prefixed by "DH/ • • •", that do not incorporate Modification No. 1529, within 4 years after the effective date of this AD, unless already accomplished within the last 4 years, and thereafter at intervals not to exceed 4 years from the last inspection, conduct an X-ray inspection of the tubular structure of the engine mounting frame, P/N's 14EM11A and 12A, for internal corrosion in accordance with Hawker Siddeley Aviation Ltd. Technical News Sheet Series: Heron (114) No. E.3, Issue 1, dated August 24, 1964, or Issue 3, dated September 14, 1970, or later ARB-approved issue or FAA-approved equivalent.

(b) For airplanes with engine mounting frames with Serial Nos. DHB/1 and subsequent, or with serial numbers prefixed by "DH/ • • •", that incorporate Modification No. 1529, within 4 years after the date of incorporation of the modification, or within 1 year after the effective date of this AD, whichever occurs later, and thereafter at intervals not to exceed 4 years from the last inspection, conduct an X-ray inspection of the tubular structure of the engine mounting frames, P/N's 14EM11A and 12A, for internal corrosion in accordance with Hawker Siddeley Aviation Ltd. Technical Sheet Series: Heron (114) No. E.3, Issue 3, dated September 14, 1970, or later ARB-approved issue or FAA-approved equivalent.

(c) For airplanes with engine mounting frames with serial numbers prefixed by "S4/DHB • • •" or "BGB/DHB • • •" (manufactured to the standards of Modification No. 1529), within 10 years from the date of manufacture, and thereafter at intervals not to exceed 4 years from the last inspection, conduct an X-ray inspection of the tubular structure of the engine mounting frames, P/N's 14EM11A and 12A, for internal corrosion in accordance with Hawker Siddeley Aviation Ltd. Technical News Sheet Series: Heron (114) No. E.3, Issue 3, dated September 14, 1970, or later ARB-approved issue or FAA-approved equivalent.

NOTE: See Hawker Siddeley Technical News Sheet Series: Heron (114), No. E.3, Issue 3, dated September 14, 1970 for dates of engine mount manufacture.

(d) If internal corrosion is found during an inspection required by paragraph (a), (b), or (c), before further flight replace or repair the engine mounting frame in accordance with Hawker Siddeley factory approved instructions or an equivalent approved by the Chief, Aircraft Certification Staff, FAA, Europe, Africa and Middle East Region, and continue to inspect in accordance with paragraph (a), (b), or (c) whichever is applicable.

Issued in Washington, D.C., on August 3, 1971.

R. S. SLIFF,
Acting Director,
Flight Standards Service.

[FR Doc.71-11558 Filed 8-10-71;8:52 am]

[14 CFR Part 71]

[Airspace Docket No. 71-NW-9]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Fort Lewis, Wash., control zone.

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 5651 West Manchester Boulevard, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 5651 West Manchester Boulevard, Los Angeles, CA 90045.

The control zone is currently designated part time; however, it is anticipated that various changes in effective times will be necessary due to night operations, military proficiency training, and use by commercial air carriers. In order to provide for these anticipated changes the Federal Aviation Administration proposes to provide for the use of the NOTAM method of changing the effective hours of the control zone.

In consideration of the foregoing, the FAA proposes the following airspace action:

In § 71.171 (36 F.R. 2055) the description of the Fort Lewis control zone is amended to read as follows:

FORT LEWIS, WASH.

Within a 5-mile radius of Gray AAF, Fort Lewis, Wash. (Latitude 47°04'55" N., longitude 122°34'55" W.), excluding the portions within the Tacoma, Washington (McChord AFB) control zone and the portion east of a line 2 miles west of and parallel to the McChord AFB VOR 182° radial. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on August 2, 1971.

LEE E. WARREN,
Acting Director, Western Region.

[Airspace Docket No. 71-WE-25]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Van Nuys, Calif., control zone.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 5651 West Manchester Avenue, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 5651 West Manchester Avenue, Los Angeles, CA 90045.

A review of the airspace requirements for Van Nuys Airport, California, has resulted in the development of a new instrument approach procedure (VOR/DME Rwy 16R) utilizing the 350° T (335° M) radial of the Van Nuys VOR/DME facility as the final approach radial.

In addition, the current ILS-08 and VOR radial 255 approach procedures have been designated as LDA-A and VOR-A respectively. These instrument approach procedures were reviewed in accordance with the United States Standard for Terminal Instrument Procedures and it was determined that control zone extensions were necessary. The control zone extensions are required to provide controlled airspace protection for aircraft executing the prescribed instrument procedures while operating below 1,000 feet above the surface.

In consideration of the foregoing, the FAA proposes the following airspace action.

In §71.171 (36 F.R. 2055) the description of the Van Nuys, California, control zone is amended to read as follows:

VAN NUYS, CALIF.

Within a 5-mile radius of Van Nuys Airport (latitude 34°12'30" N., longitude 118°29'15" W.) within 3 miles north and 3.5 miles south of the 270° radial of the Van Nuys VOR/DME facility extending from the 5-mile-radius zone to 11.5 miles west of the facility, within 2.5 miles each side of the 350° radial of the Van Nuys VOR/DME facility extending from the 5-mile-radius zone to 9.5 miles north of the facility, excluding the portion east of a line from latitude 34°16'00" N., longitude 118°25'55" W. to latitude 34°09'25" N., longitude 118°25'40" W.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on August 2, 1971.

LEE E. WARREN,
Acting Director, Western Region.

[Airspace Docket No. 71-NW-8]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Portland, Oreg., transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 5651 West Manchester Avenue, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the

Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 5651 West Manchester Avenue, Los Angeles, CA 90045.

On or about October 1, 1971, the Federal Aviation Administration proposes to establish a localizer to serve Rwy 20 at Portland International Airport for a test period of approximately 6 months. An instrument approach procedure has been developed utilizing the 045° T (024° M) bearing from the localizer antenna. The approach procedure also incorporates a 17 NM arc transition from the Portland VORTAC 345° M radial clockwise to the localizer course. The procedure turn is accomplished northeast of the Creek INT (INT of localizer course and 054° M radial of Portland VORTAC). Additional 1,200-foot transition area is required to provide controlled airspace protection for aircraft executing the arc transition and procedure turn.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.181 (36 F.R. 2140) the description of the Portland, Oreg., transition area is amended as follows: In the 1,200-foot portion of the transition area after "• • • V–112, • • •" insert "• • • that airspace N of Portland within arcs of 30- and 38.5-mile-radius circles centered on Portland International Airport extending clockwise from the east edge of V–23 to the northwest edge of V–448 • • •"

In the 6,500-foot MSL portion of the transition area after "• • • That airspace north of Portland extending from the • • •" delete "• • • 30-mile-radius area • • •" and insert "• • • 38-mile-radius arc • • •" therefor.

In the 8,500-foot MSL portion of the transition area delete "• • • 30-mile-radius area • • •" and insert "• • • 38-mile-radius arc • • •" therefor.

In the 11,500-foot MSL portion of the transition area after "• • • 11,500 feet MSL • • •" insert "• • • Northeast of Portland extending from the 38.5-mile-radius arc • • •" therefor.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on August 2, 1971.

LEE E. WARREN,
Acting Director, Western Region.

[14 CFR Part 71]

[Airspace Docket No. 71–SO–78]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration (FAA) is considering amendments to Part 71 of the Federal Aviation Regulations that would alter the Key West, Fla., control zone and transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, South Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Post Office Box 20636, Atlanta, GA 30320. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20590. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As parts of these proposals relate to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since these actions involve, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

The airspace actions proposed in this docket would:

1. Amend the Key West, Fla., control zone to read as follows:

Within a 5-mile radius of Key West International Airport (lat. 24°33'22" N., long. 81°-45'35" W.); within 3 miles each side of the 268° bearing from Fish Hook RBN, extending from the 5-mile-radius zone to 8.5 miles west of the RBN; within 3 miles each side of Key West VORTAC 309° radial, extending from the 5-mile-radius zone to 8.5 miles northwest of the VORTAC; within a 5-mile radius of Key West NAS (Boca Chica) (lat. 24°34'30" N., long. 81°41'15" W.); within 3 miles each side of the 251° bearing from Key West NAS UHF RBN, extending from the 5-mile-radius zone to 11.5 miles west of the RBN.

2. The Key West, Fla., transition area would be amended to read as follows:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Key West International Airport (lat. 24°33'22" N., long. 81°45'35" W.); within 5 miles each side of Key West VORTAC 309° radial, extending from the 8.5-mile-radius area to 8.5 miles northwest of the VORTAC; within an 8.5-mile-radius of Key West NAS (Boca Chica) (lat. 24°-34'30" N., long. 81°41'15" W.).

The alterations of the control zone and transition area proposed herein are necessary to provide controlled airspace, specified by existing criteria, for aircraft executing instrument approach and departure procedures at Key West International Airport and Key West Naval Air Station.

These amendments are proposed under the authority of sections 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1510), Executive Order 10854 (24 F.R. 9565) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on August 5, 1971.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.71–11562 Filed 8–10–71;8:52 am]

[14 CFR Part 71]

[Airspace Docket No. 71–SO–83]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration (FAA) is considering amendments to Part 71 of the Federal Aviation Regulations that would alter the Fort Lauderdale, Fla., control zone and Miami, Fla., transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Post Office Box 20636, Atlanta, GA 30320. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20590. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As parts of these proposals relate to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since these actions involve, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

The airspace actions proposed in this docket would:

1. Amend the Fort Lauderdale, Fla., control zone to read as follows:

Within a 5-mile radius of Fort Lauderdale-Hollywood International Airport (lat. 26°04'25" N., long. 80°09'10" W.); within 3 miles each side of Fort Lauderdale VOR 084°, 276°, and 306° radials, extending from the 5-mile-radius zone to 8.5 miles east, west, and northwest of the VOR.

2. The Miami, Fla., transition area would be amended to read as follows:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Miami International Airport (lat. 25°47'35" N., long. 80°17'10" W.); within 3 miles each side of Runway 9L ILS localizer west course, extending from the 8.5 radius area to 8.5 miles west of Portland RBN; within 3 miles each side of Miami VORTAC 139° radial, extending from the 8.5-mile-radius area to the VORTAC; within 3 miles each side of Runway 27L ILS localizer east course, extending from the 8.5-mile-radius area to 8.5 miles east of Orange RBN; within 4.5 miles each side of Runway 27L ILS localizer west course, extending from the 8.5-mile-radius area to the Miami VORTAC 205° radial; within an 8.5-mile-radius of Opa Locka Airport (lat. 25°54'25" N., long. 80°16'50" W.), Homestead AFB (lat. 25°29'15" N., long. 80°23'00" W.), Tamiami Airport (lat. 25°38'50" N., long. 80°26'00" W.) and Fort Lauderdale-Hollywood International Airport (lat. 26°04'25" N., long. 80°09'10" W.); within a 6.5-mile radius of Fort Lauderdale Executive Airport (lat. 26°11'40" N., long. 80°10'15" W.).

The alterations of the control zone and transition area proposed herein are necessary to provide controlled airspace, specified by existing citeria, for aircraft executing instrument approach and departure procedures at Fort Lauderdale-Hollywood, Miami International, Opa Locka, Homestead AFB, Tamiami, and Fort Lauderdale-Executive Airports.

These amendments are proposed under the authority of sections 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1510), Executive Order 10854 (24 F.R. 9565) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on August 4, 1971.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.71–11563 Filed 8–10–71;8:52 am]

[14 CFR Part 71]

[Airspace Docket No. 71–SO–129]

FEDERAL AIRWAY SEGMENTS

Proposed Alteration

The Federal Aviation Administration (FAA) is considering amendments to Part 71 of the Federal Aviation Regulations that would alter segments of VOR Federal airways Nos. 39, 56, and 296.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Post Office Box 20636, Atlanta, GA 30320. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20590. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The airspace actions proposed in this docket would delete the maximum authorized altitude (MAA) restrictions on VOR Federal airways Nos. 39, 56, and 296 as follows:

1. V–39 between Myrtle Beach, S.C., and Fayetteville, N.C.

2. V–56 between Fayetteville, N.C., and New Bern, N.C.

3. V–296 between Fayetteville, N.C., and Wilmington, N.C. (Airspace Docket No. 71–SO–26, effective Aug. 19, 1971).

The maximum authorized altitudes were so designated to provide off-airway airspace for aerobatic maneuvers required by the U.S. Air Force mission at Seymour-Johnson AFB. The aerobatic maneuver area has been relocated; therefore, justification for retaining the maximum authorized altitudes no longer exists.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on August 4, 1971.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.71–11564 Filed 8–10–71;8:52 am]

[14 CFR Part 71]

[Airspace Docket No. 71-WE-41]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the San Jose, Calif., transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 5651 West Manchester Avenue, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 5651 West Manchester Avenue, Los Angeles, CA 90045.

The TACAN instrument approach procedures for Moffett NAS have been revised to provide for lower altitudes in the intermediate segment of the approach procedures. A review of the procedures utilizing the criteria outlined in the U.S. Standard for Terminal Instrument Procedures (TERPs) indicates a requirement for additional 700-foot transition area to provide controlled airspace protection for aircraft executing the prescribed instrument procedures while operating between 1,500 and 1,000 feet above the surface.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.181 (36 F.R. 2140) the description of the San Jose, Calif., transition area is amended as follows:

In the description of the 700-foot portion of the transition area delete all before "• • • within 2 miles each side of the San Jose ILS • • •" and substitute "That airspace extending upward from 700 feet above the surface within 5 miles each side of the Moffett TACAN 157° radial extending from the TACAN to 23 miles southeast of the TACAN • • •" therefor.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on August 2, 1971.

LEE E. WARREN,
Acting Director, Western Region.

[FR Doc.71-11565 Filed 8-10-71;8:53 am]

[14 CFR Part 75]

[Airspace Docket No. 70-EA-113]

AREA HIGH ROUTES

Proposed Designation

The Federal Aviation Administration (FAA) is considering an amendment to Part 75 of the Federal Aviation Regulations that would designate area navigation (RNAV) high routes to be used between John F. Kennedy International Airport, N.Y., and Montreal International Airport, Canada.

Interested persons may participate in the proposed rule making by submiting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submited in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 60 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20590. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

Amendments to Parts 71 and 75 of the Federal Aviation Regulations were published in the FEDERAL REGISTER on July 1, 1970 (35 F.R. 10653) which established regulatory basis for the designation of specific area high and area low routes. The area high routes proposed herein would provide properly equipped aircraft with an additional means of navigation between New York and Montreal, Canada.

If this action is taken, Part 75 of the Federal Aviation Regulations would be amended by designating the following area high routes:

Waypoint name	VOR/DME description	Geographical coordinates
		J988R
Belle Terre	HTO 294.0M/ 38.4 NM.	Lat. 41° 02′ 17″ N., long. 73°08′51″ W.
Cherry Plain	ALB 113.0M/ 22.5 NM.	Lat. 42°40′52″ N., long. 73°18′11″ W.
Chazy	MSS 097.3M/ 50.1 NM.	Lat. 45°00′20″ N., long. 73°33′11″ W.
		J987R
Frontier	PLB 303.0M/ 30.4 NM.	Lat. 44°57′35″ N., long. 74°05′34″ W.
Loon Lake	PLB 251.0M/ 40.9 NM.	Lat. 44°25′15″ N., long. 74°12′19″ W.
Countess	HNK 120.2M/ 71.2 NM.	Lat. 43°35′30″ N., long. 74°05′11″ W.
Empire	HNK 153.7M/ 95.7 NM.	Lat. 41°39′51″ N., long. 73°49′20″ W.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on August 3, 1971.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

Proposed Motor Vehicle Safety Standard

Correction

In F.R. Doc. 71-11090 appearing at page 14273 in the issue of Tuesday, August 3, 1971, the word "marketing" appearing in the second line of paragraph S1 of Motor Vehicle Safety Standard No. 120 under § 571.21 should read "marking".

ENVIRONMENTAL PROTECTION AGENCY

[18 CFR Part 615]

STATE CERTIFICATION OF ACTIVITIES REQUIRING FEDERAL LICENSE OR PERMIT

Notice of Proposed Rule Making

On May 8, 1971, there was published in the FEDERAL REGISTER the text of a new Part 615 to Title 18, Chapter V, setting forth procedures whereby applicants for Federal licenses or permits may comply with section 21(b) of the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1171(b). Under section 21(b), any applicant for a Federal license or permit to conduct any activity including, but not limited to, the construction or operation of facilities which may result in any discharge into the navigable waters of the United States, is required to provide the licensing or permitting agency a certification that there is reasonable assurance that such activity will be conducted in a manner which will not violate applicable water quality standards. This certification will in most instances be obtained from the States involved, although in certain situations specified in the statute it must be obtained from the appropriate interstate water pollution control agency or from the Environmental Protection Agency. Section 615.2(a) of the regulations sets forth those matters which the certification is required to include.

On April 7, 1971, there was published in the FEDERAL REGISTER a regulation establishing a program under which the Army Corps of Engineers will issue permits under the Refuse Act, 33 U.S.C. 407, for discharges into the navigable waters of the United States and tributaries. Under this regulation the Environmental Protection Agency is required to advise the Corps of Engineers with respect to water quality standards and related water quality considerations involved in applications for permits.

By reason of section 21(b) of the Federal Water Pollution Control Act, any applicant for a permit from the Corps of Engineers to discharge matter into the navigable waters of the United States must obtain a certification, in most instances from the State in which the applicant is located, as to compliance with water quality standards. In performing its duty under the permit program regulations to advise the Corps of Engineers with respect to water quality matters, the Environmental Protection Agency desires to place significant reliance on the State water quality certifications furnished pursuant to section 21(b) of the Federal Water Pollution Control Act. To this end, the Agency held numerous discussions with various State officials with a view to establishing cooperative arrangements to assist the States and to foster and encourage the Agency's reliance on the State certifications.

The Environmental Protection Agency believes that the State certifications will be more helpful to it in connection with its duties under the Corps of Engineers permit program if such certifications include, in addition to the material set forth in § 615.2(a) of the regulations published on May 8, 1971, a statement specifying the water quality standards that are considered to be applicable to the proposed discharge and that were taken into account in rendering the certification.

Accordingly, it is proposed to amend Part 615 of Title 18, Chapter V, by redesignating subparagraphs (4) and (5) of § 615.2(a) as subparagraphs (5) and (6), respectively, and by inserting the following immediately after subparagraph (3) of § 615.2(a):

§ 615.2 Contents of certification.

(a) • • •

• • • • • •

(4) A statement setting forth the water quality standards that the certifying agency considers to be applicable to the activity and took into account in rendering its certification;

• • • • • •

Interested persons are invited to submit, in triplicate, their written views, comments, and recommendations concerning the proposed amendment to the Administrator, Environmental Protection Agency, 1626 K Street NW., Washington, DC 20460. All relevant material received not later than 30 days after publication of this notice will be considered. Submissions will be available for examination in Room 1000, Crystal Mall Building 2, 1921 Jefferson Davis Highway, Arlington, VA.

Dated: August 5, 1971,

WILLIAM D. RUCKELSHAUS,
Administrator.

[FR Doc. 71-11533 Filed 8-10-71; 8:50 am]

FEDERAL MARITIME COMMISSION

[46 CFR Part 546]

[Docket No. 71-74]

QUARTERLY REPORT OF FREIGHT LOSS AND DAMAGE CLAIMS

Notice of Proposed Rule Making

Notice is hereby given pursuant to section 4 of the Administrative Procedure Act (5 U.S.C. 553) and sections 14 Fourth, 17, 21, and 43, of the Shipping Act, 1916 (46 U.S.C. 812, 816, 820, 841a), that the Federal Maritime Commission is considering the adoption of certain rules and regulations, as set forth below, requiring the filing of quarterly reports of freight loss and damage claims by all common carriers by water in the United States foreign and domestic offshore commerce, and other persons subject to the Shipping Act, 1916, excluding "persons carrying on the business of forwarding", unless those persons are also nonvessel operating common carriers (NVOCC's).

The rules call for reporting within 30 days after the end of each calendar quarter, the number and dollar amount of freight claims paid according to specific commodities, causes of such claims, location of theft and/or robbery, and also for an analysis of claims received and processed. Separate reports are required for reporting claims on both U.S. foreign export and import shipments, as well as separate reports for both U.S. domestic offshore export and import shipments.

Reports sought in this proceeding are designed to provide the Commission, as well as other governmental agencies, legislative committees and Federal and local law enforcement agencies with the type of information which could have a beneficial effect on the entire industry. In addition, the information which the Commission would receive pursuant to this proceeding would be of great value in enabling the entire industry to pinpoint areas where problems exist, and aid the carriers and/or terminal operators, as well as shippers and consignees, in combating the serious and continually expanding problem of cargo security.

As proposed, Title 46 CFR would be amended by adding a new Part 546 which would provide as follows:

PART 546—QUARTERLY REPORTS OF FREIGHT LOSS AND DAMAGE CLAIMS

Sec.
546.1 Scope.
546.2 Definitions.
546.3 Schedule A—Quarterly Summary Report of Freight Loss and Damage Claims Paid.
546.4 Schedule B—Quarterly Report of Freight Loss and Damage Claims, Report of Theft and Robbery.
546.5 Schedule C—Quarterly Report of Freight Loss and Damage Claims, Analysis of Claims Processed.
546.6 Certification.
546.7 Lists of commodity description and numerical designation for use in reporting loss and damage claims.
546.8 Filing.

§ 546.1 Scope.

The regulations contained in this part set forth the procedures whereby common carriers by water in the U.S. foreign and domestic offshore commerce, as well as other persons subject to the Shipping Act, 1916, excluding persons "carrying on the business of forwarding", unless those persons are also NVOCC's, shall be required to furnish quarterly reports of freight loss and damage claims. Included in this part is an explanation of the type of information requested pursuant to Schedules A, B, and C.

§ 546.2 Definitions.

As used in this part, the following terms shall have the meanings indicated:

(a) "Carrier." The term carrier means a common carrier by water in the foreign commerce of the United States and the interstate commerce of the United States as defined in section 1 of the Shipping Act, 1916.

(b) "Other persons subject to the Act." The term other persons subject to the Act means other persons as set forth in section 1 of the Shipping Act, 1916, excluding persons "carrying on the business of forwarding", unless those persons are also NVOCC's.

(c) "Person." The term person includes individuals, firms, partnerships, corporations, companies, associations, joint stock associations, trustees, receivers, assignees, or personal representatives.

(d) "Shortage." Shortage means failure to deliver all or part of a shipment to consignee in a situation where reasons are unknown.

(e) "Theft or pilferage." Theft or pilferage means all known stealing without use of force or the threat of force.

(f) "Robbery." Robbery means all stealing involving the use of force or the threat of force.

(g) "Concealed damage." Concealed damage means physical damage to freight discovered after delivery of shipment to the consignee in apparent good order without visible evidence of damage.

(h) "Visible damage." Visible damage means delivery of shipment reflecting open damage observable by the consignee at the time of delivery.

(i) "Shipper/consignee loss claim." Shipper/consignee loss claim means total dollar amount on claims actually filed by claimant supported by invoices or other documents. For claims covering shipments where no invoices exist, such as personal effects and household goods, the actual loss to the shipper/consignee shall be the negotiated settlement.

§ 546.3 Schedule A—Quarterly Summary Report of Freight Loss and Damage Claims Paid.

(FMC ——) [Attachment A] [1]:

(a) This schedule shall be prepared for each quarter ending March 31, June 30, September 30, and December 31, of each calendar year.[2]

(b) The data reported on this schedule shall be a summary report of freight loss and damage claims paid, set forth by commodity description specified in § 546.7 [2].

(c) Separate reports shall be submitted for the foreign export, foreign import, domestic export and domestic import shipments.

(d) The revenue amount reported in Schedule A shall be the total revenue realized in a particular trade for the commodity and/or commodities on which claims for loss and damage have been paid.

(e) The dollar amounts reported in this schedule shall be rounded to the nearest whole dollar omitting cents.

§ 546.4 Schedule B—Quarterly Report of Freight Loss and Damage Claims, Report of Theft and Robbery.

(FMC ——) [Attachment B] [3]:

(a) This schedule shall be prepared for each quarter ending March 31, June 30, September 30, and December 31, of each calendar year.

(b) The data reported on this schedule shall set forth the individual report of theft and/or robbery by commodity description specified in § 546.7, and shall specify the theft and/or robbery by port and by pier designation.

(c) Separate reports shall be submitted for the foreign export, foreign import, domestic export and domestic import shipments.

(d) The dollar amounts reported on this schedule shall be rounded to the nearest whole dollar omitting cents.

§ 546.5 Schedule C—Quarterly Report of Freight Loss and Damage Claims, Analysis of Claims Processed.

(FMC ——) [Attachment C] [4]:

(a) This schedule shall be prepared for each quarter ending March 31, June 30, September 30, and December 31 of each calendar year.

(b) The data reported under Items 1, 2, and 3, respectively, will indicate the number of claims on hand at the beginning of the reporting quarter, claims received during the reporting quarter and the total on hand for processing at the end of the reporting quarter, distributed according to the column headings enumerated on the schedule. In Column (4), indicate the horizontal totals of the number of claims reported in Column (1), (2), and (3), and in Column (5) indicate the total dollar value of these claims.

(c) Item 4(a)—Indicate the number and dollar amounts of claims paid during the reporting quarter distributed according to the column headings.

(d) Item 4(b)—indicate the number and dollar amounts of all claims denied or otherwise closed during the reporting quarter, distributed according to the reason specified for denial in Item 4(b), 1, 2, 3, or 4. The number and dollar amount reported in Item 4 should balance both vertically and horizontally.

(e) Item 5—Amounts reported for this item should be carried forward as Item 1 in the next quarterly report. Any difference should be explained in detail under "remarks."

(f) Items 6 through 10 are self-explanatory.

(g) Item 11—indicate in this section the net claims paid during the quarter which will be obtained by subtracting from Item 4(a) Column 5, the amount reported in Item 10 as amounts recovered during the quarter through salvage and insurance.

(h) Item 12—indicate the total gross freight revenue received during the reporting quarter.

(i) Item 13—ratio of net claims to revenue should be shown as a percent carried to two decimal places.

(j) Item 14—indicate in this item the amount of net premiums paid to outside insurance companies for cargo insurance.

§ 546.6 Certification.

Reports submitted pursuant to this part must be certified as true and complete by an officer in charge of the accounts pertaining to loss and damage claims. For this purpose a certificate form is located in Schedule C and the certification shall pertain to all schedules including Schedules A and B submitted under these rules.

§ 546.7 Lists of commodity description and numerical designation for use in reporting loss and damage claims.

(a) For use in this part there is attached a list of commodity descriptions and numerical designations setting forth the commodities and numerical designations to be utilized in reporting freight loss and damage claims on Schedules A and B. These lists are set forth both in TSUS Designation (Attachment D) and by alphabetical designation (Attachment E).

(b) The TSUS designation is the commodity number and description as contained in the tariff schedules of the United States published by the U.S. Tariff Commission. These commodity descriptions and numerical designations are by and large identical with the ones presently being utilized by carriers and/or their agents to file Customs Form 5931 "Discrepancy Report and Declaration".

§ 546.8 Filing.

Schedules A, B, and C shall be filed with the FMC Bureau of Compliance, Office of Industry Economics, 1405 I Street NW., Washington, DC 20573, in triplicate, no later than 30 days after the close of each calendar quarter.

Requests for extension in the time to file quarterly reports must be in writing and such requests must furnish sufficient reasons to justify the granting of an extension and must set forth the date when the report will be filed. Request for extension should be made sufficiently in advance of the due date to permit proper time for consideration and communication concerning the action taken.

Interested parties may participate in this rulemaking proceeding by filing with the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before September 10, 1971, an original and 15 copies of their replies pertaining to the proposed rules. All suggestions for changes should be accompanied by drafts of the language thought necessary to accomplish the desired changes and by statements in support thereon.

The FMC, Bureau of Hearing Counsel, shall participate in the proceeding and shall file reply to comments on or before October 1, 1971, by serving an original and 15 copies on the FMC and one copy to each party who has filed written comments. Answers to Hearing Counsel's replies shall be submitted to the Federal Maritime Commission on or before October 15, 1971.

By order of the Federal Maritime Commission.

[SEAL] FRANCIS C. HURNEY, *Secretary.*

FOREIGN-TRADE ZONES BOARD

[15 CFR Part 400]

FOREIGN-TRADE ZONES IN THE UNITED STATES

Notice of Proposed Rule Making

Notice is hereby given that the Foreign-Trade Zones Board, composed of the Secretaries of Commerce, Treasury, and Army, under the authority contained in section 8 of the Foreign-Trade Zones Act, as amended (19 U.S.C. 31h), is considering certain amendments to its rules found at Part 400, Title 15 of the Code of Federal Regulations. Interested persons who desire to file written views or comments on the proposed amendments should file an original and seven copies of them with the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Washington, D.C. 20230, within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

There is set forth below an explanation of those proposed amendments to the Board's rules that are not self-explanatory. Many of the proposed amendments are editorial in correcting citations to amended laws and regulations of other agencies and in incorporating changes to the regulations of the Bureau of Customs effective April 7, 1969 (34 F.R. 4957) and May 28, 1970 (35 F.R. 9251).

Sections 400.400 and 400.603(e): The proposed amendments would incorporate into the rules the Board's practice of taking into account the balance of payments and environmental impact of zone proposals in the light of national policy.

Section 400.607: This proposed amendment would permit an abbreviated application procedure in situations where minor adjustments to zone boundaries are desired by zone grantees.

Section 400.700: The present section nullifies a grant where construction or commencement of operations due to the grantee's negligence is unduly delayed without Board approval. The proposed amendment would expand the section to cover Board action against grantees who fail to comply with any condition inserted in a grant. The procedure would involve an order to show cause why the Board should not revoke or nullify the grant.

Section 400.1014: This proposed amendment would replace the existing § 400.1002a. It would abolish the requirement that grantees follow the uniform system of accounting originally promulgated in 1939, which in practice has proven very cumbersome, but would retain the uniform system with respect to reports and other records. Grantees would hereafter be allowed to adopt their own systems of accounting provided they are in accord with generally accepted accounting principles. Another change would permit grantees to retire zone records after 5 years.

Section 400.1301: The proposed amendment would give the Executive Secretary authority to permit certain amendments to applications and certain minor adjustments in zone boundaries and fencing.

Section 400.1303: The proposed amendment provides a procedure whereby the Board may take final action on applications on the basis of written consent of the Board members without a formal meeting unless a meeting is requested by a Board member. The regulations presently provide for a Committee of Alternates to review and prepare all matters for Board action. In practice, meetings of this Committee provide an adequate forum for a complete exchange of views by the three departments on a given application thereby usually making a formal meeting of the Board unnecessary.

Section 400.1305: The proposed amendment would bring the section in line with other sections of the regulations dealing with procedures which give certain authority to the Chairman of the Board and to the Committee of Alternates.

The proposed amendments are as follows:

1. Section 400.400 is amended by adding after the last sentence a new sentence to read as follows:

§ 400.400 Economic survey of proposed zone.

• • • In considering the economic impact of the proposal, the Board will take into account its impact on the U.S. balance of payments, as well as its environmental impact in the light of national policy.

2. Section 400.600 is amended to read as follows:

§ 400.600 Address.

Applications for grants should be filed with, and all official communication in connection therewith addressed to the Secretary of Commerce, Chairman and Executive Officer of the Foreign-Trade Zones Board, Washington, D.C. 20230.

3. Section 400.601 is amended to read as follows:

§ 400.601 Number of copies.

Every application, and attachment, shall be submitted with 12 true copies in addition to the original, unless the Executive Secretary determines that fewer copies are needed.

4. Section 400.603(e) is amended to read as follows:

§ 400.603 Exhibits.

• • • • • •

(e) *Exhibit No. 5.* An economic survey showing in detail the potential commerce and revenue of the proposed zone and other direct and indirect benefits accruing therefrom; present foreign trade of the port area, including transshipment, reexport, and reconsignment trade; present transportation services, and possible increases in such services where necessary; comparative study of export rates on domestic commodities for mixing with foreign goods; analysis of transportation rates where applicable to zone activity; potential new markets for zone business; activities best suited to the particular zone; the impact that the operation of the zone is expected to have on the U.S. balance of payments and balance of trade; the expected environmental impact of the zone with details as to control measures not otherwise described in the next exhibit; and such other data as may be necessary to a determination of whether the establishment of the zone is justified to expedite and encourage foreign commerce in a manner compatible with domestic and foreign economic policy.

• • • • • •

5. Section 400.607 is amended to read as follows:

§ 400.607 Applications for expansion of zone and modification of zone boundaries.

Applications for expansion of an established zone shall be made and approved in the same manner as an original application. In cases of requests for minor modifications in zone boundaries which are not designed to expand zone operations and will not result in such an expansion, the Executive Secretary is authorized to determine the requirements for the exhibits to such applications. Among the exhibits there shall be a report from the District Director of Customs and of the District Engineer. If the latter two officials recommend that the requested modification be approved, the Executive Secretary shall have the authority to approve the application.

6. Section 400.700 is amended to read as follows:

§ 400.700 Failure to comply with conditions of grant.

Should the grantee fail to comply with any of the conditions of a zone or subzone grant issued by the Board, including the provisions concerning construction and commencement of operations, the Board may revoke the grant or declare it null and void. In such cases the Board may issue an order to show cause why the action it contemplates should not be taken, and the grantee shall have 30 days in which to answer.

§ 400.800 [Amended]

7. Section 400.800 is amended by striking the citation to the Bureau of Customs' regulations and inserting in lieu thereof "(19 CFR Part 146)".

§ 400.801 [Amended]

8. Section 400.801 is amended by striking the first eight words in paragraph (a)(2) and inserting in lieu thereof "conditionally admissible merchandise which may be imported under certain conditions."

9. Section 400.801 is further amended by striking the last sentence in paragraph (a) and inserting a new sentence to read as follows: "Unless otherwise prohibited, over-quota merchandise may be placed in a zone pending its right to transfer to customs territory pursuant to the applicable quota provisions."

§ 400.804 [Amended]

10. Section 400.804 is amended by striking the citations to the Bureau of Customs' regulations and inserting in lieu thereof in order of appearance: "§§ 146.14, 146.21, 146.22, 146.23, 146.24, and 146.25."

§ 400.1000 [Amended]

11. Section 400.1000 is amended by striking the citation to the Bureau of Customs' regulations and inserting in lieu thereof "(19 CFR Part 146)".

§ 400.1002 [Amended]

12. Section 400.1002(a) is revoked.

13. A new § 400.1014 is added to read as follows:

§ 400.1014 Requirements for accounts, records, and reports.

Zone grantees shall maintain their accounts in accordance with generally accepted principles of accounting, and in compliance with any requirements of Federal, State, or local governmental agencies having appropriate jurisdiction over the grantee. As to other records and reports, applicable provisions of the Uniform System of Accounts, Records, and Reports, approved by the Board on February 6, 1939, shall remain in effect, as modified by instructions issued by the Executive Secretary concerning preparation of Annual Reports dated July 6, 1964. Records kept under the System shall be retained for 5 years after the merchandise covered by such records has been forwarded from the zone.

14. Section 400.1301 is amended by renumbering paragraph (i) as paragraph (l) and by adding new paragraphs (i), (j), and (k) to read as follows:

§ 400.1301 Executive Secretary of the Board.

• • • • • •

(i) Authorize in appropriate cases amendments to applications filed with the Board, except that no substantive changes may be authorized after notice of a public hearing, or an invitation for comments, has been published.

(j) Approve in appropriate cases, with the prior recommendations of the District Director of Customs and the District Engineer, requests for minor modifications to zone boundaries which will not result in an expansion of zone operations.

(k) Approve in appropriate cases, with the prior approval of the District Director of Customs, requests to permit the use of alternate fencing to that specified in § 400.403.

• • • • • •

15. Section 400.1303 is amended to read as follows:

§ 400.1303 Transaction of Board business.

(a) Meetings of the Board will be held on call of the Chairman. Two members of the Board shall be necessary for a quorum.

(b) At the option of the Chairman, the Board may conduct its business, including voting, without an actual meeting being held, provided that no Board member has requested a meeting. When business is so conducted, Board members may communicate their views and recommendations by such means as telephone and memorandum, but the votes of members shall be made in writing and submitted to the Executive Secretary for entry in the voting record.

(c) Final votes of such Board member, including dissenting votes, will be recorded and the voting record shall be available for public inspection.

16. Section 400.1305 is amended by striking the first sentence and inserting in lieu thereof the following new sentence:

§ 400.1305 Authorization for hearings.

The Board, or its Chairman, may authorize hearings or rehearings. • • •

§§ 400.200, 400.1003 [Amended]

17. Sections 400.200 and 400.1003(c) are amended by striking the citations to the Shipping Act of 1916 and the Interstate Commerce Act and inserting in lieu thereof, "(46 U.S.C. sec. 801 et. seq.)" and "(49 U.S.C. sec. 1 et. seq.)" respectively.

Dated: August 5, 1971.

FOREIGN-TRADE ZONES BOARD,
[SEAL] MAURICE H. STANS,
Secretary of Commerce, Chairman and Executive Officer, Foreign-Trade Zones Board.

Attest:

JOHN J. DAPONTE, JR.,
Acting Executive Secretary.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1048]

[No. MC-C-2; Sub-No. 1]

NEW YORK, N.Y., COMMERCIAL ZONE

Redefinition of Limits

AUGUST 6, 1971.

Redefinition of the limits of the New York, N.Y., Commercial Zone heretofore defined in No. MC-C-2 (Sub-No. 1), New York, N.Y., Commercial Zone, embracing Ex Parte No. MC-37, Commercial Zones and Terminal Areas, 112 M.C.C. 203.

Petitioner: The Central Railroad Company of New Jersey; petitioner's representative: E. J. Harrington, 1100 Raymond Boulevard, Newark, NJ 07102.

By petition filed July 28, 1971, the above-named petitioner requests the Commission to reopen the above proceeding for the purpose of redefining the limits of the New York, N.Y., commercial zone, which were most recently defined on September 22, 1970, in New York, N.Y., Commercial Zone, 112 M.C.C. 203, at pages 209 and 210 (49 CFR 1048.1), so as to extend the partial exemption under section 203(b) of the Interstate Commerce Act to transportation by motor vehicle which is performed with respect

to any shipment which has had a prior, or will have a subsequent movement by rail, and which is performed wholly between points in the New York City commercial zone, on the one hand, and, on the other, petitioner's Trailer-on-Flat-Car facilities located within the city of Elizabeth, N.J., namely within an area bounded on the south by Trumbull Street; on the west by Division Street; on the North by East North Avenue—and includes contiguous yard tracks east of the New Jersey Turnpike bounded by the Elizabeth Channel on the north, Terminal Street on the east, Bay Avenue on the north and along McLester Street on the east; and Newark Bay on the east.

No oral hearing is contemplated at this time, but any person (including petitioner), wishing to make representations in favor of, or against, the above-proposed revision of the limits of the New York, N.Y., commercial zone, may do so by the submission of written data, views, or arguments. An original and seven copies of such data, views, or arguments shall be filed with the Commission on or before September 8, 1971. Each such statement should include a statement of position with respect to the proposed revision, and a copy thereof should be served upon petitioner's representative.

Notice to the general public of the matter herein under consideration will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection and by filing a copy thereof with the Director, Office of the Federal Register. Written material or suggestions submitted will be available for public inspection at the offices of the Interstate Commerce Commission, 12th and Constitution, Washington, DC, during regular business hours.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

DEPARTMENT OF STATE

[Notice No. 342; Delegation of Authority No. 91-C]

DIRECTOR AND DEPUTY DIRECTOR OF INTERNATIONAL SCIENTIFIC AND TECHNOLOGICAL AFFAIRS

Delegation of Authority

Pursuant to the authority vested in me by section 4 of the Act of May 26, 1949 (63 Stat. 111; 22 U.S.C. 2658) I hereby delegate to the Director of International Scientific and Technological Affairs of the Department of State and to the Deputy Director of International Scientific and Technological Affairs of the Department of State, the performance of all the functions which the Secretary of State is authorized to perform pursuant to and under the authority of section 13 of the National Science Foundation Act of 1950, as amended (42 U.S.C. 1872).

Delegation of Authority No. 91-B dated October 11, 1962, is canceled and superseded by this delegation.

[SEAL] WILLIAM P. ROGERS,
Secretary of State.

JULY 26, 1971.

DEPARTMENT OF DEFENSE

Office of the Secretary

[DOD Directive 5100.57]

SECRETARIES OF MILITARY DEPARTMENTS ET AL.

Delegation of Authority To Issue Substitutes of Checks Drawn on Treasurer of U.S. and on Certain Depositary Banks

JULY 17, 1971.

The Deputy Secretary of Defense approved the following delegation of authority:

References:

(a) Treasury Department Circular No. 1955, Regulations Governing the Issuance of Substitutes of Lost, Stolen, Destroyed, Mutilated, and Defaced Checks of the United States Drawn on Accounts Maintained in Depositary Banks in Foreign Countries or U.S. Territories or Possessions, November 9, 1960.

(b) Treasury Department Letter of November 9, 1960, to Heads of Government Departments, Subject: Procedures Prescribed for the Issuance of Checks Drawn on Accounts Maintained in Depositary Banks.

(c) DOD Directive 5160.33, "Delegation of Authority to Issue Substitutes of Checks Drawn on Certain Depositary Banks," March 27, 1961 (hereby canceled).

(d) Code of Federal Regulations, Title 31—Money and Finance: Treasury, Chapter II, Part 365, § 365.8, as amended February 1, 1969.

(e) DOD Directive 5100.57, "Delegation of Authority to Issue Substitutes for Checks Drawn on the Treasurer of the United States," February 24, 1969 (hereby canceled).

I. *Delegation of authority.* A. The authority delegated to the Secretary of Defense under reference (a) to issue substitutes of checks drawn on accounts maintained in depositary banks in foreign countries, U.S. Territories or Posessions, and, to receive and approve undertakings to indemnify the United States in such cases, in hereby delegated to the Secretaries of the Military Departments, Directors of the Defense Agencies, or their designees. Exercise of this authority shall be in accordance with the principles established in reference (a) and procedures prescribed in reference (b).

B. The authority, delegated to the Secretary of Defense under reference (d) to provide by regulation for the issuance of substitutes of checks lost, stolen, or destroyed, which were drawn for pay and allowances of civilian employees and active duty military personnel, is hereby delegated to the Secretaries of the Military Departments, Directors of the Defense Agencies, or their designees.

II. *Cancellations.* References (c) and (e) and hereby superseded and canceled. Delegation published at 34 F.R. 11275 is hereby canceled.

III. *Effective date and implementation.* This directive is effective immediately. Two copies of any documents published to implement this directive will be forwarded to Assistant Secretary of Defense (Comptroller) upon publication.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Administration).

Office of the Secretary

PUERTO RICO

Maximum Level of Imports of Finished Products

Pursuant to Proclamation 3279, as amended, I prescribe that for the allocation period January 1, 1971 through December 31, 1971, the maximum level of imports of finished products (excluding residual fuel oil to be used as fuel) into Puerto Rico established by section 14 of Oil Import Regulation 1, as revised, is adjusted upward by 548 average barrels daily to permit the importation of asphalt.

ROGERS C. B. MORTON,
Secretary of the Interior.

AUGUST 2, 1971.

[FR Doc.71-11597 Filed 8-10-71;8:54 am]

DEPARTMENT OF COMMERCE

Patent Office

TRADEMARKS

Status Inquiries

In order to expedite the handling of inquiries regarding the status of both new and amended applications, the Patent Office has adopted a new procedure. Henceforth, status inquiries should be filed in duplicate and should identify by title and date the last paper known by the applicant to have been filed in the case. Each inquiry should be accompanied by a self-addressed, stamped envelope. The original inquiry will be entered in the file and the duplicate will be marked with a response and returned to the applicant. The date when the next office action can be expected will not be given unless specifically requested.

Status letters have been used by applicants to establish diligence in support of a later petition to revive should the application become abandoned. Under current practice, attorneys have frequently submitted status letters as a matter of course for such purposes. This has proved burdensome both to attorneys and the Patent Office. Until further notice, in new applications, the applicant will be considered to have exercised diligence in connection with a petition to revive an application abandoned for failure to respond to the initial office action if inquiry as to the status of the application is received by the Patent Office within either one of the two following periods, whichever expires later:

a. Eighteen months from the filing date of the application, or

b. A reasonable period after the Official Gazette (Trademarks) indicates that the filing date of the oldest new case awaiting action in the Division to which the application is assigned is more recent than the filing date of the application.

For amended cases, the applicant will be considered to have exercised diligence if inquiries as to the status of the application are received by the Patent Office within either one of the two following periods, whichever expires later:

a. Eighteen months after filing a response to the examiner's last received action, or

b. A reasonable period after the Official Gazette (Trademarks) indicates that the date of the oldest amendment filed that is awaiting action in the Division to which the application is assigned is more recent than the date of filing the last amendment to the application.

It should be noted as an exception to the above that status inquiries are totally unnecessary during period(s) of time when an application is suspended pursuant to 37 CFR 2.67.

Applicants are urged not to file status inquiries within the first year after filing due to the current backlog of new applications.

Dated: July 28, 1971.

ROBERT GOTTSCHALK,
Acting Commissioner of Patents.

Approved: July 30, 1971.

JAMES H. WAKELIN, Jr.,
Assistant Secretary for Science and Technology.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[DESI 11163]

AMPHOTERICIN B FOR INJECTION

Drugs for Human Use; Drug Efficacy Study Implementation

In a notice (DESI 11163) published in the FEDERAL REGISTER of December 19, 1969 (34 F.R. 19919), the Commissioner of Food and Drugs announced his conclusions pursuant to evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on amphotericin B injection, stating that this drug is regarded as effective and possibly effective for the various labeled indications. The possibly effective indication for treatment of South American blastomycosis has been reclassified as lacking substantial evidence of effectiveness in that no new evidence of effectiveness of this drug has been submitted pursuant to the notice of December 19, 1969.

Batches of drugs with labeling bearing indications for which substantial evidence of effectiveness is lacking are no longer acceptable for certification or release.

Any person who will be adversely affected by the deletion from labeling of the indications for which the drug has been reclassified from possibly effective to lacking substantial evidence of effectiveness may, within 30 days after the date of publication of this notice in the FEDERAL REGISTER, petition for the issuance of a regulation providing for other certification of the drug for such indications. The petition must be supported by a full factual and well documented medical analysis which shows reasonable grounds for the issuance of such regulation.

The petition for issuance of said regulation should be filed (preferably in quintuplicate) with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-62, 5600 Fishers Lane, Rockville, Maryland 20852.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 52 Stat. 1050-51, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under authority delegated to the Commissioner of Food and Drugs (21 CCFR 2.120).

Dated: August 3, 1971.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[Docket No. FDC-D-347; NADA 11-166V]

ARMOUR-BALDWIN LABORATORIES

Kymar; Notice of Withdrawal of Approval of New Animal Drug Application

In a notice in the FEDERAL REGISTER of August 25, 1970 (35 F.R. 13543), the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration and the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, following evaluation of a report received from the Academy on Kymar, NADA (new animal drug application) No. 11-166V. Kymar contains chymotrypsin in oil and is marketed by the Armour-Baldwin Laboratories, Division of Armour Pharmaceutical Co., Box 3113, Omaha, Nebr. 68103.

Six months were provided within which to submit adequate documentation in support of the labeling used. No data were received in response to the announcement and available information fails to provide substantial evidence that the drug is effective for reducing inflammation in trauma and in certain ocular conditions.

Armour Pharmaceutical Co., has requested that approval of NADA No. 11-166V be withdrawn and thereby waived their right to a hearing.

The Commissioner, finds that there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling.

Based on the above information and the firm's waiver of their right to a hearing, the Commissioner concludes that approval of said new animal drug application should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512 (e), 82 Stat. 345-47; 21 U.S.C. 360b(e)) and under authority delegated to the Commissioner (21 CFR 2.120), approval of NADA 11-166V, including all amendments and supplements thereto, is withdrawn effective on the date of signature of this document.

Dated: August 2, 1971.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[FR Doc.71-11538 Filed 8-10-71;8:49 am]

[Docket No. FDC-D-300; NADA 11-788 V, etc.]

SALSBURY LABORATORIES ET AL.

Iron Polysaccharid Complexes; Notice of Withdrawal of Approval of New Animal Drug Applications

A notice of opportunity for a hearing was published in the FEDERAL REGISTER of April 20, 1971 (36 F.R. 7471), proposing to withdraw approval of the following NADA's containing an iron polysaccharide as the designated active drug ingredient.

1. Pig-Iron 100; NADA No. 11-788V; Salsbury Laboratories, 500 Gilbert Street, Charles City, Iowa 50616, and

2. Ferropal-50; NADA No. 11-974V; Philadelphia Laboratories, Inc., Division of P.P. & C., Inc., 5051 Lancaster Avenue, Philadelphia, Pa. 19131.

The listed firms failed to file a written appearance of election, as provided for in the notice, and this is construed as an election not to avail themselves of an opportunity for a hearing.

Based on the grounds set forth in the notice of opportunity for hearing, the Commissioner concludes that approval of said new animal drug applications should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(e), 82 Stat. 345-47; 21 U.S.C. 360b(e)) and under the authority delegated to the Commissioner (21 CFR 2.120), approval of NADA 11-788V and No. 11-974V, including all amendments and supplements thereto, is withdrawn effective on the date of signature of this document.

Dated: August 2, 1971.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[FR Doc.71-11539 Filed 8-10-71;8:49 am]

[Docket No. FDC-D-290; NADA 12-644V, etc.]

WYETH LABORATORIES, INC., ET AL.

Promazine Hydrochloride; Notice of Opportunity for Hearing

In the FEDERAL REGISTER of November 18, 1969 (34 F.R. 18394), the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration and the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, following evaluation by the Administration of reports received from the Academy on the following preparations which contain promazine hydrochloride as the designated active ingredient:

1. Sparine-Pellets; NADA (new animal drug application) No. 12-644V; Wyeth Laboratories, Inc., Box 8299, Philadelphia, Pa. 19101, and

2. Promazine Granules; NADA No. 12-656V; Fort Dodge Laboratories Inc., Fort Dodge, Iowa 50502.

The announcement invited the above named holders of said new animal drug applications and any other interested persons to submit pertinent data on the drugs' effectiveness.

No data were received in response to the announcement, and available information fails to provide substantial evidence of effectiveness of the drugs for their recommended uses as veterinary tranquilizers.

Therefore, notice is given to the abovenamed firms and to any interested person who may be adversely affected that the Commissioner proposes to issue an order under the provisions of section 512(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b(e)) withdrawing approval of the new animal drug applications listed above and all amendments and supplements thereto held by said firms for the listed drug products on the grounds that:

Information before the Commissioner with respect to the drugs was evaluated together with the evidence available to him when the applications were approved. These data do not provide substantial evidence that the drugs have the effect they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in their labeling.

In accordance with the provisions of section 512 of the act (21 U.S.C. 360b), the Commissioner will give the applicants and any interested person who would be adversely affected by an order withdrawing such approval an opportunity for a hearing, at which time such persons may produce evidence and arguments to show why approval of the above-named new animal drug applications should not be withdrawn. Promulgation of the order will cause any drug for which an approved new animal drug application is not in effect, similar in composition to the above-listed drug products and recommended for similar conditions of use, to be a new animal drug for which an approved new animal drug application is not in effect. Any such drug then on the market would be subject to regulatory proceedings.

Within 30 days after publication hereof in the FEDERAL REGISTER, such persons are required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Office of the General Counsel, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852, a written appearance electing whether:

1. To avail themselves of the opportunity for a hearing; or

2. Not to avail themselves of the opportunity for a hearing.

If such persons elect not to avail themselves of the opportunity for a hearing, the Commissioner, without further notice, will enter a final order withdrawing the approval of the new animal drug applications.

Failure of such persons to file a written appearance of election within said 30 days will be construed as an election by such persons not to avail themselves of the opportunity for a hearing.

The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process which the Commissioner finds is entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

If such persons elect to avail themselves of the opportunity for a hearing, they must file a written appearance requesting the hearing and giving the reasons why approval of the new animal drug application should not be withdrawn together with a well-organized and full-factual analysis of the clinical and other investigational data they are prepared to prove in support of their opposition to the grounds for this notice. A request for a hearing may not rest upon mere allegations or denials but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. When it clearly appears from the data in the application and from the reasons and factual analysis in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, the Commissioner will enter an order stating his findings and conclusions on such data. If a hearing is requested and is justified by the response to this notice, the issues will be defined, a hearing examiner will be named, and he shall issue a written notice of the time and place at which the hearing will commence. The time shall be not more than 90 days after the expiration of said 30 days, unless the hearing examiner and the applicant otherwise agree.

Responses to this notice will be available for public inspection in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-51; 21 U.S.C. 360b) and under the authority delegated to the Commissioner (21 CFR 2.120).

Dated: August 2, 1971.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[OE Docket No. 71-CE-3]

MISSOURI STATE HIGHWAY DEPARTMENT

Notice of Petition for and Grant of Review

On June 9, 1971, the Federal Aviation Administration, Central Region, issued a determination of no hazard to air navigation under Aeronautical Study No. 71-CE-135-OE. The determination concerns a proposal by the Missouri State Highway Department to erect traffic signal lights in the approach surface area for Runway 12R of the Lambert-St. Louis Municipal Airport. The lights would be 16.1 feet above ground level, 578.1 feet above mean sea level.

The determination is based on a finding in the aeronautical study that the proposed lights would have no greater effect on aeronautical operations, procedures or minimum flight altitudes than existing structures.

The Airport Authority of the city of St. Louis petitioned the Administrator for a review of the determination pursuant to § 77.37 of the Federal Aviation Regulations.

The petitioner in setting forth its reasons why a review should be conducted states that the Airport Authority has for some time been removing man-made and natural obstructions in and under the approach surface to Runway 12R. In conjunction with this effort the one remaining structure on airport or city property penetrating the approach surface, an automotive service station, will be removed in early 1972.

The petitioner does not contest or otherwise present evidence to dispute the finding on which the determination was based. However, the petitioner was not given an opportunity to be heard during the regional aeronautical study. Therefore, a review will be conducted.

The review will be conducted on the basis of written materials in accordance with FAR, § 77.37(c)(1). Interested persons may, within 30 days of the issuance of this notice, submit information in writing to the Chief, Airspace Obstruction and Airports Branch, AT-240, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20590. Submissions must be filed in triplicate and be relevant to the question of whether the proposed construction would have an adverse effect on the safe and efficient use of airspace. Sufficient detail must be provided to establish a clear understanding of the reasons for any claim of adverse effect.

Pending final disposition of the petition, the Determination of No Hazard to Air Navigation issued by the Central Region under Aeronautical Study No. 71-CE-135-OE is not and will not be a final determination.

Issued in Washington, D.C., on August 5, 1971.

RAYMOND G. BELANGER,
Acting Director, Air Traffic Service.

National Highway Traffic Safety Administration

[Docket No. 69-31; Notice 3A]

DEFECT REPORTS

Denial of Petition for Reconsideration

Motor vehicle safety regulations concerning "Defect Reports" were issued February 17, 1971 (36 F.R. 3064). One petition for reconsideration, from White Motor Corp., was timely filed (see 49 CFR § 553.35). For the reasons stated below, the petition is hereby denied.

White Motor Corp. objected to that part of § 573.5 which requires, as part of quarterly reports, that manufacturers submit information on "the total number of the manufacturer's vehicles by make, model, and model year if appropriate, produced or imported during that quarter." White's arguments in support of the petition are that (1) the information has no value to safety nor to any specific campaign, (2) the number of vehicles produced or imported during a given year has no relationship to the vehicles being campaigned and which would be included in the specific quarterly report being filed, and (3) this requirement is a new requirement and no opportunity to comment was provided.

The arguments presented by the petitioner are found to be without merit. The information is valuable to the agency because it will reveal the percentage of particular vehicles involved in individual notification campaigns, and will further reveal the extent of each manufacturer's involvement in notification campaigns. The information thus obtained can be used to determine if additional remedial action by the agency is necessary.

Secondly, it is irrelevant that the information may, at times, not be related to the defect campaign of the quarter in which it is provided. In these cases, the information will concern campaigns that occur after the information has been provided, which are equally important.

Finally, with reference to the argument that notice and opportunity to comment have not been provided, the notice of proposed rule making of December 24, 1969 (34 F.R. 20212) proposed that the manufacturer provide the total number of vehicles by make and model year produced during the year in his annual summary. The rule merely requires the same information, with an additional category, to be provided quarterly rather than at the end of the year.

This notice is issued under the authority of sections 103, 113, and 119 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1392, 1402, 1407) and the delegation of authority at 49 CFR 1.51.

Issued on August 6, 1971.

CHARLES H. HARTMAN,
Acting Administrator.

National Transportation Safety Board

[Docket No. SA-428]

AIRCRAFT ACCIDENT AT SAN FRANCISCO, CALIF.

Notice of Accident Investigation Hearing

In the matter of investigation of accident, involving Pan American Airways, Inc., Boeing 747, of U.S. Registry N747PA, San Francisco, Calif., July 30, 1971.

Notice is hereby given that an Accident Investigation Hearing on the above matter will be held commencing at 9:30 a.m. (local time), on August 17, 1971, at the Thunderbolt Hotel, 101 Beryshire Freeway, Millbrae, CA.

Dated this 5th day of August 1971.

[SEAL] DAVID BEARDSLEY,
Hearing Officer.

[FR Doc.71-11511 Filed 8-10-71;8:46 am]

CIVIL AERONAUTICS BOARD

[Docket No. 23538]

IMPERIAL AIR FREIGHT SERVICE, INC.

Increased Excess Value Charge; Notice of Prehearing Conference

Notice is hereby given that a prehearing conference in the above-entitled matter is assigned to be held on August 19, 1971, at 10 a.m., local time, in Room 503, Universal Building, 1825 Connecticut Avenue NW, Washington, DC, before Examiner Richard M. Hartsock.

Information and evidence requests, statements of proposed issues, and proposed procedural dates shall be filed with the Examiner and other parties on or before August 12, 1971.

Dated at Washington, D.C., August 5, 1971.

[SEAL] RALPH L. WISER,
Acting Chief Examiner.

[Docket No. 22973; Order 71-8-21]

NEW ENGLAND SERVICE INVESTIGATION

Order Regarding Extension of Time

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 6th day of August 1971.

By Order 71-6-60, dated June 9, 1971, the Board modified the scope of the "New England Service Investigation" and inter alia, directed Northeast Airlines, Inc. (Northeast), and Mohawk Airlines, Inc. (Mohawk), to file route realignment proposals with appropriate certificate amendment applications, if deemed necessary, within 60 days, or on August 9, 1971.

In various pleadings, Allegheny, Delta, Mohawk and Northeast have asked that this date be extended to a date following final determination of the merger cases which they are now prosecuting before the Board.[1] Answers to these pleadings are due on August 10, 1971. To permit a full consideration of any matters raised in these answers the Board has decided to extend until September 9 the date for submission of route realignment proposals.

Accordingly, it is ordered, That:

1. The date for submission of route realignment proposals, as established by ordering paragraph 2 of Order 71-6-60, be and it hereby is extended to September 9, 1971; and

2. This order shall be served upon all parties of record, and all parties listed in ordering paragraph 8 of Order 71-6-60.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

MONSANTO CO.

Notice of Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 1F1106) has been filed by Monsanto Co., 800 North Lindbergh Boulevard, St. Louis, MO 63166, proposing establishment of an exemption from the requirement of a tolerance (21 CFR Part 420) for residues of mesityl oxide when used as an inert solvent or cosolvent with other permitted solvents in pesticide formulations applied to growing crops prior to formation of the edible portion of the plant.

The analytical method proposed in the petition for determining residues of the solvent is a flame-ionization gas chromatographic procedure.

Dated: August 4, 1971.

LOWELL E. MILLER,
Acting Deputy Assistant Administrator for Pesticides Programs.

[I.F. & R. Dockets Nos. 42, 44]

2,4,5-TRICHLOROPHENOXYACETIC ACID

Determination and Order

Notice is hereby given of my determination and order concerning a challenge to a previous order cancelling the registration of the herbicide 2,4,5-Trichlorophenoxyacetic acid. Due to the widespread interest in this proceeding, I have determined that publication of the following will best serve the public welfare.

DETERMINATION AND ORDER OF THE ADMINISTRATOR

In regard Hercules Inc., the Dow Chemical Co., petitioners; Regs. Nos. 891-52, 891-61, 891-74, 891-120, 891-121, 464-199.

This proceeding involves a challenge by registrants pursuant to section 4(c) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. section 135(b)(c)) to an order cancelling the registration of the herbicide 2,4,5-T (2,4,5-Trichlorophenoxyacetic acid) for use on food crops for human consumption. For the reasons that follow, the original determination to cancel the use of this product should be undisturbed and further evidence adduced at a formal hearing.

I. In May, 1970, the Department of Agriculture issued a notice of cancellation for the registered use of 2,4,5-T on food crops, when questions arose as to possible teratogenic effects from exposure to the 2,4,5-T product.[1] Two manufacturers, petitioners in this docket, requested that a scientific advisory committee be convened to investigate the scientific data available on the effects of 2,4,5-T. Two other producers, Amchem, Inc., and Thompson Hayward Chemical Co., invoked their statutory right to a public hearing to review the order of cancellation (I.F. & R. Dockets 45 and 48). That hearing was deferred pending the referral of this docket to the scientific advisory committee.

The advisory committee was chosen by the Secretary of Agriculture from a list of names supplied by the National Academy of Sciences and has performed the very important service of collecting, digesting, and evaluating available data on the properties and effects of 2,4,5-T. Also considered was the effect of a contaminant of 2,4,5-T, TCDD (2,3,7,8-tetrachlorodibenzo-p-dioxin), an impurity that develops in 2,4,5-T during the manufacturing process.

Data considered by the committee included available studies and results of experiments designed to show the activity of 2,4,5-T and TCDD in the environment, depending on the pattern of application and usage; their absorption, distribution, and metabolic breakdown in animals; their levels of toxicity in certain animal species; and reports concerning congenital malformation in children of mothers exposed to 2,4,5-T.

In evaluating the available information, the committee found that the data concerning the effects on human beings in exposed areas was inconclusive. It was thus necessary to extrapolate the animal data to man.

Within this framework, the committee concluded that "current patterns of usage of 2,4,5-T and its known fate in various compartments in the environment, including the plant and animal foods of man, are such that any accumulation might constitute a hazard to any aspect of human health is highly unlikely." This conclusion, however, was accompanied by a caveat that the toxic contaminant TCDD could pose a problem to human health, although a level of 0.1 parts per million of TCDD in 2,4,5-T would probably be acceptable. Present manufacturing processes are sufficiently advanced to meet this standard, but a monitoring procedure should be required to insure its observance.

II. The committee report adds significantly to our understanding of 2,4,5-T. There is no reason, based on present knowledge, to disturb our order of March 18 and suspend registration of 2,4,5-T for use on food crops. See DDT Statement of Reasons, pp. 20-21.[2] Recent judicial pronouncements and our DDT Statement of Reasons, however, make clear that the degree of danger associated with the use of an economic poison is only one variable in a complex cancellation equation. See EDF v Ruckelshaus, supra n. 1; In Re King Paint, supra n. 1. Benefits must be assessed against risks. Whether or not even a small risk is worth taking depends, as the committee itself recognized, on the advantages incident to taking that risk.

The benefit coefficient of the cancellation equation has not yet been explored, and I do not have before me a formal record showing the extent of 2,4,5-T application to crops, its importance to crop production, or the availability of substitute controls. Such factors in this case should, in my view, be considered through the statutory hearing process to insure that all the economic and other information, including that relating to the difficulty of monitoring the manufacturing processes, as well as the scientific evidence, is part of an open record.

A hearing will afford registrants and the public the opportunity to present the pertinent economic and other data relating to the balance that the law requires to be struck between benefit and risk.

While this agency could undertake to create these studies and compile an informal record which could be the basis for the required findings, the agency believes this evidence should be gathered through an open public hearing.

See EDF v Ruckelshaus, supra n. 1, at 1119, 439 F. 2d 594, —— U.S. App. D.C. at ——. The Court of Appeals opinion in EDF v Ruckelshaus is just one recent expression of the well-established judicial attitude, shared by this agency, that hearings are desirable "to bring the public into the decisionmaking process, and create a record that facilitates judicial review." 2 E.R.C. at 1120, —— F. 2d at ——, U.S. App. D.C. at ——. See e.g. Marine Space Enclosures, Inc. v FMC, 137 U.S. App. D.C. 9, 420 F. 2d 577 (1970).

For the foregoing reasons, I have determined to continue the order of cancellation for use of 2,4,5-T on food crops for human consumption. In view of the fact that petitioners in Dockets 45 and 48 have also lodged a protest against cancellation of this registration and have asked for hearings, those dockets will be consolidated with this docket for the purpose of a hearing.

Dated: August 6, 1971.

ROBERT W. FRI,
Acting Administrator, Environmental Protection Agency.

[FR Doc.71-11609 Filed 8-10-71;8:55 am]

[1] Under the Act the Administrator is obligated to initiate the administrative cancellation process whenever a substantial doubt arises as to the validity of continued use of a particular economic poison. See EDF v Ruckelshaus, 2 E.R.C. 1114, 439 F. 2d 584, —— U.S. App. D.C. ——, (1971). The Department of Agriculture also issued an order suspending the registration for aquatic use of 2,4,5-T and for home and recreational use of the liquid form and cancelling the use of granular 2,4,5-T about the home and at recreational areas and similar sites. The procedures under the Act are detailed in EDF v Ruckelshaus, supra, and the Agency's policy statement on cancellation of DDT products. See Reasons Underlying the Registration Decisions Concerning Products Containing DDT, 2,4,5-T, Aldrin and Dieldrin, Environmental Protection Agency Release, Mar. 18, 1971, hereinafter referred to as the DDT Statement of Reasons. See also In Re King Paint and Supply Co., I.F. & R. Docket 46 (petition for reconsideration) (1971); In Re Stearns, I.F. & R. Docket 13 (1971).

[2] Under the statute suspension arises when there is an "imminent hazard" to the public based on evidence that shows that an "economic poison poses a significant threat to health or otherwise creates a hazardous situation to the public, that should be corrected immediately to prevent serious injury, and which cannot be permitted to continue during the pendency of administrative proceedings." DDT Statement of Reasons, at 6.

No manufacturer with a registration for liquid or granular home use challenged the order of suspension and cancellation for liquid and granular household use. See note 1, supra. While Hercules, Inc. requested a scientific advisory committee to consider the suspension for aquatic use, as well as use on food crops (see petition of May 21, 1970), none of Hercules' five labels designated 2,4,5-T for any suspended or canceled use, except for use on food crops, and on May 11, the company added to its label an express warning against aquatic use. Since petitioner is not immediately affected by the order of suspension, the challenge is moot, and suspension will be deemed final. If the company wishes to review the question by motion at the hearing, it may do so.

FEDERAL POWER COMMISSION

[Docket No. E-7626]

INDIANA & MICHIGAN ELECTRIC CO.

Notice of Amendment of Interconnection Agreement and Increased Rate Filing

AUGUST 4, 1971.

Take notice that on April 26, 1971, Indiana & Michigan Electric Co. (Indiana) filed a supplement (Modification No. 6) dated April 1, 1971, to the Interconnection Agreement dated November 1, 1961, between Northern Indiana Public Service Co. (Northern), designated Indiana Rate Schedule FPC No. 22 and a supplement (Modification No. 3) dated February 1, 1971, to the Interconnection Agreement dated December 30, 1960, between Indianapolis Power & Light Co. (Indianapolis), and Indiana, designated Indiana Rate Schedule FPC No. 21.

These modifications provide for an increase in the demand charge for short-term power of from $0.30 per kilowatt per week to $0.40 per kilowatt per week and a change in the reduction of weekly demand charges in the event that the supplying party is unable to fulfill any

part of its commitment from $0.06 per kilowatt per day to one-sixth (⅙) of the total weekly demand charge for each day (except Sundays) any such reduction is in effect. The parties contend that the extent of use of short-term power for the next 12 months is unknown due to the fact that short-term power will be scheduled only as system conditions indicate. The parties request that the Commission waive the requirements under § 35.13(b) of the Commission's rules and regulations.

Indiana requests that the 30-day notice provision be waived, in respect to Modification No. 6, in view of the alleged necessity to improve the reserve position of Northern. Indiana requests that the 30-day notice provision be waived and that service under Modification No. 3 be considered to have commenced on February 8, 1971, it is alleged that unanticipated delays have prevented filing this agreement before this time.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 16, 1971, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.71-11496 Filed 8-10-71;8:45 am]

[Project 2301]

MONTANA POWER CO.

Notice of Application for New License for Constructed Project

AUGUST 4, 1971.

Public notice is hereby given that an application for new license has been filed under section 15 of the Federal Power Act (16 U.S.C. 791a–825r) by the Montana Power Co. (correspondence to: George W. O'Connor, President, The Montana Power Co., 40 East Broadway, Butte, MT 59701) for its constructed Mystic Lake Project No. 2301 located on West Rosebud Creek and Mystic Lake in Stillwater County, Mont. The original license expired on December 31, 1970, and the project is presently operating under an annual license.

The constructed project consists of: (1) A 145-foot long, 45-foot high earth dike with a concrete core; (2) a 368-foot long, 45-foot high concrete arch dam with a 300-foot overflow spillway controlled by flashboards; (3) a 446-acre reservoir having a usable storage capacity of 21,000 acre-feet between its maximum and minimum elevations of 7,673.5 feet and 7,612 feet (USGS datum); (4) a conduit from the reservoir to the powerhouse consisting of a 1,005-foot long tunnel, a 9,012-foot long wood-stave pipeline, a surge tank and a 2,690-foot long steel penstock; (5) a powerhouse containing two generating units each rated at 5,000 kw.; (6) 10.7 miles of the Mystic Lake-Columbus Transmission line and 8.8 miles of the Mystic Lake-Red Lodge transmission line; and (7) all other facilities and interests appurtenant to the operation of the project. A 19-foot high, 410-foot long earth fill re-regulating dam is proposed at the outlet of West Rosebud Lake where it would form a 49-acre reservoir about a mile downstream from the powerhouse.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 11, 1971, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules of practice and procedure. Application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP72-24]

NORTHERN NATURAL GAS CO.

Notice of Application

AUGUST 4, 1971.

Take notice that on July 28, 1971, Northern Natural Gas Co. (applicant), 2223 Dodge Street, Omaha, NE 68102, filed in Docket No. CP72-24 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the delivery of adjusted and realigned volumes of natural gas to certain customers under their authorized contract demand for the 1971–72 winter heating season, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, applicant states that it has received requests from three of its customers, Central Telephone and Utilities Corp., Iowa Public Service Co., and the Peoples Natural Gas Division for reallocation of their present contract demand and winter period service volumes for certain communities and adjustment of firm service for two industrial customers. Applicant states that the reallocation and adjustment proposed herein will not increase or decrease the presently authorized total contract demand or winter period service of the three customers and that this will enable the customers to meet more efficiently the requirements for 1971–72 heating season.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 24, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.71-11498 Filed 8-10-71;8:45 am]

[Docket No. E-7649]

OTTER TAIL POWER CO.

Notice of Application

AUGUST 3, 1971.

Take notice that on July 12, 1971, Otter Tail Power Co. (applicant) of Fergus Falls, Minn., filed an application seeking an order pursuant to section 204 of the Federal Power Commission authorizing the issuance of 40,000 shares of additional cumulative preferred stock for a negotiated sale and an exemption from competitive bidding. The new shares will have no par value and bear an annual dividend of $9.50. The new shares will be the fourth series of the company's cumulative preferred stock which are all of the same class and of equal rank and identical in all respects except that each series may have such designated dividend

rate and redemption and liquidation price as are fixed in the resolutions of the Board of Directors creating the series.

The applicant proposes to issue and sell the new preferred shares at a price of $100 per share to four institutional purchasers. For the services of Halsey, Stuart & Co., Inc., in connection therewith, the applicant proposes to pay a fee of 1 percent of the purchase price.

According to the application the new preferred shares will be issued to repay applicant's 3 percent first mortgage bonds due September 1, 1971, and upon being so used will qualify as "Old Money Preferred" within the meaning of section 247 of the Internal Revenue Code as amended.

Any person desiring to be heard or to make any protest with reference to such application should, on or before August 16, 1971, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP70-7 (Phase II)]

SOUTHERN NATURAL GAS CO.

Notice of Petition To Amend

AUGUST 4, 1971.

Take notice that on July 30, 1971, Southern Natural Gas Co. (petitioner), Post Office Box 2563, Birmingham, AL 35202, filed in Docket No. CP70-7 (Phase II) a petition to amend the order of the Commission issued on October 29, 1969 (42 FPC 944), pursuant to section 7(c) of the Natural Gas Act by authorizing a rearrangement of the volumes of natural gas sold and delivered to certain of its existing customers as their contract demand, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

The order of October 29, 1969, authorized petitioner to construct and operate facilities to increase its design daily delivery capacity, and to sell and deliver the additional volumes of natural gas available therefrom, to certain of its existing customers. The town of Brent (Brent), the Marshall County Gas District (Marshall) and the city of Dublin (Dublin) presently receive contract demand volumes of 1,560 Mcf, 14,400 Mcf, and 4,855 Mcf respectively. Petitioner proposes to increase these volumes to 1,810 Mcf, 15,320 Mcf, and 4,935 Mcf, respectively.

To permit the aforementioned increases to Brent and Marshall, petitioner states that Alabama Gas Corp. and the Works, Gas and Sewer Board of the city of Oneonta have agreed to decrease their respective contract demand by amounts equal to the Brent and Marshall increases. Petitioner states that shortly after the application was filed in Docket No. CP70-7, the city of Dublin furnished market data requesting a contract demand of 4,935 Mcf, but that this request was inadvertently overlooked. Petitioner now requests authorization to increase the volume of natural gas delivered to Brent, Marshall, and Dublin under their contract demand.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 30, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP71-304]

UNION LIGHT, HEAT AND POWER CO. AND KENTUCKY GAS TRANSMISSION CORP.

Notice of Application

AUGUST 4, 1971.

Take notice that on June 21, 1971, the Union Light, Heat and Power Co. (Union), Post Office Box 960, Cincinnati, OH 45201, and Kentucky Gas Transmission Corp. (Kentucky), Post Office Box 1273, Charleston, WV 25325, filed in Docket No. CP71-304 an application, as supplemented on July 15, 1971, pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the operation of facilities for the transportation of natural gas in interstate commerce, all as more fully set forth in the application and supplement in this proceeding which are on file with the Commission and open to public inspection.

The application states that Union, under authority previously granted by the Commission, transports through certain of its facilities, natural gas on behalf of Kentucky from points in Campbell County, Kentucky, to the Cincinnati Gas & Electric Co. (Cincinnati) at three delivery points on the Ohio-Kentucky boundary. To facilitate this transportation, Union has constructed the following facilities:

(1) Approximately 13,599 feet of 24-inch pipeline in its Line AM–1, as a replacement for a similar section of 20-inch pipeline;

(2) Approximately 7,100 feet of 20-inch pipeline designated as Union's UL–6 Line;

(3) Approximately 29,289 feet of 20-inch pipeline designated as Union's AM–2 Line; and,

(4) Two odorization stations located at the Cold Spring and Alexandria Stations, Campbell County, Ky., at which points Union odorizes the natural gas it transports to Cincinnati as well as gas used in its own system.

Applicants seek authorization to operate these facilities for the transportation of natural gas.

The application states that current studies of the scope and nature of the services rendered by Union for Kentucky and Cincinnati lead to the conclusion that the charges for said services are inadequate and that the parties have agreed that an adjustment of such charges is in order. The application also states that because of the present method of measurement of natural gas sold by Kentucky to Cincinnati and Union, it appears that Union is bearing a burden of charges for "unaccounted for" gas which should be shared by Cincinnati and that Union and Cincinnati have entered into an agreement whereby Cincinnati will reimburse Union for its appropriate share of the "unaccounted for" volumes of natural gas in the future. The application requests Commission approval therefor.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 24, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant

of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. G-4023 etc.]

TEXAS OIL & GAS CORP. ET AL.

Findings and Order After Statutory Hearing

AUGUST 2, 1971.

Findings and order after statutory hearing issuing certificates of public convenience and necessity, amending orders issuing certificates, dismissing applications, permitting and approving abandonment of service, terminating certificate, terminating proceedings, making successors corespondent, redesignating proceedings, and accepting rate schedules for filing.

Each applicant herein has filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce or for permission and approval to abandon service or a petition to amend an order issuing a certificate, all as more fully set forth in the applications and petitions to amend.

Applicants have filed FPC gas rate schedules or supplements to rate schedules on file with the Commission and propose to initiate, abandon, add, or discontinue in part natural gas service in interstate commerce as indicated in the tabulation herein.

Bobby W. Whittington, applicant in Docket No. CI61-671, proposes to continue in part the sale of natural gas heretofore authorized in Docket No. G-14996 to be made pursuant to Mobil Oil Corp. FPC Gas Rate Schedule No. 420. The contract comprising said rate schedule will also be accepted for filing as a rate schedule of applicant. The present rate under said rate schedule is in effect subject to refund in Docket No. RI70-498. Therefore, applicant will be made a corrspondent in said proceeding and the proceeding will be redesignated accordingly. Applicant indicates in his certificate application that in addition to the refund obligation required by § 154.92(d)(3) of the regulations under the Natural Gas Act, he intends to be responsible for the total refund from the date that the increased rate of his assignor became effective subject to refund.

W. R. Dean, Robert L. Baker, and John C. O'Leary (Operator) et al., applicants in Docket No. CI71-662, propose to continue in part the sale of natural gas heretofore authorized in Docket No. G-18064 to be made pursuant to J. S. Abercrombie Mineral Co., Inc. (Operator) et al., FPC Gas Rate Schedule No. 1. The present rate under said rate schedule is in effect subject to refund in Docket No. RI62-319. Therefore, applicants will be made corespondents in said proceeding and the proceeding will be redesignated accordingly.

Odessa Natural Corp., applicant in Docket No. CI70-295, proposes to continue in part the sale of natural gas heretofore authorized in Docket No. G-17206 to be made pursuant to El Paso Products Co. FPC Gas Rate Schedule No. 8. The contract comprising said rate schedule will also be accepted for filing as a rate schedule of applicant. The present rate under said rate schedule is in effect subject to refund in Docket No. RI64-460. Therefore, applicant will be made a corespondent in said proceeding and the proceeding will be redesignated accordingly.

The Commission's staff has reviewed each application and recommends each action ordered as consistent with all substantive Commission policies and required by the public convenience and necessity.

After due notice by publication in the FEDERAL REGISTER, no petition to intervene, notice of intervention, or protest to the granting of the applications has been filed.

At a hearing held on July 29, 1971, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the applications and petitions, as supplemented and amended, and exhibits thereto, submitted in support of the authorizations sought herein, and upon consideration of the record,

The Commission finds:

(1) Each applicant herein is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will, therefore, be a "natural-gas company" within the meaning of the Natural Gas Act upon the commencement of service under the authorizations hereinafter granted.

(2) The sales of natural gas hereinbefore described, as more fully described in the applications in this proceeding, will be made in interstate commerce subject to the jurisdiction of the Commission; and such sales by applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) Applicants are able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) The sales of natural gas by applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity; and certificates therefor should be issued as hereinafter ordered and conditioned.

(5) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the orders issuing certificates of public convenience and necessity in various dockets involved herein should be amended as hereinafter ordered.

(6) The sales of natural gas proposed to be abandoned, as hereinbefore described and as more fully described in the applications and in the tabulation herein, are subject to the requirements of subsection (b) of section 7 of the Natural Gas Act.

(7) The abandonments proposed by applicants herein are permitted by the public convenience and necessity and should be approved as hereinafter ordered.

(8) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the certificates heretofore issued to applicants relating to the abandonments hereinafter permitted and approved should be terminated or that the orders issuing said certificates should be amended by deleting therefrom authorization to sell natural gas from the subject acreage.

(9) The certificate application pending in Docket No. CI70-712 is moot.

(10) The increased rate effective subject to refund in Docket No. RI69-224, for the sale proposed to be continued in Docket No. CI69-1237, is below the area ceiling prescribed in Opinion No. 586.

(11) Applicant in Docket No. CI71-664 has collected no money subject to refund in Docket No. RI70-816.

(12) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that Odessa Natural Corp. should be made a corespondent in the proceeding pending in Docket No. RI64-460; that W. R. Dean, Robert L. Baker, and John C. O'Leary (Operator) et al., should be made corespondents in the proceeding pending in Docket No. RI62-319; that Bobby M. Whittington should be made a corespondent in the proceeding pending in Docket No. RI70-498; and that said proceedings should be redesignated accordingly.

(13) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the FPC gas rate schedules and supplements related to the authorizations hereinafter granted should be accepted for filing.

The Commission orders:

(A) Certificates of public convenience and necessity are issued upon the terms and conditions of this order authorizing should be accepted for filing.

sales by applicants of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, all as hereinbefore described and as more fully described in the applications and in the tabulation herein.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations, and orders of the Commission.

(C) The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 7 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's regulations thereunder and is without prejudice to any findings or orders which have been or which may hereafter be made by the Commission in any proceedings now pending or hereafter instituted by or against applicants. Further, our action in this proceeding shall not foreclose or prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contracts herein involved. The grant of the certificates aforesaid for service to the particular customers involved does not imply approval of all of the terms of the contracts, particularly as to the cessation of service upon termination of said contracts as provided by section 7(b) of the Natural Gas Act. The grant of the certificates aforesaid shall not be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificates.

(D) The orders issuing certificates of public convenience and necessity in Dockets Nos. G-18297, CI64-106, CI68-620, CI71-281, CI71-381, and CI71-522 are amended by adding thereto or deleting therefrom authorization to sell natural gas as more fully described in the applications and in the tabulation herein. In all other respects said orders shall remain in full force and effect.

(E) The orders issuing certificates of public convenience and necessity in Dockets Nos. G-4023, G-6437, and CI69-1237 are amended by substituting successors in interest as certificate holders as more fully described in the applications and in the tabulation herein. In all other respects said orders shall remain in full force and effect.

(F) The orders issuing certificates of public convenience and necessity in the following dockets are amended to reflect the deletion of acreage where new certificates are issued herein or outstanding certificates are amended herein by authorizing the continuation of service from the subject acreage, and in all other respects said orders shall remain in full force and effect:

Amend to delete acreage	*New certificate and/or amendment to add acreage*
G-7004	CI71-645
G-8816	CI71-711
G-11229	CI71-493
G-13633	CI71-381
G-14996	CI71-671
G-17206	CI70-295
G-18064	CI71-662
G-18881	CI71-591
CI68-502	CI68-620

(G) The certificates of public convenience and necessity and certificate authorizations granted in Dockets Nos. CI68-620, CI71-281, CI71-682, CI71-684, and CI71-718 are subject to any determination which may be made by the Commission in Docket No. R-338 with respect to the transportation of liquids and liquefiable hydrocarbons.

(H) Applicants in the dockets indicated shall charge and collect the following rates, subject to B.t.u. adjustment where applicable:

Docket No.	Rate (cents per Mcf)	Pressure base (p.s.i.a.)
CI71-218	18.5	14.65
CI71-381	18.75	15.025
CI71-591	[1] 18.5	14.65
	[2] 20.0	14.65
CI71-682	24.5	14.65
CI71-684	24.5	14.65
CI71-718	24.5	14.65

[1] For sales from acreage heretofore dedicated to Union Oil Company of California (Operator) et al., FPC Gas Rate Schedule No. 123.
[2] For sales from newly dedicated acreage.

(I) The certificates of public convenience and necessity and certificate authorizations granted in Dockets Nos. CI69-1237, CI71-281, CI71-591, CI71-659, CI71-683, CI71-693, CI71-708, and CI71-766 are subject to the Commission's findings and order accompanying Opinion No. 586. If the quality of the gas deviates at any time from the quality standards set forth in § 154.106(d) of the regulations under the Natural Gas Act so as to require a downward adjustment of the existing rates, notices of changes in rate shall be filed pursuant to section 4 of the Natural Gas Act; provided, however, that adjustments reflecting changes in B.t.u. content of the gas shall be computed by the applicable formula and charged without the filing of notices of changes in rate.

(J) Within 90 days from the date of this order, applicant in Docket No. CI69-1237 shall file three copies of a rate schedule-quality statement in the form prescribed in Opinion No. 586. Within 90 days from the date of initial delivery, Applicant in Dockets Nos. CI71-682, CI71-684, and CI71-718 shall file three copies of rate schedule-quality statements in the form prescribed in Opinion No. 468-A.

(K) The certificate issued in Docket No. CI71-281 determines the rate which legally may be paid by the buyer to the seller but is without prejudice to any action which the Commission may take in any rate proceeding involving either company.

(L) Applicant in Docket No. G-18297 shall file a notice of change in rate in order to collect the rate of 15 cents per Mcf for sales of gas from new reservoirs underlying the acreage dedicated under its basic contract. Such rate change filing may be accepted without suspension if verified to be within the contemplation of Opinion No. 567, 42 FPC 726, by supporting information.

(M) The proceeding in Docket No. RI69-224 is terminated with respect to sales from the interests acquired by applicant in Docket No. CI69-1237.

(N) Applicant in Docket No. CI71-659 may charge and collect the proposed 1-cent per Mcf gathering allowance subject to refund pending Commission determination as to whether such allowance is applicable in this case.

(O) Within 30 days from the date of this order, applicant in Docket No. CI71-662 shall file three copies of a sample billing statement as required by § 154.92(b) of the regulations under the Natural Gas Act.

(P) In the event applicant in Dockets Nos. CI71-682, CI71-684, and CI71-718 exercises its options under its contracts with the gas purchaser to process the gas, applicant shall file with the Commission rate schedule supplements setting forth the conditions and details of the contemplated actions not less than 30 days prior to the commencement of such processing.

(Q) W. R. Dean, Robert L. Baker, and John C. O'Leary (Operator) et al., are made corespondents in the proceeding pending in Docket No. RI62-319; Odessa Natural Corp. is made a corespondent in the proceeding pending in Docket No. RI64-460; Bobby M. Whittington is made a corespondent in the proceeding pending in Docket No. RI70-498; and said proceedings are redesignated accordingly. They shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(R) Permission for and approval of the abandonment of service by applicants, as hereinbefore described and as more fully described in the applications and tabulation, are granted.

(S) The certificate application pending in Docket No. CI70-712 is dismissed, the temporary certificate issued in said docket is terminated, and the related FPC gas rate schedule is canceled.

(T) The certificate issued in Docket No. CI71-664 is terminated.

(U) The proceeding in Docket No. RI70-816 is terminated. Applicant in Docket No. CI71-664 is not relieved of any refund obligations in Docket No. RI71-483 as a result of the abandonment permitted and approved in the former docket.

(V) The rate schedules and rate schedule supplements related to the authorizations granted herein are accepted for filing or are redesignated, all as set forth in the tabulation herein.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[1] Where no effective date is indicated, the rate schedule filing has heretofore been accepted.
[2] From Gulfshore Oil Co. and K. D. Owen to Toyah Corp.
[3] From Toyah Corp. to Texas Oil & Gas Corp.
[4] Assigns interest of Francis L. Harvey, deceased, presently administered under Helen Loraine Harvey, Ancillary Executrix of the Last Will and Testament of Francis L. Harvey, deceased et al., to Helen Loraine Harvey.
[5] Deletion of acreage from which a sale is authorized in the instant order in Docket No. C171-645.
[6] Purchaser has no facilities in the area to take the gas.
[7] Deletes the Big Injun Formation under two leases.
[8] Dedicates additional acreage and changes the price structure of the basic contract with respect to "new" gas.
[9] Applicant proposes to continue in part sales of natural gas heretofore authorized in Docket No. CI68-309 to be made pursuant to Samedan Oil Corp. FPC Gas Rate Schedule No. 24 and in Docket No. CI68-502 to be made pursuant to Texas Gas Exploration Corp. (Operator) et al., FPC Gas Rate Schedule No. 20.
[10] From King Resources Co. to applicant.
[11] Applicant proposes to continue in part the sale of natural gas authorized in Docket No. G-17206 to be made pursuant to El Paso Products Co. FPC Gas Rate Schedule No. 8.
[12] Also on file as El Paso Products Co. FPC Gas Rate Schedule No. 8.
[13] From El Paso Products Co. to El Paso Oil and Gas Co.
[14] Covers change in name from El Paso Oil and Gas Co. to Odessa Natural Corp.
[15] Application for permission and approval to abandon the sale commenced under a temporary certificate issued in this docket.
[16] Applicant proposes to continue in part the sale of natural gas authorized in Docket No. G-13633 to be made pursuant to Pennzoil Producing Co. FPC Gas Rate Schedule No. 208.
[17] Applicant proposes to continue in part the sale of natural gas authorized in Docket No. G-11229 to be made pursuant to Atlantic Richfield Co. (Operator) et al., FPC Gas Rate Schedule No. 381.
[18] Ratifies contract of Oct. 5, 1970, between Tenneco Oil Co. and Arkansas Louisiana Gas Co.
[19] Applicant proposes to continue in part the sale of natural gas authorized in Docket No. G-18881 to be made pursuant to Union Oil Co. of California (Operator) et al., FPC Gas Rate Schedule No. 123 and to initiate a sale from previously undedicated acreage.
[20] Sale heretofore authorized in Docket No. G-7004 to be made to Consolidated Gas Supply Corp. which has no facilities to take the gas.
[21] Applicant proposes to continue in part the sale of natural gas authorized in Docket No. CI62-1335 to be made pursuant to J. Gregory Merrion et al., FPC Gas Rate Schedule No. 8.
[22] Also on file as J. Gregory Merrion et al., FPC Gas Rate Schedule No. 8.
[23] Five amendments which add acreage to the basic contract.
[24] Eleven assignments from Fred W. Pool et al., to applicant.
[25] Applicant proposes to continue in part the sale of natural gas authorized in Docket No. G-18064 to be made pursuant to J. S. Abercrombie Mineral Co., Inc. (Operator), et al., FPC Gas Rate Schedule No. 1.
[26] Also on file as J. S. Abercrombie Mineral Co., Inc. (Operator), et al., FPC Gas Rate Schedule No. 1.
[27] Each assignment provides for a depth limitation of 8,100 feet.
[28] From J. S. Abercrombie Mineral Co., Inc., to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[29] From Mrs. Wheeler Nazro, Independent Executrix of the Estate of Wheeler Nazro, to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[30] From Norman H. Mansfield to Robert L. Baker, John C. O'Leary, and W. R. Dean.
[31] From Robert V. R. Schuyler to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[32] From Clinton W. Josey, Jr., to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[33] From Pauline J. Low to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[34] From Robert H. Baker to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[35] From J. E. Josey III to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[36] From William L. Shepherd to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[37] From Ford Hubbard, Jr., to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.

[35] From Melissa Cotton Josey Fabian to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[36] From June Josey Stiles to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[40] From Dorothy Josey to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[41] From C. W. Josey to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[42] From D. W. Josey to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[43] From James L. Shepbard III to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[44] From J. Robert King to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[45] From Madeline Shepherd to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[46] From M. M. Broussard to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[47] From Cecilia S. Cambias to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[48] From R. A. Shepherd to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[49] From Ruth W. Downey to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[50] From Rex G. Baker, Jr., to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[51] From Jack S. Josey to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[52] From Houston Oil Well Service Company to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[53] From Lenoir M. Josey, Inc., to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[54] From Pine Lodge Oil Company, Inc., to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[55] From Mrs. Helga K. Shepherd, Life Tenant under the Will of James L. Shepherd, Jr., to Norman H. Mansfield Robert L. Baker, James C. O'Leary, and W. R. Dean.
[56] From Robert A. Shepherd, Jr., to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean
[57] From Mrs. Wheeler Nazro, Independent Executrix of the Estate of Wheeler Nazro, to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[58] From Thomas Fletcher, Jr., Trustee of the Grace King Fletcher Trust, to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[59] From J. S. Abercrombie Mineral Co., Inc., to Norman H. Mansfield, Robert L. Baker, John C. O'Leary, and W. R. Dean.
[60] From Norman H. Mansfield to Robert L. Baker, John C. O'Leary, and W. R. Dean.
[61] Application for permission and approval to abandon the sale authorized in Docket No. C160-274.
[62] Applicant proposes to continue in part the sale of natural gas authorized in Docket No. G-14996 to be made pursuant to Mobil Oil Corp. FPC Gas Rate Schedule No. 420.
[63] Also on file as Mobil Oil Corp. FPC Gas Rate Schedule No. 430.
[64] From Mobil Oil Corp. to Bobby W. Whittington.
[65] No abandonment application filed or necessary (18 CFR 2.64).
[66] Includes assignment from Mobil Oil Corp. to Bobby W. Whittington.
[67] Applicant proposes to continue in part the sale of natural gas authorized in Docket No. G-8816 to be made pursuant to Humble Oil & Refining Co. FPC Gas Rate Schedule No. 110.
[68] No abandonment application filed or necessary (18 CFR 2.64).
[69] Applicant proposes to continue the sale authorized in Docket No. G-12721 to be made pursuant to its FPC Gas Rate Schedule No. 125. Permission and approval to abandon said sale were granted in Docket No. C171-115 due to lack of gas production. The subject lease is now capable of producing gas.
[70] This rate schedule has been reinstated and acceptance of Supplement No. 6 hereto, the notice of cancellation, has been rescinded.

[Docket No. CP68-231]

COLUMBIA OFFSHORE PIPELINE CO. ET AL.

Notice of Supplement to Third Amendment to Application

AUGUST 10, 1971.

Columbia Offshore Pipeline Co., Columbia Gulf Transmission Co., Bonita Transmission Co., and Tennessee Gas Pipeline Co., a division of Tenneco Inc.

Take notice that on August 6, 1971, Columbia Gulf Transmission Co. (Columbia Gulf), Post Office Box 683, Houston, TX 77001, and Tennessee Gas Pipeline Co., a division of Tenneco Inc. (Tennessee), Post Office Box 2511, Houston, TX 77001, filed in Docket No. CP68-231 a supplement to the third amendment to an application for a certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act currently pending before the Commission in said docket by proposing a substitution and rearrangement of the parties, all as more fully set forth in the supplement which is on file with the Commission and open to public inspection.

In the third amendment to the instant application, Tennessee and Columbia Gulf propose to interconnect certain of their existing and proposed pipeline facilities in the Southern Louisiana and Offshore Louisiana area with a new pipeline to be built, owned and leased to them by Bonita Transmission Co. (Bonita). Such interconnected facilities are proposed to be operated as an integrated offshore system known as the "Blue Water Project," for the transportation of natural gas produced in the Offshore Louisiana Area.

Specifically, applicants propose herein to eliminate Bonita as an applicant and to substitute in lieu thereof Tennessee and Columbia Gulf. Applicants state that the proposed substitution of parties will not alter the construction or operation of the facilities proposed in the application, as amended, in Docket No. CP68-231.

Applicants have submitted revised cost estimates and state that the total project presented is estimated to cost $45,519,000, of which amount $41,253,000 is attributable to the facilities to be jointly owned and operated by Tennessee and Columbia Gulf.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said amendment should on or before August 20, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

FIRST & MERCHANTS CORP.

Order Approving Acquisition of Bank Stock by Bank Holding Company

In the matter of the application of First & Merchants Corp., Richmond, Va., for prior approval of the acquisition of 100 percent (less directors' qualifying shares) of the voting shares of the successor by merger to The First National Bank of Danville, Danville, Va.

There has come before the Board of Governors, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)) and § 222.3(a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by First & Merchants Corp., Richmond, Va. (Applicant), a bank holding company, for the Board's prior approval of the acquisition of 100 percent (less directors' qualifying shares) of the voting shares of the successor by merger to The First National Bank of Danville, Danville, Va.

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Comptroller of the Currency, and requested his views and recommendation. The Comptroller recommended approval of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on April 27, 1971 (36 F.R. 7875), providing an opportunity for interested persons to submit comments and views with respect to the proposal. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. Time for filing comments and views has expired, and all those received have been considered by the Board.

It is hereby ordered, For the reasons set forth in the Board's statement[1] of this date, that said application be and hereby is approved, provided that the acquisition so approved shall not be consummated (a) before the 30th calendar day following the date of this order, or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Richmond pursuant to delegated authority.

By order of the Board of Governors,[2] August 5, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

[FR Doc.71-11529 Filed 8-10-71;8:48 am]

[1] Filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Richmond. Dissenting statement of Governor Robertson filed as part of the original document and available upon request.

[2] Voting for this action: Chairman Burns and Governors Daane, Maisel, and Sherrill. Voting against this action: Governor Robertson. Absent and not voting: Governors Mitchell and Brimmer.

HAMILTON BANCSHARES, INC.

Order Approving Acquisition of Bank Stock by Bank Holding Company

In the matter of the application of Hamilton Bancshares, Inc., Chattanooga, Tenn., for approval of acquisition of 90.5 percent or more of the voting shares of The First National Bank of Polk County, Copperhill, Tenn.

There has come before the Board of Governors, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)) and § 222.3(a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by Hamilton Bancshares, Inc., Chattanooga, Tenn. (Applicant), a registered bank holding company, for the Board's prior approval of the acquisition of 90.5 percent or more of the voting shares of The First National Bank of Polk County, Copperhill, Tenn. (Bank).

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Comptroller of the Currency, and requested his views and recommendation. The Comptroller has recommended approval of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on June 9, 1971 (36 F.R. 11127), providing an opportunity for interested persons to submit comments and views with respect to the proposal. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. Time for filing comments and views has expired and all those received have been considered.

The Board has considered the application in the light of the factors set forth in section 3(c) of the Act, including the effect of the proposed acquisition on competition, the financial and managerial resources and future prospects of the Applicant and the banks concerned, and the convenience and needs of the communities to be served, and finds that:

Applicant, the largest bank holding company and fifth largest banking organization in Tennessee, controls nine banks which hold combined deposits of $441.6 million, representing 5.9 percent of the total deposits held by Tennessee banks.[1] (All banking data are as of December 31, 1970, adjusted to reflect holding company formations and acquisitions approved by the Board through June 30, 1971.) Upon acquisition of Bank (deposits of $12.7 million), Applicant would remain the fifth largest banking organization and its control of deposits in the State would increase slightly to 6.1 percent.

Bank, which operates one office at Copperhill, Tenn., is the largest of three banks in Polk County with 60.1 percent of the deposits in the county. Acquisition of Bank would represent Applicant's initial entry into Polk County; Applicant's subsidiary closest to Bank is approximately 60 miles away from it. Because of the distances involved, Tennessee's restrictive branching laws, and the unlikelihood that Applicant would enter the Polk County market de novo, it appears that consummation of the proposal herein would not result in the elimination of any signficant present competition nor the foreclosure of any significant potential competition between Bank and Applicant's subsidiaries. Although Applicant is acquiring the largest bank in the relevant market, the limited size and nature of the market (each bank is the sole bank within its community) make it appear unlikely competition between existing banks in the market will be altered. On the basis of the record before it, the Board concludes that consummation of the proposed acquisition would not adversely affect competition in any relevant area.

The financial and managerial resources and future prospects of Applicant, its subsidiary banks, and Bank are regarded as satisfactory. The major banking needs of Copperhill appear to be adequately served at present. Applicant proposes to improve bank services by making its trust services and managerial resources more readily available. Thus, considerations related to financial and managerial resources as well as convenience and needs of the community are consistent with approval. It is the Board's judgment that the proposed transaction would be in the public interest, and that the application should be approved.

It is hereby ordered, For the reasons set forth above, that said application be and hereby is approved, provided that the acquisition so approved shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than three months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[2] August 5, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

[FR Doc.71-11530 Filed 8-10-71;8:48 am]

[1] Applicant also controls two banks in Georgia which hold combined deposits of $56.8 million.

[2] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, and Brimmer. Absent and not voting: Governors Daane, Maisel, and Sherrill.

SUNCOOK BANK

Order Approving Action To Become Bank Holding Company

In the matter of the application of The Suncook Bank, Suncook, N.H., for approval of action to become a bank holding company through the acquisition of 48 percent of the voting shares of The Hooksett Bank, Hooksett, N.H., a proposed new bank.

There has come before the Board of Governors, pursuant to section 3(a)(1) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(1)) and § 222.3(a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by The Suncook Bank, Suncook, N.H. (Applicant), for the Board's prior approval of action whereby Applicant would become a bank holding company through the acquisition of 48 percent of the voting shares of The Hooksett Bank, Hooksett, N.H. (Bank), a proposed new bank.

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the New Hampshire Bank Commissioner, and requested his views and recommendation. The Commissioner recommended approval of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on June 19, 1971 (36 F.R. 11833), providing an opportunity for interested persons to submit comments and views with respect to the proposal. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. Time for filing comments and views has expired and all those received have been considered.

The Board has considered the application in the light of the factors set forth in section 3(c) of the Act, including the effect of the proposed acquisition on competition, the financial and managerial resources and future prospects of the Applicant and the bank concerned, and the convenience and needs of the communities to be served and finds that:

Applicant, a bank with $16.2 million deposits, has one office with 1.6 percent of the deposits in the State, and 25 percent of the deposits in the Concord area. (Banking data are as of December 31, 1970.) Applicant proposes to acquire 48 percent of the voting shares of Bank, and directors of Applicant propose to acquire an additional 4 percent, with local residents owning the remainder. Bank, the first to be located in Hooksett, a town of 5,300, 3 miles south of Applicant, will, in effect, serve as a branch of Applicant. Bank should assume a portion of Applicant's existing business from the Hooksett area. However, this will not result in an elimination of existing or potential competition since Bank will be a new institution and will not open except as a subsidiary of Applicant. Based on the record before it, the Board concludes that consummation of the proposal will have no adverse effects on existing or potential competition. Rather, the formation of Bank will result in increased banking facilities and competition.

The financial and managerial resources and future prospects of Applicant and Bank are reasonably satisfactory and consistent with approval of the application.

The development of an industrial park and a shopping center, both in the vicinity of Bank, have created the need for additional banking services in the area. In view thereof and in view of recent increases in population of the area, considerations relating to the convenience

and needs of the community to be served weigh in favor of approval.

It is hereby ordered, For the reasons set forth above, that said application be and hereby is approved, provided that the acquisition so approved shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, and provided further that (c) The Hooksett Bank shall be open for business not later than 6 months after this order. The periods described in (b) and (c) hereof may be extended for good cause by the Board, or by the Federal Reserve Bank of Boston pursuant to delegated authority.

By order of the Board of Governors,[1] August 5, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

[FR Doc.71-11531 Filed 8-10-71;8:48 am]

OLIN CORP.

Nonbanking Activities

Olin Corp., a Virginia corporation with principal offices in New York, N.Y., has applied, pursuant to section 4(d) of the Bank Holding Company Act, for an exemption from the provisions of the Act limiting the nonbanking activities of a bank holding company. The Applicant controls 59 percent of the voting shares of the Illinois State Bank of East Alton, Ill.

Under section 4(d), the exemption may be granted "(1) to avoid disrupting business relationships that have existed over a long period of years without adversely affecting the banks or communities involved, or (2) to avoid forced sales of small locally owned banks to purchasers not similarly representative of community interests, or (3) to allow retention of banks that are so small in relation to the holding company's total interests and so small in relation to the banking market to be served as to minimize the likelihood that the bank's powers to grant or deny credit may be influenced by a desire to further the holding company's other interests."

Interested persons may express their views on this matter. The application may be inspected in Room 1020 of the Board's building or at the Federal Reserve Bank of St. Louis. Any request for a hearing on this matter should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

Any views or requests for a hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than September 6, 1971.

Board of Governors of the Federal Reserve System, August 4, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-4692]

FAS INTERNATIONAL, INC.

Order Suspending Trading

AUGUST 4, 1971.

The common stock, 2 cents par value and the 5 percent convertible subordinated debentures due 1989 of FAS International, Inc., being traded on the New York Stock Exchange, Inc., pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of FAS International, Inc., being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such Exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

It is ordered, Pursuant to sections 15(c)(5) and 19(a)(4) of the Securities Exchange Act of 1934, that trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period August 5, 1971 through August 14, 1971.

By the Commission.

[SEAL] THEODORE L. HUMES,
Associate Secretary.

[812-2986]

HOME LIFE EQUITY FUND, INC., AND HOME LIFE INSURANCE

Application for Order Exempting Proposed Transaction

AUGUST 5, 1971.

Notice is hereby given that Home Life Equity Fund, Inc. (Fund), Two Hopkins Plaza, Post Office Box 1534, Baltimore, MD 21203, a diversified, open-end management investment company registered under the Investment Company Act of 1940, 15 U.S.C. section 80a-1 et seq. (Act), and Home Life Insurance Co. (Home Life), 253 Broadway, New York, NY 10007 (hereinafter collectively called "applicants") have filed an application pursuant to section 17(b) of the Act for an order exempting a proposed transaction from the provisions of section 17(a) of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

The Fund is an investment company incorporated under the laws of Maryland. The investment adviser of the Fund is Home Life and all outstanding shares of the Fund are owned by Home Life. Currently, shares of the Fund may be sold only to Home Life and its separate accounts. The Fund has filed a registration statement under the Act on Form N-8B-1 and a registration statement on Form S-5 under the Securities Act of 1933, as amended (1933 Act).

Home Life is a mutual life insurance company organized under the laws of the State of New York on May 1, 1960. Home Life issues certain variable annuity contracts which participate in a separate account designated Separate Account B (Account). The Account is not registered as an investment company pursuant to exclusion from the definition of "investment company" provided by section 3(c)(11) of the Act, as amended December 14, 1970. The assets of the Account are separate from the other assets of Home Life, and in accordance with the terms of the participating contracts, the assets held in the Account to the credit of such contracts are not chargeable with liabilities arising out of any other business conducted by Home Life.

Home Life is responsible for making all investment decisions for the Account. The principal investment objective of the Account is in substance identical to the principal investment objective of the Fund, and the investment policies and restrictions of the Account are substantially similar to those of the Fund. Included among the investment policies of the Account is the right to invest all assets in shares of a registered open-end management investment company. In accordance with this policy, Home Life intends to invest all assets of the Account in shares of the Fund. As of March 31, 1971, the assets of the Account totaled approximately $217,000.

Home Life proposes to transfer all of the assets of the Account to the Fund in exchange for Fund shares. The number of Fund shares to be issued will be determined by dividing (i) the value of the assets of the Account as of the close of trading on the New York Stock Exchange on the date of the transfer by (ii) the net asset value per Fund share as of the close of trading on the Exchange on such date. Applicants represent that all assets transferred to the Fund will be compatible with the investment objective, policies and restrictions of the Fund. In the opinion of counsel for Home Life, the exchange of assets of the Account for Fund shares will be a taxable transaction, and the Fund's cost basis for tax purposes in the assets acquired from the Account will be the value of such assets as of the exchange date. Accordingly, no adjustment for potential capital gains taxes will be made. Applicants represent that any tax payable by Home Life as a result of the exchange will be insignificant inasmuch as the assets held by the Account in relation to variable annuity contracts are entitled to special tax treatment under the Internal Revenue Code.

Section 17(a) provides, in pertinent part, that it shall be unlawful for any affiliated person of a registered investment company, acting as principal, knowingly to sell property to such company. Home Life as the investment adviser and sole stockholder of the Fund is an affiliated person of the Fund under section 2(a)(3) of the Act. Section 17(b) of the Act directs the Commission to exempt a proposed transaction subject to section 17(a) of the Act, if the evidence establishes that (a) the terms thereof, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned; (b) the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the Act; and (c) the proposed transaction is consistent with the general purposes of the Act.

Applicants state that the proposed transaction will not be effected unless all assets transferred to the Fund have been approved by Home Life, acting as investment adviser, and the Board of Directors of the Fund as suitable investments for the Fund. In addition, all assets of the Account and of the Fund at the time of the exchange must have readily ascertainable market values. Applicants represent that on the basis of the foregoing there is no possibility of unfairness in the terms of the transaction or of inadequate consideration being paid for the shares issued by the Fund.

Applicants further state that the proposed transaction will avoid unnecessary brokerage expenses which would otherwise be borne by shareholders of the Fund and by the holders of the variable annuity contracts participating in the Account. Applicants state that there is no persuasive reason for requiring the transaction to be accomplished in a manner subjecting the parties to unnecessary brokerage costs in view of the safeguards which will assure fairness in the terms of the exchange if effected in the manner described.

Notice is further given that any interested person may, not later than August 26, 1971, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter acompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after such date as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the matter herein may be issued by the Commission upon the basis of the information stated in said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Acting Associate Secretary.

[811-1942]

NATIONAL CAPITAL INVESTMENTS, INC.

Notice of Filing of Application Declaring That Company Has Ceased To Be an Investment Company

AUGUST 4, 1971.

Notice is hereby given that National Capital Investments, Inc. (Applicant), 85 Devonshire Street, Boston, MA, a Massachusetts corporation registered as a closed-end, nondiversified management investment company under the Investment Company Act of 1940 (Act), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations set forth therein which are summarized below.

Applicant registered under the Act by filing a Notification of Registration Form N-8A on September 17, 1969. A registration statement on Form N-8B-1 was filed on September 29, 1969. On November 24, 1969, a registration statement on Form S-4 was filed with the Commission under the Securities Act of 1933; said registration statement has not been made effective and Applicant has requested its withdrawal.

Applicant represents that it has no shareholders and that no public offering or sale of its common stock has been or is intended to be made. It has no assets of any kind.

Section 3(c)(1) of the Act excepts from the definition of investment company any issuer whose outstanding securities are beneficially owned by not more than 100 persons, and which is not making and does not presently propose to make a public offering of its securities.

Section 8(f) of the Act provides in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than August 25, 1971, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request he be notified if the Commission should order a hearing thereon. Any such communication should be adressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in the case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time later than said date as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] THEODORE L. HUMES,
Associate Secretary.

TARIFF COMMISSION

[AA1921-78/80]

SHEET GLASS FROM FRANCE, ITALY, AND WEST GERMANY

Notice of Investigations and Hearing

Having received advice from the Treasury Department on August 3, 1971, that clear sheet glass weighing over 28 ounces per square foot from France and West Germany and clear sheet glass weighing over 16 ounces per square foot from Italy is being, or is likely to be, sold in the United States at less than fair value, the U.S. Tariff Commission has instituted joint investigations Nos. AA1921-78 (France), AA1921-79 (West Germany), and AA1921-80 (Italy) under section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

Hearing. A joint public hearing in connection with these investigations will be

[1] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, and Brimmer. Absent and not voting: Governors Daane, Maisel, and Sherrill.

held in the Tariff Commission's Hearing Room, Tariff Commission Building, 8th and E Streets NW., Washington, DC, beginning at 10 a.m., e.d.s.t., on September 22, 1971. All parties will be given opportunity to be present, to produce evidence, and to be heard at such hearing. Interested parties desiring to appear at the public hearing should notify the Secretary of the Tariff Commission, in writing, at its office in Washington, D.C., at least 5 days in advance of the date set for the hearing.

Issued: August 6, 1971.

By order of the Commission.

[SEAL] KENNNETH R. MASON,
Secretary.

DEPARTMENT OF LABOR

Office of the Secretary

[TEA-W-90]

M. P. MOLLER, INC.

Notice of Investigation Regarding Certification of Eligibility of Workers To Apply for Adjustment Assistance

After reviewing the Tariff Commission's report on its investigation of the petition for adjustment assistance filed on behalf of workers formerly employed by M. P. Moller, Inc. of Hagerstown, Md. (Report No. TEA-W-90) under section 301(c)(2) of the Trade Expansion Act of 1962, and in which report the Commission being equally divided, made no finding, the President decided, under the authority of section 330(d)(1) of the Tariff Act of 1930 as amended, to consider the findings of those Commissioners who found in the affirmative as the finding of the Commission. Accordingly, he has advised the Secretary of Labor that he may certify this group of workers as eligible to apply for adjustment assistance.

In view of the Tariff Commission's report, the President's authorization, and the responsibilities delegated to the Secretary of Labor under section 8 of Executive Order 11075 (28 F.R. 473), the Director, Office of Foreign Economic Policy, Bureau of International Labor Affairs, has instituted an investigation, as provided in 29 CFR 90.5 and this notice. The investigation relates to the determination of whether any of the group of workers covered by the Tariff Commission report should be certified as eligible to apply for adjustment assistance, provided for under Title III, Chapter 3, of the Trade Expansion Act of 1962, including the determination of related subsidiary subjects and matters, such as the date unemployment or underemployment began or threatened to begin and the subdivision of the firm involved to be specified in any certification to be made, as more specifically provided in Subpart B of CFR Part 90.

Interested persons should submit written data, views, or arguments relating to the subjects of investigations to the Director, Office of Foreign Economic Policy, U.S. Department of Labor, Washington, D.C. 20210, on or before August 19, 1971.

Signed at Washington, D.C. this 4th day of August 1971.

EDGAR I. EATON,
Director, Office of Foreign Economic Policy.

Wage and Hour Division

CERTIFICATES AUTHORIZING THE EMPLOYMENT OF LEARNERS AT SPECIAL MINIMUM WAGES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.) and Administrative Orders 595 and 621 (31 F.R. 12981 and 36 F.R. 12819) the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the act. For each certificate, the effective and expiration dates, number or proportion of learners and the principal product manufactured by the establishment are as indicated. Conditions on occupations, wage rates, and learning periods which are provided in certificates issued under the supplemental industry regulations cited in the captions below are as established in those regulations; such conditions in certificates not issued under the supplemental industry regulations are as listed.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.20 to 522.25, as amended).

The following normal labor turnover certificates authorize 10 percent of the total number of factory production workers except as otherwise indicated.

Aalfs Manufacturing Co., Sioux City, Iowa; 7-12-71 to 7-11-72 (ladies', men's and boys' jeans).

Ainsbrooke Co., Olney, Ill.; 6-29-71 to 6-28-72 (men's and boys' pajamas).

Amco Industries, Anderson, S.C.; 6-23-71 to 6-22-72; 10 learners (ladies' blouses and pants suits).

The Arrow Co., Gilbert, Minn.; 6-24-71 to 6-23-72 (men's shirt collars and cuffs).

The Arrow Co., Virginia, Minn.; 6-24-71 to 6-23-72 (men's shirts).

Barbizon of Utah, Inc., Provo, Utah; 7-11-71 to 7-10-72 (ladies' lingerie).

Baumel Dress Corp., Olyphant, Pa.; 6-21-71 to 6-20-72 (women's and children's dresses).

Caraway Apparel Co. Inc., Caraway, Ark.; 7-11-71 to 7-10-72; 10 learners (ladies' dresses).

Central Apparel Corp., Danville, Va.; 7-14-71 to 7-13-72 (children's pants).

The Fordyce Apparel Co., Fordyce, Ark.; 7-10-71 to 7-9-72 (men's and boys' pants).

Giles Manufacturing Corp., Narrows, Va.; 7-6-71 to 7-5-72 (children's knit shirts, slacks, and creepers).

Greenway Manufacturing Co., Waynesburg, Pa.; 7-8-71 to 7-7-72 (boys' shirts).

Guin Garment Corp., Guin, Ala.; 7-15-71 to 7-14-72 (boys' shirts).

Hansley Industries, Inc., Hattiesburg, Miss.; 6-23-71 to 6-22-72 (men's pajamas).

Henry I. Siegel Co., Inc., Gleason, Tenn.; 6-29-71 to 6-28-72 (men's and boys' pants).

Hy-Grade Pants Co., Inc., Taylor, Pa.; 6-22-71 to 6-21-72 (men's and boys' pants).

Imperial Reading Corp., Lafayette, Tenn.; 6-25-71 to 6-24-72 (men's shirts).

Jo-Jac Shirt Co., Inc., Pulaski, Tenn.; 7-3-71 to 7-2-72; 10 learners (boys' shirts).

Kellwood Co., Coffeeville, Miss.; 7-12-71 to 7-11-72 (boys' pants).

LaCrosse Sportswear Corp., LaCrosse, Va.; 7-5-71 to 7-4-72 (men's and boys' knit sport shirts).

Lee-Mar Shirt Co., Inc., Pulaski, Tenn.; 7-15-71 to 7-14-72 (boys' shirts).

Manchester Pants Co., Manchester, Md.; 6-30-71 to 6-29-72 (men's pants).

Manhattan Industries, Inc., Americus, Ga.; 7-1-71 to 6-30-72 (men's shirts).

Marietta Sportswear Manufacturing Co., Marietta, Okla.; 7-7-71 to 7-6-72 (men's slacks).

Martin Manufacturing Co., Inc., Martin, Tenn.; 7-6-71 to 7-5-72 (men's uniform shirts).

McCreary Manufacturing Co., Inc., Stearns, Ky.; 7-19-71 to 7-18-72 (men's shirts).

Monticello Manufacturing Co., Inc., Monticello, Ky.; 7-19-71 to 7-18-72 (men's shirts and ladies' blouses).

Morgan Sportswear Co., Madison, Ga.; 7-11-71 to 7-10-72 (men's and boys' knit shirts).

Newport Manufacturing Co., Newport, N.C.; 7-12-71 to 7-11-72 (men's sport shirts).

Pecos Garment Co., Pecos, Tex.; 7-12-71 to 7-11-72 (men's and boys' dungarees).

Rose Hill Textiles, Inc., Rose Hill, N.C.; 6-29-71 to 6-28-72; 10 learners (boys' jackets).

Spencer California, Tehachapi, Calif.; 7-1-71 to 6-30-72; 7 learners (children's jumpers, pants dresses, pajamas, and gowns).

The following plant expansion certificates were issued authorizing the number of learners indicated.

Gahama Manufacturing Co., Inc., Heflin, Ala.; 7-6-71 to 1-5-72; 10 learners (ladies' dresses, pants suits, and uniforms).

Kellwood Co., Grenda, Miss.; 6-28-71 to 12-27-71; 50 learners (boys' pants).

Koinonia Sewing Industry, Americus, Ga.; 7-9-71 to 1-8-72; 18 learners (women's pants).

Glove Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.60 to 522.65, as amended).

Good Luck Glove Co., Metropolis, Ill.; 7-6-71 to 7-5-72; 10 percent of the total number of machine stitchers for normal labor turnover purposes (work gloves).

Ideal Glove Co., Maben, Miss.; 6-23-71 to 6-22-72; 5 learners for normal labor turnover purposes (work gloves).

Lambert Manufacturing Co., Chillicothe, Mo.; 7-16-71 to 7-17-72; 10 learners for normal labor turnover purposes (work gloves).

Southern Glove Manufacturing Co., Inc., Conover, N.C.; 6-23-71 to 6-22-72; 10 percent of the total number of machine stitchers for normal labor turnover purposes (work gloves).

Wells Lamont Corp., Brownsville, Tenn.; 7-20-71 to 7-19-72; 10 percent of the total number of machine stitchers for normal labor turnover purposes (fabric, hunting, casual, and ski gloves).

Hosiery Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.40 to 522.43, as amended)

W. Y. Shugart & Sons, Inc., Fort Payne, Ala.; 7-2-71 to 7-1-72; 5 percent of the total number of factory production workers for normal labor turnover purposes (infants', misses', and boys' hosiery).

Knitted Wear Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.30 to 522.35, as amended).

Glennville Lingerie Corp., Glennville, Ga.; 7-12-71 to 1-11-72; 18 learners for plant expansion purposes (women's and children's underwear and sleepwear).

Paul Bruce Manufacturing Co., Inc., Scotland Neck, N.C.; 6-30-71 to 6-29-72; 5 learners for normal labor turnover purposes (ladies' sleepwear).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that expefienced workers for the learner occupations are not available. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within 15 days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9. The certificates may be annulled or withdrawn, as indicated, therein, in the manner provided in 29 CFR Part 528.

Signed at Washington, D.C., this 6th day of August 1971.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

[Notice 27]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

AUGUST 6, 1971.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969 (49 CFR 1042.4(d)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(d)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(d)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC-20824 (Deviation No. 7), COMMERCIAL MOTOR FREIGHT, INC., OF INDIANA, 2141 South High School Road, Post Office Box 41719, Indianapolis, IN 46241, filed July 28, 1971. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: Between South Bend, Ind., and Valparaiso, Ind., over Indiana Highway 2, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Fort Wayne, Ind., over U.S. Highway 30 to junction Indiana Highway 53, thence over Indiana Highway 53 to Gary, Ind., thence over U.S. Highway 20 to Chicago, Ill.; and (2) from Louisville, Ky., over U.S. Highway 31E to Sellersburg, Ind., thence over U.S. Highway 31 to junction Alternate U.S. Highway 31, thence over Alternate U.S. Highway 31 via Columbus, Ind., to junction U.S. Highway 31, thence over U.S. Highway 31 via Franklin and Indianapolis, Ind., to South Bend, Ind., and return over the same routes.

No. MC 42487 (Deviation No. 90), CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 174 Linfield Drive, Menlo Park, CA 94105, filed July 29, 1971. Carrier's representative: V. R. Oldenburg, Post Office Box 5138, Chicago, IL 60680. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Jamestown, N.Y., over New York Highway 17J to Mayville, N.Y., thence over New York Highway 17 to Westfield, N.Y., thence over U.S. Highway 20 to junction Interstate Highway 90 at or near the New York-Pennsylvania State line, thence over Interstate Highway 90 to junction Interstate Highway 271, thence over Interstate Highway 271 to junction Ohio Highway 82 at or near Twinsburg, Ohio, thence over Ohio Highway 82 to junction Ohio Highway 21, thence over Ohio Highway 21 to junction Cleveland-Massillon Road, thence over the Cleveland-Massillon Road to West Richfield, Ohio, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Akron, Ohio, over U.S. Highway 224 to New Castle, Pa., serving all points within 15 miles of Akron, Ohio; and (2) from Jamestown, N.Y., over New York Highway 60 to junction unnumbered highway, thence over unnumbered highway via Busti, N.Y., to the New York-Pennsylvania State line, thence over unnumbered highway to Sugargrove, Pa., thence over Pennsylvania Highway 69 to junction Pennsylvania Highway 27, thence

over Pennsylvania Highway 27 via Youngsville, Pa., to Pleasantville, Pa., thence over Pennsylvania Highway 36 to Titusville, Pa., thence over Pennsylvania Highway 8 to Franklin, Pa., thence over U.S. Highway 62 to Mercer, Pa., thence over U.S. Highway 19 to Harlansburg, Pa., thence over Pennsylvania Highway 108 to New Castle, Pa., thence over Pennsylvania Highway 65 to Pittsburgh, Pa., and return over the same routes.

No. MC-48958 (Deviation No. 29), ILLINOIS-CALIFORNIA EXPRESS, INC., Post Office Box 9050, Amarillo, TX 79105, filed July 28, 1971. Carrier's representative: Morris G. Cobb, same address as applicant. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Dallas, Tex., over Interstate Highway 20 (U.S. Highway 80) to junction U.S. Highway 380 at or near Post, Tex., thence over U.S. Highway 84 to junction US. Highway 380 at or near Post, Tex., thence over U.S. Highway 380 to Roswell, N. Mex., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Amarillo, Tex., over U.S. Highway 287 via Wichita Falls, Tex., to Rhome, Tex., thence over Texas Highway 114 to Dallas, Tex.; (2) from Vaughn, N. Mex., over U.S. Highway 60 via Clovis, N. Mex., to Amarillo, Tex.; and (3) from Roswell, N. Mex., over U.S. Highway 70 to Clovis, N. Mex., and return over the same routes.

No. MC-59680 (Deviation No. 86), STRICKLAND TRANSPORTATION CO., INC., Post Office Box 5689, Dallas, TX 75222, filed July 28, 1971. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (1) From junction U.S. Highway 6 and Interstate Highway 65, over Interstate Highway 65 to junction U.S. Highway 30, thence over U.S. Highway 30 to junction Interstate Highway 69, thence over Interstate Highway 69 (U.S. Highway 27) to junction U.S. Highway 6, and (2) from junction U.S. Highway 6 and Interstate Highway 65, over Interstate Highway 65 to junction U.S. Highway 30, thence over U.S. Highway 30 to junction U.S. Highway 31, thence over U.S. Highway 31 to junction U.S. Highway 6, and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Chicago, Ill., over Alternate U.S. Highway 30 via Calumet City, Ill., to junction U.S. Highway 6, thence over U.S. Highway 6 to Lorain, Ohio, and return over the same route.

By the Commission.

[Notice 22]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

AUGUST 6, 1971.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of Passengers, 1969 (49 CFR 1042.2(c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PASSENGERS

No. MC-2844 (Deviation No. 2), CHICAGO & CALUMET DISTRICT TRANSIT COMPANY, INC., 4932 Columbia Avenue, Hammond, IN 46327, filed July 28, 1971. Carrier's representative: Gregory M. Rebman, 1230 Boatmen's Bank Building, St. Louis, MO 63102. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, over a deviation route as follows: From the junction of Indianapolis Boulevard and Chicago Skyway entrance, over the Chicago Skyway to junction Dan Ryan Expressway, thence over Dan Ryan Expressway to junction 22d Street, thence over 22d Street, to junction Indiana Street, thence over Indiana Street, to junction 14th Street, thence over 14th Street, to junction Michigan Avenue, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over pertinent service routes as follows: (1) From the National Trailways Bus Depot at 20 East Randolph Street, over the first alley north of East Randolph Street to junction Wabash Avenue, thence over Wabash Avenue to junction Wacker Drive, thence over Wacker Drive to junction Michigan Boulevard, thence over Michigan Boulevard to junction East Balbo Drive, thence over East Balbo Drive to junction Columbus Drive, thence over Columbus Drive to junction Leif Ericson Drive, thence over Leif Ericson Drive to Jackson Park, thence through Jackson Park to junction 63d Street and Stoney Island Avenue; and return over the above-specified route to junction Leif Ericson Drive and Columbus Drive, thence over Leif Ericson Drive to junction Michigan Boulevard, thence over Michigan Boulevard to junction Randolph Street, thence over Randolph Street to the National Trailways Bus Depot; and (2) from junction 63d Street and South Park Avenue, Chicago, Ill., over South Park Avenue to junction South Chicago Avenue, thence over South Chicago Avenue to junction 95th Street, thence over 95th Street to junction Ewing Avenue, thence over Ewing Avenue to junction Indianapolis Boulevard, thence over Indianapolis Boulevard to junction Calumet Avenue, in Hammond Ind., and return over the same route.

No. MC-2844 (Deviation No. 3), CHICAGO & CALUMET DISTRICT TRANSIT COMPANY, INC., 4932 Columbia Avenue, Hammond, IN 46327, filed July 28, 1971. Carrier's representative: Gregory M. Rebman, 1230 Boatmen's Bank Building, St. Louis, MO 63102. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, over a deviation route as follows: From junction Wacker Boulevard and Michigan Avenue, over Michigan Avenue to 14th Street, thence over 14th Street to junction Indiana Avenue, thence over Indiana Avenue to junction 22d Street, thence over 22d Street to junction Dan Ryan Expressway, thence over Dan Ryan Expressway to junction Calumt Expressway, thence over Calumet Expressway to junction Dalton Road, thence over Dalton Road to junction State Street, thence over State Street to junction State Line Avenue, thence over State Line Avenue to junction Highland Avenue, thence over Highland Avenue to junction Hohman Avenue, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over pertinent service routes as follows: (1) From junction Wacker Drive and Michigan Boulevard, over Michigan Boulevard, to junction East Balbo Drive, thence over East Balbo Drive to junction Columbus Drive, thence over Columbus Drive to junction Leif Ericson Drive, thence over Leif Ericson Drive to Jackson Park, thence through Jackson Park to junction 63d Street and Stony Island Avenue; and return over the above-specified route to junction Leif Ericson Drive and Columbus Drive, thence over Leif Ericson Drive to junction East Balbo Drive, thence over East Balbo Drive to junction Michigan Boulevard, to junction Wacker Drive; and (2) from junction 63d Street and South Park Avenue, Chicago, Ill., over South Park Avenue, to junction South Chicago Avenue, thence over South Chicago Avenue, to junction 95th Street, thence over 95th Street, to junction Ewing Avenue, thence over Ewing Avenue, to junction Indianapolis Boulevard, to junction Calumet Avenue, in Hammond, Ind., thence over Calumet Avenue, to junction Gostlin Street, thence over Gostlin Street to junction Hohman Avenue, thence over Hohman Avenue, to junction Highland Street, and return over the same route.

No. MC-2844 (Deviation No. 4), CHICAGO & CALUMET DISTRICT TRANSIT COMPANY, INC., 4932 Columbia Avenue, Hammond, IN 46327, filed July 28, 1971. Carrier's representative: Gregory M. Rehman, 1230 Boatmen's Bank Building, St. Louis, Mo. 63102. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, over a deviation route as follows: From junction 141st Street and Hohman Avenue in Hammond, Ind., over 141st Street to junction Indianapolis Toll Road, thence over Indianapolis Toll Road to junction Chicago Skyway, thence over Chicago Skyway to junction Dan Ryan Expressway, thence over Dan Ryan Expressway to junction 22d Street, thence over 22d Street to junction Indiana Street, thence over Indiana Street to junction 14th Street, thence over 14th Street to junction Michigan Avenue, in Chicago, Ill., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over pertinent service routes as follows: (1) From junction Calumet and Sheffield Avenues, in Hammond, Ind., over Sheffield Avenue, to junction Hohman Avenue, thence over Hohman Avenue, to junction Gostlin Street, (2) from junction Calumet Avenue and 119th Street, in Hammond, Ind., over 119th Street, to junction Indianapolis Boulevard, in Whiting, Ind., and (3) from junction 63d Street, and South Park Avenue, in Chicago, Ill., over 63d Street, to junction Stony Island Avenue, thence over Stony Island Avenue, to junction South Chicago Avenue, thence over South Chicago Avenue, to junction 95th Street, thence over 95th Street, to junction Ewing Avenue, thence over Ewing Avenue, to junction Indianapolis Boulevard, thence over Indianapolis Boulevard, to junction 119th Street, Whiting, Ind., and return over the same routes.

No. MC-109780 (Deviation No. 36), CONTINENTAL TRAILWAYS, INC., 1501 South Central Avenue, Los Angeles, CA 90021, filed July 28, 1971. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers* in the same vehicle with passengers, over a deviation route as follows: From junction U.S. Highway 50 and Interstate Highway 205 east of Tracy, Calif., over Interstate Highway 205 to junction U.S. Highway 50 west of Tracy, Calif., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From Lerdo, Calif., over California Highway 99 (formerly U.S. Highway 99) via Tulare and Manteca, Calif., to Stockton, Calif., thence over U.S. Highway 50 to San Francisco, Calif., and return over the same route.

By the Commission.

[Notice 63]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

AUGUST 6, 1971.

The following publications are governed by the new Special Rule 247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 115180 (Sub-No. 68) (Republication) filed January 4, 1971, published in the FEDERAL REGISTER issue of February 4, 1971, and republished this issue. Applicant: ONLEY REFRIGERATED TRANSPORTATION, INC., 408 West 14th Street, New York, NY 10014. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. A report and order of the Commission, Review Board No. 3, decided July 13, 1971, and served July 30, 1971, finds; that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of meat, meat products, and meat byproducts, and articles distributed by meat packinghouses as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766; from the facilities of Wilson Beef & Lamb Co., near Hereford, Tex., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and New Hampshire, and the District of Columbia, restricted to the transportation of shipments originating at the above-described origin points and destined to the above-named destinations. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority granted herein, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition for leave to intervene in this proceeding or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 120978 (Sub-No. 2) (Republication) filed November 23, 1970, published in the FEDERAL REGISTER issue of December 17, 1970, and republished this issue. Applicant: REINHART MAYER, doing business as MAYER TRUCK LINE, 1203 South Riverside Drive, Jamestown, ND 58401. Applicant's representative: Thomas J. Van Osdel, 502 First National Bank Building, Fargo, ND 58102. An order of the Commission, Operating Rights Board, dated June 30, 1971, and served July 30, 1971, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of dry fertilizer and dry fertilizer ingredients, from Port Cargill, Minn., to Bloomington, Minn. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene or other pleading setting forth in precise detail the manner in which it has been so prejudiced.

No. MC 134073 (Notice of Filing of Petition To Add Names of Shippers to Present Operating Authority), filed July 22, 1971. Petitioner: GENOVA TRANSPORT, INC., Williamstown, N.J. Petitioner's representative: George A. Olsen, 69 Tonnale Avenue, Jersey City, NJ 07306. Petitioner is authorized in No. MC 134073, the part here pertinent, to transport metal containers, ends, caps, and covers, from Winchester, Va., to Williamstown, N.J., with no transportation for compensation on return except as otherwise authorized, under contract with Violet Packing Co. of Williamstown, N.J. By the instant petition, petitioner seeks to add the additional contracting shippers, National Fruit Co., Inc., and Ron Son Mushroom Products Co., Inc. Any interested person desiring to participate may file an original and six copies of his written representation, views, or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

NOTICE OF FILING OF PETITIONS

No. MC 100623 (Sub-No. 9), (Notice of Filing of Petition for Waiver of Rule 101(e) and for Clarification of Modification of Operating Authority), filed July 27, 1971. Petitioner: HOURLY MESSENGERS, INC., doing business as H. M. PACKAGE DELIVERY SERVICE, Philadelphia, Pa. Petitioner's representative: James W. Patterson, 2107 The Fidelity Building, Philadelphia, Pa. 19109. Petitioner holds a certificate in No. MC 100623 (Sub-No. 9) authorizing the transportation, as a motor common carrier, over irregular routes, of: *Drugs, medicines, and pharmaceutical products*, from Somerset, N.J., to points in Berks, Bucks, Chester, Dauphin, Delaware, Lancaster, Lebanon Lehigh, Montgomery,

Philadelphia, and York Counties, Pa., with no transportation for compensation on return except as otherwise authorized. Restriction: The service authorized herein is subject to the following conditions: The service authorized herein is restricted against the transportation of packages or articles weighing in the aggregate more than 50 pounds from one consignor to one consignee on any one day. By the instant petition, petitioner requests that the service restriction be modified to read as follows: "Drugs, medicines and pharmaceuticals, *in packages of 50 pounds or less*,". Any interested person desiring to participate may file an original and six copies of his written representations, views, or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240.)

MOTOR CARRIER OF PROPERTY

Finance Docket No. 26737. By application filed August 3, 1971, KATY INDUSTRIES, INC., seeks an order under sections 5(2) and (15) of the Interstate Commerce Act authorizing it to acquire control of CENAC TOWING CO., INC., through ownership of its stock. CENAC TOWING CO., INC., operates between ports and points in Mississippi, Alabama, and Florida, along the Gulf of Mexico, the Gulf Intracoastal Waterway and connecting waterways, except ports and points on the Mississippi River above Louisiana. In the alternative, applicant asks for a finding that the transaction is not prohibited by section 5(14) of the act. Applicant is not a carrier, but controls the MISSOURI-KANSAS-TEXAS RAILROAD COMPANY, a common carrier by railroad operating in Missouri, Oklahoma, Kansas, and Texas. Any person wishing to object to the applicant's proposal should file its protest with the Secretary of the Interstate Commerce Commission within 15 days from the date of this publication.

No. MC–F–11251. Authority sought for purchase by LESTER R. SUMMERS, INC., Post Office Box 239, Ephrata, PA. 17522, of the operating rights of W. B. GIRVIN, INC., Post Office Box 156, Ephrata, PA. 17522, and for acquisition by LESTER R. SUMMERS, also of Ephrata, Pa. 17522, of control of such rights through the purchase. Applicants' attorney: John M. Musselman, Post Office Box 1146, 400 North Third Street, Harrisburg, PA. 17108. Operating rights sought to be transferred: *General commodities*, except those of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities requiring special equipment other than tank trucks, and those injurious or contaminating to other lading, as a *common carrier*, over irregular routes, between points and places within 5 miles of Leola, Pa., including Leola; *fertilizer*, from Baltimore, Md., to points and places in certain specified counties in Pennsylvania, from Paulsboro, N.J., to Strasburg, Pa.; *fertilizer ingredients*, from Philadelphia, Pa., to Harrison, N.J.; *insecticides*, from Chauncey and New York, N.Y., and Bound Brook, N.J., to points and places in certain specified counties in Pennsylvania, from Baltimore, Md., to Leola, Pa.; *flour, bran, cornmeal, and cracked wheat*, from Ronks and Quarryville, Pa., to New York, N.Y., and Trenton and Camden, N.J.; *burlap*, in bales and rolls, from New York, N.Y., to Lancaster, Pa.; *bakery paper and cardboard cartons*, from Newark, N.J., to Leola, Pa.; *linseed oil*, from New York, N.Y., and Baltimore, Md., to Lancaster, Pa.; *potatoes*, from points and places in Lancaster, Lehigh, and York Counties, Pa. to Baltimore, Md., Washington, D.C., Camden, N.J., and New York, N.Y., from points and places in Lancaster, Lebanon, and Chester Counties, Pa., to Trenton, N.J., and Baltimore, Md.; *poultry*, from Bird-in-Hand, Pa., to New York, N.Y.; *Nursery products*, from points and places in Lancaster and Berks Counties, Pa., to New York, N.Y., Baltimore, Md., and Washington, D.C., and points and places in Maryland, within 15 miles of Baltimore and Washington; *cod liver oil*, from Newark and Vineland, N.J., to Lancaster and York, Pa.; *lumber*, from Wilmington, Del., and Philadelphia, Pa., to points and places in Lancaster and York Counties, Pa.; *feed*, from Harrison, N.J., to Westminster, Mt. Airy, and Germantown, Md., points and places in York and Lancaster Counties, Pa., and those in Pennsylvania bounded by a line beginning at Chambersburg, Pa., and extending along U.S. Highway 30 to McConnellsburg, Pa., thence along U.S. Highway 522 to Lewistown, Pa., thence along U.S. Highway 22 to Harrisburg, Pa., and thence along U.S. Highway 11 to the point of beginning, including points and places on the indicated portions of the highways specified, from Baltimore, Md., to Lancaster, Pa., from Philadelphia, Pa., to points and places in Chester, Lancaster, Pa., Berks, Dauphin, Lebanon, Adams, York, and Cumberland Counties, Pa., and those in Harford, Baltimore, Carroll, Frederick, Howard, and Montgomery Counties, Md.; *peat moss*, from Philadelphia, Pa., to Leola, Pa., and points and places within 10 miles of Leola; *gasoline, kerosene, and fuel oil*, in bulk, from Wilmington, Del., to points and places in Pennsylvania within 150 miles of Wilmington, and those in Maryland east of the Susquehanna River and Chesapeake Bay; *agricultural pulverized limestone*, from points in Lancaster County, Pa., to points in Delaware and Maryland, except incorporated municipalities; *sand*, from points in Cecil County, Md., to points in Lancaster County, Pa. Vendee is authorized to operate as a *common carrier* in Pennsylvania, Maryland, District of Columbia, Delaware, New Jersey, New York, Virginia, and West Virginia. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11252. Authority sought for purchase by IML FREIGHT, INC., 2175 South 3270 West, Post Office 2277, Salt Lake City, UT 84110, of a portion of the operating rights and specified property of MICHIGAN EXPRESS, INC., 1122 Freeman Avenue SW., Grand Rapids, MI 49502, and for acquisition by HAZEL GATES WOODRUFF, CHARLES GATES CANNON AND CHARLES GATES, JR., all of Salt Lake City, Utah 84110, of control of such rights and specified property through the purchase. Applicant's attorney: Jack Goodman, 39 South LaSalle Street, Chicago, IL 60603. Operating rights sought to be transferred: *General commodities*, excepting among others, classes A and B explosives, household goods and commodities in bulk, as a *common carrier*, over regular routes, between Chicago, Ill., and Marshall and Niles, Mich., and all intermediate points, those intermediate and off-route points within 2 miles of Kalamazoo, Mich., the off-route points of Buchanan, Mich., and the site of the Upjohn Co. plant, located approximately 4½ miles southeast of Kalamazoo, and those off-route points in the Chicago, Ill., commercial zone as defined by the Commission, between Grand Rapids, Mich., and Detroit, Mich., and all intermediate points with service at intermediate points restricted against traffic originating at Battle Creek, Mich., or points east thereof destined to points east of Battle Creek; and off-route points within 5 miles of Ann Arbor, Mich., those within 4 miles of Jackson, Mich., those in the Detroit, Mich., commercial zone as defined by the Commission, the site of the Packard Motor Car Co. plant, north of Utica, Mich., and the site of the Chrysler Corp. plant, approximately 8 miles north of Detroit, unrestricted, over one alternate route for operating convenience only, between Kalamazoo, Mich., on the one hand, and, on the other Hastings, Mich., between Kalamazoo, Mich., on the one hand, and, on the other, Grand Rapids, Mich., between junction U.S. Highways 12 and 31, on the one hand, and, on the other, Niles, Mich., between Jackson, Mich., and Toledo, Ohio, serving all intermediate points, between Benton Harbor, Mich., and Chicago, Ill., serving the intermediate point of Indiana Harbor and the off-route point of Fort Sheridan, Ill., and those in the Chicago commercial zone, between Detroit, Mich., and Rochester, Mich., serving all intermediate points, between Chicago, Ill., and Cincinnati, Ohio, serving all intermediate points, between Chicago, Ill., and Lima, Ohio, serving all intermediate points, with restrictions. Vendee is authorized to operate as a *common carrier* in Colorado, Utah, Wyoming, Nevada, Nebraska, California, Iowa, Illinois, Arizona, Idaho, Kansas, Missouri, Oregon, Washington, Kentucky, Indiana, Ohio, Pennsylvania, Massachusetts, New York, New Jersey, District of Columbia, Connecticut, and Wisconsin. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11253. Authority sought for purchase by VIRGINIA-CAROLINA FREIGHT LINES, INCORPORATED, V-C Drive, Martinsville, Va. 24112, of a portion of the operating rights of FARSON MOTOR LINES, INC., Post Office Box 227, Ashland, KY 41101, and for acquisition by JAMES C. STONE, also of Martinsville, Va. 24112, of control of such rights through the purchase. Applicants' attorney: Spencer T. Money, 110 Park Lane Building, 2025 Eye Street NW., Washington, DC 20006. Operating rights sought to be transferred: *General commodities*, with exceptions, as a *common carrier*, over irregular routes, between Huntington, W. Va., on the one hand, and, on the other, points and places in Boyd County, Ky., and Lawrence County, Ohio, between Huntington, W. Va., on the one hand, and, on the other, points and places in Ohio, except those on U.S. Highway 52 between Chesapeake and Cincinnati, Ohio, inclusive and the off-route points of Batavia, Ohio, and those in Ohio within 5 miles of Cincinnati, Ripley, and Portsmouth, Ohio, Ashland and Maysville, Ky., and Huntington, W. Va. Vendee is authorized to operate as a *common carrier* in South Carolina, Virginia, North Caroline, Georgia, Tennessee, Maryland, West Virginia, Pennsylvania, Delaware, New Jersey, Kentucky, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11254. Authority sought for purchase by TRANS-WESTERN EXPRESS, LTD., 48 East 56th Avenue, Denver, CO 80216, of the operating rights and property of CAPRON TRUCK CO., 3360 Blake Street, Denver, CO 80205, and for acquisition by PAUL D. AMEN, MARCIA M. AMEN, FLOYD A. HENRIKSON, CLAIRE C. HENRIKSON, A. GENE HOOD, AND PAULINE C. HOOD, all of Denver, Colo. 80216, of control of such rights and property through the purchase. Applicants' attorney: John P. Thompson, 450 Capitol Life Building, Denver, Colo. 80203. Operating rights sought to be transferred: *General commodities*, excepting among others, dangerous explosives, household goods and commodities in bulk, as a *common carrier*, over regular routes, between Denver, Colo., and Nunn, Colo., and under a certificate of registration in Docket No. MC–2151 Sub–2, covering the transportation of property as a common carrier in interstate or foreign commerce within the State of Colorado. Vendee is authorized to operate as a *common carrier* in Colorado, Wyoming, and Nebraska. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11255. Authority sought for control by LOWELL L. RHODES, doing business as RHODES TRUCK SERVICE, 624 East Morris Street, Wichita, KS 67211, of WICHITA-SOUTHEAST KANSAS TRANSIT, INC., also of Wichita, KS 67211. Applicants' attorney: Warren A. Goff, 2111 Sterick Building, Memphis, Tenn. 38103. Operating rights sought to be controlled: General commodities (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, and commodities in bulk) between Wichita, Kans., and Fort Scott, Kans., from Wichita over Kansas Highway 96 to junction Kansas Highway 99, thence over Kansas Highway 99 to junction U.S. Highway 54, thence over U.S. Highway 54 to Fort Scott, and return over the same route, serving as intermediate points Beaumont, Kans., and all points on the designated routes east of Beaumont, Kans., and also serving as off-route points all points in that part of Kansas bounded by a line beginning at the Kansas-Oklahoma State line and extending north along U.S. Highway 169 to junction U.S. Highway 160, thence west along U.S. Highway 160 to the Montgomery County line, thence along the western boundary of Montgomery and Wilson Counties to the Greenwood County line, thence along the southern and western boundaries of Greenwood County to U.S. Highway 54, thence east along U.S. Highway 54 to the Kansas-Missouri State line. LOWELL L. RHODES, doing business as RHODES TRUCK SERVICE is authorized to operate as a *common carrier* in Kansas and Missouri. Application has not been filed for temporary authority under Section 210a(b). NOTE: Authority sought for in pending docket No. MC–133302 Sub-3, certificate not yet issued.

No. MC–F–11256. Authority sought for control by CLARENCE LEVI AND W. Z. JERNIGAN, Post Office Box 1247, Mobile, AL 36601, of CHOCTAW TRANSPORT, INC., 808 Bay Bridge Road, Prichard, AL 36610. Applicants' attorney: Drew L. Carraway, 618 Perpetual Building, 1111 E Street NW., Washington, DC 20004. Operating rights sought to be controlled: *General commodities*, except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467 commodities in bulk, and those requiring special equipment, as a *common carrier* over regular routes, between Mobile, Ala., and York, Ala., between Mobile, Ala., and Chatom, Ala., between Butler, Ala., and Meridian, Miss., with restriction. CLARENCE LEVI AND W. Z. JERNIGAN holds no authority from this Commission. However, CLARENCE LEVI controls MERCURY FREIGHT LINES, INC., Post Office Box 1247, Mobile, AL 36601, which is authorized to operate as a *common carrier* in Alabama, Florida, Texas, Georgia, Mississippi, and Louisiana. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11257. Authority sought for purchase by WATKINS MOTOR LINES, INC., 1120 West Griffin Road, Lakeland, FL 33802, of a portion of the operating rights of ALTERMAN TRANSPORT LINES, INC., Post Office Box 425, Opa Locka, FL 33054, and for acquisition by WATKINS ASSOCIATED INDUSTRIES, INC., Post Office Box 1738, Atlanta, GA 30301, of control of such rights through the purchase. Applicants' attorney: Paul M. Daniell, Suite 1600, First Federal Building, Atlanta, Ga. 30303. Operating rights sought to be transferred: *Meats, meat products, and meat byproducts, and dairy products*, as described in sections A and B of appendix I to the report in *Descriptions in Motor Carrier Certificate*, 61 M.C.C. 209 and 766, and frozen foods, as a *common carrier* over irregular routes, between points in Florida, on the one and, and, on the other, points in Tift County, Ga. Vendee is authorized to operate as a *common carrier* in all States in the United States (including Alaska and Hawaii). Application has not been filed for temporary authority under section 210a(b).

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary*.

Minimum Wages for Federal and Federally Assisted Construction

REGION II

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Area Wage Determination Decisions for Specified Localities in the States of New York and New Jersey and for Puerto Rico

There are set forth below general Area Wage Determination Decisions Nos. AM–1706 through AM–1736, and AM–2340 of the Secretary of Labor. These decisions specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein. The decisions are applicable to Federal and federally assisted construction in described localities situated within the States of New York and New Jersey and in Puerto Rico. No general area wage determinations are currently applicable to localities within such States other than those described in these decisions; only determinations for specific projects are made in such other localities.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 F.R. 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of the Code of Federal Regulations, Procedure for Predetermination of Wage Rates, and of Secretary of Labor's Orders 13–71 and 15–71 (36 F.R. 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal or federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 533, and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes such procedures to be impractical and contrary to the public interest. These wage determination decisions shall accordingly, be effective on publication in the FEDERAL REGISTER, except as otherwise provided hereinafter.

The wage determinations in these decisions replace all prior general or area wage determinations for localities in the above States, the expiration dates of which were extended by the notice of variation published in the FEDERAL REGISTER on April 3, 1971 (36 F.R. 6467). The replaced determinations are hereby canceled: *Provided, however*, That where bids have been opened or will be opened within 10 days from the date of publication of this document in the FEDERAL REGISTER, the expiration date of the prior wage determination decision provided for preparation of such bids may be extended by the contracting agency for an additional 30-day period to permit orderly contracting procedures.

These wage determinations are effective for a period of 120 days from the date of publication in the FEDERAL REGISTER and are to be used in accordance with the provisions of 29 CFR Part 5. Accordingly, the applicable determination together with any modification issued subsequent to this date during this 120-day period, shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained herein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Area wage determination decisions for specific localities in other States, the District of Columbia, and insular possessions will be published in series on August 13, August 18, August 20, August 25, August 27, and September 3, 1971. Changes in published area decisions will be made as necessary and will appear in Friday issues of the FEDERAL REGISTER.

Any person, organization, or governmental agency having an interest in the wages determined or to be determined as prevailing in any locality is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, Washington, D.C. 20210.

The area wage determination decisions for localities within the above States are set forth below.

Dated at Washington, D.C., this 4th day of August 1971.

HORACE E. MENASCO,
Administrator,
Wage and Hour Division.

BUILDING, HEAVY & HIGHWAY CONSTRUCTION

PAID HOLIDAYS:

A- New Year's Day; B- Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F- Christmas Day.

FOOTNOTES:

a. Employer contributes $7.00 per day to Annuity Fund.

b. HOLIDAYS: A through F; Lincoln's Birthday, Washington's Birthday, Columbus Day, Election Day, and Armistice Day.

c. Employer contributes 6.4% basic hourly rate for 5 years or more of service or 4.2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

d. One week vacation after 1 year's work; two weeks vacation after four year's work; 3 week vacation after 15 year's work.

e. Holidays" A through F. Washington's Birthday, and Good Friday, providing employee has worked 45 full days during the 120 calendar days prior to the holiday, and the regular scheduled work days immediately preceding and following the holiday.

Building, Heavy, Highway Construction

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes 4% basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

b. Holidays: A through F.

c. Holidays: A through F, Washington's Birthday and Good Friday, providing employee has worked 65 full days during the 120 calendar days prior to the holiday, and the regular scheduled work day immediately preceding and following the holiday.

d. Employer contributes 1% to Temporary Disability Fund.

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Holidays: A through F.

b. Employer contributes 4% basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

c. Holidays: A through F, Washington's Birthday and Good Friday, providing employee has worked 45 full days during the 120 calendar days prior to the Holiday, and the regular scheduled work days immediately preceding and following the holiday.

d. Employer contributes 1% to Temporary Disability Fund.

Sheet metal workers	7.00	3%	3%			
Soft floor layers	5.60	4%	3%			
Sprinkler fitters	6.00	.25	.40		.05	
Welders - receive rate prescribed for craft performing operation to which welding is incidental.						

PAID HOLIDAYS:
A-New Years' Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes 4% of basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years of service as vacation pay credit.

b. Holidays: A through F.

c. Holidays: A through F; Washington's Birthday; Good Friday providing employee has worked 45 full days during the 120 calendar days prior to the holiday, and the regular scheduled work days immediately preceding and following the holiday.

d. Employer contributes 1% to Temporary Disability Fund.

BUILDING, HEAVY & HIGHWAY CONSTRUCTION
FOOTNOTES: cont'd

Vacation with pay, with a maximum vacation of three weeks per year.

p. Employer contributes $28.86 per month to Health & Welfare.

q. Employer contributes $29.13 per month to Pension Fund.

r. Holidays: A through F; Lincoln's Birthday, Washington's Birthday, Good Friday, Columbus Day, Armistice Day and Election Day.

s. Holidays: B, C, D & E, Election Day, Columbus Day, providing employee works at least 1 day in the week in which the holiday occurs.

t. Holidays: A through F.

Welders - receive rate prescribed for craft performing operation to which welding is incidental.						

Paid Holidays: A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Holidays: E

b. Holidays: A through F.

c. Employer contributes 4% of basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

d. Holidays: A through F; Washington's Birthday and Good Friday providing employee has worked 15 full days during the 120 calendar days prior to the holiday, and the regular scheduled work days immediately preceding and following the holiday.

e. Holidays: A through F; Washington's Birthday, Election Day for President of the United States and Election Day for Governor of New York (provided employee works the day before and the day after the holiday).

f. One week vacation after one year's work; two weeks vacation after five year's work.

g. Employer contributes $10.00 per week to Health & Welfare Fund.

h. Employer contributes $10.00 per week to Pension Fund.

i. Holiday - Thanksgiving Day provided employee reports for work the day following the holiday.

BUILDING, HEAVY & HIGHWAY CONSTRUCTION

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes $1.00 per hour to Annuity Fund.

b. Employer contributes $7.00 per day to Annuity Fund.

c. Holidays: A through F; Lincoln's Birthday, Washington's Birthday, Columbus Day, Election Day, Armistice Day.

d. Employer contributes 6.4% basic hourly rate for 5 years or more of service or 4.2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

e. Holidays: A through F; Washington's Birthday and Good Friday, providing employee has worked 45 full days during the 120 calendar days prior to the holiday, and the regular scheduled work days immediately preceding and following the holiday.

f. $3.00 per day contribution for each man to special annuity fund.

g. Employer contributes $1.30 per hour combined to the Welfare, Pension & Vacation Fund.

h. Holidays: A through F; Lincoln's Birthday, Washington's Birthday, Columbus Day, Election Day, Veteran's Day, providing employee works two days in the calendar week in which the holiday falls, and shapes each remaining work day during such calendar week.

i. For each 15 days worked within the contract year an employee will receive one day's vacation with pay, with a maximum vacation of three weeks per year.

k. Employer contributes $28.86 per month to Health and Welfare Fund.

m. Employer contributes $29.13 per month to Pension Fund.

n. Holidays: A through F; Lincoln's Birthday, Washington's Birthday, Good Friday, Columbus Day, Armistice Day and Election Day.

o. Holidays: A through F; Election Day and Washington's Birthday.

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Holidays: A through F; Washington's Birthday, Good Friday, Armistice Day, Presidential Election Day (on heavy and highway construction).

b. Holidays: A through F, Lincoln's Birthday, Washington's Birthday, Armistice Day, Columbus Day and Election Day.

c. Employer contributes 6.4% of basic hourly rate for 5 years or more of service or 4.2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

d. Holidays: A through F; Washington's Birthday and Good Friday, providing employee has worked 45 full days during the 120 calendar days prior to the holiday, and the regularly scheduled work days immediately preceding and following the holiday.

e. Holidays: A through F; Washington's Birthday, Election Day for President of the United States and Election of Governor of New York (provided employee works the day before and the day after the holiday).

f. Employer contributes $7.00 per day to Annuity Fund.

g. Employee shall receive 2 hours time off with pay on all Election Days.

h. Holiday A through F, Lincoln's Birthday, Washington's Birthday, Columbus Day, Election Day, Veterans' Day, providing employee works one day in the calendar week in which the holiday falls; and further providing that the holiday falls on a regular work day.
